Our deals for theme designs are not expensive and are worth the cost.

Default MyBB Template (structure) with custom images, .css and design - \$30 USD

Customized (heavily) Template with custom images, .css and design - \$45

By ordering a customized template, the MyBB template and structure is rearranged to suit your design.

A theme takes 2 days to complete without template modification, and 3 days with template modification. We work quickly and efficiently to get the job done as fast as possible.

We offer MyBB installation services, other forum installations for a small cost.

Contact us through Private Messaging or IM. We do not discuss over Skype due to lack of formal agreement.
