I can not open any other PP because of verification and limitation stuff. I'm trying but it's hard to find a trusted friend from US and online quick often. There is a guy in queue for the job but he is not online much so the waiting/holding time is between 2-12 hours. It is not good since all exchanger want instance exchange. That is the reason I don't accept WU online. I need something to make sure you are sending valid WU information and legit. I got couple time-waster said they send WU, upon arriving at WU agent, the information is invalid. I'm not gonna waste my time for that.

Thank you.

There is no MG in my city. I can not send or receive MG. For bank and WU, I can only do exchange from Monday-Friday. Why ? bank is close on Sat, only open for business user. Also bank will not process transaction made/receive during weekend. They update it on Monday morning. WU is close very early and I can not make it (1 hour from my place to WU agent).

If you need anything let's me know.

Thank you.

Why do you keep BTC as a currency option if you won't offer it??

I have other business that need to spent 250 Euro a day (in PSC/BTC). That is the reason I'm buying lot PSC and BTC right now. When my other business is not running then I will sell all the remain BTC. So BTC will remain in exchange (mainly buy in).

Thank you.

I can exchange ukash to wmz, for lr, it will be a very high fee since market for ukash is not as good as it used to be. There is illegal way to obtained ukash so I prefer scan/receipt of ukash. If no scan/photo of receipt then rate event higher because I need to use ukash right the way.

contact me for the amount of ukash you have.

You won't believe this. After sending all documents (include all English translation) they still have not complete the process. It has been 3 weeks after their confirmation all of my document is correct. They ignored my emails too (1 email / 1 waiting week). I bugged live support for 3 days straight before the other department reply that they are still working on the process. So after 2 months, my LR account is still limited. The only way to get reply from lr is to bug the hell out of live support or you will only get "please wait for other department to reply".
