Rules: Please PLEASE do not say google is your friend.

Two: I need something for service pack 2

3) Where can I find it?

I was looking through this forum and found nothing ..

Any good torrents? Other people who got it from there?

Thank you, and accept this thread by this newbie programmer.

Respect all, OverRder.

what you mean? you want the IDE i guess?

google is your friend.lol first link >>

Umm .. Something FREE .. and for SERVICE PACK 2? Cause the 2010 express thingy is for service pack 3.

Thank you again, OverRider.?

Elbobo - January 10, 2011, 4:37 pm

im curious as why you want to keep sp2? your open to a lot of vulnerabilities.

anyways i guess vb express 2003 should work for sp2. torrents are probably rare for it though

Salad - January 10, 2011, 4:47 pm

You can change the assembly to framework 2 in Visual Basic 2010.

Elbobo - January 10, 2011, 4:52 pm

i think he means that the IDE wont run on xp sp2, not about the framework version

Ok people, thank you all very much.

I have found something, and my ultimate booter will be coming out ...

Coming out date [\(Click to View\)](#) January 20, 2011

Still thinking if it is going to be free or not ..

Thank you again,

Regards,

OverRider.?
