Thread: [Free installs! Around 90 for each person!](#)

Deadpool™ - January 11, 2011, 10:19 am

Hi everyone :)

Today, I am offering free installs to any member on HF. There is just one task that you must do before getting the installs. Just complete the CPALead survey and send me the code from the .txt file provided and you will get the installs without payment! You must only PM me with the code, otherwise, you will not get installs.

Once you complete the survey, PM me with the code and a DIRECT download to your .exe. Also post on this thread to bring it to the top each time. If you need a direct link, I am willing to offer one only when I am downloading the bots onto your .exe from my net. It will be deleted shortly after unless you ask for it to stay.

Do not post the code on HF or any other site. If I find you posting it, you will never get free installs from me again.

You are not paying for these installs at all. All the money made from this will go towards me getting more installs to give away free!! You are spending a little of your time doing a survey for me.

Survey link:

[Survey here!](#)

No botkillers! If someone botkills, it ruins it for everyone!

Do not complain you didn't get many if you are using .NET bot/crypter or if your .exe isn't FUD.

I have the right to deny anyone at anytime from getting the installs.

If you need your file crypted, please visit [this](#) thread :)
