Why do you deserve to be a Red Lion?: I believe I am a very HQ member as i try to be one everyday. Ever since I seen that this group was made, I've wanted to join. I think I have donated a lot to this forum. I have bought many HQ members l33t/Ub3r. I am on HF everyday and I am a very active member. I have been looking for a group that I could be dedicated to and this group seems like the perfect opportunity for me.

Requirements:

[*]You have no warnings for flaming. ?I have no warnings at all.?

[*]You have no sales trashing history. ?I would never trash another members sales.?

[*]You have no open scam reports, nor previous ones. ?I can get money legit, There is no need for me to scam.?

[*]You have over 250 posts, over 50 rep. ?I have over 900 Posts and 337 rep.?

[*]You have less than 15 negative reputations. ?I have 6 negative reps, 5 of them are revenge reps.

I am not scared to negative rep an ub3r.?

[*]You will respect our leaders, and the staff members. ?I respect all of the leaders and I have a lot of respect for HF Staff members.?

Age: 18

Hacking Skills: None, i'm white hat

Donated to HF?: (If yes, how much. If no, how much would you donate?) around 600\$ all together

Link to a contribution you've made for HF: I'm more of a "on the spot" poster, my contribution is spread all over the forum.

Why do you deserve to be a Red Lion?: Cause I'm still working on getting HQ, and this group could be a great opportunity for improvement,

and that's the whole meaning of the group isn't it? to see improvements and have fun while doing it.

Dean - January 10, 2011, 4:17 am

Name: Dean (Go by the Alias STaRR BoRNN)

Age: 16

Hacking Skills: Xbox Live account jacking, Extreme social engineering, Botnets, Exploit packs(if these count as hacking). Botnets, and Exploit packs are a rare occasion.

Donated to HF?: I have donated \$65, I have the linked saved so I send a little from time to time. (Not including member upgrades)

Link to a contribution you've made for HF: If this counts as a contribution...

<https://hackforums.net/showthread.php?tid=673855>. I usually just spread my knowledge through already created threads.

Why do you deserve to be a Red Lion?: I feel as if this if for HQ members. I feel I am High Quality, and strive to be even more High Quality each time I log in. I also am very polite to those who contact me privately seeking help.

Good luck everyone!

Why do you deserve to be a Red Lion?: I always tend to help newbies around. Over PM and MSN, I've done 100's of RAT setups for freshers with even 1 post

I'm always polite and kind to fellow mates

Very generous and patient when it comes to teaching

Never ever had a scam report on me

I always think twice and read thrice before I post, I never post crap in this forums. I post only if it is really needed, or if I need to ask something

I always try my best to use perfect grammer and perfect punctuations while constructing my sentences

Guess that's all about me ?

Why do you deserve to be a Red Lion?: Because I feel I'm a high quality member, though I have been repfucked twice(first time was for a rule that had just been placed, my rep was there beforehand, second time was while my account was compromised), but before my account was compromised and I wasn't repfucked the second time, I had 63. Also, I know I have a BST sales thread trashing warning, but it was on a thread that I proved was a scam, but apparently calling it a scam and giving proper evidence counts as sales thread trashing.

Along with many HQ posts.

Why do you deserve to be a Red Lion?: HF has been going down a little in quality lately. I think we all know this. From the sound of it, this group can have the possibilities of moving us as a community back up, and bringing HF to a new found ground spot for hacking websites. If your group is a success, it will bring income, help, and new methods too. I would love to help in this. That is why it would be an honour for me to be a Red Lion.

Name: David

Age: 13 (But I do not act like it)

Hacking Skills: Social engineering IRL, botnet, Ratting, Keylogging, Java drive-bys

Donated to HF?: I have not yet, recently I haven't had the money to do anything like this, but when I do I will be sure to.

Link to a contribution you've made for HF: I'm not really the type of person that makes those threads giving away things and such, but I usually contribute by helping out a lot of members in the beginner hacking section and just anyone who needs help on topics that I can help in. I also like to do things that are fun and people enjoy, so I guess I also contribute that with my prank calls.

Why do you deserve to be a Red Lion?: After the new year my resolution was to be more HQ and help as many members as possible, I am a lot more HQ then I used to be and getting even more HQ. I also like to report flamers.

Thanks so much - Prior

Why do you deserve to be a Red Lion?: I always try to be high quality. I am not a scammer nor a flamer and have not been since 2008. Although it isn't of great importance, I figure it should be mentioned. My registration date is October 7th, 2008, yet I only have 172 reputation. This is because I never really have seen it as a priority that I needed it. I merely always tried to help out when I could, never doing stuff for "Ub3r's" only to try and get a +3.

Why do you deserve to be a Red Lion?: Well I dont deserve for sure to be a Red Lion as much as the leaders , but I feel that I have contribute to this community as I could till now , I think I am HQ , I dont have any scams reports, and I always looking to contribute more :)

PS: It feels really nice that a new Group starts .

Viral Dragon - January 10, 2011, 4:36 am

Name: Viral Dragon

Age: Irrelevant in my opinion but 19.

Hacking Skills: This is also irrelevant in my opinion. Most the people on HF are either idiots, or wannabe's, scammers or beggars.

With the exception of a few, I don't consider a single person on HF a hacker. I say this because I go by the original definition, however

if you're asking, what knowledge do I possess in said terms, then I would gander at say most of it if not all of it. I can secure websites,

servers, OS's, Computers. I have knowledge on how to protect or at the very least minimize the destruction/damage in the following

areas in web security. XSS, RFI, LFI, HTMLi, SQLi, XLF, CLF, Dir Traversal, Null Bytes,

Brute-Forcing, DDoS, DoS, SDFR, XSRF, CRF, etc etc. , But since I have

the know-how on how to protect from said attacks then one can naturally assume I know how to perform them, since I'm Self taught through

trial and error.

Is there really anything else I can say? I know a lot of programming languages. I can program cool stuff. I do a lot of programming for my websites

and for others. I can sit here and say all the cool stuff in the world. Does this increase one's chance of getting on the group? I doubt it.

One would assume the leader(s) are unbiased on who is accepted.

Donated to HF?: No I haven't. Unlike some of the members here, I'm actually quite poor. I'm surprised I'm not homeless yet (don't worry

working on that part, I don't doubt it'll be long). However if I could, I'll be honest, I'd only spare, a small amount of what I could. I have bills.

I have a family to look after. I'm sorry to say but, personal life > HF

Link to a contribution you've made for HF: Fast, Informational, HQ, friendly, accurate support.

If someone wants help, I'll gladly give it to them. However if you're asking for a tutorial, or an ebook or the like, then

no, I haven't posted on yet, because I've yet to finish it. You're just gonna have to wait for it.

Why do you deserve to be a Red Lion?: Does anyone deserve to be? If you have high rep, what does that say?

I deserve to be on the team? What if I got the rep through blackmail or forced them to give it to me? How would one

know this? I can't really agree with basing it on rep. But continuing on, I don't really think anyone deserves to be on the team more like "Why do you want to be on the team", in which case, simply because I like to help people. Plain and simple
I run tech support for anyone, almost 24/7 (more like when I'm awake only and online). Ask anyone on any website I've ever been on, Almost all of my post are supportive, helpful, informational and friendly.

Now, that was the application however, if you don't mind I'd like the chance to voice an opinion. You shouldn't ask for 50+ rep. I'm of the opinion that, what if someone were to PM an uber with an image and say here you go, all for you!, and then the uber's start +3ing him. You could hardly call this HQ. Or "fair rep" (and yes I used him as an example). What if I force them to do it? What if I told them do it or I hack you? You wouldn't know this.
Thus I believe the whole thing should be out the window. However, I'll also tell you, that even though I have only 40 rep (though I seem to be rising fastish), rep seems completely unneeded and useless to me. It only creates chaos among the forums and causes so many stupid useless threads, arguments, complaints, and shit for Omni, just because someone gets a rep-fuck, or a -rep. Or an "unfair rep".
(Also if you look through my rep it's completely green, with all either a thanks or a comment).

I'm also going to say, that if you decide to throw out my application because I didn't fall into all pre-req, then that's fine by me. Even if I'm not accepted, one can easily still be HQ, and helpful/supportive, of the forums without having some fancy title in their name.

This concludes my application.

-Viral.

Why do you deserve to be a Red Lion?: Lions are basically to what we say "An carnivores animal".
In general life if we say Lion to anyone it means :

- 1) The person is generous.
- 2) The person is brave.
- 3) The person has many abilities like speed, accuracy.
- 4) The person is Just like an All rounder (we can say like king). etc.

In my opinion The red lions is group for members like that. I want to join Red Lions because I qualify the above qualities. I want to become a good Hackforums member by devoting everything that I can, Like my resources & most precious thing 'Time'. While I agree that there are more qualified members than me here but I will try my best to Contribute like them & become a true helping & contributing member, a True Red Lion.

Why do you deserve to be a Red Lion?: Because, i am mature, my english grammar is really good, in my opinion. And i really think there's some HQ members in that group, and i would love to be a part of such an HQ membered group :)

Still i know i dont fullfill all 250 post, and 50+ rep.

But, i do everything as professional as i can, doing my best to contribute to HF, and trying to help as much as i can. Doing my best to be a HQ as much as i can!

Donated to HF?: (If yes, how much. If no, how much would you donate?)\$20, but plan on donating more when I get my CPA pay.

Link to a contribution you've made for HF: [I made an eBook and gave it away for free.](#) I am also working on another monetizing eBook that I will give away for free. [I've also made a HF Server for Call of Duty Black Ops.](#).. that is shut down now though. [Service for free RAT setup.](#) I have also donated to some members, given away keys, more eBooks, gave away 360 games before, and countless other things.

Why do you deserve to be a Red Lion?: I tend to not follow the rule of "Don't have anything nice to say, don't say anything at all", which leads to neg reps, but I am trying to fix this. I believe that if I'm accepted into the Red Lions it will encourage me to 1.) Contribute more (more tuts, etc) 2.) Stop flaming users, 3.) Stop posting in the Lounge. I have already reported 500+ posts, exposed a few scammers, I always try to help out members when possible, while taking HF very seriously. A few months ago I had only about +20 rep, and now ..

I have not joined a user group here yet, and although I do have more than 15 neg reps, most of them are from a while ago. But as I said, I believe this group will be enough encouragement for me

to be as high quality as possible and maybe never even get a neg rep again. How nice that would be. I spend all my life pretty much here on HF, and if I am accepted you guys won't be let down. ?

Thanks, and good luck with the group.

Prodigy,

You should (in my opinion) make it clear to those who did not make it, that they did not make it. Obviously they will understand so after waitingx days, but if you could rather tell us, something along the lines of "if not PM'ed inx hours you weren't excepted, better luck next time."

If you'd like I can go around PM'ing the denied members, that they got denied for _x reason_. But for this you'd have to give me the list of denied people (or the list fo accepted one, so I can cross them off).

Yes, I know that. However, people tend to, for lack of a better word, ignore the denied members, with no reason. As thus they're

left wondering, until finally they realize/give-up days later.

Having a time frame/ETA prevents this and thus less people get discouraged (or as discouraged). I would rather be told straight to me that I wasn't accepted, or at least be given a time frame. If I don't hear from them within said allotted time, I'll know I didn't make it and try better next time.

However this is just my opinion.

The first two tutorials is must-have for crackers/bruteforcers. I wrote them all alone with only a very few sources. Some people find the proxy thread useless because they can't see what it can be used for. But when I started out cracking, I quickly realized that a cracker without proxies is like superman without powers.

The megaupload bruteforcing tutorial describe many of the basics in cracking, it's not recommended for advanced crackers as it uses pre-coded programs to do it.

All the accounts given in my porn-account giveaways are cracked by me.

Why do you deserve to be a Red Lion?: The reason I applied to this is both because I'm a very big fan of Nokia2mon2 and all of his upgrades and donations. But also because it looks like a very nice group with polite people with lots of knowledge. I've got knowledge in some fields, and I will love to share it in your group (as soon as you get a sub-forum). I do my best to post only HQ, but it's hard hard to compete with you guys! And I report posts after the rules from the help documents to make HF even better.

Why do you deserve to be a Red Lion?: I believe I deserve to be a Red Lion because virtually all of my time spent on HF is helping people. I do not think that this makes me better than anyone else, but I do help a multitude of people, mainly to do with coding problems. If I were to join this group, it would be an honour, and would encourage me to continue with the efforts I make to aid people.

NOTE* I do not fit the Rep requirement. However, I have not had any Negative/Neutral reps, and am currently at 38, so I hope that you will still consider my application.

Fizzix - January 10, 2011, 8:53 am

Name: Fizzix

Age: 25

Hacking Skills: It depends on the definition being used for hacking... I think this question is to try

and see what type of things I contribute to the forums, so I'll just answer that directly by saying my programming knowledge. I'm also fairly good at getting people's personal information (I rarely do it, but when I do happen to look for it, I find what I'm looking for).

Donated to HF?: (If yes, how much. If no, how much would you donate?) I haven't donated money to HF, and I don't really plan on it. However, I am willing to help Omni with optimizing MyBB, SQL queries, etc.

Link to a contribution you've made for HF: I've removed most of them, due to them being blackhat, and not wanting to continue down that road. But here is my latest thread that I'd consider a contribution. If you'd like to see more just browse the Java boards for a few minutes, and you'll see my contributions to the community.

Why do you deserve to be a Red Lion?: I meet all of the criteria for joining. I consistently make HQ posts. I know I may sometimes come off as a dick, but that's just how I handle other people's ignorance and stupidity, and if you look past the harsh words you'll see that I am actually giving valid/correct insight, advice, and help.

Why do you deserve to be a Red Lion?: In the month or so I have been here, I've managed to join in with the community, posting on lots of threads to help different people with different problems, including rating graphics and giving out advice. I have yet to find a scammer personally since I haven't bought anything off anyone on the site but I have referred 3 members to the site, one of which forgot to use my link. I want to learn more about hacking, even though it isn't my forte and really try to make a positive impact on the community. I also upgraded for L33t within 30 minutes of being on the forum, as I knew it was the forum for me. As for the 50 rep, I know I only have 24 which I why I am asking to be accepted. I want to prove it isn't the rep that counts, but the positive attitude you have towards helping the community. If not, I shall re-apply when I do have 50 rep. EDIT: I now have well over 50 rep, which I am glad about because this can now be considered a proper application. If accepted, I'm looking forward to cleaning up HF from all the scammers and other misfits.

Thank you.

*I'm a very high-quality member, and I don't just post for post count.

*I can contribute social engineering methods, things to do with hacking to the group.

*I would always wear the userbar, as it is very professional looking, and I have to say one of the best.

*I treat everybody fairly, and always leave previous prejudice from what someone said to me in other threads away.

*I support sellers, and don't randomly go 1 starring threads.

*I've always reported people who scam me, and always encourage people to file scam reports on members that scam them. I also tell members to stay aware of scammers.

*I meet all the requirements to join. Never once had a single warning for anything. I never sales trash, although I do bring up points to people in sales thread. I do have over 250 posts, and the posts I have over 250 are high-quality, not just spammed posts. I only have one negative reputation, and that was because someone got mad at me for taking down a website, that actually helped hackforums gaming section (another contribution). I have never disrespected a staff member, as I understand they have a hard job.

*I feel I meet all the requirements to be in this group, and would really enjoy being apart of it.

*If there is a sub-forum for this group, I will post daily, and be active in it to insure I get to keep in the group.

Why do you deserve to be a Red Lion?: I believe I deserve to be a part of this exclusive group because am I am extremely loyal and intelligent. One of my main best HF qualities is the fact that I know I am HQ, and others definitely think I am. I can contribute useful information, programs, and even spare cash if any one of our members is in debt or anything similar. I am cool guy, I love to have fun, however at times I can be extremely serious. I am fantastic leader, and I possess some of the most highest qualities a leader can have. I always try my best to dedicate myself to something, whether it be a project for school or a new Teleporter NPC I am scripting for my private server, I will never give up until it is 100% done. I guess you can say I am a bit of a perfectionist if you will. I have donated for HF multiple times to help with the severe DB Issues awhile ago, and I have also helped many members out with issues they have had in the past to the best of my ability. I have purchased over 4 members an upgrade with the little cash I had at one point. I promise to always stay active, and try my best to succeed no matter what obstacle stands in my way during my time in this group, (should I be accepted). I would like to join to contribute as much as possible, learn as much as possible, and I believe I am the perfect asset for Red Lion member.

When I'm bored I like to make tutorials that will make user's laugh when there bored. [Click here](#) to see my latest one. I had gotten many PM's saying that thread was the funniest they've seen in weeks. Well anyway, hope your enjoy reading my threads & application. I do have a scam report towards me but I did NOT scam this member. He has no proof that I did, no MSN logs, nothing. [Link to scam report](#). I will be selling more things on HF and will give back to the community by donating and keeping HF alive as much as possible. I want to personality

thank Omni, Nokia and the Staff members for contributing to the forums. I always report post that I think are breaking the rules. I will try and keep HF as safe as possible. Also, I want to wish everyone good luck !

Name: My name is Frederic but I prefer my username.

Age: 16 years young.

Hacking Skills: I have a few skills, not any are extremely good though.

- I know how to setup, configure, use, and crypt RATs.
- I know how to port-forward and solve port-forwarding issues.
- I have a basic general knowledge of how to spot SQL vulnerabilities as well as inject.
- I'm amazing at Social Engineering.

I am going white-hat though, so I don't plan on using these skills anymore (or as often)

Donated to HF?: I have donated a bit to Omniscient (I have the blue and green diamond, as well as the "Rich Bitch" award). I've also donated \$50.00 to the HJT Team and I'm planning on sending them \$50.00 more too! I plan to keep donating too, since I know how much effort it takes to keep HJT and HF running as well as other groups.

Link to a contribution you've made for HF: I contribute everywhere, normally I contribute by keeping

peoples sales going and I find and catch scammers often. Normally I just put my 2 cents in when I see something fishy. I also report stuff when I see something bad, but I normally don't see things bad since I steer away from LQ posts. I have also donated a lot out of my personal money. (not as much as nokia2mon2 though) I also run Anonymous Citizens Incorporated, which is semi well known.

Why do you deserve to be a Red Lion?:

I'm not sure if I deserve to be, but I will leave that to nokia2mon2 to decide. If I do deserve to be a part of your amazing group it would probably be because of my donations to HF and HJT, aswell as me being an HQ buyer.

Edit: Just donated \$50.00 to train in HJT :D

Link to a contribution you've made for HF: These can be found in the Malvager section and on the HF IRC.

Why do you deserve to be a Red Lion?: I deserve to be a Red Lion because I am the hacker part your group needs. I am one of the people who knows their stuff when it comes down to exploitation. I've rooted one of Amazons nodes, but got locked out because the admins were less stupid than I and a fellow gent assumed(gent in question is known here as Nonmod). I've also found an 0day in one of the versions of SSH and coded a raw binary exploit for it. At the moment I'm working on developing with Arch an UnrealIRCd IPV6 drive-by, using hashes from the mach Kernel.

Unless you are an absolute retard on the IRC going "PLZ NEED HELP WITH RAT", asking without even the slightest intent to search yourself or wanting to learn, I will do my utter best to show you how things work, give you insight. My contribution on HF the past months may not have been great, but I have done my best to keep us represented out there on other IRC's. I also shine in the sunlight.

When people that ask for help don't actually want to learn something, I give only terse responses that, although technically correct, only become useful if you learn what they mean. I'm not here to spoon-feed kids who can't learn. From what I've seen, that's the category that most of the kids on this site fall in. Also, I don't really boot into windows very often, so that probably knocks me down in helpfulness since a majority of people here seem to really like their RATs and keyloggers. My Goals For HF:25 Tutorials for 2011

3 to 5 E-books

Continue making High-Quality Posts

Set-Up HF RPG

Keep all my services Free

In all honesty, my main contributions are through my tutorials, and HQ threads. I have written various guides ranging in a wide variety of subjects, from troubleshooting and port forwarding, to, ironically, even how to make quality tutorials. As of now I am planning my first Graphic Tutorial. I am not as big of a hacker or coder as other members. I have tried to learn and am beginning to code, but I have turned strictly white-hate. My contributions above are most of what I have done for HF. I have no money, and therefore, unfortunate as it is, I cannot donate. I hope the above is enough to be admitted into such a prestigious group, however. Joining this group, would in no way impede me to stop contributing, to the contrary, I would be encouraged even more, as my current goal is 25 tutorials and e-books on HF. This-is all I have to offer, thank you for taking the time to read it.

Regards,

Fireren

Link to a contribution you've made for HF: When I think about it, I haven't really contributed other than in the sense of being a nice guy. My time on HF is spent talking to people about things that interest me, people who know me know that I never flame people, and I'm never rude either. There's really no reason to be. Anyway, here's a few links that I did find.

<https://hackforums.net/showthread.php?tid=661476>

<https://hackforums.net/showthread.php?tid=462548> That thread was denied, but later the removal of fake programs happened anyway. That's all I can really think of, it would honestly be up to you to judge my character.

Why do you deserve to be a Red Lion?: Basically the same reasons as above. For one I'm very interested in your group and how you'll take your ideas into the future. Also, I want to help out with anything that I can. The two things I do the most here on Hack Forums is talk to people honestly and openly, and help anyone that I can however I can. I was raised to smile at people if they look like they could use it. That sort of thing. I think of myself as a helpful, loving guy. I heard of this guy that wrote in his journal that he was going to walk to the end of a very long dock to kill himself, but if one person smiled he wouldn't do it. Nobody smiled.

Why do you deserve to be a Red Lion?: I feel that I deserve to be a Red Lion because I always try to help out newer members in need. I think it's very important for the sake of HF and the scene in general that newer members learn from the older ones, so that techniques can be passed down. I always try to hand down my knowledge to the younger members and end up learning a lot myself in the process. While I love to teach people new things, it's sometimes hard to do this on my own. I'd like to be in a group full of people eager to be high quality and helpful.

Donated to HackForums?

I've bought several members an upgrade by looking at their quality, activity and contributions. I'm looking forward to upgrade more high quality members in the future, members who don't contribute do not deserve an upgrade in my opinion. Next to that, I'm collecting cash to donate to Omniscient as an investment to HackForums. This forum has learned me several useful ways to make money by working online, therefore a donation is appropriate from my sight. I have also donated a little 15 USD towards the HJT team some weeks ago, feels great. I have recently upgraded MaxCaps and Espada13 both to the UB3R usergroup, these were just examples.

Why do you deserve to be in the Red Lion user-group?

I'm interested in joining the user-group because this user-group seems different than all the others, it's unique and has points that other groups do not have. Quality plays a big role in this user-group if I'm not mistaken and it would be an honor to contribute by upgrading members and to teach members that have contributed. I am able to help members when it comes to several points, I'm a white hat and do not perform any black hat activities. I rather like to help people instead of messing with them to be honest, helping people gives you a positive feeling. It would really be an honor to join this user-group and to improve our negative and positive points, thank you and a happy new year to all members of HackForums.

I agree with all the rules which can be found below, this includes the official rules which are stated in the [Help Documents](#).

Purpose of the user-group Contribute high quality toward the forums

I am trying to motivate every single post I make on this forum, by motivating my posts I'm improving my grammar and spelling as well by doing this. Report any posts that are breaking the rules

I'm reporting every offensive post I see, I'm also reporting a lot of profile violations via the message feature to staff members which aren't reportable. I have in total 1581 reported posts, 11th of January. Contribute to cleaning the marketplace of scammers, sales thrashers

I see a lot of scammers the latest few weeks, Braco made an impression on me when Jesse told us the truth behind the scenes. I'll definitely contribute by cleaning the marketplace from scammers.

Contribute to our scammer database, where we have info on previous scammers

Perfect, I can help with the database and on the lay-out if necessary. I have enough inspiration and ideas with the database.

Share knowledge of hacking, and tools

Like I stated before, I am willing to teach members about several types of injections and etcetera. I am willing to contribute to the contributors.

Treat everyone on Hack Forums fairly

I treat everyone on HackForums equally, the contributors which have donated or made an important article get an extra hand from me.

Will donate towards HF server, to keep HF always up

I am collecting money to make a huge donation to Jesse, I will donate accurately in the future after my big donation. Will support sellers, that have great projects

If I can help with their product(s) it would be an honor to support the producer if possible.

Requirements of the user-group You have no warnings for flaming

In my entire HackForums carrier I have received zero warnings and I'm not planning to receive any, clean. You have no sales trashing history

I have vouched twice in a thread because their product was just amazing, I have never trashed any sales in the past. You have no open scam reports, nor previous ones

I have no scam reports open, nor have received any reports on me. You have over 250 posts, over 50 rep

I have 800+ posts and 500+ reputation points. You have less than 15 negative reputations

I have zero negative reputation points, if I receive negative reputation points in the future I will try my best to contact the reputation giver on a polite way to sort it out. The reason why I do this is because I don't want members to look at my reputation on a negative way, therefore I am trying to keep it as clean as possible to avoid misunderstanding(s). I don't want people to look negative to my sales because of my negative reputation points. You will respect our leaders, and the staff members

Of course I respect the leaders and the staff members, they're working hard without getting anything in return for it.

Virtualization, my in real full name will stay private. My previous username was ChickenWings, I changed my username approximately one week ago. I would like to keep my personal information safe in order to enjoy the Internet.

Age

I'm quite young, if my age is needed in order to join send me a personal message and I will provide you my current age. Never underestimate people by looking at their age. I live in Amsterdam which is located in the Netherlands, I'm a bilingual student so my grammar/spelling could contain some errors. I'm working on my grammar plus spelling to improve, learning is always a good thing to do.

Hacking SkillsKnowledge about Malicious software,

-Spyware/Adware/Viruses/Trojans/Dialers/Rootkits/Keyloggers/Hijackers

Knowledge about Structured Query Language plus Cross-site scripting

Knowledge about Hotmail and their work, especially when it comes to password recoveries

Social engineering, manipulating people into performing actions

Graphics, modern web graphics such as avatars and banners

Social networks, I love the way we connect with each other via the World Wide Web

Donated to HackForums?

I've bought several members an upgrade by looking at their quality, activity and contributions. I'm looking forward to upgrade more high quality members in the future, members who don't contribute do not deserve an upgrade in my opinion. Next to that, I'm collecting cash to donate to Omniscient as an investment to HackForums. This forum has learned me several useful ways to make money by working online, therefore a donation is appropriate from my sight.

Why do you deserve to be in the Red Lion user-group?

I'm interested in joining the user-group because this user-group seems different than all the others, it's unique and has points that other groups do not have. Quality plays a big role in this user-group if I'm not mistaken and it would be an honor to contribute by upgrading members and to teach members that have contributed. I am able to help members when it comes to several points, I'm a white hat and do not perform any black hat activities. I rather like to help people instead of messing with them to be honest, helping people gives you a positive feeling. It would really be an honor to join this user-group and to improve our negative and positive points, thank you and a happy new year to all members of HackForums.

Purpose of the user-groupContribute high quality toward the forums

I am trying to motivate every single post I make on this forum, by motivating my posts I'm improving my grammar and spelling as well by doing this. Report any posts that are breaking the rules

I'm reporting every offensive post I see, I'm also reporting a lot of profile violations via the message

feature to staff members which aren't reportable. I have in total 1581 reported posts, 11th of January. Contribute to cleaning the marketplace of scammers, sales thrashers

I see a lot of scammers the latest few weeks, Braco made an impression on me when Jesse told us the truth behind the scenes. I'll definitely contribute by cleaning the marketplace from scammers.

Contribute to our scammer database, where we have info on previous scammers

Perfect, I can help with the database and on the lay-out if necessary. I have enough inspiration and ideas with the database.

Share knowledge of hacking, and tools

Like I stated before, I am willing to teach members about several types of injections and etcetera. I am willing to contribute to the contributors.

Treat everyone on Hack Forums fairly

I treat everyone on HackForums equally, the contributors which have donated or made an important article get an extra hand from me.

Will donate towards HF server, to keep HF always up

I am collecting money to make a huge donation to Jesse, I will donate accurately in the future after my big donation. Will support sellers, that have great projects

If I can help with their product(s) it would be an honor to support the producer if possible.

Requirements of the user-group You have no warnings for flaming

In my entire HackForums carrier I have received zero warnings and I'm not planning to receive any, clean. You have no sales trashing history

I have vouched twice in a thread because their product was just amazing, I have never trashed any sales in the past. You have no open scam reports, nor previous ones

I have no scam reports open, nor have received any reports on me. You have over 250 posts, over 50 rep

I have 800+ posts and 500+ reputation points. You have less than 15 negative reputations

I have zero negative reputation points, if I receive negative reputation points in the future I will try my best to contact the reputation giver on a polite way to sort it out. The reason why I do this is because I don't want members to look at my reputation on a negative way, therefore I am trying to keep it as clean as possible to avoid misunderstanding(s). I don't want people to look negative to my sales because of my negative reputation points. You will respect our leaders, and the staff members

Of course I respect the leaders and the staff members, they're working hard without getting anything in return for it.

-Virtualization

If you can write a paragraph about your age you deserve to be in this group.

Why do you deserve to be a Red Lion?:I think I deserve to become a member of the 'Red Lion' group because; I am a high quality poster, keeping my posts clean, well-layed out and precise. I am also devote to being active on the forums, and contributing a great amount to benefit the overall community.

I am honest and helpful, as some of the contributions to the HF community listed above show, and always do my best to help members, no matter there status or post-count within our community. I regularly report rule breakers to the moderators of the site, much more recently due to the decreasing quality of members on this forum, which I believe I can help to change.

If I am accepted, I will make certain to keep my quality high, and possibly make efforts to increase it further. I will make it a mission on HF, to contribute more, help members, and overall make HF a better place for the overall community, which I believe is the aims of this group. ?

What I want to achieve:

- Help others
- By joining this group -> learning
- Gain knowledge
- I'm not a hacker but a programmer and know something about networking
- I'm sure I can come up with contributions which helps with donations or to improve overall quality.

Please read further if you are still interested. I'm older then 20. I have already donated to have for my l33t, but again, I will get some projects running to do some donations.

My latest contributions (I have more going):

[VB.NET][TUT] Vernam Encryption/Decryption Cipher (extensive tutorial)

I'm currently writing another one.

Why do you deserve to be a Red Lion?:

Because I want to share and gain knowledge.

Legend: low level, basic, medium, good, very good = skill I have in this language (low to high).

I know:

Programming languages:

- Java: 2.5 years - medium to good as I still can learn much. I've learnt most concepts from this language.
- VB.NET: 3 years - good to very good (4.0)
- C#: 1 year - basic/low level - I can find my way trough my java experience
- VB6: enough years, I switched to VB.NET
- C++: 2 years, low level basics - been long time ago (in a dos-like environment rrr ^^)
- Actionscript: 2 years - medium

I love to do programming the most (over webprogramming). I program object oriented.

Web languages (contains scripting languages):

- Javascript: 2 to 3 years - basic

- HTML: 6 years - very good
- CSS(1.0 - 2.1): 4 years - very good
- XML: 3 years - very good
- XSLT: 1 year - basic
- XPath: 3 years - good
- Ajax: 1 year - low level

Server Scripting:

- SQL: 3 years - very good
- ASP.NET: 2 years - good
- ADO: 3 years - good
- LINQ: 1 year - basic

Graphical:

- PS: Enough years, I rather code so I'm not the best in this though (low level?)
- Silverlight (for websites): basic
- WPF for desktop GUI's: basic
- Flash: basic

And I know a full book of CMD commands ^^.

I have atleast minimum experience with the following environments:

- VS
 - Oracle (been a while)
 - SQL Server
 - Netbeans
 - Expression Blend
 - Eclipse
 - Flash (for Android)
- (And probably others I forgotten.)

Why do you deserve to be a Red Lion?:

Why I deserve to be in Red Lion? Well, I'm always HQ, I always put a lot of time and effort in any of my posts, I always try to contribute to the thread and never troll or flame or anything :)! I always contribute to HF, sometimes with tutorials, some times with giveaways and some times with free services :D! I've been here for 2 months and already reported 100 posts and gained 1000 posts already xD! I'm VERY active, I currently have ZERO negative rep and zero neutral rep and I always help or try to help members, every time somebody asks me something I have knowledge of, I answer them with help. I also already kind of helped you once Nokia :)! You can see that I'm really HQ and always contribute :D! And I've been here for only 2 months, imagine after another few months XD! Thanks a lot Nokia :)! You totally deserve to get your own group XD!

Do I meet requirements?

You have no warnings for flaming : [?]

I NEVER flame :)! I only had 2 warnings in HF so far, one, because my avatar was too big, as in, it had 2 MB XD! And the second is for accidental cross posting :)!

You have no sales trashing history : [?]

I NEVER trashed any thread, if I don't like a thread, instead of trashing it, I just ignore it :)!

You have no open scam reports, nor previous ones : [?]

I'm an anti scammer :D! I would NEVER EVER scam any one, you can look me up in the scam report, I've got nothing :)!

You have over 250 posts, over 50 rep : [?]

1000 posts and 480 rep XD! So I guess, yeah, I meet the requirements ;)!

You have less than 15 negative reputations : [?]

I've got zero negatives and zero neutrals :D!

You will respect our leaders, and the staff members : [?]

I respect everybody :)! Doesn't matter who they are, Staff, Admins, members, anybody, they're all the same for me :)! They're human beings ;D!

Off Topic : Woow, your grammar REALLY improved Nokia :D! GOOD JOB! I never thought it would improve so fast, you really surprised me :D! You went to a whole other level, it became 500% better, seriously ^^! Good job xD!

Authority Reassessment - January 11, 2011, 4:34 pm

Quote:The purpose of our group is to do the following:

Contribute high quality toward the forums.

Has anyone looked at OP's posts? He's not even HQ himself, just high paid. ? Heck, he had to have someone proofread this thread for him because he can't do it himself. I laugh at the thought of him sitting on the other end of that screen, deliberately denying users for lack of quality. ?

Quote:Report any posts that are breaking the rules.

Isn't that what the entire user-base is for, not to mention staff?

Quote:Contribute to cleaning the marketplace of scammers, sales trashers.

Quote:Contribute to our scammer database, where we have info on previous scammers

That's NaDe's job? Not to mention, [someone](#)'s got that covered already.

Quote:Share knowledge of hacking, and tools.

Again. Why is anyone here if they wouldn't like to do that? There goals are so vague.

Quote:Treat everyone on Hack Forums fairly.

That's part of HF's etiquette. Having said that, if you didn't treat people fairly, you wouldn't be a on this forum. So technically, everyone should be in this group lol

Quote:Will donate towards HF server ,to keep HF always up.

??? Pure contradiction. Do I need to say more?

Quote:Will support sellers ,that have great projects.

That should be a deliberate choice for the user. You can say 'If you're in this group, we're going to support this product because it's very good'. It should be up to the user him/herself to decide whether or not they endorse the product.

IMHO, this group is not only a fail, but a complete and utter waste of time. It's only here to keep nokia happy so Omni's pot of gold doesn't die out.

Peace gangstas.

Why do you deserve to be a Red Lion?: I believe I'd be a great addition to the Red Lion group because I enjoy helping new members to the best of my ability and do not criticize them for not knowing. Everyone was a noob sometime, and I think I could help out the Red Lions a lot with my wanting to help attitude. I enjoy helping others and teaching. And from what I can see this group has a passion for helping. So I'd like to share my passion for helping and sharing others with the rest of the Red Lions Crew and HF all together.

I am polite and courteous to others even in PMs and in IMs. I respect all the staff, admin and Omni himself. Even though I don't have much reputation, I think I have a great potential to be a much better member than I am today.

There is 33 pages of applications to read through, so thats over 300+ people wanting to get in. Allow them some time. 4 or so people going over 300+ applicants can take a long time you know...

Yeah I know what you mean, but it isn't all that hard they can jsut skim through the applications and when they see some of the members don't meet there standars they go to the next page.

I'm overall a high quality member and attempt to post with a HQ attitude. You've probably seen me in the lounge but that's really not the main side of me. I usually am in both the SRRP and Coding & Programming sections. I have donated around \$200 to hackforums and plan to donate a further ~\$500 when I receive next months pay packet. Also, my Mega lua scripts post got nearly 10,000 views and is the biggest in the Lua Coding section. After being almost a year in the steam section people started saying that a trusted person should review their hack. The fun thing is, the ask it to me. That was a suprise for me. (I have a lot more contributing threads, but those are the ones that caught my eyes the most. I spend a LOT more time posting actual posts than I do threads, and I think my posts help more people than my threads do)

Why do you deserve to be a Red Lion?: I spend almost all of my time on HackForums helping beginner (and intermediate) hackers with their small problems. I make detailed posts, and usually receive a post in reply with something along the lines of, "OMG thank you tate you are best you are best member", which is perfectly fine with me. I get shat on and flamed in the other sections, however, which is one of the reasons I stay out of them. Although that's not the only reason I'd like to be a part of the group, it's still a major reason. I don't really get much gratitude for my hours of work, and although getting accepted to this group wouldn't really give me any more gratitude than I'm getting already, it's still enough for me to be satisfied. (I'm fine with getting no thanks, since I enjoy talking to other hackers, but like any other human being, I have no reason to pass the chance by)

In 95% of applications I see people knowing "SQL injection, XSS, RFI, LFI". I just wonder how there is 500 people knowing all this stuff and they have never posted in website and forum hacking. It is just funny how everyone knows SQL injection but half of them does not know SQL or difference between ORDER BY and GROUP BY.

lol, that's because 85% that showed they know SQLi,XSS,RFI,or LFI they don't know jack and they added that to there application hoping they get accepted. But I actually know XSS and SQLi I've been hacking for years and some of these kids hack for days and they think they can hack the FBI.

Being a RedLion means..

Quote:Contributing in a high quality manor toward the forums.

Reporting any posts that are breaking the rules.

Contributing to cleaning the marketplace of scammers and/or sales trashers.

I believe i could oblige to this request, as I, personally am generally astounded by the number of scammers, that this forum gains regularly, it's getting tiring, and there's no need really, so action should be taken.

I myself have had a Scam Report against myself, however it was proven to be a misunderstanding, at least, that's what came out in the end.

I have been saving for uber for about a year and a half but can never get enough money, if i had money i would donate it to hf or the community.

Link to a contribution you've made for HF: Most of my contributions are through the private message system as i strive to help every member that i can and i regularly get request for help through the pm system from the thread and help them out, i have also helped in the beginner hacking section multiple times, but i look to extend my help further.

Why do you deserve to be a Red Lion?: The groups goals coincide with my own and will help me achieve my current goals within the community, it is run by people who are respectable and both high quality that should ensure a valuable group.

I'm good with electronics. By this I mean opening up electronics, re-wiring them to connect other appliances or to alter them. I'd also know my way around a vuln. website as I'm a website developer (not freelance, it's my living, and work for a company) so know how websites, and web servers, along with the database works. However, I do not do anything blackhat, I always want to help, not exploit someone else's lack of computer knowledge.

Donated to HF?

Unfortunately, I haven't. At the moment all my money goes in to renting my place, utility bills, telecommunication bills, food, clothing and the like.

I always bring an intelligent discussion to the SRRP section.

I tend to lurk the Rules, Feedback section to help any members who've posted threads and need some help.

I am a news reporter for HF news. My personal section is 'Other News' as I wanted to leave headlines to someone of better notoriety (an upgraded member).

In the past I got into SQL Injection as a means to gain Administrator access to websites just completely out of boredom, but this was quite some time ago. Since then I've stopped because I began to see it as being dishonorable considering how I have a few website of my own.

As well, I've acquired knowledge in regards to cracking programs, programming in VB.Net, C# and minimal knowledge in Visual Basic 6.0. (The programming languages were used to develop malicious content)

Donated to HF?:

It's odd, the timing of this question in regards to the thoughts inside my head at the moment because I'm waiting for my eBay payments to come through via PayPal, to which I was intending to donate some money to HackForums just for the Hell of it. I didn't see a reason why not.

But, for a lack of better words, as of right now: no.

The sum I was intending to donate was originally intended to be above \$50. But, I'm sorry, I don't want to reveal the exact amount to the public. I'd rather keep those things personal.

[My Contribution to the Forums](#)

Actually look at any, and all, of my posts. Do you see any form of low-quality or unnecessary disrespect what-so-ever? You wont. That is what I'm notable for on the forums. No, I am not extraordinarily popular and nor do I care to be. It is just that I've received many PM's from various users commenting on how much they enjoy the quality of my posts on the forums.

Hell, even in the PM's I send to users are just as high-quality as my posts. If you don't believe me than feel free to contact anyone whom has spoke with me via the PM system.

Why do you deserve to be a Red Lion?:

Because I've been a high-quality member to the forums since my very first post as a regular member, no upgrades, nor form of recognition.

As of right now I currently work for several different members' companies or work with them in regards to their sales, such as: <http://HostVaccine.com>, OwnZ Crypter, Lucifer Crypter, and previously working with Classical with the project The Bypass.

Over-all, I'm friendly and have very few enemies if not any at all. I continue to be here, continue on with sticking up for users whom are being treated poorly by other members, and I report posts made by users that are in needs of being reported whenever they arise.

Why do you deserve to be a Red Lion?

I post rarely due to the things I want to post. I try to keep myself from being LQ about things. In a sense, I think before I post. In the past, I wasn't like this. So older posts may make you think different. But I try to keep it as HQ as I myself can. I do realize I'm 2 rep short, but I thought maybe that isn't an issue. Never hurts to try.

Name: My name is Frederic but I prefer my username.

Age: 16 years young.

Hacking Skills: I have a few skills, not any are extremely good though.

- I know how to setup, configure, use, and crypt RATs.
- I know how to port-forward and solve port-forwarding issues.
- I have a basic general knowledge of how to spot SQL vulnerabilities as well as inject.
- I'm amazing at Social Engineering.

I am going white-hat though, so I don't plan on using these skills anymore (or as often)

Donated to HF?: I have donated a bit to Omniscient (I have the blue and green diamond, as well as the "Rich Bitch" award). I've also donated \$50.00 to the HJT Team and I'm planning on sending them \$50.00 more too! I plan to keep donating too, since I know how much effort it takes to keep HJT and HF running as well as other groups.

Link to a contribution you've made for HF: I contribute everywhere, normally I contribute by keeping peoples sales going and I find and catch scammers often. Normally I just put my 2 cents in when I see something fishy. I also report stuff when I see something bad, but I normally don't see things

bad since I steer away from LQ posts. I have also donated a lot out of my personal money. (not as much as nokia2mon2 though) I also run Anonymous Citizens Incorporated, which is semi well known.

Why do you deserve to be a Red Lion?:

I'm not sure if I deserve to be, but I will leave that to nokia2mon2 to decide. If I do deserve to be a part of your amazing group it would probably be because of my donations to HF and HJT, aswell as me being an HQ buyer.

Edit: Just donated \$50.00 to train in HJT :D

I've noticed that a few other members have posted several of these threads, but it seems your only asking for one. So there you have it.

Why do you deserve to be a Red Lion?: I don't really believe that I, or anyone for that matter deserves to be in a group, however, I can explain some of attributes I possess.

I strive to keep my post quality as high as possibly could be. I help out other members with any questions they possess, without flaming those who are trying to learn. I love to absorb useful information, and pass it on to others. In the past few months my activity has diminished significantly. I was a part of a couple other groups, including The Alliance, but because of my lack of activity, I wasn't able to fulfill the requirements to stay in the group. I'm now completely free, and will be able to devote much more of my time to HackForums, which is why I'm looking forward to joining this group. I do have a question as well. Should we be applying through UserCP?

Why do you deserve to be a Red Lion?: I think I deserve to be a Red Lion because, I have no scam reports, I am an honest member, I am a decent member in my eyes, I try to stay as HQ as I can, I've never scammed. I was scammed in my past and the feeling is just horrible, I want to make HF a better place overall and I think this group will help. I feel I have a lot I could contribute to this group, and I will always contribute. Hope you accept me, thanks.

Maybe the leaders want to give priority to donators.

? I'm very kind to members. Never had a scam report against me.

? I don't post crap on the forum. I believe I'm a high quality member. I never flame members.

? I'm an active member. I devote my spare time to the community.

Webhouse - January 19, 2011, 8:58 am

It is not all the donations which counts. Offcourse donations will fix a percent of the costs to run such a huge and wonderfull community.

But also the members themselves determine the quality of the forums next to the hard working staf. So obviously if you put much time into making tutorials and contributing in different forms, you bring this community to a higher level. Also when I write a decent tutorial or write a source solely for HF it takes time, time I could evenly put into working an hour or selling some things or even selling a source.

I've mostly seen popular members get accepted, but I won't nag if I won't get in.

I know I will contribute in different forms wherether I am in a group or not. Mostly with the things I know, like programming. It is in the picture of HF that I believe, as many members come and go.

Thank you for your time.

Why do you deserve to be a Red Lion?: I meet the criteria, and while I was skeptical at first, I now feel like I would be a good addition to the crew. I'm also a leader of D.S. Inc and was a leader of the SCUC before it's removal. I've got well over 2,000 reported posts and help the Staff whenever I can.

Happy early birthday.... just putting that out there :D

Hacking Skills: Social Engineering. I dabble in a few other things, but nothing too serious.

Donated to HF?: (If yes, how much. If no, how much would you donate?) I've donated \$150. I donate more as i feel there is a need, or as i get extra income.

Link to a contribution you've made for HF: I try to be a HQ member overall. I don't post too much, but i try to make my posts count.

Why do you deserve to be a Red Lion?: I believe that the Red Lions is a group that is finally going to make a difference at HF. I've seen many groups here, but none really seem to mean anything, or to do much. This group recognizes HQ members, and then harnesses their abilities to make change, and i would like to be a part of this.

Donated to HF?: Just my l33t and Ub3r Upgrades. I was one of the first ten ub3rs.

Link to a contribution you've made for HF: I can't really single out any of my threads, I don't think any of them have really made too much of a difference to this site.. I spent a lot of time in the graphics section when I used to be more active.. it was tiny back then.. I spent a lot of time doing HJT but I stopped because I had no spare time. A lot of people seem to appreciate my humour.

Why do you deserve to be a Red Lion?: Well, This is the first group I've ever applied to, (I didn't apply for HJT I was already friends with kk415kk or Valiant as you guys might know him)

I get on really well with all the moderators (well the old ones I know)

I don't have much reputation but I had a lot more before the last reset, I've only given a couple out myself if you look at my given. (no negatives)

I've been here for nearly 2 years now

I've only received 4 warnings (5%) and three of them were jokes from my friend Soldier Of Fortune.

There is much more past posts that I can't find, but here it is.

I also had my own hacking thread where I helped people hack different accounts, besides the first one posted. I deleted the thread though because I decided to quit doing that. I will bring it back soon.

Why do you deserve to be a Red Lion?: I can give the Red Lion's a good name by being helpful, reporting posts that break rules which I do already, I am HQ, or at least I try to be. I will contribute more and more, I think I will be overall helpful if I was with the Red Lions. I do not spam post or ask for reputation. I always give people a chance. I never jump to conclusions. I don't think a members quality should be rated when he joined or post count or reputation. I don't flame or scam AT ALL, I find scamming very low and stupid. I try and make friends, not enemies. I'm good at solving situations where there is an argument or something of the sort. I respect people that have a higher authority than me. I would help out new people with the best of my abilities. I would basically do anything necessary to help this website become better and more HQ. I don't "kiss ass" to people. I believe that you need to work to get somewhere in life, or anything for that matter. Respecting others is an important aspect to me and I do it as much as possible, even if someone else isn't respecting me whatsoever. I'll be the mature one in situations like that. That is why I deserve to be a Red Lion.

Why do you deserve to be a Red Lion?: I'm a very high quality member. I follow the HF rules at all times, when I see someone breaking a rule, I notify Staff via PM or a report as soon as possible. I commonly check for profile violations as well.

I have lots of contributions and I do stuff for free that other people would charge money for. There is a lot more I have done other than what is listed above.

I'd love to donate as much as I could to HF, I unfortunately have no way to make money that's worth donating.

MisterDeepRot - January 20, 2011, 7:13 am

Name: Tony Barret

Age: 20

Hacking Skills: I have many skills in the field of hacking, it first started when I was just 13 years of age. I would tear apart game files finding exploits, my first great achievement was finding an exploit in the multiplayer shockwave game 'Mokitown' (unsure if this is still running). I was able to inject pure Lingo (macromedia director programming language) and broadcast it to all users on the server, meaning I had full control of everybodys PC (to the limitations of lingo, so not exactly that great - but felt like it at the time!) who had the game client open! That was so long ago and now how far have I come, well, I'll tell you!

Two of my hacks have been on the news, one of them headlining where I exploited a popular community music site with hundreds of thousands of members. Only to find they didn't encrypt their passwords in anyway, just plaintext. LOL! This made headline in many security magazines and blogs! My other less impressive hack didn't make headlines, but it was in some security websites - basically was running a small botnet off a rooted government server (new zealand government) and it was discovered.

Anyway, after this I moved onto coding and this is where I've been focusing my attention. Coded a few small programs, most notably a 4chan spammer which eventually led to the site requiring a CAPTCHA (and yes it was me that coded these first, 3 years ago - I just improved the code last year to make it able to spam faster than the post time limiter - oh yeah and thats another exploit I found, no I didn't use proxies ?).

So yeah, over all I've been pretty succesful - from this you can see I'm pretty much experienced in file analysis and decryption (director class files, yes this required much work as there was no documentation on how to do it back then!) - SQL injection, programming.... I know all the obvious people on HF here would know.

Donated to HF?: Well first of all UB3R&L33T - and I bought L33T for 4 members and 1 UB3R.
Link to a contribution you've made for HF:

<https://hackforums.net/showthread.php?tid=296415> (pretty useful, helped tonnes of members with this)

<https://hackforums.net/showthread.php?tid=349956> (a fair few people needed this back then)

TO be honest, most of my contributions are through PMs - I'm not a very boastfull person even if this application seems like it (but hey, I've been a member of HF for a long time and nobody knew these things about me)

Why do you deserve to be a Red Lion?:

I'm a great member of this community, even if I do troll the lounge sometimes - I do it in a HQ way, not to hurt peoples feelings - my targets deserve what they get.

Why do you deserve to be a Red Lion?: I believe myself to be a generally good member. Although I am not the most HQ member you could think of, I instead try to make people laugh when i'm not helping out, especially in the lounge. In every other forum I seem to be very HQ :)

I befriend and am kind to anybody that's there, aslong as they seem like a good person and not trying to piss people off. I am friends with Prodigy too, although we've had our ups and downs, we seem to of sorted out stuff out. I believe I would be a good member to the Red Lions, a group of good members and people who are keeping HF alive through donations and HQness.

Although I do have some small LQ warnings, that was in the past when I was a massive lonnge whore. I am aiming for 0% warning for atleast 6 months once they have gone. The marketplace violations, one was from Phire Nuk3r which I believe was a mistake (I posted a screenshot of the program), and the other was from me explaining to people that it was a public eBook, I would define that as saving members spending their money on public material, again, helping everybody out :)

I hope you like my application.

He might not have accepted you before, but let your application there, and in a week or two, when new people will be taken, he will maybe think of you.

I usually contribute quality wise in my posts, such as;

Answering questions

Adding information

Giving my opinion

Advice

etc.

Why do you deserve to be a Red Lion?:

I care a lot about hackforums, and I donate when I can.

Although when I'm not financially able to donate with money, I donate with High Quality Posts, and I frequently report posts.

If I were to join the group, I'd have a hackforums goal;

Representing The Red Lions.

This would give me a reason to be even more high quality, report more posts, and donate more often.

Why do you deserve to be a Red Lion?:

There is a lot of computer smart people who brush off people new to the computer world like they are mornons and like to call them "noobs". Well I never got pleasure in talking shit over the internet nor putting down people who are trying to learn. Everyone needs to start somewhere and I enjoy

sharing the knowledge I have learned in the past 10 years I've spent learning about computers. I also never mind sharing programs with people to help them complete their objectives, but 1 thing you can be sure of is I never post or give out programs that do not work.

My threads speak for themselves and have nothing but good replies and vouchers and I'd enjoy trying out one of these groups on HF's and being a regular productive member around to share private programs, help with obtaining access to any type of emails, screen names, or other accounts.

I'm in the older generation of members on the forum being 25 and with a wife and full time job at expedia.com I make good money therfor you can be sure I have no intensions of scamming someone for a couple bucks, I'm more here to share knowledge and my hobby of collecting nice original emails and screen names and enjoy trading skills, tips, and tricks with other people in the computer underground world.

Lastly I'm not out to join every group on HF that I can, I am going to join 1 group and stay loyal to that group only

I've been on Hackforums for 23 months without any previous issues. I had my first scam report against me ever started today actually, and I have provided more than enough proof to show it wasn't me. I currently run the 'Database' of Fraudulent Users which is pinned in the scam report section and would be more than willing to contribute and possibly change that sticky to support your scammer database. I've never paid much attention to groups on HF before, but after seeing a lot of the people I talk to regularly on HF, and other High Quality users in this group, I decided it's somewhere I'd like to be and would test my chances with an application. Oh, and 99.9% of my posts are on topic and high quality.

Why do you deserve to be a Red Lion?:

I've been on Hackforums for 23 months without any previous issues. I had my first scam report against me ever started today actually, and I have provided more than enough proof to show it wasn't me. I currently run the 'Database' of Fraudulent Users which is pinned in the scam report section and would be more than willing to contribute and possibly change that sticky to support your scammer database. I've never paid much attention to groups on HF before, but after seeing a lot of the people I talk to regularly on HF, and other High Quality users in this group, I decided it's somewhere I'd like to be and would test my chances with an application. Oh, and 99.9% of my posts are on topic and high quality.

Approved :)

- <https://hackforums.net/showthread.php?tid=974955> - In this thread, I've given a lot of accounts out to all users.

Not just a specific targeted group like Ub3r.

This has helped the newcomer to see that here on the HackForums, we are not afraid to share, although subjects did not have the same respect, and bought the upgrade as many of us.

Why do you deserve to be a Red Lion?:

? Why do you deserve to be a Red Lion?:

Ever since joining in 2009 I have strived to be a helpful member and contribute towards the site. Since I have no employment I am limited to the amount I can donate back to Hackforums, but so far I have donated around 10% of everything I have made online.

Creating a thread and getting positive feedback is hugely rewarding, and I guess I get a sick buzz from it so I try and create all my threads with other users in mind.

My goals are to one day upgrade a fellow member to leet or uber that I feel really deserves it, and somehow pay Omniscient back for all he has done for me and others, such as Channelfuse and the group I used to run.

It would be a real honour to join the Red Lions; it stands for everything I admire and pursue to abide by, it has been a long time coming for a group like this to arrive and to think that they are recruiting gets me excited just thinking about it.

Thanks for considering my application!

I have never had a scam report opened on me and have never scammed anyone.

I love to keep my post and thread quality at it's highest by keeping my Grammar and Punctuation aswell as Spelling as high as possible because it portrays a sense of professionalism which is key when members are looking towards you to teach them.

I never judge members on join date, rep, warning level or post count. If they need help, I will try my best to fill their needs.

Thank you.

Red Lions are extremely high quality. I'd take this group and join it to give me inspiration to do much more and better. I haven't done much these past 4 months, but there's always a start at some point. I will do much more in order to match the requirements for this group.

I have helped other normal members with problems. Be it with their systems, emotional support, services, etc.

I understand that I need a minimum of 150 reputation, but I haven't cared much for that. It's only been 4 months of my registration here. But if it's really necessary, I'll try to achieve as much as needed.

Hacking Skills: I am a HJT Helper/Teacher so I don't participate in hacking.

Donated to HF?: (If yes, how much. If no, how much would you donate?) None, but I would donate

about \$100 and hold contests at the end of every month, but sadly I don't have a means of doing online transactions. Although, I have donated a lot of time to helping members with their issues. Link to a contribution you've made for HF:

Nah, no warnings for flaming.

You have no sales trashing history. No worries, I'm not a dick.

You have no open scam reports, nor previous ones. I've had open ones but all have failed because I'm not a scammer.

You have over 250 posts, over 50 rep. Yeah....

You have less than 15 negative reputations AHHAHA LOL, YOU KIDDING? Rep revengers these days. All ub3rs are raging 10 year olds.

You will respect our leaders, and the staff members. I respect you, technology never heard of, Prodigy's kay, pakistan never heard of.

I've respected all staff members other than Phir3 Nuk3r. Yeah that dumbass that got demoted.

Name: Hello, my name is jagan.

Age: I am currently 21 years old.

Hacking Skills: I know the basics of hacking. I am currently learning how to code in C++,PHP mysql. I also know how to spread .exe's pretty well. I have been doing this stuff for about a year.

Donated to HF?: (If yes, how much. If no, how much would you donate?) Around \$100 including member upgrades, donations, and stickies. I get around \$200.00+ A month in real life to spend, and I plan on donating around \$50.00 a month from now on.

Link to a contribution you've made for HF: Why do you deserve to be a Red Lion?: I believe I am a very HQ member as i try to be one everyday. Ever since I seen that this group was made, I've wanted to join. I think I have donated a lot to this forum. I have bought many HQ members l33t/Ub3r. I am on HF everyday and I am a very active member. I have been looking for a group that I could be dedicated to and this group seems like the perfect opportunity for me.

The Red Lion group is obviously full of members. The first and second time they recruited people they recruited a bunch of people. So just wait ad least one week and your application should get a response.

Note; I suggested one week, because Nokia2Mon said they'll be kicking members at the end of each week. So just have patience ?

Mermaid - January 25, 2011, 5:13 pm

@fuckthapolice,

If they skip over your application as in no reply its due to them denying you for this round of recruitment.

When they kick members they scan over all applications once again,

Members of the Red Lions will be kicked at the end of each week,

Only if they are not up to the capability giving 100% to the Red Lions group.

Hope this clears all of your questions :)

Why do you deserve to be a Red Lion?:

I always tend to help beginners around. Over PM and MSN, I have done a lot of free helping with setting up RATS and Booters, even making Crypters.

I am always parade to help people. Very generous and patient when it comes to teaching.

Never had a scam report on me. I love to start projects with other people and most of the time projects that never have been released yet.

I always try my best to use perfect grammar and perfect punctuations while constructing my sentences.

Best Regards,
Tijs.

I'm not trying to tell you how to moderate your own thread or anything, merely putting forward a suggestion; why not lock the thread until there is space available then get people to post their applications? It would stop people from asking if they are accepted or denied and would simplify your job of selecting members.

Just a small suggestion. :)

I also feel that I'm a High Quality member and I don't see myself to post in low quality threads. I help HF by reporting spam etc.

You have no warnings for flaming. [x]

You have no sales trashing history. [x]

You have no open scam reports, nor previous ones. [x]

You have over 250 posts, over 50 rep. [x]
You have less than 15 negative reputations [x]
You will respect our leaders, and the staff members. [x]

I hope I get accepted to be part of this amazing group.

The fact is that, the Red Lions group is supposed to consist of HQ contributing members. Though they made it all mainstream. Some Red Lions flame, some take joy in people being scammed. Not very HQ (Yes there are MANY HQ members in the group, but the quality control were close to non-existent)

Why do you deserve to be a Red Lion?: I always try to help people, and I also find helping enjoyable.

I try my hardest to follow the rules of HF.

I try to use correct grammar in all my posts.

I have no scam reports against me.

I think of myself as a high quality member.

I have contributed to HF, not by donating but by helping the members.

I think this is a great opportunity for me to becoming a respected member of hackforums.

I can work almost every program in the CS5 collection from adobe. Illustrator, Photoshop, After Effects, Light Room, etc. I spend most of my time in the first three (PS5, AI5, AE5) and I'm pretty decent with them all.

McLOVIN - February 1, 2011, 1:56 pm

Hello, My name is scott, But everyone on HackForums calls me McLovin! Im Currently 17 years of age, and still growing... Unfortunatly :PI think i can call these hacking skills, Im good with cryptogrophy,bots,botnets,IRC,Keyloggers and all sorts of stuff!Im still trying to read and learn as much as i can and become more knowlagable!

I have currently purchased my 133t and ub3r for myself, So i think that counts as a donation on my part! If i had lots of money, or money to spare

i would definately donate it to hackforums to keep it running strong!

Some of my contributions are giving out ebooks to people,

<https://hackforums.net/showthread.php?tid=953936> and other threads that i have unfortunately junked awhile back.

I have also made crypting services that i only ask for some Installs that are free for people who dont need money and want to get started into the blackhat scene or just want there code hidden!

I think i currently deserve to be a red lion because i am intrested in enriching and expanding my knowlage of Life Skills, Helping skills and hacking skills.

I am a very nice member who is always trying to help out and do the right thing! I have never had a scam report and wouldnt think of scamming anyone, EVER!

I try to spot out scammers and tell someone who can get them put in there place! Red lions seem to be very nice, helpfull and respectfull so i think i would

fit in perfectly! Requirements! I currently Meet all of them!

No Warnings for flaming - Check!

No sales trashing history - Check!

I have never had a scam report! - Check!

think i can call these hacking skills, Im good with cryptography,bots,botnets,IRC,Keyloggers and all sorts of stuff!Im still trying to read and learn as much as i can and become more knowlagable!

I have currently purchased my l33t and ub3r for myself, So i think that counts as a donation on my part! If i had lots of money, or money to spare

i would definately donate it to hackforums to keep it running strong!

Some of my contributions are giving out ebooks to people,

<https://hackforums.net/showthread.php?tid=953936> and other threads that i have unfortunately junked awhile back.

I have also made crypting services that i only ask for some Installs that are free for people who dont need money and want to get started into the blackhat scene or just want there code hidden!

I think i currently deserve to be a red lion because i am intrested in enriching and expanding my knowlage of Life Skills, Helping skills and hacking skills.

I am a very nice member who is always trying to help out and do the right thing! I have never had a scam report and wouldnt think of scamming anyone, EVER!

I try to spot out scammers and tell someone who can get them put in there place! Red lions seem to be very nice, helpfull and respectfull so i think i would

fit in perfectly! Requirements! I currently Meet all of them!

Get your facts right, The reputation abuse warning I received that, because Hanzo was mad at me and I got the low quality post, because my reply said "I'll pick number 1" which is to short I guess. I also received the Profile Violation warning, because I put Official Reputation Abuse Enforcer in my signature and I was told it was OK and I have like 40 post, because I'm always arguing with you. But when someone flame in an threat or some 12 year old guys "fight" against each other I try to say something that both sides are happy.

As you can see I have -6Replies the first because I scammed someone and the second that I posted the cracked version of blackshades...

Scammed thing:

Donated to HF?: (If yes, how much. If no, how much would you donate?) Yes, and just sent a PM to get the donation URL.

Link to a contribution you've made for HF: My posts are widely spread around the forums of where I've helped and contributed to people.

Why do you deserve to be a Red Lion?: I deserve to be in the Red Lion's group because I am a dedicated and valued person. I am respectful and responsible for my actions. I have been trying to join a group that is interested in the same things that I am and I feel this is the right group for me.

Hahahaha, That's the funniest thing I read.

They are asking you how much you donated, Not the donation link.

Also they are full currently.

Hello, I was just wondering if anyone has reviewed my application.

I posted the very day this thread was made, and didn't get a response.

Hacking Skills: I wouldn't exactly call it hacking but I am in knowledge of DDoS skills and can use Social engineering to get what I want.

Donated to HF?: Along with my uber (\$30) and my leet purchase (\$14?) plus buying leet for another member, and donated \$60 today.

I prefer to keep my actual name private. Online I'm known as C4Vendetta.

Age:

Also I'd rather keep my ages private. I can tell you though that I am old, and mature enough.

Hacking Skills:

I've never really learned about hacking, since the day I joined I was very interested in design.

With time I've learned allot, and I've grown to eb a pretty experienced designer.

Donated to HF?:

Yes, I've donated the usual amount needed to earn a blue diamond.

I'm thinking of donating more once I am able to.

Link to a contribution you've made for HF:

I've contributed countless times by helping members, mainly in the Graphics section, but I've also uploaded a reasonable amount of .PSD's and tutorials.

Why do you deserve to be a Red Lion?:

I've been a member of HF for more than a year now, everyday of that time I've tried to give my very best with anything I would be doing.

Be it helping a member out, making a tutorial, or simply posting a reply to a discussion.

I think I've made a name for myself as a honest, straight up, skilled member. And this I'd like to maintain and continue developing by joining The Red Lions.

Thank you for you time.

Hacking Skills:

Fairly competent with botting and avoiding school security systems(My first attempt at this taught me to not do it or be exceptionally good).

I could essentially run the school computer systems.

Donated to HF?: (If yes, how much. If no, how much would you donate?)

No unfortunately,I'm rather strapped for cash almost constantly but if I got a job I could start to donate 30% of my wage to HF quite easily.

Why do you deserve to be a Red Lion?:

I have been a member of HF for about 11 months now and feel have always tried to be HQ and help people.

I am generally considered a friendly member which will be confirmed by my rep,i had a slight hiccup where i dared to go against a point an ub3r made on my 1st page of rep which earned me a bit of neg but since then my -rep's have not been for anything except 1 mistake and complaining that my MC account got hacked.

I think that i have made an impression on the community and a few people(Not many) have started to recognise me about the forums.

Thank you for this opportunity.

PS:

Did I put enough red in the post?

Hacking Skills: I don't hack, but I do the follow:

Program

Admin (Forums)

Graphics

Paint/Draw

Photography

Emotional Support

Write Lyrics

Sing

Website Development

Creative Writing

... A lot of things that are odd to state for a group on a hacking forum, but oh well.

Donated to HF?: I've upgraded AeonHack to l33t and ub3r, CM31 to Ub3r, The Major to ub3r, HAcKDeveto to l33t, Fireren to ub3r, and I paid for 1/3rd of Malware Boss' ub3r, and I have paid for ub3r for myself, twice, and the rich bitch award... So, in total \$156.
