aha okeys o right now i gonna rescan it without the rar and post the result here (:
edit: sorry i cant scan it becus its mutch tools scan it by yourself or run sandboxed :)

HOLD - December 16, 2010, 1:01 am

it dont matter what u post most people on here are not stupid enough to fall for ur games you just joined and ur posting a bunch of tools and saying look i scanned it so dont say nothing about scanning this and when questions about being detected come up u say but i scanned it DONT DOWNLOAD THIS its a virus

go infect another forum skidie

charvie - December 16, 2010, 1:04 am

Kaspersky went apeshit
safe run though ofc

Downloading this now, and will see what It's about.

Evidently, due to the nature of the tools, a positive detection can be expected.

Just run on a test system, VM, or Sandboxie.
