[01:59] Brian Kellar: I'm running Ubuntu right now, not on this one.
[01:59] Brian Kellar: Why does that matter?
[01:59] accidentgrim@hotmail.com: so i can see proof
[01:59] accidentgrim@hotmail.com: i got scammed like 4 times
[01:59] accidentgrim@hotmail.com: so im trying to be careful ya know
[01:59] Brian Kellar: I understand. Well it's going to take a bit to hack it.
[01:59] accidentgrim@hotmail.com: ok
[01:59] Brian Kellar: But also...you're going to have to pay a portion upfront.
[01:59] accidentgrim@hotmail.com: estimate of time?
[01:59] Brian Kellar: I always do this.
[02:00] Brian Kellar: If you don't want to then you'll have to find someone else.
[02:00] Brian Kellar: And that depends on how much you're willing to pay.
[02:00] accidentgrim@hotmail.com: ill give u 40
[02:00] accidentgrim@hotmail.com: pay u 20 now
[02:00] Brian Kellar: I have higher paying clients who have higher priority.

[02:59] accidentgrim@hotmail.com: teamviewer?
[02:59] Brian Kellar: I'm on Ubuntu right now, no TeamViewer.
[02:59] Brian Kellar: And there's a slight problem.

[03:03] accidentgrim@hotmail.com: and ss it for me
[03:03] accidentgrim@hotmail.com: and like tiny pic it
[03:03] Brian Kellar: I can use Telnet to connect to the account indirectly...and then send you an

email from the account to your's.

[03:03] accidentgrim@hotmail.com: nah

[03:03] Brian Kellar: I can't log in or the account will be locked.

A real hacker would give you the details first.

As if they get scammed, they loose only a account.
but if it's the other way around the person loses money.

THANK U 4 THIS POST
MELASH aka "Ben Kellar" <themelash@hotmail.com
also attempted 2 scam me
but money up front is not the way I ROLL

Sorry u got SCAMMED
I think these scam reports REALLY DO NOT EFFECT the SCAMMER at all
He knows newbies CANT RUIN HIS REPUTATION
and most don't even know about this SCAM SECTION and if they do
they may not know how to use it -

It would be good if ALL had a RIGHT to POST SCAMMED on anyones page that practices this method

HE advertises on his page and has a good REP - but not for hacking emails - for other stuff
I am sure he has MANY MANY VICTIMS

BEWARE
MELASH's PAGE
He clearly advertises his services here
HIS FAKE SCAM SERVICE that is

Why is this guy still on here then?

wtf

Tsgh Mike - January 13, 2011, 12:13 am

Code 1. Link to the scammers profile. This is to prevent confusion if a username change occurs.
2. Link to the thread in question if it exists where you may have been scammed.
3. Search Scam Reports area for any existing threads with the scammer. Search by username and also uid. If everyone adds the users profile then UID will be very effective.
4. Post any images/screenshots that you can provide as evidence of the scam. Best option is to use the spoiler tags for images.

[code][spoiler][img]http://img.imageshack.com/example.gif[/img][/spoiler]

Also please post pictures of the logs, instead of copy and pasting as logs can be easily edited.
