Flood Types

[+]UDP (One of the most commonly used flood types, good for knocking off game-server's, websites, you name it.)

[+]HTTP (HTTP Flood will send GET requests to the desired web-server, it is also a good flood type)

[+]SLOWLORIS (One of the best flood type's of web-server's running apache, will max out the connection's causing the website to be hit offline)

Packages

[+]20 Dedicated shells (X-box Live Booting/Home connections) - \$13

[+]50 Dedicated Shells (Small web-server booting) - \$30

[+]100 Dedicated Shells (Big Web-server Booting) - \$50

[+]200 Dedicated Shells (24 hour DDoS) - \$100

[+] + \$10 for the Booter Application when you buy shells OR \$20 for the application alone.

[+] You can have any amount of shells you want... 300, 400, etc, not only limited to 20, 50, 100 or 200.

We will only sell to TRUSTED members to stop chargebacks.

I want this please!!!! very nice...

oSo iHostBooter - January 4, 2011, 2:33 pm

Very Clever Idea , Like The GUI :)

[CX]Luke - January 4, 2011, 2:33 pm

Add us on MSN mate, then we can sort something out:).

Any idea on what package you want?

Speaking to you on MSN now mate.

1 + 3 + 3 = 7 - January 4, 2011, 2:48 pm

Adding HWID protection for customers who wish to purchase the application alone.

[CX]Luke - January 4, 2011, 4:17 pm

Some protection added to application because of peoples interest in buying just the app.

God I hate VB

getr00t - January 4, 2011, 4:42 pm

i contact you on MSN , hope you're good business

1 + 3 + 3 = 7 - January 4, 2011, 6:33 pm

Sorry mate, only sell to trusted members.

Celsius - January 4, 2011, 8:10 pm

Eh, I'd like to try, I wouldn't charge back, though you probably can't take my word on it considering my post count and rep (which isnt too bad since 3/4 of them are from ubers about sales.)

_Leay - January 4, 2011, 8:18 pm

Why don't you give this to the people who actualy paid you 40\$ for your stuff, then you stoped it right after not refunding them, and them telling them they can use the MSN shit, that isn't ever online ?

1 + 3 + 3 = 7 - January 4, 2011, 8:27 pm

This is a diffrent product, we stopped selling our booter in fear of getting arrested. We have too much to live for to take the risk. You agreed to a TOS, which stated that you get NO refund, I was even nice enough to send some refunds out. I'm sorry you didn't get your money back. If you woould like to purchase again, PM me your transaction ID and if you didn't do a chargeback, I will give you discount. Thank you.

[CX]Luke - January 4, 2011, 8:28 pm

We have said, all customers what paid for old product will get a discount.

Celsius - January 4, 2011, 8:31 pm

Vouch for 1+3+3=7 and Luke, just bought the 100 package and the whole process was smooth.

[CX]Luke - January 4, 2011, 8:32 pm

Thanks buddy, nice and easy smooth transaction.

gifar_uCuL - January 5, 2011, 6:14 am

what about me here ,

i have buy it before close the project just use for a week from luke

i had send about 60\$ for booter year + make my hit like 56 per day

but i just use for a week then project closed

i buy from my friend paypal and we didn't charge back (u can check ur paypal history and i had time what i buy)

i hope i can get my free copy for this and i will pay it also but i hope cheap for me :'(

Yeh mate, we will give you a discount, PM me the transaction ID, so I can double check that you didn't do a chargeback. Luke has the HWID protected files, so you will have to wait until Tomorrow to get the applicatiion.

gifar_uCuL - January 5, 2011, 6:19 am

i am stay on egypt i had no paypal here and my friend he have send when i went to norway

i just have the date i have send u money and luke also he know that , i am not cheat guy !

i love your product n i proud that i am customer on that also , but what about old money !?

Hli4S - January 5, 2011, 7:44 am

i have purchased a year package to your old project the msn bot but after one week you close it. you haven't send me a refund or anything .

So can you refund me or to give me aces to your booter ?

1 + 3 + 3 = 7 - January 5, 2011, 9:01 am

Read the above posts, if you purchahsed give me the Transaction ID, so I can double check that you didn't do a chargeback.

Our old scanner is back online, the one which uses the shells themselves to scan for other exploitable servers. We currently are getting around 200/300 shells per day.

Will be online tomorrow as I finally get the internet. YAY

Yeh we will both be online tomorrow (I GET THE NET YAY) so be expecting constant updates etc.

The sploit scanner owns, 200 exploitable servers discovered in 2 hours.

juanlobo - January 5, 2011, 5:38 pm

hi, I bought the slowloris/UDP/http booter you were selling before. I Bought 2 LICENSES for a year (\$80.00), but After a couples ofdays you decided to close booter, and said that all customers will have access to your new project. well it's a good idea to trade the money I paid for with this personal booter app. I will sent you a pm later bro.. thanks

With 100 shells, what are some sites this can take down? How long will the shells last? (it's not gonna suddenly go poof right?) And when I start hitting people, my IP won't be traceable right?

[CX]Luke - January 6, 2011, 5:37 am

Well we got our server the other day, and yesterday we scanned and exploited another 800 shells.

Awesome 800 shells in 24 hours!

Also got the net now.

Cheers

And 100 shells are strong enough to take down small sites for me and most steam servers, and the slowloris is strong too, and as far as I know you cant be traced but you can just use a VPN since its hwid locked not ip locked.

1 + 3 + 3 = 7 - January 6, 2011, 9:00 am

Thanks mate, yeah they wont go down, UNLESS, you rape them to hell. Shell scanner has exploited 1k fresh dedi's since yesturday! Luke has finally got net now aswell! More update's comming soon.

The shells are not gonna die very fast, because you will be the only person with them, with public

booters the shells are being used like every minute of every day. Whereas when it's only you using them the shells will last for ages.

Your IP is traceable, but you could use app. But then again if you ain't gonna be flooding big sites etc then I wouldn't worry.

.Infinity - January 6, 2011, 5:51 pm

Why put 11k shells in the title if you aren't actually selling anything with 11k shells in it? Just curios.

Celsius - January 6, 2011, 5:55 pm

That's their max stock...

vmartin - January 6, 2011, 6:00 pm

I'm assuming we'd have to buy more shells to replace shells that die?

[CX]Luke - January 6, 2011, 6:02 pm

Like I said earlier, shells are rarely gonna die because you will be the only person using them.

You can buy as many shells as you want.

Infinity, if you want 11k shells then you can have them. Minus the ones we have already sold. So actually we are selling something with "11k shells init"

Thanks.

400 shells

Hli4S - January 13, 2011, 10:14 am

when you will login on your msn?

the shells you gave me they doesn't even hit over 300 packets per second
the most of them are extreme weak :S

also when i am booting a site with the shells from your application the site doesn't even lag a little
and also the site getting blocked form my pc and i must make restart modem :S

and also some of the shells are not working :s

1 + 3 + 3 = 7 - January 13, 2011, 4:28 pm

Well then you have killed them, it is YOUR responsibility to keep them ALIVE. ALL the shells I gave you were 100% working order (You even got them for free lol.).

Edit - it doesnt matter about the packet's per second, mostly all of them are incorrect, it matters about the MB.

The server I have now is shit! I can only auth like 3k massadd accounts until max sockets are reached. I only really use it now for scanning for shells. Once I get a good server, I will put it up again.

BlackHops - February 4, 2011, 12:05 pm

how come other people charge a few dollars for 100 shells and you charge 50? it seems like shells die rather fast don't they? like a few per day so \$100 dollars seems kinda steep for only 200. Do you keep the users supplied when the shells die?

on the other hand, this is a great idea basically selling people ready made botnets that can be theirs with no pesky timers like most booters have. I'd buy if the price wasn't so high.

How do you keep the shells from dieing?

1 + 3 + 3 = 7 - February 4, 2011, 12:45 pm

Where is a 100 shells for a "few dollars"? These are VPS/Dedicated shells. Also, no, I do not keep users supplied after I have given them the shells. It's up to the user how they use them. How long they boot for, etc. I probably have the cheapest deal for quality on the market right now.

Transpose - February 4, 2011, 1:57 pm

If shells die there will be no replacement, else people could just buy 50 shells and have them replaced all the time. No one will offer replacements.

But aslong as you have good rotation they shouldn't die fast.

Um whoever just asked me if there would be replacement shells if they died has deleted his post.

Shells & Booter application.

fads23 - February 24, 2011, 4:06 pm

What is the expected lifetime of the shells?

1 + 3 + 3 = 7 - February 24, 2011, 4:07 pm

It all depends on how much you use them. If you have them on rotation, it should last some time.

PHP Coder - February 24, 2011, 4:19 pm

I am seriously curious how do you have 20,000 shells?. Do you have a custom program? If so do you sell it?

1 + 3 + 3 = 7 - February 24, 2011, 4:22 pm

Yes we have a custom scanner. We actually have ALOT shells scanning 24/7 for vulnerable servers. This is why we get so many. We auto-patch the servers once found. I'm afraid that our scanner is not for sale. However, we will be releasing a application shortly were people can buy access to it, to scan a subnet and return the vunerable servers. For example, you will enter 88.*.*.* - it will scan all of 88.*.*.* network and return the vunerable servers (coming soon).

[CX]Luke - February 24, 2011, 4:23 pm

We use shells to scan for vulnerable WebDAVs. We have 1k shells which are scanning for vuln servers 24/7.

We will be releasing an application shortly which enables users to take advantage of our 'shell scanners', so they can benefit as we do from scanning 1000xs faster than any other application.

obviously this application will be ran server-side to prevent people from reversing.

PHP Coder - February 24, 2011, 4:24 pm

PM me I know you said it isn't for sale but I would pay a lot of money for the source to that application. Gids exploiter just doesn't appeal to me.

1 + 3 + 3 = 7 - February 24, 2011, 4:27 pm

I'm sorry, we are not selling it.

[CX]Luke - February 24, 2011, 4:29 pm

We will sell access to it. But we won't sell the source/shell scanners, unless we got offered a huge sum of cash:)

Cheers, Luke.

PHP Coder - February 24, 2011, 4:30 pm

Well when you release this new application that you will be selling PM me. I would gladly buy it. Luke how much would satisfy your needs for that source?

[CX]Luke - February 24, 2011, 5:51 pm

Just dev'in the PHP source for booter (which we are gonna be selling) then probably tomorrow start the client-side of scanner (server-side is done already).

Cheers

and how long can u hit at once?

\$13 for 20 shells + \$10 for the app so \$23 in total. You can boot as long as you want, once you get the shells, they will be yours forever.

Bump, got a Paypal now. Accepting more sales.

[CX]Luke - March 30, 2011, 4:19 am

We should become active again shortly. Accepting alertpay/paypal atm.

The Professional Hacker - April 1, 2011, 4:39 am

big vouch to him thay work very well 100% legit

thanks

blake1996 - April 2, 2011, 12:23 am

are u selling shells or a booter?

itsmeLOL - April 2, 2011, 3:21 am

I'd like to make a purchase. What's your AIM?

1 + 3 + 3 = 7 - April 2, 2011, 10:56 am

Sorry, you can't buy - only selling to trusted members.

bfreakz - April 2, 2011, 12:01 pm

I'm interested.

I can pay by using Gift, which will ensure it not to be chargebacked because gifts are not service-ment.

How much shells can i get for exactly \$14.76? Not \$13, but 14.76.

My msn is adi@secibovic.me

1 + 3 + 3 = 7 - April 2, 2011, 4:14 pm

We are not accepting small amounts for shells anymore. 100+ shells or more.

Damn you've got be kidding me.

Fuck, okay anyway.

The French - April 2, 2011, 4:18 pm

How much for the 20k dedi shells ?

1 + 3 + 3 = 7 - April 2, 2011, 4:22 pm

That would cost 7000\$. lol.

blake1996 - April 2, 2011, 6:27 pm

haha when can i be a trusted member?

1 + 3 + 3 = 7 - April 3, 2011, 12:44 am

When you get more posts/get more reps...

iSaRaYloVeR - April 4, 2011, 7:45 pm

Nice can you PM me on here so i can buy some shells?

bhavanshu - April 5, 2011, 2:43 am

seems to be a fuckin powerfull booter

FaZe Rebirth - April 5, 2011, 9:37 am

You'd think booters would have more advanced methods by now.

1 + 3 + 3 = 7 - April 5, 2011, 12:04 pm

Shell shop, not a booter.

FaZe Rebirth - April 5, 2011, 12:43 pm

"Shell shop/booter" Misleading title then.

SH??? - April 5, 2011, 1:08 pm

Ive tried contacting for shells, getting no response.

1 + 3 + 3 = 7 - April 5, 2011, 3:01 pm

Well we used to sell a application with it, but I don't have the files anymore, so I'm only selling shells.
