Star Pker - December 29, 2010, 10:28 pm

Hey guys, i will be giving away a free new 1000 MB Windows 2003/2008 (can't remember) server from [this hosting site](#). It has until January 26, 2011 until cancel date. I will be giving this to a member that I think deserves it the most and contributes to the forum the most. Post here if you think you contribute to the forum, and I will be picking someone in a hour or so.

Note: If PM me you will RUIN your chance of getting it.

Asleep, will be picking winner in the morning.?

Furanku- - December 29, 2010, 10:29 pm

I think I deserve it, if I can never win L33T or UB3R, then hopefully I can win this.

nofear1999 - December 29, 2010, 10:30 pm

Give it to terminal. He deserves it.

nofear1999 - December 29, 2010, 10:33 pm

He never asked me to come in here or anything. In fact he can't even contact me other than via PM. I've seen some of his contributions. I'm not vouching or jack shit I'm just saying he's a good member.

I don't care if he contacted you or not, this vouch doesn't give him any better of chance. I will check out what he has done, and leave the decision to me on who gets it. ?

I Deserver this because, I have been good in Hackforums since I joined. I have a website and I need to upload things. So I need this VPS for my earnings. Thanks. :)

nacker - December 30, 2010, 6:14 am

First of all - can i haz one, me like it and me need it ?

Second - i think its usless for game hosting cause if i understood well i last until the end of january. I would probaly use it for testing my shit and some random stuff which might pop up.

This kind of contests i like ?

aphex- - December 30, 2010, 7:33 am

first of all. I hate this forums.

Second of all I could use this, to donate a leaf to the hackforums IRC.

They are in desparate need of a new leaf, seeing as someone bot flooded it and ToSd it.

Atleast I could contribute something to hackforums, other then my predominate trolling.

sneezing panda - December 30, 2010, 7:55 am

I would love to use this, I can use this to make some money and then you can have it back to give out again!!

yanphuc - December 30, 2010, 11:39 am

I would really like to have it, I now help other fellow member of hackforums. It would be great if you could give it to me.

_char - December 30, 2010, 12:29 pm

Lord Pain - December 30, 2010, 12:32 pm

i need it please i have a rs private server with 66+ and growing.

T3h Hack3r - December 30, 2010, 3:24 pm

First thing, I'm not going to lie and tell you some rubbish story, I'm going to give you the truth to why I believe me and my partner deserve it, we are both aged seventeen and due to paypal's 18+ age to get your account verified we are unable to withdraw money from our bank accounts, we require this server to run a growing Runescape private server, due to the lack of donations and support from fellow members we may not be able to keep the server for online much longer, if you would like to discuss anything I've listed above please feel free to send me a private message regarding this.

Thanks :)
