I like how you used your own sig for an example of bad text. What a cool guy..

TriGz - December 25, 2010, 10:25 pm

Pretty good tutorial. Handy to know these simple things.

Good work.

Ha I laughed at the pen tooling part, nice work!

You should edit the pen tool part to actually be informational, a lot of people should learn how to use it not only in text signatures, but in other forms of art.

I really like the tutorial, if I'm ever asked questions I will direct them to this thread.

5/5 Rating!

What file format is this tutorial?

Buzz Lightyear - December 26, 2010, 8:18 am

This is .png, but I also have the .psd saved.

Thanks for using my sig :D <3.

Awesome tutorial, covered many of the basics. Will be looking for P2.

I can just say "BOOKMARKED"

Doggie! - December 26, 2010, 12:32 pm

This is basicly a remake of a tut that I have seen long time ago...

Anyway Ill be posting few best tuts that I have learned alot from...

But still nice tut dude :)
