I voted for _____ or ____

EddyHacks - June 26, 2009, 1:44 pm

cofusions is better...plus you already had made this

Alpha Bruh - June 26, 2009, 1:45 pm

cofusion that sig is old :P

Vaqxine - June 26, 2009, 1:46 pm

I wasn't sure here... They're both a bit too monotonous. Cofusion ruined the render a little, the text has become the focal point rather than the render and there is little flow, it's as though the render has actually been used as in the same way as a C4D to back-up the overall image.

I can tell they've both had work put into them, but I prefer MaTu's because I can see a more detail. The scanlines, smudging and range of splatters makes it good to look at, but the colour is a little dull and it lacks variety. You've done a good job on making the render the focal point, but it's a shame there are scanlines on top of it, I'd have erased them.

Voted MaTu.

Voted cofusion. Both are pretty bland to be honest. I voted cofusion because the text was done nicely here and I like the lighting

Alpha Bruh - June 26, 2009, 3:39 pm

I only voted for Matu. Cofusion i like his style but i think Matu is a better artist.

iBruteforce - June 26, 2009, 3:40 pm

Yes, I voted for Confusion.

Tbh I don't like both.

Confusions is a bit blurry and MaTu's seems too dull for me.

Thats just my opinion.
