Thread: [Adding a banner to an image upload script \[help\]](#)

abdulthegreat - December 31, 2010, 11:32 pm

hey guys,

I found an image upload script and got bored and messed with it etc etc

So I made a banner I wanted to put on the top of it ,

I tried using `<img src ""/>` but it didn't work, Any other ideaS?

I also had html tags along with that ^

Uncomplicated - December 31, 2010, 11:39 pm

Code `<img src="" alt="" />`

Here src defines the source of image i.e absolute or relative url of the image and alt defines the alternate text that will be displayed in place of image incase image is not loaded.

Sample usage :

Code ``
