Valiks' Graphic Tutorial.

[?\[VID\] High Quality Signature \[TUT\]?](#)

~ What is it all about ~

These 4 videos will guide you through the greatest tutorial and will, in deep details, show you on how to create a signature like mine.

I know its hard to follow the tutorial, but i did it and as you can see, quite succesfull.

Make sure you rewatch the parts you did not understand to have a greatest effect off this tutorial.

You will have to have a great pack of : Renders & C4D's, as well as use your own imagination to place the C4D's, because as we all know, different renders require different effects.

~ What are you gonna get out off it? ~

Sorry but i dont see this as high quality, it just looks overwhored with random effects. The effects themselves are nice but in the end its not great. Nice tuts though, i like them
