Thread: [Full RAT Setup \(Port Forwarding, FUD, few vicitims test\)](#)

Star Pker - January 5, 2011, 8:28 pm

Hello, I am basically running my service to all RAT's. This service includes:

Setup of the Server/RAT

FUD your server (fully undetectable)

Victims

Tips on spreading

I will be doing this over Team Viewer, so have it ready. To purchase me setting it up, follow the code below.

PM me this form and this format only. If in wrong format, will ignore your PM.

Code RAT using:

Your server will always work, and there is no exceptions. If it does not work, this means that you aren't port forwarded so I will not be helping you do this. No refunds what so ever. I am crypting and installing some victims, I am not responsible for what you do with them.

Looks nice, if I could access my router for port forwarding I would do this.

Also, you have an amazing sig.

I don't have AIM. ?

ogRizah - January 15, 2011, 9:16 am

I've sent you a PM.

I'd really appreciate it if you could help me setup my RAT. :)

Joey Tribbiani - January 15, 2011, 9:19 am

I want portforward

I will give you 0.5-1\$ if you can successfully do it. My problem is pretty complicated.
