Thread: [Deluxe's Text Signature/Avatar Service!](#)

You Are Free - January 5, 2011, 12:16 pm

I'm new here, and apparently some people like my work, so I'm going to offer a service for making GFX.

I can make you a signature like mine, or an avatar like mine.

Just fill out the form.

Legend: a = avatar; s = signature; b = both

For a hex code, go here: <http://www.2createawebsite.com/build/hex-colors.html>

Code [b]Type(a/s/b):[/b]

[b]Color(hex or rgb please!):[/b]

[b]Text(please keep it minimal for avatars!):[/b]

[b]Text2(for signatures, the line under, optional):[/b]

[b]Font(include a link!):[/b]

[b]Additional notes:[/b]

Example of filled out form:

Type(a/s/b):s

Color(hex or rgb please!):#46D44A

Text(please keep it minimal for avatars!):Example

Text2(for signatures, the line under, optional):Justaexample

Font(include a link!):The one you used in yours.

Additional notes:Thank you!

No replies? I'll just send a sig to a random user.

Who's that? I'm just sending out one and hope that the person likes it and vouches on this thread(I included a link).

Well the guy I sent it to logged off, so I made one for you Chimi.

I'll take one

Same colors as my Avy,

No specific Font

Make it someone like the one above, but as if it was painted with a thin brush

FlyingWings - January 5, 2011, 2:28 pm

Type(a/s/b):s

Color(hex or rgb please!):blue
Text(please keep it minimal for avatars!):Spoxx.
Text2(for signatures, the line under, optional):from HackForums
Font(include a link!):your choice
Additional notes:n/a

Can you brighten mine up abit more? Very dark, (N and 5 specifically, but the entire thing needs more cyan)

Looks great otherwise.

Thanks so far!
