Thread: [how to crack a rar file](#)

**SubFocus** - December 28, 2010, 1:31 pm

hi everyone im looking for someone who can crack a .rar file asap!

Thanks.

you don't crack a rar file, that's the point in using rar over zip, it takes forever and then some

**SubFocus** - December 28, 2010, 1:34 pm

thing is i downloaded a zip file and when i went to extract it it asked me for a password which i didnt have so i really need to get the password :S

Wow you really used the backhoe to dig this one. You can use John The Ripper with rar2john to extract the hash, or rarcrack. I only know the linux tools I know that John The Ripper is on Windows as well although you would need to install python to use the helper scripts.
