Thread: [What the fuck? Paypal limited with \\$440](#)

BigG - January 1, 2011, 6:59 am

Yeah, so another Paypal limitation. After very successful sales on my Monetizing eBook PP decided to limit me. I've moved to Alertpay now.

Anyway, I used legit information. The only problem is I didn't use my real age (I'm not 18 yet). I'm 99% sure I put in I was born in 1990. I can send them my edited ID, but will they check if it's valid? I don't look above 18 in the picture. My account is verified and everything.

I'm glad I withdraw my money every once in a while, otherwise it would have been more than twice as much.

Are you limited yet or have you been given 180 days?

Lassy - January 1, 2011, 7:04 am

There was a way to get unlimited around here somewhere. Not sure if it worked.

GuJJu - January 1, 2011, 7:05 am

Wait babie wait, fuckin 440\$ cannot take any risk.

David Bowie - January 1, 2011, 7:05 am

i hate them with paypal too.

Good luck with these suckers.

Hope you make it €y€

PHPrior - January 1, 2011, 7:05 am

Sorry this happened too you buddy :(

Hm, this is what it says:

I doesn't mention 180 days anywhere.

180 = 6 months ?

But if they found out I send fake info they'll 'perma-ban' me and take my money, right?

010100111001 - January 1, 2011, 7:09 am

They CAN NOT take your money, They HAVE to give you your money after 180 days.

I sent them fake info, I used DB 20 / 05 /1990 I am only 16 LOL

Sikandar - January 1, 2011, 7:10 am

send the needed infos then call them and make something up good and convincing

good luck
after that
if things work out properly, dont use them again
continue with alertpay

Mongrel - January 1, 2011, 7:12 am

You should have bought my ebook :)

??¢??? - January 1, 2011, 7:13 am

dont worry paypal dont give a fuck to age.. just transfer it to a bank account :D or you can edit the ID proof and provide it

If I call them they're gonna tell me to fill in the needed info or some default bullshit like that.

Kinda hard to transfer it to my bank account when I'm limited ?

skyradex - January 1, 2011, 7:16 am

eye if u have some faking skills u will be fine
take ur father or mother id as a platform and edit everything to match ur PP infos
then send it ,
if they didnt unlimit ur account, they cant take the money eithe
wait 180 days and add a bank account and get ur money out

You need to transfer the cash to another PP that isn't limited before you can't do anything with your money.

And how did that turn out?

LittleFighter™ - January 1, 2011, 7:17 am

this happened to me also

i waited for 6 months but fail , i was not able to withdraw coz i didn't had any US bank acc :(

anywayz goodluck

It clearly says (in Dutch :P) that I can't send money.

I don't have a faxing machine. And again, should I send them fake info? I can provide all the other info they need, legit.

Trust me, don't waste your time. I have been through all of paypal's hoops before and they will just keep your account limited. Only 5% of accounts with this limitation ever get the green light.

Use a payment processor like fastspring or Plimus.

I do use a payment processor: e-junkie. I'm really happy with it.

The one thing good about e-junkie is I can exploit it hardly..
