Thread: [\[APPLICATIONS CLOSED\] Official Reviewers Group - Read for more details](#)

Skill - January 15, 2011, 8:51 am

[img]http://chatspace.org.uk/phire/14.gif[/img]

Requirements

If you are interested in applying to Reviewers, you must reach the following requirements:

You must be HF Ub3r - there will be no exceptions.

You must have 250 posts or above - your posts will be reviewed before acceptance.

Your reputation must not be in the negatives - as a Reviewer you are to represent Hack Forums in a whole new light, the group does not accept those that have abused the site in any way, shape or form.

You must not PM me or any other leader with your application - if you do so, your application will be disregarded.

Application

Do you meet the above requirements? If so, please read on for further details:

If you'd like to become an Official Reviewer you will need to post a fake review in this thread. The review can be about anything you please, but it must abide by Hack Forums' Rules and Etiquette. If you aren't aware of what is allowed and what isn't, then Reviewers isn't the group for you.

If you are having trouble thinking of something to review, head over to [The Electronic Literary Library](#) for a free eBook download.

Review Template

Please use the following Review Template for your review:

Quote:Review (Ratings on a scale of 1-5)

==

Quality of Information:

Ease of Use:

Layout:

Grammar:

Originality:

Notes: (confirm or correct any data given by author as well as any personal notes or experiences you have)

If you'd like to include Official Reviewers Images in your review, please do so. Click the spoiler below for the Official Reviewers Images.

Official Reviewer Images [\(Click to View\)](#)

[img]http://upit.cc/images/50e1b4f4.png[/img]

[img]http://upit.cc/images/5fe7ea0d.png[/img]

[img]http://upit.cc/images/aea97688.png[/img]

[img]http://upit.cc/images/99eae7f1.png[/img]

[img]http://upit.cc/images/a7bd16f6.png[/img]

[img]http://upit.cc/images/82278841.png[/img]

What do we expect?

If you'd like to become an Official Reviewer, there are certain rules we expect you to abide by. They are as follows:

We expect you to represent Reviewers in a professional manner. If you abuse your role as a Reviewer, you will be kicked from the group without prior warning.

You must not ask for reviews directly, however, you can post a Canned Response to a thread in the Ebook Bazaar if one hasn't been posted already. If you're accepted, the Canned Responses will be readily accessible to you.

If you are assigned to review an eBook, you have to review it within 48 hours. If for whatever reason 48 hours isn't enough for you, inform a leader or post in the inactivity thread located in the Reviewers Private Forum.

You are to follow the Review Team Policies and Guidelines at all times. Failure to do so may result in removal from the group.

Reviewers has zero tolerance for corruption within the group. If you are offering bribes to others for whatever reason, you will be removed from the group and at risk of being banned.

How will I know if I am accepted?

It is important that you read the following carefully. Failure to do so may result in you tarnishing your chances of becoming an Official Reviewer:

If you are accepted, you will be sent an acceptance PM. The PM will contain everything you need to know to help get you started. Please do not PM me or any other leader regarding your acceptance. Your PM will be disregarded and you may risk your chances of getting into the group.

Leaders

Below you will find links to the Official Reviewers Leadership team's profiles and a brief description of their role:

[Skill](#) (Head Leader) - Deals with recruitment, acceptance and removal, review requests and any complaints relating to the Official Reviewers group.

[Notorious Mental](#) (Leader) - Deals with review requests.

[phire nuk3r](#) (Leader) - Deals with review requests.

Any Questions?

Do you have any questions relating to this thread and/or the Official Reviewers group? If so, please read on:

If you have any questions, please [PM](#) me with them. Make sure you use the subject [Reviewers Question]. If you are not HF Ub3r please do not PM me. Reviewers is HF Ub3r specific and any PMs from HF L33t or regular members will be disregarded.

Thank you.

j1nx0 - January 15, 2011, 9:29 am

Review 1-5 (5)

Quality of Information: Very good actually, if you had some more pictures in the Ebook it could have been better so if you want you can fix that. But the detail were very good I really didnt have any problems with reading it.

Ease of Use: This was very easy to read the information you type were detailed as I said before and people could really like this.

Layout: The color of the text was kind of hard to see like the yellow color wasnt good you had to mark the text to see what it stood.

Grammar: It's not good but it was readable I understand your not from USA Or England or some

english speaking country so its not really that bad.

Originality: This has not ever been posted so you could really go far with this if you sell it and I just want to say good luck.

guard - January 15, 2011, 9:38 am

Introduction

Hello their, my name is Guard and I will be you're reviewer for this E-Book.

Keep in mind this is my strict opinion on this E-Book and may vary to the reader. Without further or do let's begin.

=====

Title: How to properly spread your RAT and/or Key-logger.

Price: \$30

Pages: 6

Author: Cam G

Reviewer: Guard

=====

[img]http://ploader.net/files/46dd2e10e2721baa2b6c46c11469995b.png[/img]

[img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]

The quality of this E-Book is quite superb to the other I have seen on the market lately, he wrote it in a step by step process not leaving an ounce of detail out, it is written in a ".txt" which did kill a bit of the quality but nonetheless well done.

[img]http://ploader.net/files/716ca4e758bb5d4a6a9a46ea5374d6a5.png[/img]

[img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

I must say I am impressed, the grammar and punctuation used in this E-book is by far the best I have ever seen. I am also impressed with the fact that the author used special characters to break up each section.

Thumbs up to you.

[img]http://ploader.net/files/c1e3de38fe5a16db458893c60a58e0d1.png[/img]

[img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]

This E-Book was laid out in such a way it makes it almost impossible to fall of track, the author constantly references back to information he has explained, to keep the reader strict and informed on what he or she is doing, still though leaning to the fact it was a ".txt" it made it harder having to scroll, and pin point what you are reading, to section (although he broke it up into sections nicely.)

[img]http://ploader.net/files/c7906c0649dacd8c42aec119d95d9af5.png[/img]

[img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

The lay-out was absolutely phenomenal, the way the author used different fonts and colors to highlight important information and sections made it appealing to the reader, and also made it quite interesting to see what he had come up with later on in the E-Book.

[img]http://ploader.net/files/80892f0888e82fea4839a9c75a00e624.png[/img]

[img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

Even though their has been many E-Books on "How to spread your RATs or KeyLoggers" in the past, this one has new methods and so much information to bring to the reader.

Notes

Well done Sir, be sure to use ".pdf" in the near future but nonetheless good job.
All in all I give you a solid 4.5 Stars for mainly organization and using a unique method.

Static™ - January 15, 2011, 9:40 am

Title: Hacking Xbox 360

Price: \$0

Pages: 97

Author: 360 Mods (360mods.net)

Reviewer: [Static™](#)

=====

Overall Rating: 4/5

=====

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Quality.png>[/IMG]

5/5

The Quality of "Hacking The Xbox 360" is amazing, it has many different tutorials on Xbox 360 mods and such. It even includes how to back up games! All in all, it is a very simple, but detailed eBook. The eBook is filled with many different photographs too, such as different Xbox 360 disk drive's.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Ease-of-Use.png>[/IMG]

3/5

"Hacking The Xbox 360" will not be easy for many people, this eBook is filled with very complicated techniques. A person without much computer & Xbox 360 knowledge may find this extremely confusing. You may also need to purchase special tools for different modifications.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Layout.png>[/IMG]

5/5

This layout is perfectly organized, with every nook & cranny filled with information that absolutely belongs there. This eBook has an extensive Table of Contents, listing page numbers and different tutorials. This is extremely helpful, due to the fact that 97 un-listed pages would be horrendous, and terrible to read.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Grammar.png>[/IMG]

5/5

The Grammar in this eBook is stunning. There are no spelling errors anywhere, in all of the 97 pages. 360 Mods made sure this eBook is readable to all.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Originality.png>[/IMG]

4/5

I'm sure that there are other eBook's and tutorials just like this one out there, but this is one of the most detailed, organized, and beautiful eBook I have seen.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Notes.png>[/IMG]

If anyone would want to learn how to mod/hack Xbox 360's, this is the eBook I would recomend for them to read!

Thank you for reviewing my application to the Reviewers!

I am 100% qualified to join the reviewers, I have 1,000 posts, correct grammar, and no negative rep or scam reports.

It's been my dream to be in the reviewers since I joined HF, hopefully I get in.

wisd0m - January 15, 2011, 10:01 am

=====

Title: How to stop Chargebacks and Win Disputes(Paypal)
Price: \$10 [No reseller]
Pages: 5
Author: wisd0m
Reviewer: wisd0m

=====

[img]http://upit.cc/images/82278841.png[/img]
3/5

The quality of this E-book is not very high. It can get very vague at some points, if the buyer has general paypal knowledge and has a clue about disputes etc, this E-book is great for them. The author took time to add pictures with good details throughout the E-book which makes it alot easier to understand. He has steps drawn on the pictures, which are correctly placed. If the author took a little more time to add detail it would be a problem free E-book.

[img]http://upit.cc/images/aea97688.png[/img]
3/5

This E-book does not have a very easy to use layout and is not named properly in it's table of contents. It is not very well organized and thought out, but with more experience the author could probably make his future E-book's alot easier to use/reference to. It does have pictures placed in the correct places though.

[img]http://upit.cc/images/5fe7ea0d.png[/img]
5/5

I have to state that the punctuation and grammar used in this particular E-book is higher then many others I have seen around HackForums. You can tell the author has been very careful about his spelling and grammar to ensure the quality of grammar and ease of reading. Unlike some E-book's that kill your eyes to read.

[img]http://upit.cc/images/a7bd16f6.png[/img]
5/5

I have not seen another E-book of it's kind around Hackforums. It is one of the most original things I have seen here. It also complies to all of HackForums rules.

[img]http://upit.cc/images/50e1b4f4.png[/img]
4/5

This E-book has pictures which help you through all the steps found in this E-book, although the details can get vague at various points throughout the E-book.

[img]http://upit.cc/images/99eae7f1.png[/img]

This E-book is one of a kind, and has methods that are not very known to many users. If you have knowledge in English and understand what is going on, It is very easy to read and use this E-book.

Grammar Rays - January 15, 2011, 10:07 am

Thank you for requesting a review, I have been selected by the leader who you PM'ed regarding your eBook.

Below is my review about your eBook, any information you don't understand, feel free to contact me via PM.

=====

Title: [\\$50 A DAY WITH NEOBUX](#)

Price: \$0

Pages: 2

Author: [Zynx](#)

Reviewer: [Grammar Rays](#)

=====

[img]http://upit.cc/images/82278841.png[/img]

3/5

Not much care has been taken, the eBook contains no images nor is it written in an appealing way. A little more attention should be given to how the eBook appeals to the reader.

[img]http://upit.cc/images/50e1b4f4.png[/img]

3/5

It wasn't the easiest eBook to use, it was written with big paragraphs and no diagrams or images, like I said before, the author should add a little more attention to how it appeals.

[img]http://upit.cc/images/aea97688.png[/img]

3/5

The worse bit of the eBook, it's unclear and hard to locate parts of the eBook you need. Maybe add some titles and sub-titles to make it clearer, also some different colours will make it a lot better, at the moment it's just plain and boring.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

3/5

The grammar was okay, however there was capitalisations in places that are not needed. Remember, you don't need to capitalise the first letter after a comma unless it's a name or place.

[img]http://upit.cc/images/a7bd16f6.png[/img]

3/5

I have not seen a eBook about Neobux before, however the content is pretty self explanatory and already known by the majority of people.

[img]http://upit.cc/images/99eae7f1.png[/img]

I don't really suggest this eBook based on the appearance, however it's good for beginners. I suggest the author reconsiders his/her layout and add some appealing images and colours.

Thank you for letting me review your eBook,
Grammar Rays

Title: Shitcash Download Method

Price: \$3

Pages: 5

Author: Shitcash method Man

Reviewer: ? 1337 ?

=====

[IMG]http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Quality.png[/IMG]

4/5

The Quality of this eBook is unique in so many ways, I have never seen any of these techniques, All in all, it is a very simple, but detailed eBook, It could be better if there were a few more images in.

[IMG]http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Ease-of-Use.png[/IMG]

4/5

This method will be easy for some yet very complicated for others, you need to be good a social engineering others into downloading your file.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Layout.png>[/IMG]

3/5

The layout of this eBook isn't all that good, the images aren't aligned to the center and the images are very big

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Grammar.png>[/IMG]

4/5

There is a few grammar/spelling mistakes but not many, It is still very easy to read.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Originality.png>[/IMG]

5/5

I'm sure that there are other eBook's and tutorials just like this, But this is the one is very unique in many ways.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Notes.png>[/IMG] If people want to make easy money online then I recommend this eBook.

Se4nH4x - January 15, 2011, 10:19 am

Official Review by Se4nH4x.

=====

Title: The Unique Spreading Method

Price: \$10

Pages: 14

Author: Se4nH4x

Reviewer: Se4nH4x

=====

[img]<http://ploader.net/files/46dd2e10e2721baa2b6c46c11469995b.png>[/img]

[img]<http://ploader.net/files/ce0e7c7521e86291210cce350a6a421e.png>[/img]

The concepts of the way to spread is well-done, but somehow there's lack of information regarding many techniques. I would personally think that he has worked pretty much on the e-book, but as seen, not enough to get higher of a score.

[img]<http://ploader.net/files/716ca4e758bb5d4a6a9a46ea5374d6a5.png>[/img]

[img]<http://ploader.net/files/ce0e7c7521e86291210cce350a6a421e.png>[/img]

As for grammar, the punctuation was horrible, there are many mistakes although this is no way going to affect on your read as they're most likely unnoticeable. Many capitalization mistakes and well, nothing more worth to mention.

[img]<http://ploader.net/files/c1e3de38fe5a16db458893c60a58e0d1.png>[/img]

[img]<http://ploader.net/files/ce0e7c7521e86291210cce350a6a421e.png>[/img]

Well the method itself, is kind of hard to put into practise. Anyway, if you're really willing to succeed, if you dedicate some time, you're most likely going to pull it off without any overflow. The technique is explained step-by-step so there's nothing to worry about at all.

[img]<http://ploader.net/files/c7906c0649dacd8c42aec119d95d9af5.png>[/img]

[img]<http://ploader.net/files/4d73dd6f3e01ed26cc2844d856d631b8.png>[/img]

The design overall is so simple, I'd prefer a coloured e-book more than a plain-text one such as yours. There's only a single image at the cover and after all, he hasn't added an index part or even an explanation about the method before starting to explain what you would have to do.

[img]http://ploader.net/files/80892f0888e82fea4839a9c75a00e624.png[/img]

[img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]

Awhile back we had seen some methods regarding how to spread successfully and stuff, but this is definitely a good one because a long time ago I thought in my own why no one talked about spreading with this method, and here it is.

Notes

To the author, you may have to work much more on future e-books, I somehow noticed you tried to finish it as soon as possible and, for the next time dedicate a bit more of you. Keep up the good work.

Monstah - January 15, 2011, 10:19 am

REVIEW OF: Tractors Spreading Guide!

(Found Here)

Spoiler ([Click to View](https://hackforums.net/showthread.php?tid=966561))<https://hackforums.net/showthread.php?tid=966561>

[img]http://upit.cc/images/82278841.png[/img] ????? The information in this book is of good quality. The author is brief, and to the point. Although, it could be explained in better quality and more details. Also could have provided links to things needed for this guide.

[img]http://upit.cc/images/50e1b4f4.png[/img] ????? This e-Book can be easily used by anybody. It does take some effort to setup everything, but after that you only have to do a minimal amount of work to get downloads. This method is not autopilot and there is some work required to get downloads.

[img]http://upit.cc/images/aea97688.png[/img] ????? The layout was very plain and a slight strain on the eyes. If the author designed a layout and added some pictures it would have received a better rating. The guide also had no organization and was sloppy.

[img]http://upit.cc/images/5fe7ea0d.png[/img] ????? Only found one small grammar mistake in the e-Book, besides that grammar and spelling was perfect.

[img]http://upit.cc/images/a7bd16f6.png[/img] ????? This method can be found with a simple search. But, I have not seen a guide that goes into as much detail for this type of spreading.

[img]http://upit.cc/images/99eae7f1.png[/img] Overall, this e-Book is easy to use and can get you many downloads for your virus.

STUN ZEED - January 15, 2011, 10:23 am

I do meet requirements and am therefore eligible to apply for the official reviewers group; I am ub3r, I have over 250 posts, my reputation is not in the negatives and I have not nor do I intend on private messaging any of the leaders with my application.

Title: Own A Pedophile and Make GOOD MONEY!

Price: \$0.00

Pages: 9

Author: fuckthapolice

Reviewer: fuckthapolice

*The thread where this e-book originates from is here:

<https://hackforums.net/showthread.php?tid=850978>

Review 3.5/5 (Ratings on a scale from 1-5, with 5 being the highest)

==

[\[IMG\]http://img405.imageshack.us/img405/7269/quality.png\[/IMG\]](http://img405.imageshack.us/img405/7269/quality.png)

4/5

The author of this e-book has demonstrated detailed knowledge and good insight regarding the subject the e-book is primarily based on (e-whoring). This e-book not only has quality information, but the quantity of the information is heavy, moreover, it is also very detailed, as the author gives a detailed demonstration on how to set up an account on "stick cam" and secretly record young (usually female) users which shall be used to impersonate females whom are usually the target of pedophiles. Therefore, I have deduced content is relevant and appropriate, pertaining to the prescribed title of the e-book.

[\[IMG\]http://img844.imageshack.us/img844/1854/easeofuse.png\[/IMG\]](http://img844.imageshack.us/img844/1854/easeofuse.png)

4/5

The e-book is written in a rather casual fashion, therefore making the e-book relatively easy to follow. There are many vivid images which compliment the text in the e-book which puts emphasis on and aids in the facility of reading the e-book.

[\[IMG\]http://img27.imageshack.us/img27/3079/layoutlt.png\[/IMG\]](http://img27.imageshack.us/img27/3079/layoutlt.png)

3/5

The layout is rather basic, nothing sophisticated; there is an introduction, a procedure which must be executed and followed and a conclusion.

[\[IMG\]http://img163.imageshack.us/img163/5713/grammar.png\[/IMG\]](http://img163.imageshack.us/img163/5713/grammar.png)

3/5

The grammar was mediocre; there were frequent spelling mistakes which must be addressed and corrected. Other than these minor spelling and punctuation faults, the grammar was rather good for the most part.

[\[IMG\]http://img214.imageshack.us/img214/5548/originality.png\[/IMG\]](http://img214.imageshack.us/img214/5548/originality.png)

5/5

The e-book is definitely unique, I cannot personally say there is ONE e-book such as this one here on hackforums.net, therefore it is very original.

[\[IMG\]http://img6.imageshack.us/img6/6347/notesi.png\[/IMG\]](http://img6.imageshack.us/img6/6347/notesi.png)

Overall, this e-book is very good, if you use this product the way it is intended to be used and you carefully follow the procedure as presented in the e-book, you will definitely be able to entice a pedophile, which will allow you to manipulate the individual and you will benefit from this in a monetary sense as the book suggests, however there is still some room for improvement regarding organization and grammar.

[img]http://img689.imageshack.us/img689/4453/qualityc.png[/img]
[img]http://img810.imageshack.us/img810/9315/star4.png[/img]

This E-Book was good, some of the techniques that are used in this E-Book sounds really rare to me. And there are ALOT of different techniques in this E-Book. It does also contain tutorials on how to get traffic to you're CPA Lead.

[img]http://img403.imageshack.us/img403/1854/easeofuse.png[/img]
[img]http://img132.imageshack.us/img132/2350/star3m.png[/img]

The techniques that are used in this E-Book is not easy for people who are not familiar to CPA Leads and HTML.

[img]http://img689.imageshack.us/img689/552/layoutoy.png[/img]
[img]http://img707.imageshack.us/img707/7445/star5c.png[/img]

The layout in this E-Book was very very good. And it was very detailed with steps. I found my way around the E-Book just fine !

[img]http://img713.imageshack.us/img713/5713/grammar.png[/img]
[img]http://img810.imageshack.us/img810/9315/star4.png[/img]

There was several spelling mistakes along with some grammar mistakes. But it was no big deal, sense I understood what he was saying and had no problem understanding the moral I could move on without any difficulty.

[img]http://img214.imageshack.us/img214/9278/originalityy.png[/img]
[img]http://img824.imageshack.us/img824/2213/star5.png[/img]

This E-Book contained so much rare information that i couldn't find in any other bought CPA Lead E-Book.

NOTES

If you are interested in setting up the perfect site for you're CPA Lead and get alot of traffic to the site, i highly recomend this E-Book

Androctonus - January 15, 2011, 10:36 am
Title: "Monetizing! 30 dollars p/hr!"
Author: Monopoly Man
Pages: 4
Price: 15 USD.

Review (Ratings on a scale of 1-5)
==

Quality of Information: 2/5

While the content in this book was achievable, it lacked quality explanations, and it would be very easy to get confused while reading. Such as bringing up a key point in monetizing, but then failing to explain details regarding followup to that keypoint. Overall, you'd have to be an experienced monetizer to be able to follow.

Ease of Use: 2/5

Similar to the Quality of Information, the lack of quality in examples ties in with a lack of user-friendly content. Because the steps are confusing and not easy for a beginner to follow, the ease of use on a scale would be placed rather low. It is not impossible to follow of course. If an individual has experience with monetizing then it would likely to be easier to use. So overall, it is weak in strong explanation, but possible to follow.

Layout: 4/5

Graphics and layout in this ebook are superb. Upon opening it anyone should be able to tell that while the content may be a bit weak, the author does wish to put their 'all' into it. Organization is very strong in the book, nothing is truly misplaced, but there is one piece of information that may not fall appropriate for the section it was placed in. It's only minor however, and nothing of great importance is where it shouldn't be. Each subject is titled with a nice graphics piece and sub title. Overall, when/if an individual purchases this ebook, they should have no problems understanding each section as it stands as a section, and be able to backtrack without confusion.

Grammar: 5/5

Spelling and punctuation was obviously important to the author. There is no room for improvement with the word choice, in fact some people may not have a complete understanding of some of the words, as some are quite large. Overall, intelligence regarding grammar is obvious, and is similar to reading a highly recognized piece of literature.

Originality: 2/5

From downloading free ebooks in the past, it's come to attention that some of what the author mentions has been in quite a few free ebooks. Overall, it seems that the author discussed already known methods, but gave his/her opinion on them, and expressed strategy simply through perspective.

Notes: My word to the author: I believe your writing has potential, but I would suggest improving your originality and putting more detail into your key points examples. I would also suggest decreasing your price a bit.

Title: Hacking Xbox 360

Price: \$0

Pages: 97

Author: 360 Mods (360mods.net)

Reviewer: PuertoRican

==

Quality: 5/5 - This eBook would assist any modder or future modder.

Ease of Use: 3/5 - "Hacking the Xbox 360" has a lot of complicating instructions. It would take a lot of hard work to understand and use this.

Layout: 5/5 - The layout is perfectly organized. It even has a table of contents where you can find any thing you need. Quickly.

Grammer: 5/5 - There are no grammar errors in all of the 97 pages. You can tell the author worked hard.

Originality: 3/5 - I've already seen a lot of eBooks with most of these tutorials. Some of these

tutorials are unique though.

Notes: I would definitely recommend this to anyone who already knows how to mod, or wants to learn. This eBook can get you pretty far.

[img]http://ploader.net/files/46dd2e10e2721baa2b6c46c11469995b.png[/img]5/5

This E-Books quality is very nice and detailed, but it isn't in a .pdf file. This E-Book is written in text on a topic.

[img]http://ploader.net/files/716ca4e758bb5d4a6a9a46ea5374d6a5.png[/img]4/5

This grammar on this topic is a bit amateur, but it passes.

[img]http://ploader.net/files/c1e3de38fe5a16db458893c60a58e0d1.png[/img]5/5

This topic is quite well detailed and easy to learn off of.

I've been reading this E-Book and I follow the steps and every think worked correctly.

[img]http://ploader.net/files/c7906c0649dacd8c42aec119d95d9af5.png[/img]5/5

The layout on this topic is exquisite, It is fully detailed and the main steps I need to view are either Bold or Enlarged by size. So this topics layout deserves a great rating.

[img]http://ploader.net/files/80892f0888e82fea4839a9c75a00e624.png[/img]3/5

This topic is original by the layout, but there are multiple tutorials/E-Books showing how to set up a Remote Administrator Tool(RAT) and how to spread there Remote Administrator Tool(RAT).

So it truly doesn't deserve a big rating on originality.

I'm finished now :3 Thanks

My Review:

Author: [D??i????™](#)

Title: [Make 500k - 750k+ per hour - Runescape](#) (You must be l33t+ to view the Forum, and the Thread.)

Pages: 7

Price: Free in Advanced Methods Section

[img]http://upit.cc/images/82278841.png[/img]

Rating for Quality of Information: 4/5

Information: The E-book was based on a subject that is very common, but the method is one that I haven't seen before. It is proven to work well with the Grand Exchange prices, and profit calculations. The method does however, require P2P Membership, so if you're F2P, sorry, but you're out of luck.

[img]http://upit.cc/images/50e1b4f4.png[/img]

Rating for Ease of Use: 4.5/5

Information:

-The eBook: It is understandable, and D??i????™ uses easily readable words. I did not have a problem with this section at all.

---Broken Down Rating for EoU eBook: 5/5

-The Method: The method requires no set-up time, and you can basically get right on it. The procedure is grueling, and will likely get you bored very fast, but an effective one, and due to its arduous process, you aren't likely to find much competition.

---Broken Down Rating for EoU Method: 4/5

[img]http://upit.cc/images/aea97688.png[/img]

Rating for Layout: 3.75/5

Information: D??i????™ gets straight to the information, and what you need, while providing easy to use pictures plus a step by step procedure. Although he did a good job, it does look very cut and dry with so many arrows. It is a fairly mediocre look, but this does not however affect the Quality of the book, it is still easy to read, and understandable.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

Rating for Grammar: 4.5/5

Information: I saw good punctuation, all throughout, and the spelling was correct wherever I looked. There was some unneeded capitalization for emphasis, but it felt like he could do without it. The Grammar was acceptable.

[img]http://upit.cc/images/a7bd16f6.png[/img]

Rating for Originality: 4/5

Information: Although it was a new method, it was a very common subject, there have been countless other "Runescape Gold Methods" around HF, and the internet in general. It wasn't very creative, but more capitalizing on the Grand Exchange.

[img]http://upit.cc/images/99eae7f1.png[/img]

Notes: I have not tested this method yet, but I plan to do so.

Also, EoU is for Ease of Use

Overall Rating: 4/5

In other words... check it out :3

Thanks :3

-Elysian

Note to Skill: [\(Click to View\)](#) I apologize for the PM about my acceptance, I was just excited, and overly rash. I didn't mean it to come across like that, I was just wondering if my posts and rep were high enough for acceptance. I know what the thread says, but I was hoping for your opinion.

[img]http://upit.cc/images/82278841.png[/img]

[img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

This ebook is by far the best ebook I have seen. It shows step by step instructions on how to

become a HQ member. It has personal experiences that Saged has had. If you want to become a well know figure on a forum I suggest you buy this ebook now.

[img]http://upit.cc/images/50e1b4f4.png[/img]

[img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

This ebook is very easy to follow. It's not just a mass of random words. It is a well written guide that if followed right can make you go big. It is straight forward. it tells you what to do and how to do it.

[img]http://upit.cc/images/aea97688.png[/img]

[img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

The layout is amazing. It contains pictures that go along with the subject perfectly. It is neatly written so It is easy to read and follow. It is colorful so that also draws you in. The wording is very easy to understand.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

[img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

This ebook has that best grammar by far. I have looked over it and can't seem to find 1 mistake. The punctuation is correct. The spelling is correct. Saged has done a good job with this ebooks grammar.

[img]http://upit.cc/images/a7bd16f6.png[/img]

[img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

I have never in my time here seen one ebook like this one. It has ideas that only he could think of. No one else could have made an ebook as good as this one. It is unique and one-of-a-kind. I hope he will come out with more.

Notes:

This is one amazing ebook. It has originality, excellent grammar, to-the-point information, and great quality and layout. I suggest this ebook to anyone wanting to become a well known member of HF and having a high reputation here.

Title: CPA/PPL method moneymaking.

Price: \$10

Pages: 8

Author: MisterAmazone

Reviewer: Volenar

--

--

[img]http://upit.cc/images/50e1b4f4.png[/img] 3/5

The eBook explains its own methods decently. However they are hard to follow for the newer, unexperienced users. The eBook switches main subjects rather quickly which makes it hard to follow if you do not master the basics of monetizing yet.

[img]http://upit.cc/images/5fe7ea0d.png[/img] 2/5

The grammar used in this eBook is far below the level I expected it to be. The author didn't seem to have enough interest in correcting all the little grammatical mistakes. This lowers the overall quality of the eBook.

[img]http://upit.cc/images/aea97688.png[/img] 3.5/5

There has been a basic design/theme applied to the layout of the eBook which makes it more attractive to read. The author did spend some time on designing this, which is noticeable.

[img]http://upit.cc/images/a7bd16f6.png[/img] 4/5

I have yet to see a method which is similar to this one. The author shares his personal experiences by which I can subtract that the method is unique. The author has revamped some previously known methods into some smooth revolved methods.

[img]http://upit.cc/images/82278841.png[/img] 3/5

The overall quality of this eBook is quite good. Besides from the author's main, unique method there are some other methods explained briefly. However it lacks of basics.

[img]http://upit.cc/images/99eae7f1.png[/img]

The eBook is blackhat, however the author claims there are no risks.

Review By: Confidence

E-book By: Solidify (Banned)

Title: Bulking Up- A Wealthy Lifestyle

Pages: 29

Price: 10 USD

[img]http://upit.cc/images/82278841.png[/img]

5/5 ?????

The quality of the information in this ebook is very descriptive, as if it were written by a professional. It clearly describes the steps

required to meet the ebooks objectives. It provides high quality pictures for a clear view of the task; which will benefit visual users. Also, with giving the required directions, it gives a full detailed analysis of what you are dealing with; such as, CPA, Youtube, how money is being made, blogs, as well as other useful texts that might find useful to the buyer. Overall, when doing the ebook, you are almost guaranteed a fully descriptive direction for the task of making money.

[img]http://upit.cc/images/50e1b4f4.png[/img]

4/5 ?????

The information provided is somewhat difficult for an average user, it requires a decent amount of work in which the buyer must do to

achieve the main objectives of the Ebook, but it in fact provides pictures for the buyer to follow on, making it tremendously

easier for the buyer to cooperate with the ebook. Though it may indeed be an intermediate difficulty, it is very much doable.

[img]http://upit.cc/images/aea97688.png[/img]

3/5 ?????

The layout is very much basic, it provides a small index in which the buyer may use for future references. The ebook follows a chronological order from the main topic, giving the directions step-by-step. The photos given are with each step accordingly to follow up on the direction. For the

most part, the layout is kept clean and simple and nothing out of the ordinary.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

4/5 ?????

The grammar presented in this ebook are slightly above average, yet most sentences are well constructed and have varied structure and length. The author makes a few errors in grammar, mechanics, and spelling, but they do not interfere with understanding. Overall, the grammar should not alarm the buyer's ability to fully understand the concepts of the ebook.

[img]http://upit.cc/images/a7bd16f6.png[/img]

3/5 ?????

For the originality, most of the methods used here at this point of time are well known and would seem somewhat obvious to the buyer of the ebook, but still provides some unique methods that will most certainly interest the user. There are some new concepts that will be brought to the table that may be found surprising and simple to most beginner internet entrepreneurship. In conclusion, be careful as some methods may already be well known and constantly used.

[img]http://upit.cc/images/99eae7f1.png[/img]

From my personal experiences, I have made well over 500 USD in combined from the multiple methods provided within the ebook. If you have the motivation and confidence to do work and make money, then I would strongly suggest for you to consider this purchase. It will most certainly change your view on how money can be made from the internet.

[Official Review]

=====

[img]http://upit.cc/images/82278841.png[/img][img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img] Overall quality of the ebook was very good, as the author went into detail of every step of the process, providing many examples, and making it very easy to follow. Anyone can use this method because it requires almost no skill and the author provides a simple step-by-step procedure that is very easy to follow.

[img]http://upit.cc/images/50e1b4f4.png[/img][img]http://ploader.net/files/4d73dd6f3e01ed26cc2844d856d631b8.png[/img] Although the author provides very easy step-by-step instructions that is semi-easy to do, I feel that a lot of people would not want to do the lengthy procedures for a free case of Monster or Redbull. But if you are willing to do so, the steps are easy to follow and you should receive the products your requests.

[img]http://upit.cc/images/aea97688.png[/img][img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img] The layout of this ebook is pretty decent. There are detailed step-by-step

instructions and included examples for every step of the process. Very good job on the authors part.

  I found no gramatical errors in this ebook.

  This is a very original ebook that I have never came across before and I would recommend it to anyone that thinks that Monsters, RedBull, or other drinks are just too expensive and would rather get them for free. 5 out of 5 for originality.

Notes

Very original ebook, good luck on sales!

Title: Google Image Cash

Price: 2\$

Pages: 22

Author: www.imheadlines.com

Reviewer: \$c0rPi0n

=====

==

: 4\5

This e-book talks about how to gain money from google adsense with pictures hosted on your website.

It is well explained; It goes into the smallest details, It gives some extra sources to extend your research, It has also money back guaranty, which is something I have never seen it before.

==

: 3\5

This e-book describes a relatively easy method to use it. Like I said it goes into extreme details but the downside is that you need to own your own domain name to succeed in this method.(It should have gave the reader a tutorial on how to get free domain names.) Nevertheless you won't get confused.

==

: 4\5

The layout is good; well organized paragraphs with pictures on the left side explaining every step. The downside is the font size is relatively small to the pictures and the white font in some images can't be seen from the white background

==

: 5\5

This e-book is free from spelling errors ,the author wrote with a proper grammar and with a perfectly genuine English. I didn't notice anything wrong in it.

==

[img]http://upit.cc/images/a7bd16f6.png[/img]: 3\5

This is its weakness; I have seen many articles regarding this subject. But I have never came a cross such an article that goes into deep details.So I give it 3\5.

==

[img]http://upit.cc/images/99eae7f1.png[/img]: 4\5

Like I have said the author should have corrected some small layout mistakes and it will be good. Overall, this e-book is good; I recommend it for people who know how to deal with traffics on their websites.

==

Sincerely,
the Reviewers Team. :)

===== Title: Bypassing Bizpark and Creating MSDN Accounts

Pages: 12

Price: \$10

Author: Microsoft Exploits

Reviewer: Johngianni =====

[img]http://upit.cc/images/82278841.png[/img] 4/5 It is above average when it comes to quality. This book has some of the latest methods of going around Bizspark into getting them to accept you. The quality of this book mainly depends on several aspects such as the grammar and the layout ect.

[img]http://upit.cc/images/a7bd16f6.png[/img] 3/5 Most methods were said by several people thus making it equivalent to other guides at the same level. Some things stood out from other guides such as notifying the reader that changing your IP each time you try to create a new account is vital since that can be a way they would find out and deny you. Small details like those are often not seen in guides on this topic.

[img]http://upit.cc/images/aea97688.png[/img] 4/5 The guide is well planned out as each page has its part so nothing runs on to the other page thus forms confusion. Everything is well organized throughout the guide and it elevates to the points the reader intends to find in order to understand the steps properly.

[img]http://upit.cc/images/5fe7ea0d.png[/img] 5/5 Grammar is a vital aspect to use when forming up a guide. The author uses proper grammar throughout the guide in order to ensure that the reader has the clearest understanding possible and to make it look professional enough for people to actually enjoy, like me.

[img]http://upit.cc/images/50e1b4f4.png[/img] 4/5 This relates to the layout most often. Due to the fact that every page is organized and easy to read through as well as the basic and slow steps the author gives, it makes any reader of this guide understand what the author is trying to explain.

[img]http://upit.cc/images/99eae7f1.png[/img] Overall, this E-Book is unique. It stands out from other books by just a few steps. If you are looking for a guide with astonishing grammar as well an informative guide that begins from a beginner level then this is for you.

Qwazz - January 15, 2011, 3:21 pm

=====

Title: Adf.ly Unqiue Method

Price: \$11

Pages: 4

Author: Nimuel Oswal

Reviewer: Qwazz

=====

[img]http://upit.cc/images/82278841.png[/img]

3/5 ???

The quality of information was a little hard to understand. The author of the eBook lacked important informations on certain steps, which makes the method not nearly as easy as stated.

[img]http://upit.cc/images/50e1b4f4.png[/img]

2/5 ??

This method isn't easy by any means. Prior to even beginning to use the method you should expect anywhere from 5-10 hours to get everything set up. With this method you will not see results with in the first couple hours it takes a few days of work to get any real results on your profile.

[img]http://upit.cc/images/aea97688.png[/img]

4/5 ????

This E-Book has the standard layout of most E-Books. With a very easy t all. The unique factor about this E-Book is the nice font, which makes it easy to read.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

2/5 ??

There are quite a few grammatical mistakes, both in the E-Book's structure and punctuation. Most of the are simple mistakes the author should/could have easily fixed before publishing this E-book.

[img]http://upit.cc/images/a7bd16f6.png[/img]

1/5 ?

This method has been pubic for some time now, in this E-Book there is a slight tweak to the method but overall it's still the same. If you are willing to put in a significant amount of time and effort you will be able to profit as the author did, but if you're looking for quick easy money look elsewhere.

[img]http://upit.cc/images/99eae7f1.png[/img]

This E-book is on a public method with a few alterations to it. The method requires an extensive amount of both time and effort to make a large sum of money as the author did.

Opulence - January 15, 2011, 3:55 pm

[img]http://ploader.net/files/46dd2e10e2721baa2b6c46c11469995b.png[/img]

[img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

The user 'YouSuckzz' has obviously put an effort into this free e-book, with plenty of text and lots of screenshots.

[img]http://ploader.net/files/716ca4e758bb5d4a6a9a46ea5374d6a5.png[/img]

[img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

The writer of the e-book is Dutch, but the grammar is far better than what you'd expect finding in a free e-book. There's only a few 'an' or 'a' mistakes in the e-book and you'd have to have eyes of a hawk for grammar to spot such.

[img]http://ploader.net/files/c1e3de38fe5a16db458893c60a58e0d1.png[/img]

[img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

Nothing explains things easier than screenshots, combined with text. Overall, a very easy e-book to follow.

[img]http://ploader.net/files/c7906c0649dacd8c42aec119d95d9af5.png[/img]

[img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

The e-book has the info, and a layout perfect fitted for sales, so it's only fitting for us to 5star it for the great layout seeing as it's free.

[img]http://ploader.net/files/80892f0888e82fea4839a9c75a00e624.png[/img]

[img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

For as long as I've been on HF, I haven't seen an e-book using this method. 5star for originality.

Ending Notes

The e-book is by far the best free one I've ever seen. It delivers what it promises, and gives us so much more. The writer has given us the time, and effort to also include much more tools to make sure we get free 48 Hour codes time after time. Great for the experienced users, and even greater for the newbies. With this baby, I got close to a hundred always-working 48 Hour codes and it worked for months. It was a great time to be on HF.

G4ngst4 - January 15, 2011, 4:35 pm

Title:How to Get Massive Youtube Traffic

Price:Free

Pages:5

Author:[sami_shaikh](#)

Reviewer:[Life](#)

[img]http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Quality.png[/img][img]http://img707.imageshack.us/img707/7445/star5c.png[/img]

The quality of this eBook is wonderful, the writer goes into detail on every little thing.

He even gives some suggestions and examples to help better results. Readers will have no questions after reading the information in the eBook.

[img]http://ploader.net/files/c1e3de38fe5a16db458893c60a58e0d1.png[/img]

[img]http://ploader.net/files/ce0e7c7521e86291210cce350a6a421e.png[/img]

Although theoretically anyone could do this, it does take some creativity. Creativity that some may lack.

But if the reader puts enough effort into this, it can be easily done.

[img]http://upit.cc/images/aea97688.png[/img][img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]

The eBook has a very simple and easy-to-follow layout. However it does not have much color and has no images.

If those two elements were included I would give this a 5/5.

[img]http://upit.cc/images/5fe7ea0d.png[/img][img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]

The grammar in this eBook is fairly decent. Although I could find a couple of errors on each page, it does not make the eBook any harder to read.

A few times he did not capitalize "I" and he used "gonna" and other slang terms. But again, the eBook is still easy to read.

[img]http://upit.cc/images/a7bd16f6.png[/img][img]http://ploader.net/files/ce0e7c7521e86291210cce6350a6a421e.png[/img]

The eBook is not very original. Many aspects explained are known to many people and things that most people could think of on their own.

This eBook just goes into more depth.

Notes

I would suggest this eBook to anyone wanting to increase views on his or her YouTube channel.

As stated before, some of what is explained is common knowledge. But readers will definitely learn something new to help their channel.

Thank you for reading my application.

Title: How to Grow Marijuana

Price: Free!

Pages: 7

Author: Unknown (From the Internet)

Reviewer: Respect

==

[img]http://upit.cc/images/82278841.png[/img] 5/5

Overall, this was a very good quality guide. It was in a .pdf, with a nice layout.

No clutter or unnecessary pictures. Simple black and white text, overall easy on the eyes and a very good read.

There were no spelling mistakes or grammatical errors either.

Like I said, it was written in a .pdf which brought up the quality a bit.

[img]http://upit.cc/images/50e1b4f4.png[/img] 5/5

Once you acquire the needed materials, it would be very easy to follow this guide to grow your own Marijuana for either Medical, or Personal use.

Although Illegal in some countries, it is also Legal in many as well. It goes through step by step on what to do, how to prevent bugs, and much more!

[img]http://upit.cc/images/5fe7ea0d.png[/img] 5/5

I read the entire guide, and I saw no grammatical or spelling mistakes at all. Proper English was used, and to be honest I was surprised at just how professionally written it was. Obviously written by an expert.

[img]http://upit.cc/images/aea97688.png[/img] 5/5

As previously stated, It was laid out very nicely.

The combination of simple colors (Black & White), No crazy/large pictures, and appropriate spacing made for a very nice and easy read.

[img]http://upit.cc/images/a7bd16f6.png[/img] 3.5/5

Well, Quite obviously "Growing Marijuana" isn't original. Although I haven't seen any other well written, easy to read guides on this topic online. If someone wanted to properly know how to grow Marijuana, this is definitely the guide I would suggest, Plus it's free!

[img]http://upit.cc/images/99eae7f1.png[/img] 4.5/5

I give this guide an easy 4.5 / 5. Well written, easy to read, straightforward and doesn't come off topic at all. I would definitely suggest this to interested would-be growers.

Tha Sneak - January 15, 2011, 5:11 pm

Title: Hacking the Xbox 360 For Dummies

Price: Free

Pages: 96

Author: Textbook

Reviewer: Tha Sneak

[img]http://upit.cc/images/82278841.png[/img]

5/5

It is a great and very detailed eBook containing many different tutorials on modifying a Xbox 360 console as well as explaining certain parts of one. It also includes tutorials for backing up and performing the modifications safely.

[img]http://upit.cc/images/50e1b4f4.png[/img]

4/5

This eBook is pretty advanced, but it explains it in a way a beginner will know what is going on. I would definitely recommend a person to have some general knowledge about computers and Xbox 360s.

[img]http://upit.cc/images/aea97688.png[/img]

5/5

The layout looks very professional and the pictures and charts are extremely helpful in recognizing certain parts which will help eliminate the mistake of misidentifying parts.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

5/5

The grammar is perfect and is very professional. There aren't any grammar mistakes or spelling errors in the entire eBook.

[img]http://upit.cc/images/a7bd16f6.png[/img]

4/5

There are quite a few eBooks similar to this one, but this one is superior.

[img]http://upit.cc/images/99eae7f1.png[/img]

The eBook looks very professional made and it was very down to the point on everything. I learned a lot about the Xbox 360's firmware from it.

Title: How to Talk to Women
Price: \$17
Type: eBook
Pages: 28
Author: Leonardo DaVinci
Reviewer: U.S. Government

=====

[img]http://i.min.us/iecTag.png[/img]
[img]http://i.min.us/idZal6.png[/img]

The quality of the information in this eBook is great overall, but there are a few tidbits that seem to either repeat itself, or just seem to be inconsistent with the overall topic of this eBook. There are parts where the author babbles on just a little too much and goes off-topic which may confuse some readers. I also noticed that there are parts where the author doesn't inform you what to do or say at certain key points in a conversation, and you are left wondering what to do or say next. My personal opinion is that the author purposely left this information out so that the reader doesn't appear incongruent in a woman's eyes when he's communicating with her. The author really wants the character of the reader to shine, and not just appear to be some kind of robot speaking linear. Overall though, his methods are great and I can very well see his conversation topics and rapport building tactics working given the right situation and with the right woman.

[img]http://i.min.us/idZg9U.png[/img]
[img]http://i.min.us/idZctE.png[/img]

This eBook explains methods that are very easy to use, and it only requires you to have enough guts to go out and do it. It's important to remember that this is NOT an eBook on how to build up confidence to talk to women. The author lists a plethora of interesting conversation topics that are specifically tailored for women. These are meant to engage their interest, thinking, and engulf them in juicy conversation which then anchors those positive emotions generated from that, to you; it's brilliant. In fact, I have already tried one of his topics and I had a girl - whom I thought was shy - talk

her butt off to me and drill me with questions about myself! Put simply, it works. I rated this five stars because it's very easy to do. Just pick a topic from the eBook and shoot, you really can't get much simpler than that.

[img]<http://i.min.us/idY2f2.png>[/img]

[img]<http://i.min.us/idZctE.png>[/img]

The layout in this eBook is beautiful. It is very easy on the eyes and has a background that isn't a full blown black or white color where it can strain your eyes. It has an old Sepia feel to it and I actually feel that the author did this purposely to fit the topic of the eBook. The spacing and paragraph use is excellent which also makes this very easy to read. If you're like me, you dislike those long, ten sentence paragraphs where everything is just jumbled together in one huge piece. The author doesn't do this at all. It is very easy on the eyes and very well pieced together. Good job.

[img]<http://i.min.us/ied5w0.png>[/img]

[img]<http://i.min.us/iedb6C.png>[/img]

Unfortunately, this is where the eBook is severely lacking but I don't think that it warrants it unreadable or unusable. There are a ton of spelling and grammatical errors in the eBook, but for the most part, you will still understand what the author is talking about. His use of "your" instead of "you're" and "its" instead of "it's" are common and easily noticed throughout the eBook. Not only that, but there are plenty of spelling mistakes that make it seem like the author rushed to piece this together and sell it. Common misspellings such as "efect", "tomorrow" and "bak" make the eBook appear childish in this light. It's not a deal breaker but something that prospective buyers should be aware of.

[img]<http://i.min.us/iecQRY.png>[/img]

[img]<http://i.min.us/idZctE.png>[/img]

I have yet to see an eBook use the methods that he describes here which makes this, to me, original. What I like best is that the originality in this eBook also helps you create your own conversation and rapport building topics by spotting the "trend" in which this eBook uses. After going through the eBook and then trying the methods, you start to naturally get better at talking to women and begin to notice what is, and isn't, an interesting topic to bring up while in conversation. Also, it's important to note that this eBook topic alone is original because there are not many on Hack Forums that are like it.

Notes:

There is something that needs to be clarified for those who are too egotistical to purchase this eBook. If you're having trouble talking to women and seem to never be able to keep a woman interested then I recommend you give this eBook a shot. Don't be so narrow-minded to put this down if you're having trouble in this area. You may be amazed with the results you get from this. I have personally tried some of the methods outlined in the eBook and I can vouch to say that it works. And the best part is that I am now starting to see what REALLY gets a women talking and even lead them into divulging some interesting and sexy parts of their sex life and what they want a man to do to them.

Overall, great eBook and great information. Highly recommended. Just be prepared to fill in the blanks on some parts because only your unique character will be able to really shine on those parts which is what you want, and what women want.

Title: "Make \$150+ Per Day"
Price: \$10
Pages: 10
Author: Scrandom
Reviewer: Streeream

==--==--==--==--==--==--==
==--==--==--==--==--==--==

[img]http://upit.cc/images/82278841.png[/img]
(Quality) 5/5

I've never seen an ebook with such great quality. It's simple and easy to read, but gives a detailed guide on how-to earn 150+ per day using the method.

[img]http://upit.cc/images/50e1b4f4.png[/img]
(Ease of Use) 5/5

The method shown in the ebook is extremely easy to complete and it's surely going to help you earn 150+ per day. The simple detailed guide tells you everything you need to know about what you are doing and what everything means.

[img]http://upit.cc/images/aea97688.png[/img]
(Layout) 2/5

You could say, it needs improving. The ebook contents is not organized in a way for the reader to clearly understand the method. All the text is centered and it could use a few more images on the sides for a better layout.

[img]http://upit.cc/images/5fe7ea0d.png[/img]
(Grammar) 3/5

The ebook has incredible grammar. It's easy to read and you won't be saying, "uh this doesn't make sense" - However; there are a few bits which don't have great grammar which brings the grammar factor down.

[img]http://upit.cc/images/a7bd16f6.png[/img]
(Originality) 5/5

I've never seen the method before. It's new and extremely easy. It's a unique method you need to try.

[img]http://upit.cc/images/99eae7f1.png[/img]
(Notes)

Awesome. I highly recommend this ebook. It has great grammar, it's original, unique and easy to use. However, the layout isn't as good as it could be, but otherwise, it's a great ebook to check out if you need to make some quick money online.

Kondry - January 15, 2011, 7:54 pm

===== Title: How to Social Engineer Foreigners
Pages: 10
Price: \$15

Author: Dlos

Reviewer: Kondry=====

[img]http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Quality.png[/img]

5/5

[img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img] The quality of this eBook is outstanding. The author did a wonderful job of explaining every detail and making sure it is understood well. It is quite evident that the author took his time and put in great effort when creating his eBook. A lot of races and different methods are covered in great detail. Not only that, but the author provides the reader with external links to further expand the reader's knowledge of that specific race.

[img]http://upit.cc/images/a7bd16f6.png[/img] 5/5

[img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img] I have never seen an eBook about social engineering specific races in my life, thus it is quite original. Although a lot of the methods mentioned in this eBook have been mentioned in other social engineering eBooks, the way the methods were explained the amount of great detail put into each and every method, makes it much better than the others.

[img]http://upit.cc/images/aea97688.png[/img] 4/5

[img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img] It is quite evident that the author planned the layout of this eBook with great caution. It is extremely easy to use and understand. Every race has its own section and it is very easy to distinguish where each section begins and ends. The colours used are exceptionally easy on the eyes and appealing at the same time. The spacing and alignment used in this eBook is wonderful, making it easy for the reader to understand better.

[img]http://upit.cc/images/5fe7ea0d.png[/img] 3/5

[img]http://ploader.net/files/ce0e7c7521e86291210cce350a6a421e.png[/img] Grammar has got to be the most essential portion in regards to writing an eBook. It has a huge impact on the overall quality of the guide. Unfortunately the grammar used in this eBook was not as great as it could have been. Although there were many spelling and grammatical mistakes, that doesn't classify the eBook as unreadable.

[img]http://ploader.net/files/c1e3de38fe5a16db458893c60a58e0d1.png[/img] 4/5

[img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img] I found this eBook quite easy to use. The fact that everything was organized in sections and colour coded made it even easier to use and understand. It would be very hard for the reader to get lost while reading the eBook as the author is always going back and referring to previously mentioned facts.

Notes: This eBook is a great read and I would recommend it to whoever enjoys social engineering. It is very effective and unique even though it has grammatical flaws.

Syed - January 15, 2011, 8:19 pm

==-----==

Title: [How To: Make \\$50 a day with Neobux!](#)

Price: Free

Pages: 2

Author: [Zynx](#)

Reviewer: Syed

==-----==

[img]http://ploader.net/files/46dd2e10e2721baa2b6c46c11469995b.png[/img][img]http://ploader.net/files/ce0e7c7521e86291210cce350a6a421e.png[/img]

Although the premise of this e-book is fairly simple, the writer of the e-book clearly has not put a desirable amount of effort into the book to achieve a higher rating, it is straight and to the point and

has no images, nor does it have any color or anything that you can remember it with.

[img]http://ploader.net/files/716ca4e758bb5d4a6a9a46ea5374d6a5.png[/img][img]http://ploader.net/files/4d73dd6f3e01ed26cc2844d856d631b8.png[/img]

The grammar in this is terrible. I could count 20 off the top of my head, there are many mistakes with capitalization and spelling. The punctuation is not the best either.

[img]http://ploader.net/files/c1e3de38fe5a16db458893c60a58e0d1.png[/img][img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]

The actual method is particularly simple, as said before the ebook achieves what it needed to in regards to the actual method, and the method is extremely easy to do. If done correctly you could make \$50 a day.

[img]http://ploader.net/files/c7906c0649dacd8c42aec119d95d9af5.png[/img][img]http://ploader.net/files/4d73dd6f3e01ed26cc2844d856d631b8.png[/img]

This is a very weak point of this ebook. The layout is not very good, or appealing. No color or creativity were added to make this ebook stand out, as this is a topic that many have written ebooks about, I'd expect it to have some sort of aesthetic value to it.

[img]http://ploader.net/files/80892f0888e82fea4839a9c75a00e624.png[/img][img]http://ploader.net/files/ce0e7c7521e86291210cce350a6a421e.png[/img]

I have read many ebooks about "Neobux" and the whole topic seems played out, I can almost bet that with a quick google search you can find the same methods, as they are pretty common knowledge.

Notes:

It should be noted that, this whole method, in my opinion is just a way for the writer to make more money. It is actually mentioned in the ebook that such acts could make you money.

Title: How to Obtain Apple Products for free

Price: \$20\$

Pages: 4

Author: Hanzo

Reviewer: Time

=====

[img]http://ploader.net/files/46dd2e10e2721baa2b6c46c11469995b.png[/img]

[img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

As soon as you open the eBook you know there was a lot of time spent into writing it. The quality of the information is superior to some of the other e-book that I have purchased and read. I was quite shocked at the quality being this high. There are links on the side to give a better understanding of what is going on. As well as words hyperlinked in case you do not know the true meaning of the phrase or sentence.

[img]http://ploader.net/files/c1e3de38fe5a16db458893c60a58e0d1.png[/img]

[img]http://ploader.net/files/ce0e7c7521e86291210cce350a6a421e.png[/img]

With limited information accessible you might have to research the topic unless you are familiar or have prior knowledge in the field of social engineering. On a good note I noticed that this e-book is US only, it can be used anywhere in the world where apple products are sold. This insures that no matter what your first language is you will be able to successfully use this e-book. To make it even easier there is nothing required besides a computer so anyone can start right away after purchasing.

[img]http://ploader.net/files/c7906c0649dacd8c42aec119d95d9af5.png[/img]

[img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

The layout is quite astounding, I would not be surprised at all if this was done by a professional or someone very experienced in writing e-books and it really makes you feel like the author put the time needed into making sure the customer is happy with his/her purchase. The extra time that was put into this really is what makes this e-book special. It is balanced in every way, just the right amount of images, text, and even audio/video clips. The layout is really on another level compared to the majority of eBooks I have viewed.

[img]http://ploader.net/files/716ca4e758bb5d4a6a9a46ea5374d6a5.png[/img]

[img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]

The grammar is also at the same level effort wise with the layout. The e-book was obviously read multiple times by most likely more than one person to assure there is nothing grammatically wrong and that all of the links are up to date and working. The only recommendation I could give for improvement in this category is to make some of the information more simplistic to allow foreign members to understand it better as it is written with such a high vocabulary level.

[img]http://ploader.net/files/80892f0888e82fea4839a9c75a00e624.png[/img]

[img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

This is truly where the e-book exceeds, I've never heard or seen this method and I'm fairly up to date with apple product e-books. The author has made it quite clear through how secure the e-book is that this is a private method and he guarantees that you will find no other method like it. Most e-books of this originality sell sometimes for more than 60\$! As of now this is the best method on the market especially with the price.

Notes

This e-book really is one that I can assure is "Worth the money" I feel privileged that I was even able to review an e-book like this. If you are having any worries that you are not old enough or that you don't have the speaking skills to perform such a task, think again. The e-book is really centered around making it accessible to anyone and it still manages to do this even with being such an original method.

[img]http://upit.cc/images/82278841.png[/img]

[img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

Every great ebook is based on the 'quality' information it has, rather than just quantity. This ebook was just 7 pages long, but I have to say that this ebook is one of the best ebooks I have ever read. It looks like the author has put it in a lot of effort and his determination has paid off quite well.

Whatever the author wants the reader to know, the author describes it clearly and with perfect grammar, along with pictures, wherever necessary, thus, is able to get the message across easily.

[img]http://ploader.net/files/c1e3de38fe5a16db458893c60a58e0d1.png[/img]

[img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]

You don't need any prior knowledge to get this method working for you on the first day. The author outlines the things necessary to do that job in the introduction in an orderly manner, so that the reader knows what they have to do. The ebook is written in a way, that even a newbie can accomplish what the ebook offers i.e 'Get free iOs Apps without jailbreaking.' Now, you'll ask me how is this possible? A very simple answer to this is, that the ebook gives pictures along with the explanation of how to complete each task. All the steps mentioned are elaborated upon individually, so that there is no chance of any confusion. Besides this, It can be used by anyone around the world as you just need an iTunes Account. Your account will be completely safe, so you do not have to fear a ban.

[img]http://ploader.net/files/c7906c0649dacd8c42aec119d95d9af5.png[/img]

[img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]

The layout is great, similar to what a professional or a well-learned ebook writer's work would look like. Every step is supported by a image just below it, which shows that the author knows the advantages of 'Picture Communication.' The font used is clearly readable and the use of different colors make the ebook look lively; above all, It is easily readable. Graphics, pictures, hints,

instructions gives you a complete package of a great layout, what more can you expect.

[img]http://ploader.net/files/716ca4e758bb5d4a6a9a46ea5374d6a5.png[/img]

[img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

Grammar was near perfect in this ebook, portraying how well skilled the author is in English Language. I didnot come across a single bad sentence structure, or punctuation mistake or use of wrong tense. The grammar used was simple, as the author didnot try to show off his grammar skills instead wanted to make it easy for the reader to understand.

[img]http://ploader.net/files/80892f0888e82fea4839a9c75a00e624.png[/img]

[img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

I will rate this ebook 5/5 on Originality, the obvious reason being that It is a method I have never thought of or have ever read across the Internet before. I have an Ipod Touch myself, so you might expect me to know such stuff. Honestly speaking, I knew nothing of this sort and always thought the a 'Jailbreak' was necessary to get free apps. Remarkably, the apps are downloaded directly from the Appstore, without even paying for it. It looks like the author used his time well to think of this method himself, and then tried to implement it, which he was successful with, in the end.

Notes:

All in all, I will regard this ebook to be a great one, as everything is presented in a neat manner and the method is easily understandable. Links have been provided inside the ebook inorder to make it easier for the reader, to get what he wants. You don't have to jailbreak as you get Free Apps, directly from the Appstore. No one wants to jailbreak his ipod/iphone/ipad, as it voids the warranty, so I will recommend this method for being the best and the most suitable one. I have personally tried this method, believe it or not, the method actually worked. Get this ebook while you can, this method is worth the money.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

5/5

I loved how easy I was able to simply jump in and read it, and immediately I knew how I was going to be apply all the techniques with ease. I slightly modified the suggestions to fit my personality, but overall it was quite easy to follow.

[img]http://upit.cc/images/aea97688.png[/img]

5/5

The layout was very done professionally and with state of the art graphics that made it easy to read. The colors of the text matched and coordinated well with the surroundings.

[img]http://upit.cc/images/99eae7f1.png[/img]
5/5

Grammar was as good as a dolphin able to leap out of the water freely and happily. Perfect image. I could not find a single mistake in any of the organized structure provided by the author.

[img]http://upit.cc/images/a7bd16f6.png[/img]
5/5

I will say that I had never seen anyone even considering writing over this subject since it's normally disregarded by many as childish, however I found myself very fond on the suggestions to make one's life, your everyday loved ones, and friends much happier to have you around. I was very attuned and intrigued to all the suggestions to keep me laughing and positive.

[img]http://upit.cc/images/82278841.png[/img]
5/5

I would suggest this e-book for anyone who is going through a rough time to remind them of how to stay positive and always look at the bright side in life with humor.

Title: Hacking the Xbox 360.

Price: Free

Pages: 96

Author: www.360mods.net

Reviewer: Outlaw.

==

[img]http://upit.cc/images/82278841.png[/img]
5/5

This E-book is well thought out and written. It is also very well organized.

[img]http://upit.cc/images/50e1b4f4.png[/img]
4/5

I give Easy of Use a 4 out of 5. This does not have anything to do with the E-book itself more that it depends on the abilities of the reader.

[img]http://upit.cc/images/aea97688.png[/img]
5/5

I give lay out a 5 out of 5 because it is very well laid out with an in-depth table of contents and well laid out sections.

[img]http://upit.cc/images/5fe7ea0d.png[/img]
5/5

I give grammar a 5 out of 5. The author(s) of this E-book did not make any grammatical errors while

they typed all 96 pages of this E-book.

[img]http://upit.cc/images/a7bd16f6.png[/img]
3/5

I gave originality a 3 out of 5. This is for the fact that there are all ready many E-books out on Xbox 360 modding. Although this one is by far the best I have read.

[img]http://upit.cc/images/99eae7f1.png[/img]

Overall, this E-book is the best Xbox 360 modding guide I Have read. The overall rating of the whole E-book would have to be a 5 out of 5.

Price: \$4.99

Official Reviewer: [Slug](#)

=====
[img]http://upit.cc/images/82278841.png[/img]
????

4/5 Stars

Quality of Information: All information mentioned has been brought across very well to appeal to even the noobiest of readers, the author explained everything in as much detail needed and included personal experiance to make things clearer yet some visual aids would have helped incase some people can't locate some of the needed tools.

[img]http://upit.cc/images/50e1b4f4.png[/img]
????¹/₂

4¹/₂/5 Stars

Ease of Use: The ease of use was nearly a full 5 stars, it takes a usual user after reading the e-book once 30 minutes to set-up only one time then it is on auto-pilot but will probably need a weekly check to make sure everything is still fine but some visual aids would have helped more.

[img]http://upit.cc/images/aea97688.png[/img]
???

3/5 Stars

Layout: This is where the e-book lacked, he only used bullet points, no colour, no images and presented it in a Word document which may not work with previous versions of Word, but it was still very readable.

[img]http://upit.cc/images/5fe7ea0d.png[/img]
?????

5/5 Stars

Grammar: Really simple, I saw nothing wrong with the grammar, perfectly fine.

[img]http://upit.cc/images/a7bd16f6.png[/img]
????¹/₂

4¹/₂/5 Stars

Originality: I have never seen this method before to spread using Java Drive-by, the method in which to gather traffic is extremely unique but may get saturated after the release of this and some resources used are well know when setting up.

[img]http://upit.cc/images/99eae7f1.png[/img]

I would have personally bought this e-book if the price stayed at \$5, you are getting a lot of information and a unique method with the authors personal experiance included, the layout, lack of

pictures and some well known resources shouldn't put you off from buying this but if you are getting a healthy amount of drive-by's and have spreaded to thousands already then you may be better off sticking with your own methods. =====

Overall Rating:

????

4/5 Stars If you have any questions involving the E-Book then feel free to PM me.

Official Review

Title: How to successfully revert any Hotmail account

Pages: 25

Price: \$2,46

Author: Amaru Shakur

Reviewer: Virtualization

[img]http://i.min.us/iblyik.png[/img]

Apart for the eBook being an Office document, the author made an impression on me by showing his modern web graphics. The product contains legible pictures, one of the main advantages of this is that if the reader doesn't understand the eBook by reading the paragraphs it shouldn't create an issue because of the clear pictures. The font is perfect, it's not a common used one, therefore it is very eye-appealing in my eyes. Main words are bolded, titles are in different colors, quotes are cursive and a lot more effects are used. You got me excited before even starting to read the content, definitely a plus point. Looks like you worked hard on this eBook with success, the author showed several signs of quality in his eBook when it comes to modern web graphics.

[img]http://i.min.us/ibMMUG.png[/img]

The quality was literally perfect, the content shows how Hotmail works and how to manipulate the administrators. It was straight to the point and it was an excellent study booklet. The author clearly knew where he was talking about and which areas were most important, it definitely helped me to understand the concepts. The author provides numerous concepts regarding Hotmail, he didn't just tell the readers what to do, he even told how Hotmail acts with these situations. Beginners are able

to learn about Hotmail, it is a long-term process. It would probably take you approximately thirty minutes to set-up and eventually you would have to wait for a response. There were some sentences which confused me, the pictures made these sentences clear for me. Overall the eBook gets to the point with an easy way to understand the manor. If English isn't your primary language it shouldn't form a problem because of the clear pictures and paragraphs, my compliments.

[img]<http://i.min.us/ibMcbU.png>[/img]

The grammar was obviously at a high level, I did find some errors with the a/an rule but that was because of the H vowel. Some sentences were hard to understand, but that shouldn't be a problem. I am satisfied with the spelling/grammar of the eBook, it's perfectly understandable for the average PC user. Overall the grammar was far above the average, there were some sentences which made the text corrupt because of the flow though. We came clean to the point, that's where it mainly goes about.

[img]<http://i.min.us/iblpBG.png>[/img]

The eBook was written with a lot of experience, at least that is what I read in the content. The ease of use is written and formatted in a way that even the reader with a limited knowledge about Hotmail would be able to revert a Hotmail account. Prior knowledge about Hotmail isn't a must in order to understand the concepts, any operating system is available for this eBook. You need approximately thirty minutes to one hour to collect, obtain and transmit all the data that is needed in order to accomplish. The author has done an excellent job by providing clear pictures which make the situation clear for the reader.

[img]<http://i.min.us/idYAW6.png>[/img]

The eBook isn't something new, it's well known by most of the users of this forum. You're might wondering why this is something different, the author goes deep and explains important steps that must be taken to ensure your success rate. The idea is quite simple, it can be used for educational purposes and for illegal purposes. Although the technique is public, the author added specifically details and explanations. By doing this, it's obviously greater than all the other eBooks/guides on the World Wide Web.

[img]<http://upit.cc/images/99eae7f1.png>[/img]

I suggest you to buy this eBook if you're interested in gaining knowledge and possibly experience about Hotmail and their techniques. The price is definitely an exclusive plus point, it's not expensive and you get in replacement for your money a highly detailed eBook where you almost can't fail by following the steps. I have tried this method myself and I have retrieved several Hotmail accounts of members on this forum that lost their account, Texno and Koolhunk are just two examples of the members that I've helped with this eBook. I strongly suggest you to purchase it if reverting Hotmail accounts is something for you, the success rate is extremely high when you're using this eBook. The grammar and the layout were literally perfect, the content is quite public though. My compliments to the author for creating this beautiful piece of art, you've accomplished something in my opinion. Four complete stars for the product, congratulations.

Spoiler ([Click to View](#))Additional information

I am willing to become an Official Reviewer because I'm ready for the next step, I am acting my entire HackForums carrier professional and I hope to keep it like this. I have canned speeches ready to use in the future if I get picked, I will use them in appropriate situations. I am ready to review eBooks within 48 hours, I spend at least four hours a day on my personal computer. I agree with all the rules stated in the thread, this includes the rules in the Help Documents. The main reason why I am interested in joining the Reviewers Group is because I am interested in spending time online while learning and improving my grammar/spelling, I'm currently following a bilingual education in Amsterdam. I like reading, finding and writing summaries. I rather like to write these reviews/summaries online than on paper, the Internet has much more features when it comes to effects and layouts. Another reason why I am interested in becoming an Official Reviewer is because of the many pyramid schemes in the eBook Bazaar, people are receiving poor products in exchange for a lot of money. I hope that my application will be reviewed, it took me a lot of time to write this review. I am ready to make real reviews just like this one. Thank you for reading my application.

Copy everything in the quote below and paste it in the description of a post, after doing that press Preview Post to see all the pictures with all the ratings from 1-5.

The Weeknd. - January 16, 2011, 3:13 pm

Review (Ratings on a scale of 1-5)

==

[img]http://upit.cc/images/82278841.png[/img]

5/5

The author gave all the possible informations needed to set up the method.

All is very detailed and supported by walkthrough screenshots.

[img]http://upit.cc/images/50e1b4f4.png[/img]

4/5

Even though the whole method is explained at its best, it isn't really noob-friendly. Over 5 steps to follow, there is one in particular in which the user must apply some of his knowledge.

[img]http://upit.cc/images/aea97688.png[/img]

5/5

The layout is very well-structured and its template is very tidy and clear.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

3/5

The author must not be english mother-language as I found iterated errors in different phrases. Nonetheless it's still clearly readable.

[img]http://upit.cc/images/a7bd16f6.png[/img]

4/5

I've already seen this method around but, honestly, the author mastered it in an almost perfect way it may seems unique in your eyes.

[img]http://upit.cc/images/99eae7f1.png[/img]

This is a great ebook in its genre, it looks professional and its content will not disappoint you. For the author, just make sure to improve your english skills for the next releases and you're just one step away from success.

Reviewer: Carbon

=====

[img]http://ploader.net/files/46dd2e10e2721baa2b6c46c11469995b.png[/img]

[img]http://ploader.net/files/ce0e7c7521e86291210cce350a6a421e.png[/img]

The e-book itself looks a bit rushed, there's very little introduction to the topic and there is little to no structure. While it has room for improvement, you can tell the author knows exactly what he's writing about.

[img]http://ploader.net/files/716ca4e758bb5d4a6a9a46ea5374d6a5.png[/img]

[img]http://ploader.net/files/4d73dd6f3e01ed26cc2844d856d631b8.png[/img]

I see very little sentence structure and there seems to be a few grammatical errors.

[img]http://ploader.net/files/c1e3de38fe5a16db458893c60a58e0d1.png[/img]

[img]http://ploader.net/files/4d73dd6f3e01ed26cc2844d856d631b8.png[/img]

It was short and to the point, but there was very little point and to much short. You did give references to resources that can be used, but it would have been much better to list and show them in your book.

[img]http://ploader.net/files/c7906c0649dacd8c42aec119d95d9af5.png[/img]

[img]http://ploader.net/files/ce0e7c7521e86291210cce350a6a421e.png[/img]

I did like the graphics and page structure used, but the content seemed to hold it back. Maybe a few more sections on exactly how to do what you what you were listing?

[img]http://ploader.net/files/80892f0888e82fea4839a9c75a00e624.png[/img]

[img]http://ploader.net/files/ce0e7c7521e86291210cce350a6a421e.png[/img]

While this is a very common e-book, you did go over two methods most don't and did it in a good fashion. You know what you're talking about and prove it.

Notes

While not the best e-book I've read, it's free and a good read if you are interested in Crypters.

I give your e-book a 3.0, try to use better sentence and parapragh formatting and your next e-book will be a hit. ^.^

Title: How to Impress your Friends with Pen Spinning

Author: Darfur

Review (Ratings on a scale of 1-5)

==

[img]http://upit.cc/images/82278841.png[/img] : 3/5 - The information provided was good for any beginner attempting to learn the art of pen spinning, however at some points the steps were incoherent and could not be followed with ease. The author should have broken down some steps so the user could see more clearly how the certain step was done.

[img]http://upit.cc/images/50e1b4f4.png[/img] : 4/5 - Actually, I found pen spinning quite a simple skill to master, but I believe some people may still have difficulty learning even the fundamental tricks. This e-book provided enough to get a beginner started but if anyone wanted to become a pro at spinning they would have to go to further resources to learn.

[img]http://upit.cc/images/aea97688.png[/img] : 5/5 - The layout was brilliant, in fact. The pictures were all perfectly placed and the organization of the entire e-book was fascinating. I read through it with ease and this may have been the best layout of a .PDF file I have ever laid my eyes on.

[img]http://upit.cc/images/5fe7ea0d.png[/img]: 4/5 - His grammar was almost perfect except for a few small typos, which I believe he knew how to spell. Very nice grammar.

[img]http://upit.cc/images/a7bd16f6.png[/img] : 5/5 - I have never seen or heard of an e-book on pen spinning before and the way the author presented the information was fantastic.

[img]http://upit.cc/images/99eae7f1.png[/img] : I personally am now going on different internet sources to learn more about pen spinning and developing my skills in this area. The e-book was definitely a great and engaging e-book. It's worth the price of \$5 entirely. I give an overall score of :

4/5

Jaystar - January 16, 2011, 6:17 pm

E-Book Title: Make \$150.00+ per Day!

Author: D??i????™

Pages: 9

Price: Giveaway E-Book.

==

[img]http://ploader.net/files/46dd2e10e2721baa2b6c46c11469995b.png[/img]

[img]http://img407.imageshack.us/img407/766/200px5starssvg.png[/img]

After an in-depth review of the E-Book, I have noticed many areas where the Author dedicated his time and knowledge towards. The E-Book was thorough and clear, possibly simplifying the use of the method for the future reader. All the information required to start earning quick and easy money regarding this method is easily found and located inside the E-Book just waiting to be used.

[img]http://upit.cc/images/50e1b4f4.png[/img]

[img]http://img407.imageshack.us/img407/766/200px5starssvg.png[/img]

One of the E-Books most finest qualities is the sheer fact of how simple it is to use. It is quick and effective, and I foresaw no issues prior to reading and experienced none after. The author included many variables that also will help the general reader throughout the E-Book. In my personal opinion, you need no experience at all before conducting the methods contained in this E-Book.

[img]http://upit.cc/images/aea97688.png[/img]

[img]http://img163.imageshack.us/img163/4078/200px4starssvg.png[/img]

The layout is well structured and organized. The Author used multiple pictures to balance the Ease-of-Use and possibly create a more enjoyable read for the buyer. The text and font was suitable as well as the numerous bold areas pointing out the more serious areas of the E-Book. The fonts are relatively easy to read and should not be an issue for you. I liked how the Author also included his contact information at the bottom of the E-Book in case you have any vital questions regarding the method.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

[img]http://img407.imageshack.us/img407/766/200px5starssvg.png[/img]

Throughout the E-Book I noticed no serious grammar mistakes, or spelling errors whatsoever. You can tell that the Author contributed most of his time to completing numerous spell checks and reviewing over his E-Book before releasing it. Spelling and Grammar should not be an issue for the regular buyer who speaks fluent English.

[img]http://upit.cc/images/a7bd16f6.png[/img]

[img]http://img267.imageshack.us/img267/3262/200px3starssvg.png[/img]

Over my time of researching and reading Monetizing E-Books, I have seen quite a few similar to this. However, none were this easy or effective.

Notes!

Upon reading this E-Book, I would suggest it to anyone, who wishes to put forth minimal effort into making money. The E-Book includes a small mini list of other guides the Author believes to work just as well. I honestly believe this requires no personal or prior experience for this guide to work to the full extent. During the E-Book you are required to sign up for a few small things, and you must have a valid email address. One main thing the Author did forget to include, is that [b]you are required to spend a small amount of money when using this guide. If you are not willing to do so, this guide is not for you. At the end of the E-Book, the Author includes any contact information you may need in-case anything goes wrong or you have any further questions regarding the E-Book.

Spoiler ([Click to View](#)) Thank you for reviewing my application!

Sincerely,
Explicit.

=====

[IMG]http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Quality.png[/IMG]

5/2

The quality of this E-book is very unique, with a lot of pictures and a well written and put together in a .PDF format. The E-Book was thorough and clear well written text. I found it pretty hard to find anything in the book that isn't well detailed.

[IMG]http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Ease-of-Use.png[/IMG]

5/1

This method will be easy for everybody, with pictures and a extremely well written book. This book can be read and understood by all ages, and i clear of almost all grammar mistakes. For users that are unable to comprehend the text, there are a dozen instructional pictures that come along with this book.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Layout.png>[/IMG]
5/5

The layout of this eBook isn't the best, with pictures scattered around makes it tough at times to follow what the writer had intended, but none the less OK to follow. The layout has some flaws as the PDF format messed up some of the picture placement. Hyperlinks allowed for rapid jumps to previous page references just made it even more fantastic.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Grammar.png>[/IMG]
5/3

There are a few grammar/spelling mistakes in this book, but you can still make out the words the writer misspelled, it just looks though that the writer made these mistakes by rushing, even the most beginner user would be able to easily understand the guide.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Originality.png>[/IMG]
5/1

The originality of this book is like no other I have ever seen, with a lot of informational picture, and carefully researched information that I couldn't find anywhere.

[img]<http://upit.cc/images/99eae7f1.png>[/img] [b]For everybody that wants to have a good time and read a well written book, then I would suggest this for all ages, I myself enjoyed this book.

V1RU5's Review

Title: How to spread using a Java drive-by

Price: \$20.00

Pages: 8

Author: mR Mikros0ft

Reviewer: [V1RU5](#)

(Rating Based on a Scale of 1-5)

==

[img]<http://upit.cc/images/82278841.png>[/img]
?????

5/5

Quality of Information: The method of spreading stated in this ebook using a Java drive-by is truly extraordinary. This detailed guide shows you how to easily infect victims and goes deeply inside each aspect of the method to make sure you are following through and understanding the method clearly. Background information about spreading and Java drive-by's have also been given so you may understand what is being said throughout the guide. Many tips are suggested on what you should do and what you shouldn't do so that you may be successful in infecting a large amount of victims victims.

[img]<http://upit.cc/images/50e1b4f4.png>[/img]
????

4/5

Ease of Use: Some people might find this a little difficult if they are new to spreading. But if you

know the basics about spreading and done it before, this ebook is for you. This ebook will surely increase your current knowledge on spreading and will make obtaining victims a piece of cake. It might require some setup time, but once you have set everything up, you are good to go. You can use that same setup again and again and keep spreading until you don't want any more victims. Each step is explained clearly so you may use the method efficiently and soon have the most possible victims that you can acquire within a couple of days.

[img]http://upit.cc/images/aea97688.png[/img]

????

4/5

Layout: The layout is filled with pictures and is really appealing to the eyes. Good colour and contrast is used throughout which makes the guide a pleasant read. The pictures are clearly labeled so that you may understand what is happening in each picture and the pictures help clarify each step. The only thing I disliked about the layout was that he used the yellow font on a white background for a few sentences which was quite annoying and extremely hard to read. The ebook was formatted in .pdf which is of great convenience to everyone trying to download and read it. The background was another + factor for the layout. It made the guide more enjoyable and exciting to read.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

?????

5/5

Grammar: The author did a great job on the grammar. There were clearly no spelling mistakes and all sentences were understood as soon as I read them. The author used impressive English vocabulary which was clearly easy to understand and was interesting to read. Words were written in good clear English terms and could be understood by anyone attempting to read it. The grammar was truly impressive and I would advise the author to keep up their great writing skills!

[img]http://upit.cc/images/a7bd16f6.png[/img]

?????

5/5

Originality: This is truly a never before seen method of spreading using Java-Drive by. It is unique and will be useful to everyone who needs to infect large amounts of victims. I cannot say how happy I am to find this new method of spreading which will guarantee a large amount of victims within just a few days if the guide is followed closely. This ORIGINAL method will surely help many members fulfill their spreading needs.

[img]http://upit.cc/images/99eae7f1.png[/img]

Notes: This ebook is amazing. I cannot believe how I have not seen such an amazing, unique, original, and interesting ebook on spreading ever before. I will personally be using this method as this has never been heard of and will surely help me infect a large amount of victims. \$20 is nowhere near what the price of this ebook should be. IF YOU WANT TO SPREAD, BUY THIS UNBELIEVABLE EBOOK ONLY FOR \$20 FROM mR Mikros0ft!!

????? OVERALL: 5/5 ?????

Title: APPLE PRODUCTS WITHOUT CALL-INS

Price: Free

Pages: 5

Author: Cyber-Forums

Reviewer: xSickxSkiLLs

Ratings Are Based on a Scale of 1-5 Stars. (5 Being the Best.)

=====

[img]http://img689.imageshack.us/img689/4453/qualityc.png[/img]

[img]http://img707.imageshack.us/img707/7445/star5c.png[/img]

The quality of this eBook was pretty average. The same font was used throughout the whole book for user friendliness. Odd colors were not placed throughout for eye safety. The main color is black. Things said were quoted/italicized. Very understanding if taken in any way.

[img]http://img403.imageshack.us/img403/1854/easeofuse.png[/img]

[img]http://img810.imageshack.us/img810/9315/star4.png[/img]

Social engineering is needed to follow out a few steps. Anyone can do this with a little time and mentality. It will not be that hard to succeed at doing this. Just follow it out and do not be socially shy. Anyone who puts their mind to doing this will get it with flying stars!

[img]http://img689.imageshack.us/img689/552/layoutoy.png[/img]

[img]http://img810.imageshack.us/img810/9315/star4.png[/img]

The layout of this eBook was in great standing. The only flaw of it is that it did not have a table of contents for new users upon this product to use. One could get confused if the eBook was longer. The pictures made it easier to follow and took up for what was not there. This was very easy to follow and stated everything clearly.

[img]http://img713.imageshack.us/img713/5713/grammar.png[/img]

[img]http://img824.imageshack.us/img824/2213/star5.png[/img]

I did not find any spelling mistakes threw out my whole scan of the book. Be ware this is not child friendly. It does contain curse words that few people may take offensively.

[img]http://img214.imageshack.us/img214/9278/originalityy.png[/img]

[img]http://img824.imageshack.us/img824/2213/star5.png[/img]

This eBook uses very unique methods. I have only seen one other method like this. It is very rare and uncommon. You will not find many eBooks that go into this much description on getting items for free. I believe this will work if you plan to achieve it and work for it.

Notes From The Reviewer

I suggest this eBook to anyone who is not shy. You must have patients and be ready to do the next step at point. I myself thought it was a rather extravagant eBook and will put it to test to see if it does work. It doesn't hurt to try it.

Title: Get free domain names Price: \$20 Pages: 1 Author:Unknown

--

[img]http://upit.cc/images/82278841.png[/img] 5/5 Let me start of by saying the quality was perfect. It had everything that a user would need to understand, and use for them to get what they paid for. It

had everything from a tiny dot to a big hole. It delivers exact what it is made for.

[img]http://upit.cc/images/50e1b4f4.png[/img] 5/5 This ebook was made for even a person who has no knowledge in English can understand whats going on. It not only had text, but pictures as well to know what is going on.

[img]http://upit.cc/images/aea97688.png[/img] 5/5 Simple layout, yet eye capturing. Excellently designed, it is one of the best ebooks i have reviewed. Text size were not too big, nor too small. Keeping it simple and soothing to the eyes.

[img]http://upit.cc/images/5fe7ea0d.png[/img] 4/5 The grammar however, was not nearly perfect. It had a lot of syntax error, not only on the text, but on the images as well. It is easily readable, just some spelling mistakes here and there.

[img]http://upit.cc/images/a7bd16f6.png[/img] 5/5 I have been trying to get free domain names for over two months now, and i must say i did a google search for over 40 pages, and never came across anything even close to whats to disclose in the ebook. Never seen method to me.

[img]http://upit.cc/images/99eae7f1.png[/img] I would recommend this ebook to everyone wanting a domain name. It will deliver what it is suppose to be. Grammar and its language, is also easily understandable. If you like images more than text, it has it all. Would recommend buying it.

Title: How to Build A Large BotNet And Maintain it

Price: \$30 [No reseller]

Pages: 5

Author: S3lfDe\$trukt

Reviewer: KRB

=====

[img]http://upit.cc/images/82278841.png[/img]

4/5

The quality of this E-book is very high. But it can get very indecisive at some points, if the customer has general Mal-Ware knowledge and has a clue about maintaining thousands of bots in a stable environment, this E-book is great for them. The author took time to add pictures with good details throughout the E-book which makes it simple to understand. He has steps drawn on the pictures, which are correctly placed. In all honesty he couldn't have been more specific .

[img]http://upit.cc/images/aea97688.png[/img]

3/5

This E-book does not have a reader friendly layout and is not named properly in it's table of contents. It is not organized well and thought out, but with more experience the author could probably make his future E-book's alot easier to use/reference to. It does have pictures placed in the correct places though.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

5/5

It's obvious to see that the punctuation and grammar used in this particular E-book is higher then many others I have seen around HackForums. You can tell the author has been very careful about his spelling and grammar to ensure the quality of grammar and ease of reading. Unlike some E-book's that kill your eyes to read.

[img]http://upit.cc/images/a7bd16f6.png[/img]

5/5

I have not seen another E-book of it's kind around Hackforums. It is one of the most original things I have seen here. It also complies to all of HackForums rules and even no it's not public i use this method to Maintain my thousands of bots .

[img]http://upit.cc/images/50e1b4f4.png[/img]

4/5

This E-book has pictures which help you through all the steps found in this E-book, although the details can get indecisive at various points throughout the E-book.

[img]http://upit.cc/images/99eae7f1.png[/img]

This E-book is definitely unique, and has guidelines and tips that are not known to many users. If you have a will to have a large and stable BotNet without a doubt this E-book is recommended.

Slankey™ - January 17, 2011, 2:23 pm

||
Title: How To Get Your Ex-Girlfriend Back In A Few Easy Steps

Author: [Z3r0_C00l](#)

Pages: 2

Price: FREE!

||

[img]http://ploadr.net/files/46dd2e10e2721baa2b6c46c11469995b.png[/img]

[img]http://ploadr.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]

This particular e-book's content and style exemplary, and should be a model to all other users. Granted it may not be the 'hacking' content one would be looking for on this forum, but almost everyone can relate to this particular situation. In conclusion, this e-book just rages uniqueness.

[img]http://upit.cc/images/5fe7ea0d.png[/img][img]http://ploadr.net/files/ce0e7c7521e86291210cce350a6a421e.png[/img]

To begin, while reading this eBook I stumbled upon only a few grammatical errors along with some sentence structure errors. In addition, there were a few occasions when I had to re-read a sentence because it just didn't sound right to me. In conclusion, this eBook is an easy read, and anyone with common sense would have no trouble reading it.

[img]http://ploadr.net/files/c1e3de38fe5a16db458893c60a58e0d1.png[/img][img]http://ploadr.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]

Firstly, this method doesn't tell you 'exactly' what to do but advises you the course of action that you should take and why. Which by no means is wrong considering the reader is reading this because they are in the same situation and are seeking advice. This eBook provides a wonderful method and will most likely have a successful outcome.

[img]http://ploadr.net/files/c7906c0649dacd8c42aec119d95d9af5.png[/img][img]http://ploadr.net/files/4d73dd6f3e01ed26cc2844d856d631b8.png[/img]

The layout could use quite a few tweaks, along with some major changes. The fact that the font is very generic, and the lack of paragraph format are two major down sides. There is very little color, however the basic layout gets the job done.

[img]http://upit.cc/images/a7bd16f6.png[/img][img]http://ploadr.net/files/f2853ddf82126adbab24ada75bf36e9.png[/img]

The author of this eBook couldn't of done any better on a topic choice, and in fact this is the first eBook I have ever seen that touches on the topic of reuniting with one's partner. If only there were more eBooks of this kind.

Notes:

In conclusion, the eBook has it's downsides and its up's, and I highly recommend that anyone in the situation of a break-up, read this.

Price: Free

Pages: 3

Author: Ins4n3

Reviewer: Cobalt

=====

Review

==

[img]http://upit.cc/images/82278841.png[/img]

3/5

This eBook explains how to gain your reputation very accurately. It is extremely straightfoward.

[img]http://upit.cc/images/50e1b4f4.png[/img]

4/5

This eBook is absolutely simple to understand. If you were an idiot, you'd be able to follow it.

[img]http://upit.cc/images/aea97688.png[/img]

1/5

It has very basic formatting. It used absolutely no color or pictures at all.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

3/5

It wasn't the worst grammar I've seen in an eBook. It had some errors with commas, subject-verb agreement, et cetera.

[img]http://upit.cc/images/a7bd16f6.png[/img]

4/5

I haven't seen a eBook specifically on this topic. Some eBooks have this topic in them, but their purpose isn't specifically for that.

=====

Notes:

Even though this eBook was really common sense, it is free, so I recommend it for any one who doesn't have much common sense.

Robie - January 17, 2011, 4:34 pm

Title: How to win almost any auction on Ebay

Price: \$1

Pages: 41

Author: Paradoxum

Reviewer: Robie

Review 4

==

[img]http://upit.cc/images/50e1b4f4.png[/img]

Really easy to use and understand, with good use of pictures and easy to understand wording, anyone should be able to understand this guide.

[img]http://upit.cc/images/aea97688.png[/img]

The layout is good, it isn't anything fancy but it is laid out so the information is easy to understand and not be confusing.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

The grammar is good, I only found a couple of mistakes, but they were easily overlooked if you didn't take the time to find them.

[img]http://upit.cc/images/a7bd16f6.png[/img]

The guide isn't too original for most people who have some experience with ebay, but for the people who are just starting, I am sure the information will be good for you.

[img]http://upit.cc/images/99eae7f1.png[/img]

If you're looking for a quick and simple ebook to help you win auctions on ebay, this guide will surely come in handy.

Opulence - January 17, 2011, 6:31 pm

Title: ??? How to spread torrents beastly - Ultimate guide ???

Price: Unknown

Pages: 12

Author: SpK

Reviewer: Opulence

=====

[img]http://ploader.net/files/46dd2e10e2721baa2b6c46c11469995b.png[/img]

[img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

It starts with a list of the content, a personal desire of mine in e-books. Looks neat with the list of chapters to come, and even an introduction chapter on its own.

[img]http://ploader.net/files/716ca4e758bb5d4a6a9a46ea5374d6a5.png[/img]

[img]http://img810.imageshack.us/img810/9315/star4.png[/img]

There's hardly any pictures in this 12 pages e-book, so you're bound to find errors in the grammar, but there's so few of them.

[img]http://ploader.net/files/c1e3de38fe5a16db458893c60a58e0d1.png[/img]

[img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

The e-book is pretty easy to follow, the writer uses many examples for the steps and tips. It's as easy as it gets.

[img]http://ploader.net/files/c7906c0649dacd8c42aec119d95d9af5.png[/img]

[img]http://img810.imageshack.us/img810/9315/star4.png[/img]

The e-book is divided in chapters, and sections which is great. Some of the chapters could have had better format to make it easier for the eyes when reading, while others were great.

[img]http://ploader.net/files/80892f0888e82fea4839a9c75a00e624.png[/img]

[img]http://ploader.net/files/ce0e7c7521e86291210cce350a6a421e.png[/img]

I'm not sure if it's only me, but it seemed to me that most of the hints, tips and tricks in this e-book were common sense if you're already familiar using torrent-sites. I did however learn a few new tricks, so I'm sure this would be of great value to newbies, and some pro's.

Ending Notes

If you're new to spreading, or are having trouble getting your first bots, this is the e-book for you. However, if you have a decent amount of bots already, just improve your own method. Either way, if you buy this e-book, you'll still feel like you made an ok deal. 4.2/5 for the e-book.

Title: How to stop Chargebacks and Win Disputes(Paypal)

Price: \$10 [No reseller]

Pages: 5
Author: wisd0m
Reviewer: wisd0m

=====

[img]http://upit.cc/images/82278841.png[/img]
3/5

The quality of this E-book is not very high. It can get very vague at some points. If the buyer has general paypal knowledge and has a clue about disputes this E-book is great for them. The author took time to add pictures with good details throughout the E-book which makes it a lot easier to understand. He has steps drawn on the pictures, which are correctly placed. If the author took a little more time to add detail it would be a problem free E-book.

[img]http://upit.cc/images/aea97688.png[/img]
3/5

This E-book does not have a very easy to use layout and is not named properly in it's table of contents. It is not very well organized and thought out, but with more experience the author could probably make his future E-book's alot easier to use/reference to. It does have pictures placed in the correct places though.

[img]http://upit.cc/images/5fe7ea0d.png[/img]
5/5

I have to state that the punctuation and grammar used in this particular E-book is higher then many others I have seen around HackForums. You can tell the author has been very careful about his spelling and grammar to ensure the quality of grammar and ease of reading. Unlike some E-book's that kill your eyes to read. The buyer has used perfect sentence structure throughout the E-book. Some parts are not detailed enough.

[img]http://upit.cc/images/a7bd16f6.png[/img]
5/5

I have not seen another E-book of it's kind around Hackforums. It is one of the most original things I have seen here. It also complies to all of HackForums rules.

[img]http://upit.cc/images/50e1b4f4.png[/img]
2/5

This E-book has pictures which help you through all the steps found in this E-book, although the details can get vague at various points throughout the E-book. The E-book has a very bad table of contents and the text is just black on a white background. Also the pages are quite disorganized.

[img]http://upit.cc/images/99eae7f1.png[/img]

This E-book is one of a kind, and has methods that are not very known to many users. If you have knowledge in English and understand what is going on, It is very easy to read and use this E-book. Notes not regarding the review:

I would very much like to help better the E-book section and allow users to purchase E-books knowing the reviews done of them reflect the actual contents of the E-book. It is a hard task which I am ready to undertake. I wish to make the E-book bazaar section a safe environment for HF buyers. I myself do not care for gaining free E-books as I have no problem with money. I mainly wish to be able to help out HF and it's users alike.

Thank you for your time.

Fake review of an imaginary e-book subjected "Ways to attract people"

Review: 4/5

==

Quality of Information 4.5/5: The author put time and effort into typing and compiling the whole document, as it can be seen from the way the over detailed information has been put into it, covering every possible question the reader may have.

Ease of Use 5/5: As it can been seen from the way the author added information which has been put into it, covering every possible questions the reader may have small mistakes. Which makes the main objective information even easier to perform for the reader.

Layout 3.5/5: The layout let me kind of down, as there were too many colors that did not blend at all and will have the reader's eyes aching, making him/she having a hard time reading through the e-book itself. Although, the background covers up for the negative part as it relaxes the mind state.

Grammar 5/5: Grammar's excellence really amazed me. Not only the author did not make any grammar and spelling errors but also included advanced terms and phrases giving the impression of a well educated and knowledgeable person.

Originality 4/5: There are quite a few e-book about the same and/or similar subject around the electronic market, however, I believe this one is of the most well written and informative.

Notes: From personal experience, I can tell that the methods and tips mentioned within do really work. It's aimed to audience of every age, every race, no exceptions. If you believe you are already experienced, remember, there's always room for improvement, so why not invest in something that could end up becoming your day saver. Overall a great e-book.

Title: Spreading guide V6

Price: 15 GBP

Pages: 34

Author: Rusty_V

Reviewer: Milkyway

=====

 I have read many spreading e-books in my time here at Hack Forums, this one is by far the best one on the Hack Forums marketplace. It guides you through every step and answers all your questions throughout the eBook. It's also filled with many different methods this is one of the key factors which makes it unique from different spreading e-books.

 The grammar was absolutely outstanding, I didn't see one mistake throughout the 34 pages.

 It's pretty easy but some of the methods require a fair-bit of work but it gives good results in the end.

 The layout is alright, nothing too great but it definitely doesn't make the eBook harder to understand.

 There were some public methods that were listed but Rusty explained them thoroughly, there were also a couple private methods which work exceptionally well. I personally tried it and I got 600 bots in a mere 4 hours.

=====

Overall Rating: 5/5 The eBook is almost perfect, I highly recommend this eBook to anyone that wants to sell installs/updates or even users that want to increase the number of bots in their possession.

Note: I took out the last image of the overall rating because I reached my limit of 10 images.

[img]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Quality.png>[/img]

[IMG]<http://i1001.photobucket.com/albums/af133/WindowsMediaMan/4.png>[/IMG]

It goes into detail about how to make money using COPEAC, this eBook only describes one Blackhat method. It says everything that you need to know, but some more detail wouldn't hurt on how to sign up for COPEAC.

[img]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Ease-of-Use.png>[/img]

[IMG]<http://i1001.photobucket.com/albums/af133/WindowsMediaMan/3-1.png>[/IMG]

Its pretty easy to use. The method is Blackhat, so its not super easy. You have to make a ad and also sign up on a site, as well as get approved. Not as easy to get approved on the site as the eBook makes it seem.

[img]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Layout.png>[/img]

[IMG]<http://i1001.photobucket.com/albums/af133/WindowsMediaMan/4.png>[/IMG]

The layout is basic but still professional. It has a table of contents, but it uses the same color all the way through. The text is pretty big, doesn't need to be that big.

[img]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Grammar.png>[/img]

[IMG]<http://i1001.photobucket.com/albums/af133/WindowsMediaMan/4.png>[/IMG]

The grammar is almost perfect besides one mistake I found.

[img]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Originality.png>[/img]

[IMG]<http://i1001.photobucket.com/albums/af133/WindowsMediaMan/5.png>[/IMG]

I would say its very original I never actually heard of this method. But what you use to make money isn't original, but the method is. I am sure if you have read several eBooks you haven't read about this one.

Notes: The eBook was very original, I have never read anything quite like it. A few things need to be worked on, but I am sure the buyer will make money from it.

I hope I get into the reviewers. I meet all requirements easily.

REVIEWED BY MARK WEBBER

Title - [Crypter's Manual](#)

Cost - Free

Number of Pages - 2
Author - MaXim

[img]http://upit.cc/images/82278841.png[/img] 4/5

This Ebook is very Detailed. It provides a lot of Information on Crypting, and how to make a better Crypt by changing between RC4 and XOR Encryption.

[img]http://upit.cc/images/50e1b4f4.png[/img] 5/5

This was very easy to understand. I know almost nothing about Encryption, yet I found that I could read this quite well.

[img]http://upit.cc/images/aea97688.png[/img] 2/5

It is one Ebook that I have read that is not very good for Layout. Everything is just thrown into one big Paragraph, making it a little bit harder to understand for novice readers.

[img]http://upit.cc/images/5fe7ea0d.png[/img] 4/5

I found the Grammar surprisingly good in the Ebook. I came across no more than 2 mistakes, both Spelling Errors. Overall though, the Grammar is excellent.

[img]http://upit.cc/images/a7bd16f6.png[/img] 3/5

During my time on Hack Forums, I have seen several Ebooks like this, making it more common than I thought. Also, a simple Google Search turned up everything I need to know about Encryption.

[img]http://upit.cc/images/99eae7f1.png[/img]

Overall, I was quite impressed with this Ebook. I learned a little bit from it too. It is very easy to read if you understand what it is about. I highly recommend this for anyone who is interested in how Crypting works.

Information

Title: Spreading Guide

Price: \$15

Pages: 12

Author: Runner of This

Reviewer: Sparky

Official Review

2/5 Quality of Information: The information given to you in this guide is basic knowledge. Most if not all people on a hacking site know how to do these things or know about these methods. All the information can be found by taking 1-5 minutes searching on HF. Information could be a lot better.

4/5 Ease of Use: Using the methods included in this ebook will definitely help you spread your virus. There are multiple different methods included and they are all given to you in a step-by-step format. Great job to the author on that part.

5/5 Layout: Beautiful layout. It looks fantastic. There is a table of contents so you can find everything you need. Also, there is also so gfx done to spice it up, it really adds to the "look" of the ebook.

2/5 Grammar: Multiple, multiple grammar errors. It is difficult to understand what the author is saying, due to all the slang/spelling mistakes. I highly recommend getting the grammar and spelling fixed in this ebook.

1/5 Originality: Not original at all. Like I said earlier, this ebook has many, many public spreading

methods. There are also many different spreading methods out there and this one is no different.

Notes / Comments: Overall this ebook is not too great. To be honest, I would not buy this ebook. All of the methods in this ebook are public and known by almost everyone. The grammar is very bad and makes it difficult to read. You can easily find better ebooks that are given out for free. In the end, I highly recommend not purchasing this ebook.

Reviewer: S70N3R

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Quality.png>[/IMG]

3/5

This quality of the ebook is fairly average and could be improved to make it more appealing to the eye. Also the title could be spruced up as it really does not stand out from the rest.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Ease-of-Use.png>[/IMG]

4/5

This method works quite well it'll take about 2-3 goes to get the hang of it then you could do this consistently. Once you get used to the method you shall be able to do this with ease.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Layout.png>[/IMG]

3/5

The ebook layout is fairly average few images here and there wouldn't go a miss. The ebook could do with more paragraphs instead of just blocks of text which some may find it hard to read.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Grammar.png>[/IMG]

4/5

There are few grammatical error's in this ebook making easy to read for the user. I would recommend the author goes through it again to ensure everything is spelt correctly/

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Originality.png>[/IMG]

5/5

This method is in fairly early days that's why previously I said it will take you 2-3 goes before you get used to it but overall it's a great method.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Notes.png>[/IMG]

Overall this ebook is pretty impressive and should work for most buyers. I would recommend this ebook for starting on this style of method.

| Official Review by .sLeepyK0z.. | (Rating Based on a Scale of 1-5) Title: ?Learning How To Spread 101?

Price: \$15

Pages: 51

Author: Tyler Durden

Reviewer: .sLeepyK0z..

==

[IMG]<http://i1121.photobucket.com/albums/I504/WowDak/82278841.png>[/IMG]

?????3/5

Quality of Information: The information is all there, and it delivers what you would expect of a spreading e-book. It gives you all the correct links and programs, but some things could have been left out to make it shorter. I believe there is a lot of unneeded and useless information that goes along with trying to inform you. It provides wonderful do's and don'ts that are great to keep in mind when learning and as you move forward. But I found myself feeling like I've been reading the same thing over and over. But with that aside, it has everything you need to know from what programs to use and even some side notes to help you along the way. The spreading methods are very easy to learn and figure out.

[IMG]<http://i1121.photobucket.com/albums/I504/WowDak/50e1b4f4.png>[/IMG]

?????5/5

Ease of Use: This is mainly guided towards the users who have absolutely no experience with spreading in anyway. So, for those of you out there who are just looking for more methods of spreading, this isn't for you. You'll just find yourself reading what you already know. It's made just for the new users who need someone to take their hand through each step and explain the point of each step. There isn't anything wrong with that. Just something to keep in mind before purchasing. Overall, it's easy to read, and you'll be spreading like a pro in no time.

[IMG]<http://i1121.photobucket.com/albums/I504/WowDak/aea97688.png>[/IMG]

?????4/5

Layout: The layout is simplistic, not a whole lot of sparkle. But I found it's a lot more professional. It doesn't overwhelm you with many unneeded pictures and crazy fonts. It includes all the needed pictures with labels, and that's what matters. The text is easy to read, and everything seems to flow well. It includes a Table of Contents, which I've enjoyed seeing. It helps being able to jump right into the e-book and go to the specific part you want. Without having to skim through all the pages. All of the titles are very noticeable, and they present themselves nicely. The color scheme doesn't follow a specific pattern; just a bunch of different colors. Also the file format was .pdf which is a wonderful way to keep the file protected from getting edited and re-sold. Overall Layout works and presents itself well as an E-Book.

[IMG]<http://i1121.photobucket.com/albums/I504/WowDak/5fe7ea0d.png>[/IMG]

?????2/5

Grammar: The grammar, from my perspective, wasn't very important. It was notably overlooked, so I'm having to assume that there was minimal proof reading after the book was completed. It contains many run on sentences and punctuation errors. Periods were rarely used, and not a comma in site. However, with this said, the flaws in grammar didn't have too much of a negative impact in my opinion. I was still able to read it thoroughly; but it does help if the grammar has some sort of structure. Grammar can bring down the quality of an e-book, so keep that in mind.

[IMG]<http://i1121.photobucket.com/albums/I504/WowDak/a7bd16f6.png>[/IMG]

?????4/5

Originality: Like I said about the layout; it's very simplistic. The context is very bland, and it holds your hand through out the entire e-book. It has astonishing details on the subject matter. And even provides some more 'need to know' tips along the way. The simplicity of the e-book helps it a lot more than hurts it. There wasn't a lot of different colors schemes. It stuck to it's same design and does things in a very simple way. It gives you exactly what you pay for and more, which is what I believe is the most important. It's a unique e-book on how it presents itself with it's content.

Overall Rating: ?????4/5 (Wonderful E-Book, worth the buy.)

[IMG]http://i1121.photobucket.com/albums/l504/WowDak/99eae7f1-1.png[/IMG]

Notes: I really enjoyed going through this e-book, if your new to learning how to spread. And no one will hold your hand and teach you every little thing, this E-Book is for you. You can go at your own pace; just take your time to fully understand the concept of spreading. I strongly recommend it. For \$15, you'll learn how to make far more than what you paid for this e-book. Hope this review could help the author get some sales and help the buyer know what they are buying. If you have any questions or anything you would like to discuss about my review, please pm me. I'd be more than happy to answer any questions.

--

Thanks for taking the time and reading my full review, it was a pleasure to make it. I've always enjoyed writing and sharing my thoughts and to be able to do that officially would be something surreal. It would be a pleasure to share my passion with the rest of the group and Hackforums. Thanks again

Review[3/5]

==

4/5 [img]http://upit.cc/images/50e1b4f4.png[/img]

--

All of the information provided was not to detailed. But the method was extremely simple to understand. Almost anyone on HF can comprehend. You barely need half a mind.

4/5 [img]http://upit.cc/images/82278841.png[/img]

--

This method is very simple all you have to do is follow the instructions. It is all straightforward and there is no wait or anything to it. It is just how it is advertised.

2/5 [img]http://upit.cc/images/aea97688.png[/img]

--

The layout needed some work. It was also messy. I think this could have been improved. Just using simple paragraphs all over the place is not going to help.

5/5 [img]http://upit.cc/images/5fe7ea0d.png[/img]

--

Spelling and grammar was perfect! No errors were found. This is sign of an ebook with good English.

2/5 [img]http://upit.cc/images/a7bd16f6.png[/img]

--

This method is quite easy to do and anything can thing of it. It is also very public. I have run across it many times. Maybe the method should be improved more. Also I think it is not worth the price. You should consider lowering it

[img]http://upit.cc/images/99eae7f1.png[/img]

--

The e book was not recommended by me. The method needs to be more original and the layout

needs some work. But the method does work.

| Title: How to use Cubase SX3 as a Mastering Studio.

| Price: \$45

| Pages: 27

| Author: Rocketpimp

| Reviewer: Gabber

+=====+

[IMG]<http://upit.cc/images/82278841.png>[/IMG]

[IMG]http://i1221.photobucket.com/albums/dd478/designthefutur3/HF%20Reviewers/star_two.png[/IMG]

I felt the quality of this eBook was lacking somewhat. The details seem very bleak and for the professionalism of the task the eBook is trying to teach, it's just lacking any real depth of information. Due to various other techniques out there, it really doesn't justify the price tag for the way the information was put across.

[IMG]<http://upit.cc/images/5fe7ea0d.png>[/IMG]

[IMG]http://i1221.photobucket.com/albums/dd478/designthefutur3/HF%20Reviewers/star_four.png[/IMG]

The grammar used was almost perfect. There was a few minor punctuation mistakes that could have been prevented if the author had took time to proof read his work, reading it out in his head. The spelling seemed ok to me. I didn't spot anything untowards other than the odd hyphenated words that didn't need it.

[IMG]<http://upit.cc/images/50e1b4f4.png>[/IMG]

[IMG]http://i1221.photobucket.com/albums/dd478/designthefutur3/HF%20Reviewers/star_five.png[/IMG]

I thought the ebook was easy to use due to the boldness and colour coding of each section. This made it easy to reference back and forth inbetween different sections, which in turn speeds up productivity. This is exactly what an eBook should look like in terms of user quality.

[IMG]<http://upit.cc/images/aea97688.png>[/IMG]

[IMG]http://i1221.photobucket.com/albums/dd478/designthefutur3/HF%20Reviewers/star_two.png[/IMG]

The layout was a little cramped in my opinion. Although it was nicely formatted the actual layout was lacking. The rather large walls of text could have been broken up with some images. Maybe toolbar references from Cubase SX3 that would be otherwise missing.

[IMG]<http://upit.cc/images/a7bd16f6.png>[/IMG]

[IMG]http://i1221.photobucket.com/albums/dd478/designthefutur3/HF%20Reviewers/star_one.png[/IMG]

The eBook itself isn't very original. It's a well explored topic that is widely available throughout music production websites and youtube videos. If the eBook had delved further into the techniques and added a twist to the technique, then this could benefit the eBook as a whole.

Overall: 3/5

Hot Chocolate - January 19, 2011, 1:37 pm

==

Title: Beginner's Guide to Growing Marijuana

Price: FREE

Pages: 7

Author: Was shared for free on HF, I do not know the original author, not stated in the eBook

Reviewer: Hot Chocolate

==

 4/5

Although this is probably quite an easy topic to gain knowledge and guides on, the writer has written it out simply and well. Unlike some other guides, there are no pictures which could help people throughout the growing process, but instead is just replaced with solid text, however, I think it works.

 5/5

This eBook is extremely easy to use. It's set out perfectly with a step-by-step process and clearly points out what there is to the entire process of growing your weed, along with some quick tips in case you run into any problems. The writer has, clearly, extensive knowledge in the subject.

 3/5

The layout is a little dense. With just simple text and headers, it doesn't really space it out. It is quite alot to read in one session and take it all in, but with revising it's a simple, text cookbook so to speak.

 5/5

The Grammar is 100%. I could not spot any grammar mistakes at all, I would suggest that it was gone over with a spell checker before it was completed, due to the mass amount of text that is actually there, I am surprised there isn't any errors.

 2/5

I'm sure this could easily be found over Google or any other popular search engine. It's quite a big topic within the users of Marijuana, however, it is well laid out and is probably one of the best guides out there.

This is a fantastic eBook. I would have to rate it 4/5 overall, due to the subject being vast and it only covering indoor growing for small, personal use. Do not expect a fully-fledged farm of marijuana plants. Gives tips on how to get the seeds, how to grow them and everything. I would recommend this eBook to anybody who is interested in the subject, or for people who would like to grow their own.

Overall Rating - 4/5

[img]http://upit.cc/images/e3e39d71.png[/img]

Quality of Information: This eBook is very well described and easy to understand.

[img]http://upit.cc/images/a17c1308.png[/img]

Ease of Use: There is a lot of explanations with clear images making this very easy to use.

Layout: The layout was simple yet very neat. It included an opening statement, a condensed version of the tutorial to show what will be done, the tutorial itself, and then a conclusion.

[img]http://upit.cc/images/ff57a8aa.png[/img]

Grammar: There were no grammar error's in this eBook and the English was very well.

[img]http://upit.cc/images/f2fa3f83.png[/img]

Originality: This method is original but very simple.

Additional Comments: This method contains a form of trickery and may not work EVERY time.

Overall: ??? 4/5 Stars.

Smurfy - January 19, 2011, 5:49 pm

First off, i'm not going to thirty different extra steps to make this post beautiful, since its only an application. If i'm accepted then i will make up a template for my reviews. I believe the content of my review to be what is of importance here.

Review (Ratings on a scale of 1-5)

==

Quality of Information 5/5

The information contained within this eBook was quite good. All the information was useful, and will be quite helpful to users.

Ease of Use 4/5

The methods described in this book were not too difficult. While starting out may be a little rough, it will only get easier, with a higher profit as time goes on as well.

Layout 3/5

The author didn't take quite as much time as maybe he should have when laying this eBook out, but it was not such a detriment that it was not understandable.

Grammar 4/5

A few mistakes, but nothing that would make it unreadable, or even difficult

Originality 5/5

This is a method that will be new to everyone, and it was refreshing not to be reading something that has already been seen before.

Thanks for reading, i hope i am excepted. This is a group i've always been expressly interested in.

Thanks,

Smurf

Title: How to social engineer and reset any Xbox LIVE Gamertag.

Price: \$80

Pages: 3-5

Author: Steve

Reviewer: Taiga

=====

[img]http://ploader.net/files/46dd2e10e2721baa2b6c46c11469995b.png[/img]

[img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]

The length of this eBook fits well with what it is teaching the readers. This eBook has lengthy information regarding how to social engineer to grab a gamertag's information, and it has an in-depth tutorial on how to successfully reset the Xbox Live gamertag with ease. I was able to distinguish that this guide is 100% working, and have jacked a gamertag with this guide. Steve put all his hard work and a year of experience into writing this eBook and it's the only Xbox Live jacking guide out there that isn't full of non-sense information that doesn't belong and just takes up space.

[img]http://img403.imageshack.us/img403/1854/easeofuse.png[/img]

[img]http://img824.imageshack.us/img824/2213/star5.png[/img]

The eBook is neaty organized and it goes in depth for every step needed from getting the information of the gamertag, all the way to resetting the password for the Windows Live ID. The layout of the eBook was nicely made and it's an easy to read eBook for anyone.

[img]http://img27.imageshack.us/img27/3079/layoutlt.png[/img]

[img]http://img824.imageshack.us/img824/2213/star5.png[/img]

The organization, originality and the simplicity of the layout of this eBook has caught my eye the second I opened it up. It's easy to read, it's spaced out for less confusion to the reader and all the information is in its right place and not cluttered everyone.

[img]http://img163.imageshack.us/img163/5713/grammar.png[/img]

[img]http://img824.imageshack.us/img824/2213/star5.png[/img]

From previous eBooks that Steve has made for sale, he's always the person to spell check and go over his whole entire eBook before publishing. He's the type of person who wants his customers to understand his word and what he's trying to point out and by double, even triple checking his eBook before publishing, his eBook has zero grammatical errors.

[img]http://img214.imageshack.us/img214/5548/originality.png[/img]

[img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]

There have been several Xbox Live jacking guides released in the past year. Although this is not an original eBook, it's the best one that's out there because Steve wrote this eBook from experience, instead of copying and pasting from several other Xbox Live jacking eBooks and piling them up together to make one like what most people have done in the past.

Notes:

Overall, this Xbox Live jacking tutorial was one of a kind, as it is the only one that was written by the person itself, and not just some copied and pasted nonsense. Although what you should do is when selling an eBook like this, if the phone numbers you use you either dox or reset a gamertag are no longer active, you could message all your customers and update your eBook with new numbers, just to show you care about the customers and to show them they're not buying another fake tutorial, they're buying the real deal.

[img]http://upit.cc/images/82278841.png[/img]

5/5

The quality of information in this ebook was very informative. The author gave great tips and even money saving ideas. He gave you literally everything you need to know.

[img]http://upit.cc/images/50e1b4f4.png[/img]

4/5

The Ease-of-Use in this book was fairly simple, anyone with an hour or so and some start-up money could easily make money off of this.

[img]http://upit.cc/images/aea97688.png[/img]

3/5

The layout of this was nothing special, in-fact it was quite simple. Even though it was simple, it was very easy on the eyes.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

5/5

The Grammar in this ebook was impeccable. The author had only a mistake or two that were hardly noticeable. All-in-all it was great.

[img]http://upit.cc/images/a7bd16f6.png[/img]

2/5

The originality wasn't very original but it is a very good market to use still.

[img]http://upit.cc/images/99eae7f1.png[/img]

For my ending Notes, this ebook was very well written and informative, I believe this is a very good ebook for beginners. The only problem I would have with it is the layout of it. The author could use a more though-out design.

Overall Score

[img]http://img689.imageshack.us/img689/4453/qualityc.png[/img][img]http://img810.imageshack.us/img810/9315/star4.png[/img]

This eBook is based on a method that is commonly used and spoken of but improvised enough to own its own uniqueness. The method is easy to follow and the author gives examples of his own personal experiences which helps the reader connect to the information.

[img]http://i.min.us/idZg9U.png[/img][img]http://i.min.us/idZctE.png[/img]

The information and method contained in this eBook are easy to follow. The method in this eBook does not require any special traits and can be accomplished by even the most amateur monetizer. Not only is the method simple, but the way the author explains in full detail and gives examples from his own personal experiences, helps make the eBook suitable for anyone.

[img]http://upit.cc/images/aea97688.png[/img][img]http://ploader.net/files/f2853ddf82126adbab24ada
d75bf36e9.png[/img]

The layout of this eBook is legible by even the most unintelligent person. It contains a table of contents which helps guide your way through the eBook swiftly and without trouble. Also, each "chapter" begins with a heading written with large letters which helps it stick out and attract the readers attention. The author organized this eBook flawlessly and made it easy to locate information. The paragraphs in this eBook are well balanced which helps keep flow and organize the "chapters" better.

[img]http://upit.cc/images/5fe7ea0d.png[/img][img]http://ploader.net/files/f2853ddf82126adbab24ada
d75bf36e9.png[/img]

This eBook contained absolutely no grammatical or spelling errors. The author demonstrated a clear understanding of the English language and there were no sentences that were illegible.

[img]http://ploader.net/files/80892f0888e82fea4839a9c75a00e624.png[/img][img]http://ploader.net/fil
es/8a118a436a6f933e6ac92f68b615e175.png[/img]

Although the information in this eBook is commonly used, the author improvised the method giving it more originality. The author built on a commonly known method and made it very creative and very unique.

Notes:

The author of this eBook is very creative and helpful. The layout and grammar is flawless, as if written by a professional. The content in the eBook is unique and can be done by an amateur. The eBook is easily legible and the method is not difficult to accomplish at all.

Title : How To Jack Xbox Live Accounts

Price : \$100

Author : Dean

Reviewer : Sins

==

[IMG]http://upit.cc/images/82278841.png[/IMG][IMG]http://ploader.net/files/f2853ddf82126adbab24a
dad75bf36e9.png[/IMG]

The quality of this E-book was amazing , it's obviously been written out with time and care as he goes into great detail on the subject. The only downside to this E-book is that it was written as a ".txt" but none the less quality of input is great.

[IMG]http://upit.cc/images/aea97688.png[/IMG][IMG]http://ploader.net/files/ce0e7c7521e86291210c
ce350a6a421e.png[/IMG]

The layout of this E-book was average , due to it being written in as a ".txt" I didn't really expect anything sensational but the way he has written it is well enough for a beginner to understand and read clearly enough to complete said task.

[IMG]http://upit.cc/images/a7bd16f6.png[/IMG][IMG]http://img824.imageshack.us/img824/2213/star5.png[/IMG]

The information within this E-book is completley original and all straight from dean's brain , I have never seen anything else like this and no other tutorial on jacking has any of the same information.

[IMG]http://upit.cc/images/5fe7ea0d.png[/IMG][IMG]http://img824.imageshack.us/img824/2213/star5.png[/IMG]

The author uses perfect grammar throughout the e-book with not a single spelling mishap so it's very well written and you can see that he has put time and effort into writing this up.

[IMG]http://upit.cc/images/50e1b4f4.png[/IMG][IMG]http://img824.imageshack.us/img824/2213/star5.png[/IMG]

This e-book has been written so well that a beginner with no knowledge on the subject of xbox live or social engineering could pick this e-book up and complete the task at hand , it's very well written and dedication just oozes from this.

Notes :

Overall it's a fantastically written e-book by Dean and I reccoend buying it , it's easily the best tutorial on jacking xbox live accounts released to date and well worth the money.

My Final Verdict for this e-book is 5/5.

Title: Making the easiest and most money for the rest of your life!

Author: canucrackit

Pages: 20

Price: \$5

Reviewer: Wii

==

[IMG]http://upit.cc/images/82278841.png[/IMG]

5/5

The quality of the information is fantastic. This eBook makes everything simple and goes into great detail, close to click by click instructions. Pictures are along to help every step of the way. The eBook also includes a detailed table of contents to help you find where you left off or quickly get a tip.

[IMG]http://upit.cc/images/50e1b4f4.png[/IMG]

4/5

The eBooks is easy to use as it is very detailed and explains everything throughly, however, the eBook could be dislikes as it is a method that the people of hackforums haven't been greatly aware

of and it takes much time to learn to use it effectively

[IMG]http://ploader.net/files/716ca4e758bb5d4a6a9a46ea5374d6a5.png[/IMG]

5/5

This eBook's grammar is superb. Throughout the entire 20 pages I only noticed 3 errors. The word choice is great for beginners and tends to help make the book more user friendly.

[IMG]http://upit.cc/images/aea97688.png[/IMG]

5/5

The layout of this book is just as fantastic as the quality. The book explains things that will be used later on at the beginning so you don't continue reading and be completely puzzled only to find there is definitions in the back. The pictures are well placed along with the instructions. The text is well wrapped around images and not in blocks everywhere.

[IMG]http://ploader.net/files/80892f0888e82fea4839a9c75a00e624.png[/IMG]

5/5

This has got to be one of the most original money making eBooks in the market. I have not ever heard of this method of HF nor have I heard about it greatly on other forums, but what makes this book very original is that the method is not overused and will never die out

[IMG]http://upit.cc/images/99eae7f1.png[/IMG]

Overall I believe this eBook to be one of the best on the market, however the method is not for people you do not like to take risks. The method can actually be fun to do. The method does take time so it is not a get rich quick scheme.[/color]

Overall I give this eBook a 5/5

Title: Targeted Website Hacking - All Information You Need

Price: \$10

Pages: 18

Author: hack_addicted.pt

Reviewer: Mudkip.

=====

Overall Rating: 4/5

=====

[IMG]http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Quality.png[/IMG]

3/5

This ebook is a middle class quality eBook, most of the pages in this eBook is talking about a function on a program and how to use it properly, you use the tool to actually scan the targeted website for any vulnerabilities, the tool is given with a legit license that was verified with the vendor.

[IMG]http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Ease-of-Use.png[/IMG]

5/5

This eBook is made for complete beginners and for people who are only starting at the area of hacking. This eBook has all the links and licenses that you need to properly follow the tutorial and I must say, the tool is %100 accurate in it's listings and will give you a range of vulnerabilities from informational to severe.

[IMG]http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Layout.png[/IMG]

5/5

The layout is amazing I must say, on every page there is a picture for visual learners, such as me, which made it really easy to read. Most of you will think that it has the big images in the middle of the screen that you have to scroll down, no, this eBook has medium sized pictures that are displayed right beside the text making it easy to read the text and look at the picture at the same time!

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Grammar.png>[/IMG]
4/5

While reading the eBook I completely forgot about the grammar part ?, then I re-checked and I found no grammar mistakes at all, no wonder I forgot about grammar ?.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Originality.png>[/IMG]
3/5

This tutorial can be put together by using public methods, but, there was a method that I never saw on the public, which makes me make it 3/5 since it is not really original.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Notes.png>[/IMG]

This eBook increased my knowledge and I completely recommend this eBook for beginners and newbies.

Thanks for reviewing my application!
Good luck to everyone :).

Title - Spreading through Java Drive-by's

Cost - \$5

Number of Pages - 5

Author - Drivebyguy

Reviewer - wiQQeh

[img]<http://upit.cc/images/82278841.png>[/img] 4/5

The E-Book explains the method extremely well. The information is very in-depth which makes failing almost impossible for the average person.

[img]<http://upit.cc/images/50e1b4f4.png>[/img] 4/5

While the method is pretty much an advanced method, the author explains it very well. As long as you follow all of the steps stated in the E-Book, you won't have any problems.

[img]<http://upit.cc/images/aea97688.png>[/img] 3/5

The layout of this E-Book is very plain and simple, a bit of text decoration here and there, but no fancy things which distract you from the essence of the E-Book. Therefore, this section deserves 3 out of 5 points.

[img]<http://upit.cc/images/5fe7ea0d.png>[/img] 4/5

The author seemed to check his E-Book extremely well, as I had a hard time finding grammatical errors. I found a couple, although these weren't extremely disturbing.

[img]<http://upit.cc/images/a7bd16f6.png>[/img] 3/5

This method is pretty much all over HF. However, this E-Book gives a little twist to the method which makes it unique. Although, the method itself is not unique.

OVERALL: 4/5

[img]<http://upit.cc/images/99eae7f1.png>[/img]

As stated, the method isn't unique, but this E-Book explains the method very well. Failing is no option with this E-Book. Therefore, I definitely recommend this E-Book to the less-experienced spreaders.

Please note, I am already in the process of becoming UB3R, I've already bought the upgrade. I

should be UB3R in about 48 hours.

As a last note, I'd like to say why I am applying to the Reviewers group: I've bought a shitload of E-Books already, and only a few of them really worked. While they were reviewed. I'd like to prevent users like me from buying these kind of E-Books that do not work by really TESTING them and write decent reviews.

Well thanks for reading and good luck to all other applicants!

Title "Generating Adf.ly Traffic"

Pages: 3

Price: 5\$

Author: Unknown

Reviewer: Cocopara

[img]http://ploader.net/files/46dd2e10e2721baa2b6c46c11469995b.png[/img]

3.5/5

This E-book does not stand out in any significant way in terms of overall quality. However, it does to some extent explain methods in ways to take advantage of this method in good detail. The E-book is overall easy to understand. Taking the price into consideration though makes this E-book a great purchase.

[img]http://upit.cc/images/50e1b4f4.png[/img]

4.5/5

The E-book itself is well written and the method used is very simple. The E-book features pictures of great detail explaining most steps. Though it does take a little effort and a minor investment for the process to begin. However a very easy method which could bring in some income.

[img]http://upit.cc/images/aea97688.png[/img]

4.5/5

This E-book is layed out in a way which is appealing to the eye. The colours are well used to make it a more readable E-book. Images are well used to describe the different stages. There is a good use of punctuation and paragraphs further increasing the quality of this E-book

[img]http://upit.cc/images/5fe7ea0d.png[/img]

4/5

There is some significant grammatical errors within this E-book though I have given you a high mark based on the overall context. Punctuation and Paragraphs are properly used and this method is explained in such a way that grammar does not effect the overall result as it otherwise would.

[img]http://upit.cc/images/a7bd16f6.png[/img]

3.5/5

Though this E-book is very well written with an appealing look, the originality however, is not the best. A variety of this method already exists on other forums. However, this stands out being slightly different using different web pages to achieve an overall greater earning then what other similiar methods/E-books offer

Overall:

4/5

Notes:

I have myself encountered a similar method and it worked. I also tried what is specified within this E-book and I was positively surprised by the overall efficiency of this E-book contra other E-books with a similar method.

Thanks
Cocopara

Title: GET 100's of bots a day! |Runescape Spreading Guide|Get thousands of logs! [FREE]

Price: Free now.

Reviewer: Trihunter3

Pages: 7

Author: [The Chosen One](#)

--

[img]http://upit.cc/images/82278841.png[/img] ????

The quality of information was enough to get the job done. Everything was explained, there was many pictures, web links, and other information on how to set everything up from start to end. He provided Youtube links, and HackForums' tutorials to get into more depth than he could have. He received 4 stars out of 5 only because he did not explain about what to do at the very end when u start spreading. Overall I my self liked this guide and I will be able to use this in the future.

[img]http://upit.cc/images/50e1b4f4.png[/img] ????

It is a little time consuming to set up everything but overall its an easy process. He explained everything very well, and included download links so you would not need to search around for different items. After you set it up its automated, so you do not need to work any more. I have tested this method out my self after reading his guide, and it took around 15 minutes to set everything up and start receiving bots. Overall, If it was not really time consuming for newbies, it would have been a 5/5.

[img]http://upit.cc/images/aea97688.png[/img] ???

The layout of the book was mediocre. There was lots of pictures and information but it was not organized. Some of the text was really too big than needed, and there was items there not needed at all in the guide. He was great at putting the information together, but not sorting it out. 3/5 is my final answer

[img]http://upit.cc/images/5fe7ea0d.png[/img] ??

The grammar really needs to be worked on. The guide was overloaded with slang and grammar mistakes. He should have at least tried spell checking it be for converting it to a PDF. He should revise the guide and make sure he fixes all the mistakes. He could have tried a little harder with the grammar in this guide, it looks like he just typed it with his eyes closed and then posted it for sale. I leave him with a 2/5.

[img]http://upit.cc/images/a7bd16f6.png[/img] ????

There are so many methods for spreading in Runescape but this is one I have not seen be for. Ive seen pm spreading, bot spreading, forum spreading, Youtube spreading, and none of these go toward this unique method. I am not 100% sure if it was his or not, but it is definitely a first for me. I thank him for finally making a method that is not a copy of another persons work. I leave him with a 4/5.

[img]http://upit.cc/images/99eae7f1.png[/img] Overall this guide will help you. What he says in the thread is true, and you will not be purchasing junk to just stay in your computer and take up space. You will use this guide periodically if you wish, and it will help you spread Runescape bots. The information in this guide given was perfect and I recommend buying this guide to the public just because it was great. Thank you for this contribution to HF.

[Information]

Title: Make Money with Facebook Price: \$5 Pages: 4 Author: Mute Reviewer: Happeh

[img]http://upit.cc/images/82278841.png[/img] Quality of Information: The quality of information was well written. Although I did get lost here and there, but once I re-read through the book I realized what was expected of me. Although, this may cause concern to people who are new or who may get lost easily.

Rating: 3/5

[img]http://upit.cc/images/50e1b4f4.png[/img] Ease of Use: Surprisingly, it was particularly easy to set up. Not much was expected from the reader, just a few clicks and you're up and running. Luckily the Author even decided to add a few tips, just in case.

Rating: 4/5

[img]http://upit.cc/images/aea97688.png[/img] Layout: The eBook is a .PDF and is a the constant colour black. The headings were underlined and bold to help identify themselves. It wasn't the most colourful, but this isn't required. It also contains images to help show what the text is saying.

Rating: 4/5

[img]http://upit.cc/images/5fe7ea0d.png[/img] Grammar: The grammar looked like it was written by an A Grade English student. Although I did find a few mistakes, for example:

"Right this is were we set-up the application..."

"Were" should actually be "Where"

There were very few mistakes and it felt like it had been proof read several times to make sure of this.

Rating: 3/5

[img]http://upit.cc/images/a7bd16f6.png[/img] Originality: I have seen this method once or twice before, but haven't seen it explained in the detail provided. Neither were people willing to share the method.

Rating: 3/5

Overall Rating: 3/5

[img]http://upit.cc/images/99eae7f1.png[/img] Notes:

Just be aware on simple mistakes on your grammar. Although the mistakes made were very common and can be overlooked really easily. Also, be aware on your audiences attention span, sometimes, without colour, they may become easily bored and may end up not using the method because of their lack of interest.

If you found anything wrong with this review, please PM me and I will responded as best as I can.

DAV3 - January 20, 2011, 12:37 pm

Title: How to Write and Sell eBooks

Price: \$0

Pages: 6

Author: Epic Win

Reviewer: Epic Win

[img]http://upit.cc/images/82278841.png[/img]
3/5

The quality of this E-book is not very good. The book is quite explanative at times when explaining step-by-step how to write an ebook and produce the final product, but the writing style of the payment processing section was quite rushed, and I was left with a feeling that I needed more information in order to completely understand the topic.

[img]http://upit.cc/images/aea97688.png[/img]
3/5

This E-book lacks organization, but it makes it up in the thorough table of contents. With more editing, the author would be able to organize this ebook and produce a better ebook in general.

[img]http://upit.cc/images/5fe7ea0d.png[/img]
5/5

In general, the spelling and punctuation was superb, though I noticed a couple errors with grammar, but that is normal in a book of this caliber.

[img]http://upit.cc/images/a7bd16f6.png[/img]
4/5

Though not the most original of books, this book produces several new twists on writing ebooks. It introduces new ways to sell your book, and ways to research topics. This ebook does comply with all HF rules, which gives it a high originality rating.

[img]http://upit.cc/images/50e1b4f4.png[/img]
4/5

This E-book has pictures which help you through all the steps found in this E-book, although the details can get vague at various points throughout the E-book., as I have mentioned in the quality review.

[img]http://upit.cc/images/99eae7f1.png[/img]
4/5

This E-book is a perfect example of how to create ebooks. If you have any knowledge in English and writing, and understand what is going on, it is very easy to read and utilize this E-book.

les/8a118a436a6f933e6ac92f68b615e175.png[/img]

This eBook is incredibly easy to use, anyone can do it. Though there may be some tough aspects in it, overall it's extremely easy to follow.

[img]http://ploader.net/files/c7906c0649dacd8c42aec119d95d9af5.png[/img][img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

The layout is extremely fancy and has a good quality towards it. The layout is easy to comprehend.

[img]http://ploader.net/files/716ca4e758bb5d4a6a9a46ea5374d6a5.png[/img][img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

The grammar of the eBook is fantastic and high quality. You will not find one small grammar mistake or a comma splice.

[img]http://ploader.net/files/80892f0888e82fea4839a9c75a00e624.png[/img][img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

There has been too many eBooks to name with the same content, however after a thorough review, it gets a 5/5.

Notes: Next time, please do not send in it in a .rar, just use a pdf extension.

Overall rating: 5/5

Scary Dreams - January 20, 2011, 3:26 pm

Title: How to make a RAT For Beginners Price: \$10 Pages: 16 Author: Krammer Reviewer: Kalamazoo

[img]http://upit.cc/images/82278841.png[/img]

5/5

The quality of 'How to make a RAT For Beginners' is very good. The reason why is because you can tell the author had put effort into making this e-book. If you are a beginner at making a RAT, then this e-book is for you.

[img]http://upit.cc/images/50e1b4f4.png[/img]

4/5

For beginners, it should be very easy to understand this e-book. There is some information in this e-book that beginners will not understand to create a RAT. But, if you know some basic information on certain topics, then you will be able to understand. Not all beginners will understand this e-book, but most will.

[img]http://upit.cc/images/aea97688.png[/img]

3.5/5

The layout of this e-book is fairly decent. The flaws in the e-book are that there is just one color of font and also the font is small. It might be hard for some readers to actually read the e-book. One last flaw about the e-book it is just a wall of text. But some aspects of the layout are good. For example, the author shows the links clearly on what to download.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

1.5/5

The author clearly did not put effort in his grammar. The mistakes are that there are no commas in the end of a lot of sentences. Another mistake that there are not capitalization and grammar rules in

most of the sentences. But the reader can still understand what the author is trying to say.

[img]http://upit.cc/images/a7bd16f6.png[/img]

2.0/0

I have seen this type of e-book many times. I have seen tutorials around HF for free; and also around the internet on other forums. But, if you do not get how to make a RAT in the free tutorials, you should buy the e-book.

[img]http://upit.cc/images/99eae7f1.png[/img]

I do recommend this e-book for beginners. But, I think the author should lower the price to around \$6 to \$10. This e-book is not the best on the market, but it worth it if you are a beginner and committed. Also, he should fix up the grammer and layout. Overall, I do recommend this e-book. Just remember, when you buy be prepared for a lot of mistakes.

Overall Rating: ?????

[img]http://upit.cc/images/99eae7f1.png[/img]

I enjoyed reading this e-Book and if you are new to money making online, this guide is the right for you. In a short time you will earn a lot of time, with spending a few hours on the computer. It will teach you all the things about money making online. I recommend you to purchase this e-Book as it is one of the best I ever read.

ABlackFedora - January 20, 2011, 4:26 pm

I'm Zaros, i'm here to review your article. PM me if you think I was unfair, or for compliments.
==--==--== Title: Runescape 500m/hour Tutorial! Price: Zero \$ USD. Pages: Five Author: Guthix Reviewer: Zaros™ ==--==--== [img]http://upit.cc/images/50e1b4f4.png[/img] 4/5 I honestly thought that the ability to use was very easy, and I loved reading it, but not only did I love reading it, I loved doing it as well. I for one have trouble staying on task, but this was so easy and well put out, that it kept me doing it over and over.

[img]http://upit.cc/images/5fe7ea0d.png[/img] 5/5 I for one was very happy with the grammar. I honestly thought that you spelled a few words wrong, but I ended up checking it in a spell checker. You had no grammatical errors, no problems at all. For this you have my kudos, and it's very hard to earn. Very nice job.

[img]http://upit.cc/images/aea97688.png[/img] 3/5 Although I loved the entire thought of the idea, the layout was sort of, well, not that great. A few pictures with captions, and so on. I took onto it because I know RuneScape very well, and I play it almost every day. For somebody else though, they may not know where Shilo Village is, but hey, this is still good.

[img]http://upit.cc/images/a7bd16f6.png[/img] 5/5 Well, first let me get started on saying that I have never, ever in my five years of RuneScape seen a 500 MILLION gold coin per HOUR!? Tutorial. It's very nice to see somebody try to make something that actually works. This has made me very rich, and I for one can vouch that it works. It's very original and I don't think anybody has ever posted something of this caliber. Good job, very good job.

[img]http://upit.cc/images/82278841.png[/img] 4/5 Don't get me wrong, I love this tutorial. But anybody can spot out the problems and some sort of idea to replace it, making it better. Everything has its faults, and everything is perfect in its own certain way. This tutorial is what I would say 90% perfect. It has its flaws in some places, and in others, it's perfect.

[img]http://upit.cc/images/99eae7f1.png[/img] Well, I loved this tutorial, and I will continue to use it on a daily basis. It has its rough patches, but it also has parts that I absolutely loved. Just remember, you earned my Kudos, that's hard to earn. Out of everything, I would give this tutorial a solid A- OVERALL GRADE, 93%. A-!

=====
Title: How to make 500\$ a night
Price: 15\$
Pages: 19

Author: Bookman

Reviewer: RRain

=====

[img]http://img508.imageshack.us/img508/267/42471826.png[/img] 5/5 ?????

The overall quality of this E-Book was spectacular. There was a lot of different ways to figure out how to make 500\$ a night. I know it may sound far-fetched but the information and pictures that the author has supplied, it seems to look like it is working. Also the author has even posted proof that he made 500\$ in one night.

[img]http://img819.imageshack.us/img819/2095/24097256.png[/img] 2/5 ?????

The Grammar of this E-Book was very poor. There was a lot of misused commas in places that they shouldn't have been. Also there were many misspelled words that were very easy to use. There were unused apostrophes that should have been used. The only thing that the author had done right was finishing sentences.

[img]http://img96.imageshack.us/img96/6414/93725005.png[/img] 5/5 ?????

The layout of this E-Book was very well set up I must add. The color of the words are just the right color to go with the background color so you can see the words perfectly. The screenshots match right up with the paragraphs so you can tell exactly what screenshots go with what paragraph. You will be able to find your way around this E-Book very easily.

[img]http://img713.imageshack.us/img713/7325/eou.png[/img] 1/5 ?????

The E-Book seemed very hard to use. There were many steps you had to do before you got this 500\$ a night. This would take many hours of hard work in order to get this 500\$ in one night. You may not retrieve 500\$ a night if you do not do all of these steps in one night. They were set up well as I said before but they seem very hard to do.

[img]http://img225.imageshack.us/img225/4043/orgn.png[/img] 4/5 ?????

This E-Book had many different methods than other E-Books I have seen before. But at the same time it had some of the same methods I have seen in other E-Books. This E-Book was very creative. The author thought of many different ways in his E-Book that I have never seen in any of the E-books I have read.

[img]http://img192.imageshack.us/img192/9076/notesy.png[/img]

This E-Book was very creative and very well setup. If you have a lot of time on your hands then I suggest getting this E-Book, otherwise you should not get this E-Book because it has a lot of steps to get that 500\$.

Title: How to make \$50 in a day

Price: \$5

Pages: 5

Author: MoneyMan

Reviewer: Crysis.

Overall: 4.5/5.

[IMG]http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Quality.png[/IMG]

4/5

I was quite impressed by the quality of this ebook. He has thought about every quality aspect possible and has done a very good job.

[IMG]http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Ease-of-Use.png[/IMG]

5/5

The method he has presented is very user friendly and is easily understandable, yet it is a complex method.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Layout.png>[/IMG]
5/5

The layout of the ebook is very simple but it looks clean and professional, not a lot going on but a few pictures.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Grammar.png>[/IMG]
5/5

As few as I can see his Grammar and Spelling is impeccable.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Originality.png>[/IMG]
5/5

I was surprised this method popped up as it's very obvious but I've never seen it anywhere before, nevertheless very unique and original.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Notes.png>[/IMG]

Just a few pointers, he even includes tips and tricks to help you improved and screenshots to help you further your yield. Great guide.

Black Mesa - January 21, 2011, 9:07 am

Make \$150.00 Per day! (By Deviance)

Quality of Information:

{====-} (3/5)

Not everything appears to be well explained, some times it's messy and the information is wrong. You need to wait 30 days before the money can be redeemed.

SPAM requires a 30 day interval to redeem the money, so it doesn't work as advertised

Ease of Use:

{====-} (4/5)

It's easy to do and there are pictures that help you.

Layout:

{==---} (2/5)

Lots of different fonts and colors, colors and fonts are too bland. Lots of caps and (some) spelling mistakes. Some images are also out of position.

Grammar:

{====-} (4/5)

Apart from some spelling mistakes it's OK.

Originality:

{=----} (1/5)

This method is widely known and there are thousands of ebooks about this, while addressed as unique.

Notes: I recommend using Arial, Verdana or Helvetica. Some people can't read or wont bother reading these bland fonts.

Total: 4,6/10

You can do better. Better luck next time

eXero - January 21, 2011, 4:41 pm

Review (Ratings on a scale of 1-5)

Title: CPALead Maximation

Price: \$7

Pages: 3

Author: Miep

Reviewer: eXero

==

Quality of Information: 4.3/5

Your information provides the proper direction to maximize your CPALead earnings, exactly as the title claims, but you lack simple direction in some areas of the ebook. Overall you provide enough information to direct the reader where and what he needs to do in order to make the big bucks!

Ease of Use: 4.5/5

The average computer person who knows more than the average person could follow your ebook with great accuracy. Although you do require a little bit of pre-knowledge, it is not hard to decipher.

Layout: 5/5

Outstanding! The layout of your ebook is one of the best I have seen. With the detailed pictures guiding the reader along the way, the prior knowledge that I stated in the Ease of Use section is easily skipped over.

Grammar: 4.7/5

I only noticed a few grammar errors now and then. Nothing to controversial. Just a few double letters generated by accident.

Originality: 5/5

I have never seen an ebook offering this kind of instruction! I think you could earn a large sum of money by following this ebook, because it is original to the others on the market.

Notes: This ebook is fantastic! I have never reviewed one quite as marvelous as this one. Good luck with sales!

D??M! - January 22, 2011, 2:42 am

Hopefully those extra colors and such don't really matter and judging is based off of content.

Review (Ratings on a scale of 1-5)

==

Quality of Information: 4/5

The information provided by this E-Book is fairly good but not great. Following each step precisely will always provide you with a successful outcome, but in a couple of areas it appears as if the author rushed through writing it. While technically enough information is given, in some cases you may be re-reading steps 2 or 3 times to full understand them.

Ease of Use: 4/5

This E-book will successfully guide you through the act of signing up for a and exploiting their systems, but there were a couple of gaps of information that were not included in the E-Book. While these bits of info are not vital to the overall process and overall will not affect the outcome, they could have be brushed upon slightly to improve the overall experience when preforming this exploit. Other than that the designated results are easy to obtain, and you should never really run into any major complications.

Layout: 3/5

It has a basic black and white lay out. Spacing between each step helps you easily identify the start and finish of each step, and will help you easily avoid any confusion. Unfortunately there really is nothing drawing you into this E-book, and you may actually find it a bit boring. I would suggest to the

author to add a bit of color, maybe a nicer font, and some better formatting.

Grammar: 5/5

The grammar in this E-Book was impeccable. There were absolutely zero visible mistakes and you can tell that the author spent the extra time making sure everything was written correctly. Well done.

Originality: 4/5

I have seen this method for sale here on Hack Forums once before, but it is still not a well known method and there are no repercussions for many people knowing. The approach is slightly different from the other method I've seen, so it is obvious that this is the authors own work, and was created nicely.

Notes:

In closing I would recommend this E-Book to anyone interested in or who is after a bit of extra money. The guide is very well written, with the overall quality and ease of use being fairly high. While it may be a bit boring to read pages of black and white text, the information provided should be both interesting enough and very beneficial to anyone willing to put this method to work. I give this E-Book and overall 4/5.

MarV™ - January 22, 2011, 1:12 pm

[img]http://upit.cc/images/82278841.png[/img]

5/5 [img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

While reading this eBook I came to appreciate the greatness in simplicity, the content itself is phenomenal and the way the author gives it to you is like spoon feeding a baby. This eBook has proven that not only does the author know what he's doing but he can also easily guide any small town boy to become a professional in the technique.

[img]http://upit.cc/images/50e1b4f4.png[/img]

5/5 [img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

The requirements are stated in open view to avoid any possible confusion and the way the information is presented is great. The author spoon feeds the reader with images illustrating what to do step by step in chronological order.

[img]http://upit.cc/images/aea97688.png[/img]

3/5 [img]http://ploader.net/files/ce0e7c7521e86291210cce350a6a421e.png[/img]

Now let's face the eBook's big issues; the paragraphs need to be indented every once in a while and the presentation page is a mess, good thing we're paying for the content and not the graphics.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

4/5 [img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]

The author makes a few spelling mistakes, but it does not worsen the eBook's content. One grammatical mistake which is fairly common is the distinction between they're and there. The author may want to take a look at the they're/there [grammar lesson](#).

[img]http://upit.cc/images/a7bd16f6.png[/img]

5/5 [img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

Up to the second page I thought this would be a typical mail-fraud technique, but the author presents a big twist which has not only taken me by surprise but has also never been seen on HackForums.

Notes

After reading the eBook I was greatly inclined to try it out for myself, the journey was slightly long but well worth it. Today I personally have two playstation 3s and a stack of blackops cds (which the author hinted in the eBook that could be also obtained), thank you.

[img]http://i1221.photobucket.com/albums/dd478/designthefutur3/HF%20Reviewers/star_five.png[/img]

The quality consumed in this E-book was excellent.

I was appauled at which little to no detail he didnt exclude.

By this its an easy step by step tutorial leading you into riches.

[img]http://ploader.net/files/716ca4e758bb5d4a6a9a46ea5374d6a5.png[/img]

[img]http://i1221.photobucket.com/albums/dd478/designthefutur3/HF%20Reviewers/star_four.png[/img]

You Grammar is quite astonishing yet you've made some simple mistakes here and there but it's nothing that cant be looked over as a minor grammar slip.

Also some complex words that you have tried to fill into each passage within the E-book were misspelled. Leading to

[img]http://ploader.net/files/c1e3de38fe5a16db458893c60a58e0d1.png[/img]

[img]http://i1221.photobucket.com/albums/dd478/designthefutur3/HF%20Reviewers/star_four.png[/img]

Although this was an easy step by step process the complexity of use was a bit to much.

As some members may get lost yet it was fairly simple to what my knowledge is and so that earned you a 4/5.

[img]http://ploader.net/files/c7906c0649dacd8c42aec119d95d9af5.png[/img]

[img]http://i1221.photobucket.com/albums/dd478/designthefutur3/HF%20Reviewers/star_five.png[/img]

The layout was in a step by step form.

So it was ratherly good in a process of explanation and information.

It was a quick easy tutorial on which you could never get confused on and leads you into a pocket full of cash.

[img]http://ploader.net/files/80892f0888e82fea4839a9c75a00e624.png[/img]

[img]http://i1221.photobucket.com/albums/dd478/designthefutur3/HF%20Reviewers/star_three.png[/img]

The originality of this E-book is lacking in some main areas.

As this money making concept has been released many times you've added a personal kick to it which is what made it shine. Yet its basis is off a total other E-book intention of money making, for that it lowered to a 3/5.

Notes

This was a great E-book and it had a special spark and kick into it.

This will lead you into money that you've never come across before and customers will surely be delighted that they have invested into such a money making E-Book!

4/5

Title "Generating Swagbucks Traffic"

Pages: 3

Price: 7\$

Author: ReviewSample

Reviewer: Cocopara

3.5/5

This E-book does not stand out in any significant way in terms of overall quality. However, it does, to some extent, simplify approaches in ways to take advantage of this method in good detail. The E-book is overall easy to understand. Taking the price into consideration makes this E-book a bargain.

4.5/5

The E-book itself is well written and the method used is remarkably simple. The E-book features images of great detail explaining the majority of steps. Even so, it does take a little effort and a minor investment for the process to begin. However, a remarkably simple method that could generate some income.

4.5/5

This e-book contains graphics, which are appealing to the eye, hence making it easily readable. The colours enhance the reading experience, and makes it easier to follow. Images further increase the readability of this e-book and helps visualize the different steps to follow. There is a good use of

punctuation and paragraphs that helps with readability and structure of text.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

4/5

There are some significant grammatical errors within this E-book, though I have given you a high mark based on the overall context. Punctuation and Paragraphs are properly used therefore grammatical errors does not influence the overall outcome as it otherwise would.

[img]http://upit.cc/images/a7bd16f6.png[/img]

3.5/5

Though this E-book is very skillfully composed with an appealing look, the originality. However, is not the best. A variety of this method already exists on other forums. However, this stands out being moderately different employing a different approach and use of web pages to achieve an overall greater earning then what other similar methods/E-books offer.

Overall:

4/5

Notes:

I have myself chanced upon a similar method, and it worked. I also tried what is specified within this E-book, and I was absolutely astonished by the overall productivity of this E-book contra other E-books with a different approach.

Thanks

Cocopara

Grammar Rays - February 23, 2011, 8:42 am

Thank you for requesting a review, I have been selected by the leader who you PM'ed regarding your eBook.

Below is my review about your eBook, any information you don't understand, feel free to contact me via PM.

=====

Title: [\\$50 A DAY WITH NEOBUX](#)

Price: \$0

Pages: 2

Author: [Zynx](#)

Reviewer: [Grammar Rays](#)

=====

[img]http://upit.cc/images/82278841.png[/img]

3/5

Not much care has been taken, the eBook contains no images nor is it written in an appealing way. A little more attention should be given to how the eBook appeals to the reader.

[img]http://upit.cc/images/50e1b4f4.png[/img]

3/5

It wasn't the easiest eBook to use, it was written with big paragraphs and no diagrams or images, like I said before, the author should add a little more attention to how it appeals.

[img]http://upit.cc/images/aea97688.png[/img]

2/5

The worse bit of the eBook, it's unclear and hard to locate parts of the eBook you need. Maybe add some titles and sub-titles to make it clearer, also some different colours will make it a lot better, at the moment it's just plain and boring.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

4/5

The grammar was okay, however there was capitalisations in places that are not needed. Remember, you don't need to capitalise the first letter after a comma unless it's a name or place.

[img]http://upit.cc/images/a7bd16f6.png[/img]

3/5

I have not seen a eBook about Neobux before, however the content is pretty self explanatory and already known by the majority of people.

[img]http://upit.cc/images/99eae7f1.png[/img]

I don't really suggest this eBook based on the appearance, however it's good for beginners. I suggest the author reconsiders his/her layout and add some appealing images and colours.

Thank you for letting me review your eBook,
Grammar Rays

Quiet. - February 23, 2011, 9:02 am

Review of the ebook "How to mod your Xbox 360 Gamerscore" by [Quiet](#) (Ratings on a scale of 1-5)
Price: \$5

=====

[img]http://upit.cc/images/82278841.png[/img]: 2/5 ????? The information provided in the ebook is not nearly enough of information to do what the ebook states you will be able to do. This will confuse anyone who is new to modification.

=====

[img]http://upit.cc/images/50e1b4f4.png[/img]: 1/5 ????? The ebook provides no download links at all, making it hard to even get the programs required to modify your gamerscore. It is also in a .txt file, making it look highly unprofessional.

=====

[img]http://upit.cc/images/aea97688.png[/img]: 2/5 ????? It is a highly disorganized ebook, because all of the information is not in order. It seems that you forgot steps as you were writing it, and just added them in where ever.

=====

[img]http://upit.cc/images/5fe7ea0d.png[/img]: 1/5 ????? The grammar was extremely dreadful. Comma's were not used in the proper spots, no periods, and misspelled words. Also, you abbreviated simple words, such as "u" for "you" and "ur" for "you're" or "your". The wording itself was also awkward. It was a jumbled up mess.

=====

[img]http://upit.cc/images/a7bd16f6.png[/img]: 1/5 ????? There are so many tutorials provided throughout not only Hackforums but also the Internet itself. And even those tutorials are more in-depth and efficient than this ebook.

=====

Overall Score (rounded):

????? 1/5 (Poor)

=====

NOTES: I cannot understand why you are selling this ebook for \$5. Tutorials are everywhere. You also told us to "manually rehash and resign" our profiles after the modification. You seem to not realize that Modio itself has its own rehasher and resigner. And even if it didn't, you should have at

least provided the steps on how to manually do it. But you don't. This ebook would leave the beginner modder in the dark, and is definitely not worth \$5.

Reported - February 23, 2011, 9:29 am

Title: [Whaling \[Get loads of accounts!\]](#)

Price: Free

Pages: 1

Author: [Maningrey](#)

Reviewer: [ReportedFall](#)

[img]http://ploader.net/files/46dd2e10e2721baa2b6c46c11469995b.png[/img]4/5

This tutorial's quality is actually pretty good. It shows detailed and precise instructions. I gave the quality a 4/5, because the steps and details are very good, but it doesn't stand out. The tutorial isn't bold or draw me straight to the tutorial.

[img]http://ploader.net/files/716ca4e758bb5d4a6a9a46ea5374d6a5.png[/img]4/5

The grammar on this tutorial is descent, but some words have unneeded capitals or they aren't finished. A 's' might be missed at a end of a sentence or a punctuation.

[img]http://ploader.net/files/c1e3de38fe5a16db458893c60a58e0d1.png[/img]3/5

The instructions are so detailed and easy to read, but images will make it much easier. More color to the tutorial to highlight certain words that are needed to be read will also be useful, so I rate this tutorials Easy-of-Use 3/5.

[img]http://ploader.net/files/c7906c0649dacd8c42aec119d95d9af5.png[/img]2/5

As detailed the steps are, but the layout isn't that good. This thread doesn't stand out to me at all for me to continue to read. The words that redirect you should be highlighted so they'll draw peoples attention and not just read and skipped the link. There is no color and the tutorial just looks basic. People don't want basic they want advanced

[img]http://ploader.net/files/80892f0888e82fea4839a9c75a00e624.png[/img]2/5

This tutorial isn't original at all. There are 6 pages full of whaling tutorials and most of them have the same or similar steps. So the originality is 2/5.

[img]http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Notes.png[/img]

For this review I voiced my opinion and the true rating for this tutorial. Some parts were good, but some parts need to be worked on.

White Hat - February 23, 2011, 9:43 am

I am happy to announce to you that I will be your Reviewer for this E-Book. I will state my most honest opinions and will hold nothing back. My opinions will be based on the E-Books Quality, Ease of Use, Layout, Grammar, Originality, and Notes.

Title: Money Making Method - How to make money using facebook

Author: Skills

Pages: 7

Reviewer: 'F R O Z E

Price: \$6.00 USD

[img]http://upit.cc/images/e3e39d71.png[/IMG]

The quality in this E-Book is in my opinion normal and not to fancy, just plain out normal and

understandable. I am sure that anyone who gets this E-Book is going to be successful at this by following this method. There are a few things to do in this E-Book some are quite easy and some are not so easy...depending if you good at some of the things, especially using your brain.The author seems to have put as much effort as he could to this E-Book as possible, he gives examples, brief descriptions on what to do, and how to accomplish these things.

Rate of Quality: 5\5

[img]http://upit.cc/images/7de8496c.png[/IMG]

To start off,

It isn't the most professional E-Books in the world but it's quite understandable. The author provides many details about earning money via Facebook, he has 7 steps and each step provides 1 paragraph explaining how to accomplish this. Also in each step he gives many example on how to do this & details about how it worked for him. The author should have included some spaces between the paragraphs but it's still ease to understand. From my experience with E-Books such as this, this one seems to be the easiest one to follow. The methods in this E-Books is not hard, in my opinion a 7 year old (If smart enough to understand these things) can do it. The only thing that is required to be successful by following this method is to have 1. Patience and 2. A brain (To brain storm some ideas).

Rate for Ease of Use: 4/5

[img]http://upit.cc/images/25a94b26.png[/img]

The layout in this E-Book was pretty good, he included a contents area to view what you'll be learning from this method and the steps that will be presented. This method did not include pictures at all but each step seems to put a clear picture in my head of what it would look and be like. The color of the font and the background of the E-Books makes it better to read. The author also highlights each steps sub-heading. In my opinion the layout in this E-Book is perfect....the most important part is that it's good no large gaps, no big fonts and that the author gives clear step by step details.

Rate of Layout: 5\5

[img]http://upit.cc/images/41dbdbf6.png[/img]

The grammar in this E-Book is good and easy to understand. There were hardly spelling mistakes, everything was perfect except I found that he forgot to capitalise a couple of words, didn't put comas in some places and put some comas where they don't belong. Besides that everything is perfect.

Rate of Grammar: 4\5

[img]http://upit.cc/images/f2fa3f83.png[/img]

There are many E-Books like this around the entire web, but not with the same information as this one. This one as the author said he did some research how things in facebook worked such as getting lots or friends, convincing people into doing things, getting people to be your fan, and things that weren't just on facebook. The author put all of these things up and used that information that he found out about and used it to gain money. To me I've never seen a E-book like this for this method.

Rate of Originality: 5\5

Overall rate: 5\5

Notes:

Some notes that I will leave are for improvements for this E-Book and some more details for any future buyer.

Things you should improve in this E-Book:To make this E-Book better, you should include some images.

You should space out some paragraphs and not have it all bunched up.

Have everything more organised, especially the contents area.

Include more details on what people should do to accomplish these steps better, especially when signing up to a website.

Things that I liked:What I've liked about this E-Book is that it's very easy to follow.

Not very hard to understand nor do I have to re-read over to remember.

Something that is obvious but no one put to use.

The fact that you can use your mind and come up with anything to do it.

I'm sure anyone who buys this E-Book would guarantee to succeed at this if you put your self to it.

Link to my 2nd review :)

Title: How to setup your Cybergate server and make it FUD off compile

Price: \$9

Pages: 22

Author: Prone

Reviewer: Drizzy

=====

[img]http://upit.cc/images/50e1b4f4.png[/img]

4.5/5

Personally, I found this guide very long, but very easy to use. It completely explains every step and everything you need to know about successfully building your server FUD on compile. The author also makes it easy because he shows plenty of pictures and gives you examples on what to do.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

5/5

The author uses flawless grammar. I have no trouble at all understanding what the author is trying to say. He uses correct capitalization and punctuation. To be honest, Out of the 22 pages, I did not find one mistake in the whole e-book.

[img]http://upit.cc/images/aea97688.png[/img]

5/5

The layout on this e-book is very simple and basic. Nothing too fancy and it is very simple to read. The author used plain colors and made all the letters bold. The bold makes it easier for the eyes to pick up with letters and the words. The author also aligns everything to the center. He even skips a line in between each paragraph to space things out more.

[img]http://upit.cc/images/a7bd16f6.png[/img]

5/5

This is a guide that I have never even heard of before reading this e-book. I was surprised that it even worked because I didn't think something like that was possible.

[img]http://upit.cc/images/82278841.png[/img]

4/5

The quality of this e-book is great. It gives more than enough information about what you need to do in order to make your server FUD on compile. It also very carefully explains each step and it makes it almost impossible to make any mistakes. To be honest, I think a 10 year old would be able to use this guide.

[img]http://upit.cc/images/99eae7f1.png[/img]

Overall I give this e-book a 4.5/5. Almost everything about this e-book is perfect. Also the e-book is very cheap and is worth the money. This e-book is also good for saving yourself money from having to buy a crypter or to pay for crypting services. I suggest everyone to buy this e-book because it is well worth it.

[img]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Quality.png>[/img] 5/5
[img]<http://i.min.us/ibFDP4.png>[/img]

The author went way overboard. I can't imagine a better ebook, really. He took his time, and he clearly and efficiently explains all ideas in the ebook. The information is so valuable inside of this ebook, it shows methods and you can protect yourself like never before. There's no irrelevant blabber, he's straight to the point with every bit of information. I'm in awe. I actually cannot criticize it. The quality of this ebook far surpasses the norm. Five out of a possible five.

[img]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Ease-of-Use.png>[/img] 5/5
[img]<http://i.min.us/ibFDP4.png>[/img]

Straight to the point. Navigation is incredibly easy to follow, and you could easily locate any information in the ebook using the index. Pictures and diagrams really benefit the ebook, and make

it easy to follow. The information is really easy to put into use, and I would never have to ask the author for support. Everything's there. Five out of a possible five.

[img]http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Layout.png[/img] 5/5
[img]http://i.min.us/ibFDP4.png[/img]

If I were to describe the layout with one word, it would be: Nice. Clean, easy to read, and does not fail to impress. All the fonts and colors used really completes the ebook. Pictures are placed appropriately and well. Five out of a possible five.

[img]http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Grammar.png[/img] 4/5
[img]http://i.min.us/ibMBVo.png[/img]

Very good. I can only point out a few mistakes, and they're not very significant. The few errors I found do not cripple the ebook or the information inside the ebook in any way. They should use a spell checker, and have someone else proof read it next time. Nonetheless, very good. Four out of a possible five.

[img]http://ploader.net/files/80892f0888e82fea4839a9c75a00e624.png[/img] 5/5
[img]http://i.min.us/ibFDP4.png[/img]

The information contained in this ebook is very original. The new methods really make this ebook a golden purchase. The subject may not be completely original, but it's definitely the top of it's kind. Five out of a possible five.

Notes

Everything the author proclaimed is true. It really is original and revolutionary. To purchase this ebook would be no mistake; it's simply amazing. I've been able to secure my computer better than ever before, and I have no doubt my information is safe. Good work.

Title: The Crypter Blueprint

Price: Free

Pages: 46

Author: Shawn

Reviewer: Bigandrewgold

==

Review (Ratings on a scale of 1-5)

Quality of Information:5/5

This ebook is very informative. Most of the information within is somewhat known by some but there is a lot of information that isn't as well known. No matter who you are this ebook can teach you a lot of things about all of the different types of crypters and how they work. It seems like the writer of this ebook took a long time to make this ebook and used lots of his along with others knowledge.

Ease of Use:3/5

This is where this ebook lags behind. The main reason for that is that it is so long. The fact that it is so big and has so much information makes the ebook a longer read and makes it a little bit harder

to use. Even though most a few people will not find this a problem i know that a few people will not like how much is in this ebook.

Layout:5/5

The layout of the ebook is very good. It is broken down into 6 chapters that are in themselves very well organized. The information within this ebook is very easy to find because of the also well laid out table of contents. There are also lots of well placed pictures that improve on the already good text in this ebook.

Grammar:5/5

The grammar is great. There are no noticeable grammar mistakes and it appears that it was proofread many times. I do not believe that anyone will have any problem understanding this ebook.

Originality:4/5

Although this is a great ebook there are numerous other about crypting. Even though this one sets itself apart through it's vast amount of detail there are other ebooks that are just as informative.

Notes: I personally enjoyed this ebook. It was a great read and I learned a lot of useful information.

Overall: 4/5

=====

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Quality.png>[IMG]

5/5

The information used through out the eBook was very detailed and the author had explained the main subject extremely well and the e-book was specifically designed to be "noob friendly". The author has a lot used pictures which would help the reader of this eBook understand well. The pictures were only used in some cases in which were the author had a knowledge on the level of difficulty. Most of the pages in this eBook contained pictures however, it is the only way the reader will know what to click on, he had labelled all the pictures that were used and gave a brief description!

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Ease-of-Use.png>[IMG]

5/5

This eBook uses an easily readable .pdf format, which prevents the eBook from being edited further. The author has written the information in an astonishing detail by labeling the images that were used so that the reader will be able to understand what they are actually there for and the author had also explained on what you can do with the things shown in the image so that the reader can identify the looks and find out were they are supposed to go. There are also examples links which were provided so that the reader is able to indentify were to go and how to contact the author of the eBook. The requirements for the mehtod to work was also posted.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Layout.png>[IMG]

3/5

The layout of this eBook was pretty good as the author had not used many colors which could have

annoyed the reader, it was just plain black and except for the title. There were however some colors on the labels of the image but you can clearly read so it wasn't much of a problem.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Grammar.png>[/IMG]
4/5

The grammar used in this eBook rather fascinating as it is easily understandable however, there were few mistakes but yes, anyone can read it by looking it at. The information in this eBook was straight forward and the grammar was also good because there wasn't any much mistakes I spotted even when I had read it through a few times. There was a bit of punctuation errors however they are not easy to find.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Originality.png>[/IMG]
5/5

The eBook in my opinion was unique as I have not seen any methods that is similar or exact to this eBook. The methods were very clever because it can help you get your website a great Google rank very easily - by anyone who can read and understand the eBook itself. I am a frequent eBook reader, however I have not seen this method anywhere and this author had put a lot of work on this eBook, and it is astonishing.

[img]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Notes.png>[/img]

Good method, it is unique, never seen it before, so I'd say astonishing. The eBook could help you get a good rank and it is pretty cheap. There was all that you require in order to do it, such as example links, pictures etc. You do though need to have some skills and if you follow very carefully, as well do it over long time. This is not a overnight ranking method, so if you are one of those looking for overnight method, i would not buy this as it will take sometime to get it to work.

My overall score of this eBook will be rated a 4/5 as the author strived to give a great method, and a unique one.

?????

Mitch. - February 23, 2011, 4:42 pm

Review (Ratings on a scale of 1-5)

==

Quality of Information: 5/5

The amount, and quality of information provided in this eBook was just perfect. It provided all necessary pre-requisites, steps, resources, and FAQ's making it a very easy eBook to understand. The method used within the eBook is foolproof. Understanding the information written within the eBook was incredibly easy. The author went to great lengths to make sure every single customer will be satisfied.

Ease of Use: 3/5

Even with the plethora of information provided, putting this method to use was a slight challenge. It requires time, patience, and some hard work. If you are adamant on putting this eBook to use, you should have no trouble getting it to work for you. However, if you are lazy and don't feel like putting some real effort into it, you may want to reconsider purchasing this eBook.

Layout: 4/5

Categorized by appealing titles, and a neat table of contents, this book is very aesthetically pleasing. The design of the book will not, in any way, hinder you from receiving the information you

paid for. The layout does not impede any comprehension of the information provided.

Grammar: 3/5

When reading through this eBook, I did notice some grammatical errors. Mostly little things, such as a missing apostrophe, or an unnecessary capitalization. These did not heavily reduce the quality of this book, nor make it difficult to understand. It was however slightly irritating to see such errors go unnoticed.

Originality: 5/5

This method is incredibly unique. I have never seen it before, nor have I ever thought of it. It seems to be non-patchable, as well as being a non-saturable method. What I mean by this, is that this method can be used by many people, many times, and still work.

Notes: I would recommend this eBook to anyone who is interested in the topic. All information provided in this thread is correct, as well as all information provided in the eBook being correct. The price is fair for the quality of information you are receiving. Overall, I would rate this eBook a 4/5 due to grammatical errors, and the work required to make it work. OP, good luck with your sales.

(I didn't make it all fancy looking because I really don't think that is necessary in my application. If you, however, would like me to do so please let me know.)

Moot - February 23, 2011, 4:49 pm

Title: "How to spread using a Java drive-by"

Price: \$7

Author: Silver

Reviewer: Mute

Review (Ratings on a scale of 1-5)

==

[img]http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Quality.png[/img]

I didn't find myself learning from this e-book, I was actually asking more questions and googling to find out what the author was talking about, which wasn't really a problem for me, but it may be different for others. Could have written/explained more in depth. Not good for beginners. 2/5

[img]http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Ease-of-Use.png[/img]

This is an auto-pilot method, which means it spreads even when you're sleeping or just simply not at your computer, which is a good thing. It takes a bit of time to set it up, but luckily it's a one time setup. I'd say it's pretty easy if you're dedicated to actually getting the job done. 4/5

[img]http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Layout.png[/img]

The layout was awesome. Very clean and professional looking, easy to navigate through the table of contents and everything was easy to find. The only problem I had with it was the font, it was a bit annoying to read, some letters were confused with others. Paragraph breaks were perfectly used. The colors weren't annoying, red was used for words like "WARNING" or "STOP HERE" etc. 4/5

[img]http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Grammar.png[/img]

The only thing I saw wrong with the grammar, is that commas were used incorrectly and some words weren't used correctly. For example:

"Setting up, you're drive-by is simple"

Which was a bit annoying for me to read. Luckily it wasn't all over the book and was only in some

parts. 3/5

[img]http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Originality.png[/img]

This is not a very original idea, in fact, you might be able to find a free tutorial around here that is just as good and goes into more depth. I wouldn't pick this for myself to use. 2/5

Notes:

If you're going to purchase this e-book, please be aware that there are several similar tutorials around HF that you could use. Other than that, this is a pretty quality e-book. Only work it needs is fixing punctuations. Overall, good job on the e-book and good luck in sales.

Overall score: 3/5

Here's one of the trial reviews I did when I was in the group a few months ago. I had to leave due to personal stuff, I couldn't be active.

Spoiler ([Click to View](#))

Author: Baaso

Title of the e-book: Get Unlimited Kaspersky Internet Security 1 Year Legit Licenses for free 3 and 1 user

Pages: 13

Price: \$15 USD

Reviewer: Mute

[img]http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Quality.png[/img]

The quality of information in this is lacking, mainly because there are more pictures than text. It needs more words, explaining more in depth of what you're doing in the pictures, to give the reason for each step. Remember, people don't only want to know what buttons to click to get the keys, but they also want to know why and how this gives you the keys, so they know what they can grasp a better idea of what they're doing. Since the pictures can be followed easily, I gave this a 3/5.

[img]http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Ease-of-Use.png[/img]

This method requires a little bit of time, and some things that not everybody may have. I'd say if you were just a new person trying to make some money from things like this, it might not be the thing you want to buy. I'll give this a 3/5, because passed the requirements to start, it's a pretty easy to use method.

[img]http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Layout.png[/img]

The layout is lacking and could be 10x better if you put a bit more time into it. While having a lot of pictures is a good thing, it's not a good thing to just plaster them all over the place with a minimum amount of text explanations. I'll give this a 2/5, because even though it's not as organized as it could be, it's not distracting from the point of the e-book.

[img]http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Grammar.png[/img]

Right when I opened this up I could see a spelling mistake, which made it looked very nonprofessional. You're also missing a lot of punctuation and not fully spelling out words, for example "u c" instead of "you see" is a terrible thing to put into your e-book. Some sentences have the words "had" instead of "have", misusing past tense and present tense words is not a good thing. I gave this a 1/5, because the grammar is lacking quite a bit.

[img]http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Originality.png[/img]

This is a very original e-book, one that really caught my eye from the start. I gave it a 4/5, because I've never seen this method being sold before or never seen this method in the public.

Notes:

The information given in this e-book is of value, but the e-book's layout and grammar are lacking. Which makes it look nonprofessional. It could go deeper into explanation, but it doesn't.

If somebody more experienced in writing e-books were to write this it would have gotten a far better score, unfortunately it seems as though it was written by someone completely new to e-books.

Besides the quality, the method seems to be up to par, and everything looks legit from my end. I wish you good luck on your sales Baaso, and hope to see more e-books with these methods from you in the future.

Buzz Lightyear - February 23, 2011, 5:29 pm

[IMG]<http://upit.cc/images/82278841.png>[/IMG]
[IMG]http://i1221.photobucket.com/albums/dd478/designthefutur3/HF%20Reviewers/star_four.png[/MG]

I felt the quality of this eBook was almost flawless. The details are in depth, and the author goes into detail about different items. However, thanks to the internet, these techniques are online and require a simple Google search to aquire.

[IMG]<http://upit.cc/images/5fe7ea0d.png>[/IMG]
[IMG]http://i1221.photobucket.com/albums/dd478/designthefutur3/HF%20Reviewers/star_one.png[/MG]

The grammar used was quite horrendous. There were errors almost every sentence. The errors could have been prevented if the author took time to proofread his work. The spelling was bad. The author did not know the difference between "to", "two", and "too".

[IMG]<http://upit.cc/images/50e1b4f4.png>[/IMG]
[IMG]http://i1221.photobucket.com/albums/dd478/designthefutur3/HF%20Reviewers/star_five.png[/MG]

I thought the eBook was easy to use thanks to the large font and color coding. This made it easy to read, and keep the reader hooked.. This is exactly what an eBook should look like.

[IMG]<http://upit.cc/images/aea97688.png>[/IMG]
[IMG]http://i1221.photobucket.com/albums/dd478/designthefutur3/HF%20Reviewers/star_four.png[/MG]

The layout was very well made. Each header and title were bolded and sized differently. However, the rather large walls of text could have been broken up with some images. Few images/screenshots were actually used.

[IMG]<http://upit.cc/images/a7bd16f6.png>[/IMG]
[IMG]http://i1221.photobucket.com/albums/dd478/designthefutur3/HF%20Reviewers/star_one.png[/I

MG]

The eBook itself isn't very original. The topic at hand is a broad one, and Google searches could find most of these techniques explained in the book. If the author had bothered to explain and expand on the topics, it would have made the eBook a lot better.

Overall: 3/5

=====

OVERALL SCORE: 4/5

[img]http://upit.cc/images/82278841.png[/img]

4/5

This eBook is one of the better money making guides that I have seen in the forum. I would have given this 5/5 if the author had uploaded it in a format other than a .png file. I did, however, appreciate the fact that he made the photos in high resolution. All in all, I would have preferred a .pdf, but he pulled off the image well.

[img]http://upit.cc/images/50e1b4f4.png[/img]

5/5

This is one of the easiest to follow eBooks that I have seen. The author has clear pictures and directions for what to do, and they correspond with what the reader will actually see. It is as easy to follow as a "for Dummies" book. If you are planning on buying solely for ease of use, I would say do it.

[img]http://upit.cc/images/aea97688.png[/img]

5/5

The layout of this eBook is great. It has a clear table of contents and it has images followed by descriptions. It appears as the author is a professional at eBook writing. The images are neatly spaced, and they are accompanied by well-located descriptions.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

4/5

The grammar was mostly good, but there were a couple of spelling errors, so I can't give it a 5.

[img]http://upit.cc/images/a7bd16f6.png[/img]

2/5

This is a very overused method to make money on eBay. I will not elaborate as to what this method is due to anti-spoiling, but I will tell you that when you purchase this eBook, a lot of you will see nothing new.

[img]http://upit.cc/images/99eae7f1.png[/img]

Overall, I would recommend buying this eBook. The method is a bit unoriginal, but it explains it extremely well. I see no reason not to purchase it other than some overuse problems.

If you have any questions concerning this review, please PM me.

Pending Response Canned Speech

Hello! Thank you for contacting the Official Reviewers regarding your eBook, "How to Create Successful Forum!" My name is Perfection, and I have been assigned to Officially Review your eBook. Please keep in my mind, you are currently in the pending stage. Whilst in this stage, I will review your eBook and judge it based on: Layout, Quality, Grammar, Ease-Of-Use, and Originality. During the time I am looking over the book, I ask for you to please be patient and wait for me to finish. The Maximum wait time for an Official Review will be approximately 72 Hours. Feel free to contact a leader of the reviewers if you have any critical questions or concerns or me personally.

Thank you for your Patience,
Perfection

Official Review

Title: How to Create a Successful Forum
Author: The Laughing Man
Pages: 35
Price: Free
Reviewer: Perfection

[img]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Quality.png>[/img]

[img]<http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png>[/img]

The Quality of the eBook is pretty nice overall. It provides all of the most useful steps and tips in order to get your forum online and fully functioning. The eBook contains quite a lot of information, and unique ideas/tips the author wishes to show you. In my personal opinion, most of the given information in this eBook is High Quality and will definitely help you. Though a few parts of the tutorial, the Author will tend to go off topic and lead the reader away from the main objective of the book. In some areas, there are a few small gaps that may confuse the reader, leaving him/her to skip to the next part. However these are rare and have only occurred a few times throughout the eBook, so it shouldn't be a large problem at all for the general reader to complete the read.

[img]<http://i.min.us/idZg9U.png>[/img]

[img]<http://ploader.net/files/ce0e7c7521e86291210cce350a6a421e.png>[/img]

To most inexperienced web developers, this method may be quite difficult to complete and it may take quite some time. The book is extremely detailed and labeled step by step increasing the Ease-Of-Use, however the actual method itself can be quite difficult. The author includes different variables to creating the forum, that can confuse some readers, and some may get stuck from time to time attempting to complete a step. The tutorial uses the MyBB forum as the example software, and may be hard to follow if you are using a different type of software. The author includes many pictures that may help you, however not significantly. In my personal opinion, I believe you must have prior forum software knowledge before conducting this method.

[img]<http://i.min.us/idY2f2.png>[/img]

[img]<http://ploader.net/files/ce0e7c7521e86291210cce350a6a421e.png>[/img]

I must admit, I was not a fan of the layout. The background is quite bland, and it just gives off a boring look. The colors are mostly black and white, and the author included a repeating poorly designed title picture that may distract you from reading. One thing I did enjoy was the paragraph spacing. You can tell that the Author worked hard to supply an Ebook that was correctly spaced out on each page and well structured. The Ebook is also very organized which is always a good thing.

Even though most of the pictures the Author included were quite poorly designed and placed, the Author took the liberty of including some pictures that may help you throughout the method, whilst other shabby pictures were just added as an attempt to make the eBook look more colorful which indeed failed.

[img]<http://i.min.us/ied5w0.png>[/img]

[img]<http://ploader.net/files/ce0e7c7521e86291210cce350a6a421e.png>[/img]

The Ebook's Spelling and Grammar is not superb either. From time to time you will spot out a few misplaced words (such as where "there" should be "their" and things similar to that), and different grammatical mistakes. From my point of view, the Author seemed to be rushing through his writing, and misplaced a few words which resulted in grammar mistakes. He also included words such as: (u, cya, lol, etc.) which sets off an unprofessional impression to me and may for other readers. The Grammar is not atrocious though, and should not stop you from being able to read it correctly and get through the method.

[img]<http://i.min.us/iecQRY.png>[/img]

[img]<http://i.min.us/iedb6C.png>[/img]

Sadly, originality is not one of the books strong points, as this type of eBook is quite commonly found on the internet with 5 seconds of googling. Over my time purchasing and reviewing Ebooks, I have seen quite a few of these, and it looks to me as though many of the tips have been stolen from those and inserted into this ebook. Some Similar ebooks can just be found searching Google. However, what may make it insignificantly different, may be the details provided, although little seemed to be added just to make the Ebook longer.

Notes

I have a few things I would like to discuss with you, before you purchase this. The Ebook is indeed worth the read, and will help you greatly. However, as mentioned above, I do not think it is a very smart idea purchasing this without any prior forum development knowledge. I would also like to explain to you, how stressful and hard this method can be. Creating, Managing, and Advertising isn't fun, and it's a lot of hard work. Before purchasing, ask yourself if you are 100% sure you are ready to purchase something that requires most of your time on the computer. Some of the tips and instructions may also not fit your needs. However, I believe the Author just used some as a mere example. Overall, this is a fairly okay Ebook. Like said, it may be difficult to follow and complete, however I do recommend it to advanced web developers and those who feel they are 100% ready to take on the challenge of starting their own forum.

I wish you the best of luck with sales, TheLaughingMan.

Additional Information may be found below.

Spoiler ([Click to View](#))

Additional Statements and Information: I appreciate the fact that you have taken the time to read my application. I would just like to state a few things, and possibly provide you with some more information that may increase your opinion about me. For starters, I am asking kindly that I do not be judged by the amount of posts or reputation I have. To me, being a Reviewer does not involve any of those obstacles, and I would like to keep it as far away from my application as possible. I assure you, I have quite a bit of experience in the Marketplace and I know what to expect for the most part if I actually get the job. The purpose of being a HF Official Reviewer is simple; Provide an exceptional review on one's Ebook so the sellers can benefit from it. Not only does this improve the Seller's income, but it improves the forum's Marketplace economy as well. Real Reviewers do not

supply cheap and rushed reviews just for the sake of time, or just for the free eBook! And I assure you none of that will be taking place while I am a Reviewer. Another important role of the general Reviewer, is to have exceptional grammar. Which I believe my grammar/spelling is fully up to par. In case of any misplaced words or grammatical mistakes, I scan all my posts with the spell checker just to make sure, and that is how serious I am about this! I have seen quite a few example reviews, and I have also written a few eBooks, which hopefully will help me out greatly when I am in the process of reviewing an Ebook. I have a list of multiple canned speeches I can use too, as well as Icons, Stars, and a "Pending Review" response all contained in a folder in case I am accepted.

For months I have dreamed about becoming an Official Reviewer, and even if I am denied, I vow I will always try my best to succeed. I once again thank you for viewing my application, and I am hoping for the best.

[img]http://upit.cc/images/82278841.png[/img]

5/5

This ebook has tons of useful methods on making money using \$harecash. It is extremely detailed and is utmost in quality. The author really took time in writing this. Every method in this ebook is precisely explained so that after read you will be able to implement them.

[img]http://upit.cc/images/50e1b4f4.png[/img]

5/5

After reading this anyone will be able to use this to make a profit online. Each of the methods in ebook are fairly easy to use and have potential to be very rewarding. So overall if you're looking for an ebook that is easy to use and not hard to implement this is the ebook for you.

[img]http://upit.cc/images/aea97688.png[/img]

4/5

This ebook is laid out in a paragraph format. It's nothing fancy just a paragraph for each method.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

5/5

I found no grammatical mistakes when reading this. The author obviously put time into making sure his ebook didn't have any grammar mistakes.

[img]http://upit.cc/images/a7bd16f6.png[/img]

5/5

This was a very original ebook I doubt the methods in this book were ever thought of by others. Reading this will prove very rewarding.

[img]http://upit.cc/images/99eae7f1.png[/img]

Overall I think this is a really well written ebook.

Flashnox™ - February 24, 2011, 4:50 am

Introductory Statement

Hello, Flashnox™ here, I am happy to announce to you that I will be your Official Reviewer for your eBook.

I hold no bias opinion whilst reviewing your eBook, but please be advised that the following review is based on my opinion of the book and it may vary between the readers.

=====

Overall Score: 2/10

=====

[img]http://ploader.net/files/46dd2e10e2721baa2b6c46c11469995b.png[/img][img]http://ploader.net/files/4d73dd6f3e01ed26cc2844d856d631b8.png[/img]

The quality of the information that was contained in this eBook was close to horrible. It is very evident that the creator of this eBook did not put in nearly as much time as he needed to make this eBook successful and the eBook is very hard to follow even though the method is very easy in general. It misses a lot of vital information that is needed to allow the reader to have success with this method. The eBook looks very unprofessional and is also messy, the colors tend to hurt your eyes after a few minutes of reading.

Overall, I gave this a two star because the method is half decent but it is widely known, if followed properly it can result in an income of a couple of bucks a week but don't expect money within a couple of days. This method requires quite some time to get started but needs little to no work after the setup.

The eBook can easily be made better with a little bit of work on the layout and grammar but everything else seems fine.

[img]http://ploader.net/files/c1e3de38fe5a16db458893c60a58e0d1.png[/img][img]http://img132.imareshack.us/img132/2350/star3m.png[/img]

The method the eBook uses is very easily followable in general but the way this particular eBook explains it is a bit more complicated. The steps are very messy and all over the place and it contains many more steps than required. If English is your second language, it may be hard for you to understand and keep track of what is happening depending on your English comprehension. The steps are separated which is always a great thing, but most of the information written in the 'steps' are just descriptions and warnings. I would recommend that you start off your eBook by adding descriptions and warnings at the start of the eBook so the readers can expect problems that may occur whilst going through the steps.

[img]http://ploader.net/files/c7906c0649dacd8c42aec119d95d9af5.png[/img]

To start things off, this eBook is a pdf file but it has no images whatsoever. The 2 pages are just full of text and the background color is white which causes your eyes to hurt after a few minutes of reading. The indentation and spaces are inconsistent throughout the whole eBook can the eBook just doesn't look professional at all. As you open the eBook, all you see is a block of text and the title

is also plain text. It is very hard to recognize the introduction, the method, and the conclusion. The eBook contains no links to anywhere, a professional eBook usually links you to every site that is included and needed to use the eBook.

[img]http://ploader.net/files/716ca4e758bb5d4a6a9a46ea5374d6a5.png[/img][img]http://img132.imageshack.us/img132/2350/star3m.png[/img]

The grammar definitely needs improvement but there are no major mistakes. The consistent errors include using its instead of it's and your instead of *you're*. The eBook definitely needs works with punctuation, especially commas and fullstops. Some sentences are very long while some are too short to be a sentence by itself. The eBook uses slang in some parts which is very unprofessional but the capitalization looks good and so far I can only spot around 3 spelling errors.

[img]http://ploader.net/files/80892f0888e82fea4839a9c75a00e624.png[/img]

There are already hundreds of eBooks that explain the exact same method and there are no new information given in this eBook. This eBook is probably the most viral eBook around these days and it is very likely that you have already read or even own an eBook that is similar to this eBook. I have seen countless eBooks that use this exact same method and this eBook is just another for the collection.

Notes

- This eBook requires a lot of improvement, it is currently very unprofessional and unoriginal.
- It requires a lot of patience and time to get your first payment, and do not expect yo be handed even \$10 on your first withdrawal.
- There are countless eBooks that explain similar methods and it is very likely that you have read it before. The layout may stress out your eyes so be sure to take breaks during the read.
- You can receive your payment via Paypal and Autopay so be sure to have one of those ready for use.
- The eBook is not very detailed so it may be hard to follow.

Title: Make Big \$\$\$ of PTC's and GPT's

Author: Unknown

Price: Free

Pages: 12

Reviewer: [Phiber Optiks](#)

Scale: 5 stars= best | 1 star=worst

=====

[IMG]http://i.min.us/jlKyJq.png[/IMG][IMG]http://i.min.us/jlKOWS.png[/IMG]

The quality of this E-Book is that which you would expect out of the methods used. It contains the information necessary to utilize the potential of the methods and is quite informative when explaining each method.

[IMG]http://i.min.us/jlG5UG.png[/IMG] [IMG]http://i.min.us/jlG3QC.png[/IMG]

Most E-Books that have anything to do with PTC's or GPT's generally require your time and effort to be successful. In this case, anyone can use this E-Book, but you must sacrifice your time and effort if you want to make more out of it. The only problem with the use of this method is that most websites have found ways to block it and eventually the majority of PTC's and GPT's will have patched it. It also provides you with the necessary tools and their download links.

[\[IMG\]http://i.min.us/jj35wy.png](http://i.min.us/jj35wy.png)[\[IMG\]http://i.min.us/jj4d26.png](http://i.min.us/jj4d26.png)[\[IMG\]](http://i.min.us/jj4d26.png)

The layout of the E-Book was fairly simple, it has a table of contents which covered the main topics but it should have included the sub topics covered in the E-Book under them. The text itself was in a font that I thought was too big and it seemed to make up the majority of the E-Book pages due to the size. There were few pictures but the ones that were present, were very helpful as a visual representation.

[\[IMG\]http://i.min.us/jj4d22.png](http://i.min.us/jj4d22.png)[\[IMG\]http://i.min.us/jlG3QC.png](http://i.min.us/jlG3QC.png)[\[IMG\]](http://i.min.us/jlG3QC.png)

The grammar of this E-Book wasn't perfect and there was a couple problems with fragmented sentences and punctuation which made it hard to follow sometimes. Also there are some paragraphs which could use indenting to make it a bit easier for the reader to distinguish the points being made.

[\[IMG\]http://i.min.us/jlGxyc.png](http://i.min.us/jlGxyc.png)[\[IMG\]](http://i.min.us/jlGxyc.png)

I have never seen this method before and it is very unique in the sense that it uses a tool that can modify a certain variable in PTC's and GPT's.

[\[IMG\]http://i.min.us/jj3wPU.png](http://i.min.us/jj3wPU.png)[\[IMG\]](http://i.min.us/jj3wPU.png)

Once again I would like to mention the fact that this E-Book requires your time and effort for the best results and success. I would recommend it to anyone who would like to use an original method that is willing to spend their time. I personally have seen many E-Books that require the same amount of time as this one in order to make the same amount of money but this method IS unique.

Title: Make \$300 an hour! White Hat Method!

Author: EctoPlasm

Price: \$15

Pages: 5

Reviewer: [EctoPlasm](#)

Scale: 5 stars= best | 1 star=worst

=====

[\[IMG\]http://i.min.us/jlKyJq.png](http://i.min.us/jlKyJq.png)[\[IMG\]http://i.min.us/jlKOWS.png](http://i.min.us/jlKOWS.png)[\[IMG\]](http://i.min.us/jlKOWS.png)

This is a High Quality, step by step, informative Ebook. It clearly shows how to accomplish the following task step by step with screenshots Involved. It took me no more then 15 minutes to Understand this Ebook.

[\[IMG\]http://i.min.us/jlG5UG.png](http://i.min.us/jlG5UG.png)[\[IMG\]http://i.min.us/jlG3QC.png](http://i.min.us/jlG3QC.png)[\[IMG\]](http://i.min.us/jlG3QC.png)

This Ebook requires no investments or start up plans, anyone with a brain and patience can accomplish this task.

[\[IMG\]http://i.min.us/jj35wy.png](http://i.min.us/jj35wy.png)[\[IMG\]http://i.min.us/jj4d26.png](http://i.min.us/jj4d26.png)[\[IMG\]](http://i.min.us/jj4d26.png)

The layout of the E-Book was organized in a way where the reader will be able to clearly

understand each step. It highlights the most important things to understand and is clear and easy to read.

[IMG]<http://i.min.us/jj4d22.png>[/IMG]

[IMG]<http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png>[/IMG]

The grammar in this E-book is well done, there is no misunderstanding or run on sentences. He makes it simple and understandable in each sentence.

[IMG]<http://i.min.us/jlGxyc.png>[/IMG]

This method is out in the public but users do not know how to fully operate the task. With this ebook, it will teach the buyer how to finish and understand the ways of making the money.

[IMG]<http://i.min.us/jj3wPU.png>[/IMG]

I would advise the seller to add a FAQ at the bottom of some questions people might have if they want to do specific tasks on each step. Other than that, the author has put enough effort to make this a proper monetizing ebook.

Ally Mac - February 24, 2011, 10:55 am

Title: How to make an IRC botnet.

Price: \$10

Pages: 25

Author: Fake_guy_123

Reviewer: Ally Mac

=====

[img]<http://ploader.net/files/46dd2e10e2721baa2b6c46c11469995b.png>[/img]

[img]<http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png>[/img]

The information which was displayed in this eBook, was close to, if not at professional level. Everything was clearly explained, in fact, I would dare to say it was in so much level I could teach my Grandma how to get up an IRC botnet with this eBook, she'd be DDoSing in no time, but I will not show my 100%, completely, computer illiterate grandma this.

[img]<http://ploader.net/files/716ca4e758bb5d4a6a9a46ea5374d6a5.png>[/img]

[img]<http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png>[/img]

The grammar was close to perfect, very little mistakes and the mistake that were made were by using highly advanced literacy techniques. Most readers probably will not even notice these mistake they are that subtle.

A very good job done by the author.

[img]<http://ploader.net/files/c1e3de38fe5a16db458893c60a58e0d1.png>[/img]

[img]<http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png>[/img]

As I have already said, it was amazing in depth, which make setting up my own IRC botnet simple, probably the easiest I have ever seen. The author done a great job on making this completely 'fool' proof for the reader. Obviously a lot of time was spent on the creation of this.

[img]<http://ploader.net/files/c7906c0649dacd8c42aec119d95d9af5.png>[/img]

[img]http://ploader.net/files/ce0e7c7521e86291210cce350a6a421e.png[/img]

The layout of this eBook was some-what of a disappointment, the author used a semi-light blue colour, which was straining upon my eyes. But, he did use appropriately bolding to highlight key words and areas, which, of course, was good.

There was also about 2 pages of HD images include, which made it easier to use as well.

[img]http://ploader.net/files/80892f0888e82fea4839a9c75a00e624.png[/img]

[img]http://ploader.net/files/7028b9542c1b458588f69b1fe2209dba.png[/img]

This is where the eBook got let us, greatly, all this information is publicly available for free, but in many different places.

Although, the author does a great job of making a lot of complicated tutorials, simpler, without missing any details and putting them in the one place.

Notes

A very grand job, sir.

» Title: How to Make a Successful Website

» Price: \$7.50

» Pages: 5

» Author: Nerve

» Reviewer: iniSiz

» Overall Score: 8/10

The quality of this eBook was of a very high standard, and I was particularly impressed by the quality of information given. I found that this ebook is very unique and the method is self is very easy to carry out, and you can have your supposed website up and running with all the extra perks that it needs within the next two days post-purchase of this ebook. As well as this, the method is laid out into sections, which is easily navigated through, and you can stop and pick up from any point of your choice. If I were to put myself in an alien's shoes, I feel that even then I'd be able to follow this tutorial without any prior knowledge, as it explains to you what you'll need and what you should do before attempting to carry out the given method. Overall I have given this ebook a 4-stars, based purely on the ease of use and quality.

The method that you will be attempting to use is explained thoroughly through this ebook and at the end of each section has a large list of troubleshooting solutions, which will therefore rule out the chance of you getting stuck or lost. As well as this, there's also a short 1-5 bullet-pointed list with a condensed tutorial of what you should have done in that section, just to make sure you haven't missed any vital information which will prevent you from continuing.

Quite frankly I was amazed by the layout of this ebook, and judging by the images, format of text and general organisation you should have next to no trouble following the method. There are 5 pages, mainly because of the amount of images involved, and the organisation, as each section is formatted amazingly, making sure there is no blocks of text that may be a strain on the eye, or too hard to follow. One of the main things I was impressed with was the bibliography-type list included within each section, which gives you a number of links which will ideally aid you in following the tutorial, and general usage. All of the text is kept within the set of 3 colours, and all colours are presented in the relevant places, which follow a clear pattern.

The grammar on this book was near enough perfect, aside from the occasional miss of punctuation or misconception of a word, such as "your" instead of "you're". There was also a few parts where you missed capitalization of nouns, such as names of companies like "hostgator". As said, these errors are very low-key and do not occur frequently, so overall I was impressed with it and there should be no problem with anyone understanding and interpreting the text.

[img]http://ploader.net/files/80892f0888e82fea4839a9c75a00e624.png[/img][img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]

Although there are hundreds of ebook's on the same or similar subject, this ebook has stood out to me as the one that provides the most information and help, as well as troubleshooting and countless amounts of images attached to each point. The ebook also reveals a few hidden methods which are supposedly only known by the author, which are very useful and can be used alongside the creation of your website, such as SEO tools.

» Notes

The eBook in general was very impressive, and if there were to be one thing you should improve on, it'd be the punctuation and the odd bit of grammar, as that's the main thing that is letting it down.

It also requires a lot of concentration, as well as time. I estimate it'll take you a good 10 hours to get it sorted, and from there you can literally glide through everything post-completion.

There are numerous ebooks that explain the same method, although I was impressed at how you pulled it off and how much information was displayed, in comparison to any other ebook I have read regarding the same subject.

This ebook will need some initial cash investment, but after it's completed you will gain it back six-fold.

The ebook is absolutely fantastic, and I would highly recommend it to anyone interested in that sector, as it's so easy to follow and carry out.

Zach - February 24, 2011, 4:12 pm

Title: How to set up a Java drive-by [New Method]

Overall Rating: 4/5

Price: \$15.00 U.S.D

Author: Emmett Sayer

Reviewer: Zeus

3/5 ????

[img]http://upit.cc/images/50e1b4f4.png[/img]

Introduction was nicely explained especially for the main idea, simple self-explanatory to start off with,

I suggest you should take a more deep understanding for the next version of this, I noticed things were a little off while reading.

Taking things step by step would make things more smooth to start off with sir.

4/5 ????

[img]http://upit.cc/images/82278841.png[/img]

I did notice a small issue with explanations on the guide, to a point this was easy to understand with the method you presented.

Through reading this I did noticed a few mistakes yet again with the steps, my suggestion to you would be plan this out a little better, might do you some good & improve your quality.

5/5 ?????

[img]http://upit.cc/images/aea97688.png[/img]

I was simply amazed with the layout, very eye catching. You will have no trouble finding the next step with this layout, honestly very impressing.

This would be for me the highlight, I did indeed like this new "web 2.0" tech look on the book while reading, make this easy on the eyes.

4/5 ????

[img]http://upit.cc/images/5fe7ea0d.png[/img]

Grammar along with punctuation was not a huge issue, you will have not trouble reading this to a point,

my suggestion is to run this through a tool to check grammar mistakes, even the most minor details would bring great guilty.

5/5 ?????

[img]http://upit.cc/images/a7bd16f6.png[/img]

The creator of this presented a new type of method one that I myself have not seen around, the recreation of this would be difficult task, honestly originality at its best.

[img]http://upit.cc/images/99eae7f1.png[/img]

My true thoughts on this at first were low thinking it was just another java tutorial. While I was reading this though, I was amazed with the new method this presented. You will have absolutely no issue setting this up along with familiarizing yourself with the steps taken. Members that are looking to buy this, give this a try very much worth your time & money you will not be disappointed one bit I guarantee it.

Title: How to build and maintain a successful Forum.

Price: \$10.00

Pages: 12

Author: Vbulletin

Reviewer: T3h Hack3r

=====

[img]http://upit.cc/images/82278841.png[/img]

5/5

The quality of the information contained inside this ebook is phenomenal, the author Vbulletin has written this ebook from personal experience and has included all the steps to which made his forums a success, the author Vbulletin has spent a numerous amount of hours preparing this ebook and that has been reflected thought this guide. The method and instructions contained within are almost guaranteed to work if you follow the guidelines and rules which the author Vbulletin has included thought the twelve pages.

[img]http://upit.cc/images/50e1b4f4.png[/img]

5/5

The author has gone to a tremendous amount of both depth and detail within this ebook and made it well suited for anybody no-matter what skill level they are on, being a newcomer to this field I found the detailed steps within helpful as it gave me the chance to setup everything within a time frame of twenty minutes.

[img]http://upit.cc/images/aea97688.png[/img]

5/5

Upon receiving a review of this ebook, I was presented with both a PDF based document and a web-based version, both of these contained a structured layout which suited the content contained within, the colors in which the author used suited the layout and structure which makes it easy for the intended audience to read and use, the images are also well positioned and are detailed with numerous text boxes explaining each one.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

5/5

The Grammar thought this ebook is exceptional, I checked over this numerous amounts of time and couldn't find one mistake within the contained text, the words in which the author used are friendly

for the intended audience and those who may lack the understanding of complex words, I'd like to commend the author for this.

[img]http://upit.cc/images/a7bd16f6.png[/img] 5/5 The originality of this eBook is outstanding, after being a reviewer for a period of seven years I've never seen an ebook like this, due to the originality contained within this ebook the potential buyers don't need to worry about the content being ripped and stolen from other websites, all work contained within belongs to the author Vbulletin.

[img]http://upit.cc/images/99eae7f1.png[/img] I'd absolutely recommend this to anyone who is looking into starting and maintaining their own forum, the price is extremely good considering the amount of effort and detail which the author has included, as promised towards the end you will be offered any support which you might require, this includes private message support, keep up the good work.

Title: From Rebuttal to Refutation.

Price: \$10 [No reseller]

Pages: 1.5

Author: MikeyHuntersburg

Reviewer: Astrael

,-~*...~*.-.-(_Review_-,-~*...~*.-.-,

Overall Rating: 3/5

Quality of Information: 3/5

The quality of information within this book was, to say the least, average. The writer laid out each step for you in a manner that was easy to follow, but much of the terminology would be difficult to understand if you were not already familiar with the subject.

Ease of Use: 3/5

I would place the ease of use around a three. For a beginner the book may be very difficult to understand due to the technical terminology used. However for user who has already begun to indulge in the subject this book would be extremely easy to use and follow.

Layout: 1/5

The layout was atrocious. Despite being a word document rather than a .pdf, the author decided to make all of the text yellow. There was little/no formatting used. I found myself switching the color of the text, and reformatting the document before beginning the book. If I had to describe the layout I would say it looks like the author copied the guide from the internet, pasted it into word, and changed the text yellow.

Grammar: 4/5

There were a few grammatical errors, but nothing that hindered reading ability. The writing style was very casual and easy to read.

Originality: 3/5

I personally had never seen anything like this, but upon further investigation it would seem there are many similar methods. I feel as if the method could be easily thought of by experts within this field.

Notes:

Overall this e-book was a very smooth read for me. However, I was already familiar with much of the terminology used. For a beginner this book may be very hard to understand and the use of a dictionary may be required. Do not let this turn you away though, as this would be an excellent place to start for a beginner. Remember: you're buying this book to learn, and that's exactly what you'll do.

Personally I believe the author could have spent a lot more time on the book, especially the layout. He could have included an introduction to the terminology to help beginners.

I would say for \$10 this book is not worth the money. If you're interested in the subject at hand there are many other books out there that will teach you more for this price.

Title: Mastering the art of human manipulation.

Price: \$15

Pages: 38

Author: [Clocwork™](#)

- Reviewer: [SpøøKy](#)

Overall review: 4/5

=====

[img]http://upit.cc/images/82278841.png[/img]
4/5

This is a very professional guide with multiple studies and research notes quoted. The quality is of high grade which most members will find more than satisfactory.

[img]http://upit.cc/images/50e1b4f4.png[/img]
4/5

The author has made it very user friendly, it has lots of images and examples explaining its methods thoroughly and clearly.

[img]http://upit.cc/images/aea97688.png[/img]
5/5

The sizing and colors are easy on the eyes, and it has been carefully written with multiple images, sections, and subsections providing an informative and enjoyable reading experience for the buyer.

[img]http://upit.cc/images/5fe7ea0d.png[/img]
5/5

The grammar was impeccable, there is no gramatical errors or improper punctuations in this eBook. The sentence structure is also top grade which makes for no confusion during reading.

[img]http://upit.cc/images/a7bd16f6.png[/img]
4/5

There is a small amount of eBooks like this, but none have explained it in depth this much. He also has a bunch of different methods which are most likely his own as they have not been publicized before.

[img]http://upit.cc/images/99eae7f1.png[/img]

This can help anyone from beginners to experts with its unique methods and high quality information in the art of human manipulation.

Overall I think this is a near perfect eBook, the only thing you should change in my opinion is to not suggest the use of the one method of using human manipulation to commit identity theft.

Taiga - February 26, 2011, 1:37 am

=====
Title: How to social engineer and reset any Xbox LIVE Gamertag.
Price: \$80
Pages: 3-5
Author: Steve
Reviewer: Taiga
=====

[img]http://ploadr.net/files/46dd2e10e2721baa2b6c46c11469995b.png[/img]
[img]http://ploadr.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]

The length of this eBook fits well with what it is teaching the readers. This eBook has lengthy information regarding how to social engineer to grab a gamertag's information, and it has an in-depth tutorial on how to successfully reset the Xbox Live gamertag with ease. I was able to distinguish that this guide is 100% working, and have jacked a gamertag with this guide. Steve put all his hard work and a year of experience into writing this eBook and it's the only Xbox Live jacking guide out there that isn't full of non-sense information that doesn't belong and just takes up space.

[img]http://img403.imageshack.us/img403/1854/easeofuse.png[/img]

[img]http://img824.imageshack.us/img824/2213/star5.png[/img]

The eBook is neatly organized and it goes in depth for every step needed from getting the information of the gamertag, all the way to resetting the password for the Windows Live ID. The layout of the eBook was nicely made and it's an easy to read eBook for anyone.

[img]http://img27.imageshack.us/img27/3079/layoutlt.png[/img]

[img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]

The organization, originality and the simplicity of the layout of this eBook has caught my eye the second I opened it up. It's easy to read, it's spaced out for less confusion to the reader and all the information is in its right place and not cluttered everyone.

[img]http://img163.imageshack.us/img163/5713/grammar.png[/img]

[img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]

From previous eBooks that Steve has made for sale, he's always the person to spell check and go over his whole entire eBook before publishing. He's the type of person who wants his customers to understand his word and what he's trying to point out and by double, even triple checking his eBook before publishing, his eBook has zero grammatical errors.

[img]http://img214.imageshack.us/img214/5548/originality.png[/img]

[img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]

There have been several Xbox Live jacking guides released in the past year. Although this is not an original eBook, it's the best one that's out there because Steve wrote this eBook from experience, instead of copying and pasting from several other Xbox Live jacking eBooks and piling them up together to make one like what most people have done in the past.

Notes:

Overall, this Xbox Live jacking tutorial was one of a kind, as it is the only one that was written by the person itself, and not just some copied and pasted nonsense. Although what you should do is when selling an eBook like this, if the phone numbers you use you either dox or reset a gamertag are no longer active, you could message all your customers and update your eBook with new numbers, just to show you care about the customers and to show them they're not buying another fake tutorial, they're buying the real deal.

Title: SEing Skull Candy Headphones v2
Author: Michael Madman
Price: Free
Pages: 3
Reviewer: [Glamour](#)
Scale: Out of 5. (5 = best/ 1 = worst)
=====

[img]http://upit.cc/images/50e1b4f4.png[/img]

4/5

Steps are basically layed out for you and direct links are provided. Might take some time, but if

you're willing to put in time then this is for you.

4/5

A few punctuation and grammar mistakes but definitely doesn't subtract from the reading and is a steady read all the way through.

5/5

Plain but very well layed out. Features the Skull Candy Logo at the top which makes it visually appealing and basically diplays the topic at-hand.

Involves some waiting on responses/emails so might take a few days. If you're a patient person and are interested in these types of headphones then this guide is for you.

4.5/5

Method seems very well thoughtout and the author seems to have put time into figuring out this method.

4/5

I would like to think of this as "short and sweet". Only has 2 pages of information but that is all it needs to cover the method. If you're not too big on reading and want to get straight into the tutorial, then you might want to check this out.

This has been an official review by Glamour.

Title: Google Image Cash

Price: 2\$

Pages: 22

Author: www.imheadlines.com

Reviewer: \$c0rPi0n

====

==

: 5\5

This e-book talks about how to gain money from google adsense with pictures hosted on your website.

It is well explained; It goes into the smallest details, It gives some extra sources to extend your research, It has also money back guaranty, which is something I have never seen it before.

==

: 3\5

This e-book describes a relatively easy method to use it. Like I said it goes into extreme details but the downside is that you need to own your own domain name to succeed in this method.(It should have gave the reader a tutorial on how to get free domain names.) Nevertheless you won't get confused.

==

: 4\5

The layout is good; well organized paragraphs with pictures on the left side explaining every step.

The downside is the font size is relatively small to the pictures and the white font in some images can't be seen from the white background

==

[img]http://upit.cc/images/5fe7ea0d.png[/img]: 5\5

This e-book is free from spelling errors, the author wrote with a proper grammar and with a perfectly genuine English. I didn't notice anything wrong in it.

==

[img]http://upit.cc/images/a7bd16f6.png[/img]: 3\5

This is its weakness; I have seen many articles regarding this subject. But I have never came a cross such an article that goes into deep details. So I give it 3\5.

==

Overall: 4\5

[img]http://upit.cc/images/99eae7f1.png[/img]: Like I have said the author should have corrected some small layout mistakes and it will be good.

Overall, this e-book is good; I recommend it for people who know how to deal with traffics on their websites.

==

Sincerely,
the Reviewers Team. :)

Official Review:

Author: [Tate](#)

Title: Monetizing with eBay

Pages: 4

Price: \$15

Reviewer: J o h a l :)

[img]http://upit.cc/images/82278841.png[/img]

Quality of Information Rating: 4/5

Comments: This e-Book has information which clearly details each step to selling the product on eBay. However, the method is very similar to other methods but the product is slightly different. It is a black hat method but it is shown in the eBook how to hide it well from eBay. There is still the risk of being limited from PayPal and having your eBay account suspended by using this e-Book.

[img]http://upit.cc/images/50e1b4f4.png[/img]

Rating for Ease of Use: 5/5

Comments: The e-Book is clearly set out in chronological order and each step is explained in an easy to understand manner. There should be no difficulty in completing the set-up using the e-Book. It is also very short in length yet covers all steps to a extensive degree.

[img]http://upit.cc/images/aea97688.png[/img]

Rating for Layout: 3/5

Comments: It is presented in a very simple way. There is use of only one image and the rest is outputted through text. There is only one colour used. However, there is a lot covered in a small e-Book even with such a basic layout.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

Rating for Grammar: 5/5

Information: Spelling and punctuation is all correctly used. There are no grammar mistakes at all. Excellent writing skills are used to make each sentence flow.

[img]http://upit.cc/images/a7bd16f6.png[/img]

Rating for Originality: 3.5/5

Information: It is a new method, however it is based on methods which are very publically known and are commonly used. These methods are generally avoided due to the high-risk they bring of PayPal limitation and eBay suspension, however the author insists that this method cannot result in that due to it being a method which is not checked by eBay.

Overall Rating: 4/5

The method is one if used correctly can easily make you your money back and plenty more, however I do advise caution due to the fact there might be dangers of PayPal and eBay consequences.

PS (Note for application reviewer): Spoiler ([Click to View](#)) I may not have the highest number of posts compared to some of the other applicants here but I believe in quality over quantity, and making posts which are relevant and useful.

VoucherMaster - February 26, 2011, 1:45 pm

Title: iPro's eBook on how to spread.

Price: \$5

Pages: 4

Author: iPro

Reviewer: Guns N' Roses

[img]http://upit.cc/images/82278841.png[/img]

3/5

?????

The reception of this eBook based on a single variable, namely 'quality', would be lukewarm at best. Though the terms used in this piece are popular, there aren't a lot of descriptions to the key ones. Thus, a person going through this piece will probably help in increasing the number of hits for Google. Not bashing the author too much, it is fair to say that a little work on the essence of the content would go a long way in this work's popularity.

[img]http://upit.cc/images/50e1b4f4.png[/img]

4/5 ?????

The steps used in this eBook were pleasantly comfortable to follow and didn't pose any problems. Even a beginner, with not a lot of man-hours put in, could work out what to do with those bullet points. This is the best way this piece appeals to the reader. I liked the way the author used bullets to enumerate the steps and kept them short, at the same time.

[img]http://upit.cc/images/aea97688.png[/img]

3/5 ?????

The layout is a key point to an eBook and the format used in this particular one is not something a reader can complain about. Still, a change of font here and some use of italics there would have stood the author in better stead. The use of spaces and blank lines was generous, to say the least and that made the work appealing to the eye. The only major fault I could find was the complete lack of images, whatsoever. This rendered the book less illuminative.

[img]http://upit.cc/images/5fe7ea0d.png[/img]
2/5 ?????

The grammar in this piece was below average when compared to a standard literary composition, with misplaced single quotation marks and missing commas. This was the first time I came across a composition with emoticons. Also, a typographical error is something you never want. It felt like the author was in quite a hurry to complete this eBook. The author should have read a few standard works before writing an eBook of his own.

[img]http://upit.cc/images/a7bd16f6.png[/img]
2/5 ?????

This eBook rates a bit low on originality as it describes and implements a tried and tested method which is known to many. The idea is not very new and can be thought up in minutes by any averagely clever Calvin. This was definitely a low point for this eBook. The author has to use more imagination if he wants his works to be popular enough.

[img]http://upit.cc/images/99eae7f1.png[/img]
Overall Rating:
3/5 ?????

All in all, it was an eBook deserving a read(just one, though). It won't occupy someone's memory for a long time. The author could improve his compositions by changing the way he writes the story, adding a descriptive note to his narration and rectifying his grammar. Imagination is welcome too and that is where originality matters most. Coming to the upside, the author should stick to his method of layout and his smooth way of bringing convenience to content. If I were a person who invested \$5 in this eBook and read it on my way home, I won't exactly call it a happy trip home.

[img]http://upit.cc/images/82278841.png[/img][img]http://i1221.photobucket.com/albums/dd478/desig
ntheftfutur3/HF%20Reviewers/star_two.png[/img]

The information in this guide is dime a dozen. Although it is well written, I have seen this method in other CPA guides. The instructions in the book could have been copied from most CPA guides.

[img]http://upit.cc/images/50e1b4f4.png[/img][img]http://i1221.photobucket.com/albums/dd478/designthefutur3/HF%20Reviewers/star_five.png[/img]

The instructions in the guide are incredibly straightforward and easy to follow.

[img]http://upit.cc/images/aea97688.png[/img][img]http://i1221.photobucket.com/albums/dd478/designthefutur3/HF%20Reviewers/star_five.png[/img]

The layout of the guide is astonishingly clean and very easy on the eyes.

[IMG]http://i.min.us/jlwKES.png[/IMG]

The big grammatical error of this guide is that the title is in all capitals. Other than that, the grammar is excellent.

[IMG]http://i.min.us/jlw8O.png[/IMG]

There is literally nothing original about this method, I have seen it all before.

[img]http://upit.cc/images/99eae7f1.png[/img]

I haven't used this exact method, but I have used many others like it and they have made me a fair amount of money. Considering this is a completely free guide, it isn't too bad.

=====

Final: In comparison to some of the other CPA guides I have read, this is a pretty well written one but not original whatsoever. The method included in this guide can be found in countless other CPA guides, therefore in my opinion, it is not a very satisfactory guide.

Overall Score:

[img]http://i1221.photobucket.com/albums/dd478/designthefutur3/HF%20Reviewers/star_two.png[/img]

Sage Mode - February 26, 2011, 10:50 pm

Title:How to increase the size of your penis

Price: \$150

Pages: 3

Author: Skill

Reviewer: Sage Mode

[IMG]http://upit.cc/images/82278841.png[/IMG] Firstly, it needs to be noted the author of this eBook is not a child or an adolescent, he is a grown man who has done his research. This not only increases the reliability of his methods, but it provides assurance and peace of mind. In other words, you don't need to worry about your penis falling off completely, everything provided is within reason, and no steps require you to take extraneous procedures.

5/5

[IMG]http://upit.cc/images/50e1b4f4.png[/IMG] Incredibly descriptive, and relatively easy to use.

The instructions are well explained, and on top of this the author has proven to know what he is talking about. Within weeks, you'll witness the results of what this eBook has to offer, and you won't have broken a sweat.

5/5

[IMG]<http://upit.cc/images/aea97688.png>[/IMG] Now this might be one of the only things that could have been better. Of course it is the information that matters, but in the future, the author needs to take a little more pride in his work, and make it is presentable. Judgment is human nature, and you wouldn't want to turn your readers off due to the lack of organization.

1/5

[IMG]<http://upit.cc/images/5fe7ea0d.png>[/IMG] No mistakes here, the authors sentence structure is superb, and he keeps everything relevant, in other words, step 2 does not explain step 4, nor does it provide any brief examples of what a step besides the one being explained has to offer. The author also kept it in third person, as the information provided aren't opinions, they are FACTS, that have been proven to work, based off the authors years of research. And in terms of spelling, there were 0 errors, and even a caveman would be able to make sense of the information being provided.

5/5

[IMG]<http://upit.cc/images/a7bd16f6.png>[/IMG] All steps can be executed naturally, and no form of drugs are required. This is a sensitive subject, and it has got most of today's society baffled, but this eBook contains information that goes outside the box, while staying within the limits of reality, this of course meaning it will get the job done, and you'll be blown away at how it managed to do so. So yes, this eBook is definitely one of a kind.

5/5

Notes: For a majority of my life, the size of my penis was the average 5 inches. But after I discovered this eBook, followed Skill's plan, and kept my patience, it has sprung up by 4 inches, giving my an overall penis size of 9 inches! You could not even begin to imagine my excitement, and of course, I was skeptical at first. But I can tell you honestly, that if you do make the decision to purchase this eBook, you will not regret it!

Title: Your Ticket to Making a Fortune Online!

Price: Free

Pages: 23

Author: Hariz

Reviewer: ROCKST?R

==

Quality of Information 4.5/5: The quality of this E-Book is quite spectacular compared to other money making e-books. The quality of the E-book is very high, if you follow it step by step you will be a success.

Ease of Use 5/5: Heres how easy it is to make 200\$+ a day all you need is a computer, an 8th grade reading level, and 1 hour a day. The E-book was written step by step so anyone can follow it.

Layout 4.5/5: This E-Book was laid out in a way which makes it impossible to make sure the reader understands. The E-book could of used a table of contents, but the added pre-face was a nice touch. fall of track, the author keeps reiterating references and information to

Grammar 5/5: The grammar in Hariz's E-book, "Your Ticket to Making a Fortune Online!" was impeccable. I did not spot one grammar error.

Originality 4.5/5: Even though there are so many money making e-books I have never seen this technique and believe it or not it works! I made 200\$ my first week.

Notes: Well done, all in all I would rate this e-book a 4.5 stars for the unique methods and success.

Impurity - February 27, 2011, 3:18 pm

Hello! My name is Impurity and I will be reviewing your E-Book today! Please keep in mind that this is my strict opinion on this E-Book and may vary depending on the reader. Let's begin!

=====

Title: [How To Make \\$20 A Day](#)

Price: Free

Pages: 3

Author: [Shitler](#)

Reviewer: [Impurity](#)

=====

[img]http://i.min.us/iecTag.png[/img]

[img]http://i.min.us/idZal6.png[/img]

The quality of this E-Book was great. It was well written, easy to read, and got straight to the point. Even with its low page count, it thoroughly explained the method. It would have been helpful if the author added pictures, or some color formatting, rather than the plain steps. One thing the author did do was stay on topic and guide you through with as much explanation as possible. The author doesn't go into much detail about referrals, and assumes the reader already understands the concept. He could have gone into a bit more detail there, but overall the author was very clear and I could see this method working if done correctly.

[img]http://i.min.us/idZg9U.png[/img]

[img]http://i.min.us/idZctE.png[/img]

The methods explained in this E-Book are extremely simple. If you have basic knowledge of a PTC system (And the author does explain the concept briefly) then you can easily make \$20 a day. The way the author explains it is very simple and basic, helping even someone with no previous experience with PTC systems (Such as myself) understand the concept and method. Thumbs up from me!

[img]http://i.min.us/idY2f2.png[/img]

[img]http://ploader.net/files/ce0e7c7521e86291210cce350a6a421e.png[/img]

The layout of this E-Book could have been better. The author didn't take the time to include pictures, or any sort of eye catching layout. By doing this, reading would've become more exciting and interesting. Sticking to a list is effective, but in my opinion, there needs to be pictures. This would also help guide the reader more effectively through the book. Next time, include some graphics.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

[img]http://ploader.net/files/ce0e7c7521e86291210cce350a6a421e.png[/img]

There were a few grammatical mistakes, mostly leaving out a word. The author's main language is not English (or so it seems) but it's not so bad that it's unreadable. While there are a few mistakes here and there, it didn't hinder the explanation of the method. I do suggest the author have others proof read the E-Book before releasing it. Overall good job though!

[img]http://i.min.us/iecQRY.png[/img]

[img]http://i.min.us/iedb6C.png[/img]

This E-Books method is far from original. While it does explain how to perform the method, it has been done several times and is rather public. I've seen several tutorials and explanations on the method, and while the authors work is original, it's far from unique.

Notes

This E-Book is informative, but not unique. The method could, in theory work, if the reader dedicated time to the method. While this is a public method, the author still clearly stated it in an easy to understand way, with or without pictures. With a bit of proof reading and some pictures, this E-Book could be rated 5 Stars. I recommend this E-Book for those interested in a quick and easy way to make some cash via a PTC system, just remember, it is not an autopilot method!

Crazygamer - February 27, 2011, 7:12 pm

Title: How to properly set up and install your forum.

Price: \$12

Pages: 6

Author: (your-name)

Reviewer: CrazyGamer

Introduction

Hello their, my name is CrazyGamer, and I will be you're reviewer for this E-Book.

Keep in mind this is my strict opinion on this E-Book and may vary to the reader. Without further or do let's begin.

Quality of Information: The quality of information in this E-Book is great! I think you have got all the main points straight forward. It's written in ".txt" which hurts the quality, but overall a great E-Book.

Grammar: Overall your grammar is acceptable. I did find a few minor mistakes, but will not dissolve the reader's ability of doing the methods.

Ease-Of-Use: This E-Book is well layered out! Matter of fact the writer often goes back to his point to keep you (the reader) on track of what to do. Additionally sections are broke up nicely.

Layout: The lay out was satisfactory. In my opinion, I think there should have been more pictures, to Pin-Point on your topics. Nerveless overall it works, and still can be done with ease.

Originality: As a healthy part of this community! In my honest opinion, I have seen a few E-Books on this, but none went so far into details as you. You (The Reader) will benefit from this E-Book for cretin.

Notes

Well done, be sure to use ".pdf" in the future, but nonetheless good job.

All in all, I give you a strong 4.5 Stars for mainly organization and using a unique method.

Vexes - February 28, 2011, 9:34 am

Title: How to secure your gamertag to prevent recovery or jacking.

Price: \$9
Pages: 10
Author: Indirect
Reviewer: ? Indirect?

=====

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Quality.png>[/IMG]
3/5

The quality of the actual material is 5/5 while the quality of the ebook (grammar and spelling+layout) is more of a 2/5 as there are many errors.
The methods work and help provide you with enough information to secure a GamerTag.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Ease-of-Use.png>[/IMG]
4/5

Unless you don't have much time then this e-book is really easy for any user to successfully secure your gamertag. While there are some steps that can leave newer users in the dark, the author explains after each step how to do it and why it should be done.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Layout.png>[/IMG]
2/5

The text is all one color and not seperated which makes it hard to stay focused without just getting rid of the e-book all together. The images aren't properly aligned and could be reduced in size.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Grammar.png>[/IMG]
2/5

There were many grammar and spelling mistakes which is dissapointing to see but it is still able to be read.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Originality.png>[/IMG]
4/5

There are some guides on how to properly secure your gamertag but this contains information from all of them making it more easily accessible.

[IMG]<http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Notes.png>[/IMG]If you want to understand how to secure a GamerTag then this book is definitely for you.

I don't suggest you read this book though if you have poor social skills as there is a few required calls to complete this successfully.

Royal King - February 28, 2011, 9:59 am
Official Review by Royal King.

=====

Title: How to spread your virus online easily in 9 different ways
Price: \$10
Pages: 12
Author: Royal NiNJA

=====

[img]<http://upit.cc/images/82278841.png>[/img]
4.5/5

All the information is this eBook has been given in detail. The quality of it was provided at a top noch, a form of way that not a single information is left out. Step by step information was given. Where needed, the auther has provided required images for help.

[img]<http://upit.cc/images/50e1b4f4.png>[/img]

4/5

The method is very easy to be done. Everyone can follow the steps mentioned in the eBook. However, few people may face difficulties in doing the last two methods as they are not for newbies.

[img]http://upit.cc/images/aea97688.png[/img]

4.5/5

The layout was pretty good. It's pleasant to our eye and the font is just perfect. However, a table of contents would have made it perfect.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

5/5

The grammar was almost perfect. I was able to spot some minor punctuation and spelling errors but that's negligible.

[img]http://upit.cc/images/a7bd16f6.png[/img]

4.5/5

I have never came across before. All of these methods are original and not public. What makes this method perfect is that it can be used for both spreading and monetizing.

[img]http://upit.cc/images/99eae7f1.png[/img]

I'll say that the writer has put in quite alot of time listing all those methods for you. I'll give this eBook an over all rating of 4/5 If you are lazy, this eBook is not for you.

Good luck with your sales, Royal NiNJA!.

[img]http://ploader.net/files/46dd2e10e2721baa2b6c46c11469995b.png[/img]

[img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

This book contained all the crucial information and background information needed in order to begin application development. It even provides details and explanation of the android software stack.

[img]http://ploader.net/files/c1e3de38fe5a16db458893c60a58e0d1.png[/img]

[img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]

Provided mediocre instructions on running and installing the required software. Throughout most of the book the author provide examples and thorough explanation of the code.

[img]http://upit.cc/images/aea97688.png[/img]

[img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

Table of contents and glossary are all included within the book. Each lesson is broken up into sections and subsections, providing easy navigation.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

[img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

Perfect grammar and spelling throughout the entire book.

[img]http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Originality.png[/img]

[img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]

A various amount of books are available such as this one. Most likely could find the same information on the web for free. Teaching methods within this book are similar to all the rest.

Notes

I personally used this book in order to gain some more knowledge on the subject. It has helped me in the creation of numerous programs for my HTC Evo 4G.

I recommend this book to anyone whom has an Android phone and wants to create applications for it.

Title: How to spread using a Java drive-by

Price: \$20.00

Pages: 8

Author: mR Mikros0ft

Reviewer: [V1RU5](#)

(Rating Based on a Scale of 1-5)

==

[img]http://ploader.net/files/46dd2e10e2721baa2b6c46c11469995b.png[/img]

?????

5/5

Quality of Information: The method of spreading stated in this ebook using a Java drive-by is truly extraordinary. This detailed guide shows you how to easily infect victims and goes deeply inside each aspect of the method to make sure you are following through and understanding the method clearly. Background information about spreading and Java drive-by's have also been given so you may understand what is being said throughout the guide. Many tips are suggested on what you should do and what you shouldn't do so that you may be successful in infecting a large amount of victims victims.

[img]http://ploader.net/files/c1e3de38fe5a16db458893c60a58e0d1.png[/img]

????

4/5

Ease of Use: Some people might find this a little difficult if they are new to spreading. But if you know the basics about spreading and done it before, this ebook is for you. This ebook will surely increase your current knowledge on spreading and will make obtaining victims a piece of cake. It might require some setup time, but once you have set everything up, you are good to go. You can use that same setup again and again and keep spreading until you don't want any more victims. Each step is explained clearly so you may use the method efficiently and soon have the most possible victims that you can acquire within a couple of days.

[img]http://upit.cc/images/aea97688.png[/img]

????

4/5

Layout: The layout is filled with pictures and is really appealing to the eyes. Good colour and contrast is used throughout which makes the guide a pleasant read. The pictures are clearly labeled so that you may understand what is happening in each picture and the pictures help clarify each step. The only thing I disliked about the layout was that he used the yellow font on a white background for a few sentences which was quite annoying and extremely hard to read. The ebook was

formatted in .pdf which is of great convenience to everyone trying to download and read it. The background was another + factor for the layout. It made the guide more enjoyable and exciting to read.

[img]http://upit.cc/images/5fe7ea0d.png[/img]
?????
5/5

Grammar: The author did a great job on the grammar. There were clearly no spelling mistakes and all sentences were understood as soon as I read them. The author used impressive English vocabulary which was clearly easy to understand and was interesting to read. Words were written in good clear English terms and could be understood by anyone attempting to read it. The grammar was truly impressive and I would advise the author to keep up their great writing skills!

[img]http://i879.photobucket.com/albums/ab354/StaticLovesHacks/Originality.png[/img]
?????
5/5

Originality: This is truly a never before seen method of spreading using Java-Drive by. It is unique and will be useful to everyone who needs to infect large amounts of victims. I cannot say how happy I am to find this new method of spreading which will guarantee a large amount of victims within just a few days if the guide is followed closely. This ORIGINAL method will surely help many members fulfill their spreading needs.

[img]http://upit.cc/images/99eae7f1.png[/img]
Notes: This ebook is amazing. I cannot believe how I have not seen such an amazing, unique, original, and interesting ebook on spreading ever before. I will personally be using this method as this has never been heard of and will surely help me infect a large amount of victims. \$20 is nowhere near what the price of this ebook should be. IF YOU WANT TO SPREAD, BUY THIS UNBELIEVABLE EBOOK ONLY FOR \$20 FROM mR Mikros0ft!!

=====

[img]http://upit.cc/images/82278841.png[/img]
[img]http://ploader.net/files/ce0e7c7521e86291210cce350a6a421e.png[/img]

The concept in this e-book is explained well, but it left me questioning the methods in some areas. Nevertheless, it is an excellent read and contained valuable information.

[img]http://upit.cc/images/50e1b4f4.png[/img]

[img]http://ploader.net/files/ce0e7c7521e86291210cce350a6a421e.png[/img]

This method requires many hours of dedication in order for it to work. The process is quite easy, as it only requires knowing how to upload files, but it can become quite tedious.

[img]http://upit.cc/images/aea97688.png[/img]
[img]http://img824.imageshack.us/img824/2213/star5.png[/img]

This user has obviously spent quite a bit of time formatting this e-book. The layout is vibrant, color-coded to meet your eye's needs, and full of illustrations to help the reader.

[img]http://upit.cc/images/5fe7ea0d.png[/img]
[img]http://img810.imageshack.us/img810/9315/star4.png[/img]

There are no spelling mistakes and very few grammar mistakes. Most of these mistakes won't even be noticeable to the normal reader because they do not obstruct the reading process at all. Overall, there weren't any areas that confused me as I was reading.

[img]http://img262.imageshack.us/img262/5548/originality.png[/img]

This e-book is not completely original, but it contains some in-depth information that can be valuable. I have seen similar ideas lurking around HackForums and other websites, but the author implemented several unique methods on top of these ideas.

[img]http://upit.cc/images/99eae7f1.png[/img]
I will state again that this method is not 100% original, but that does not mean it will not work. I have in the past took highly saturated methods and implemented a few of my own ideas, and they have worked wonderfully. I am sure that if any buyer is willing to commit several hours a day using this e-book for one week, they will succeed in making hundreds of dollars using this method.

? Official Review ?

[img]http://upit.cc/images/82278841.png[/img]
?????
5 on 5

Quality of Information :
I have been through whole 24 pages of the Book and I must say the Quality provided by the Author is Great. Not only the screenshots but the Author has provided every piece of information with a

Guide Link which illustrates the Steps with great amount of information. Various Tables of comparisons make this eBook a Top Notch. Moreover the Method of explanation is very Simple and easy to understand so that it can be really said "Noob-Friendly".

[img]<http://upit.cc/images/50e1b4f4.png>[/img]

?????

4 on 5

Ease of Use :

It took me around 20 Minutes to finish reading it and understand it. Though you completely understand it , Using this Method depends upon how well you implement it and also on how well you work around Search Engines and Searching things over Internet. It will take you some time but It will work. The Information given in book is easy to understand and very much fair to implement. I will rate it 4 on 5 because it can consume some time.

[img]<http://upit.cc/images/aea97688.png>[/img]

?????

4 on 5

Layout :

Whole eBook is very well formatted with the Tables and Templates. A nice Font is very easy to read and pleasant to our eyes. It has a nice header and Footer with a innovative styled page number. Nevertheless eBook doesn't have any special background also the color of font on the whole ebook is pretty same i.e. Black. Though some very Important statements are Golden with Red. So I will rate it as 4 on 5.

[img]<http://upit.cc/images/5fe7ea0d.png>[/img]

?????

5 on 5

Grammar :

I must say the Author has invested his time writing this eBook and making it almost perfect in Grammar. I have read the eBook total 3 times and was unable to find a single Grammar mistake in it. In whole eBook, the important words have first letter in Capital and sometimes whole word in Capital Letters. You can say Author has revised this eBook many times before he has given out final copy out. I would rate it as 5 on 5.

[img]<http://upit.cc/images/a7bd16f6.png>[/img]

?????

5 on 5

Originality :

The method given in this eBook is very Unique. I haven't seen it anywhere else in my Internet usage till now. This is the first time I have read such method. I even haven't read a similar kind of the eBook such as this method and I will say this method is Pure and 100% original. This has really got some sparks so perfect 5 Stars for Originality.

[img]<http://upit.cc/images/99eae7f1.png>[/img]

Notes :

If you are interested in online monetizing and you feel that you are good at Google or Searches , this eBook is perfect for you. I will say even if you are not perfect in this, you will earn some cash out of this definitely. Due to uniqueness of this eBook , I can guarantee you that you will not find any eBook similar to this so you will not regret you had similar method eBook purchased before. Though I haven't tried this method, seeing the screenshots and reading the detailed info and facts, I can say this will surely work. Well this is for 30 Bucks for now , As the author says price will go up, I will recommend to buy it now because it really is worth more.

Note to seller : none

Had to delete my review so I can organize my Photo bucket.

Liberty - March 1, 2011, 6:14 am

Title Warez Spreading Guide

Price: Free Pages: 15 Author: HakkuR Reviwer: Liberty Final Rating: 4.5/5 ==

[img]http://upit.cc/images/82278841.png[/img] 5/5

This ebook has amazing quality. It is very neatly laid out, very descriptive. You can tell from reading this that a mature person wrote this. It was in word document which I like. He also included a index and many pictures as well. He took you from the beginning of the subject to the end of the subject, a person who didn't know anything this subject, will know everything that he will need to know after he is done reading it. I could tell he spent a long time putting this book together just by how detailed it is and how much depth he goes into describing it.

[img]http://upit.cc/images/50e1b4f4.png[/img] 4/5 This book is easy to use and especially very easy to understand for some one who doesn't know anything about this subject. Its easy to follow and easy to understand while going through and reading it. Its is also laid out very well, it is broke up into different section so the reader doesn't get confused.

[img]http://upit.cc/images/aea97688.png[/img] 4/5 The layout of this book was very nice. He used a different font when starting a new chapter. It is easily understood. But the only thing that he really missed while writing this book it to indent on each new paragraph, but that is no big deal to me. The thing I liked the most about this book is that included pictures and links to each source he used. He also put his HF profile link at the end in case of anybody needs help.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

4.5/5 The grammar is very good besides a few spelling mistakes and a few misplaced commas. He also forgot to indent which is really no big deal. He used words that anybody can easily understand what he is taking about. I could tell he took his time writing and it seems like he proof read what he wrote. Overall the grammar is pretty good.

[img]http://upit.cc/images/a7bd16f6.png[/img] 4/5 The main reason why I have this a 4 is because he had help writing and making this book, so its not 100% his idea. Besides that the originality is OK, because I seen other spreading methods, but haven't seen one like this.

Notes- Overall this is a very good ebook. I didn't know anything thing about the subject, but when I was done reading it, I understood it and I know alot about what he talk about, this was thought the first time reading it. If I was to read it again I will understand everything he talked about. The overall rating will will give this book will be a 4.5/5

I would like a chance to prove myself and thanks for reading

Good Luck to everyone else

Title: Make \$50 a day using NeoBux

Price: Free ([Thread link](#))

Pages: 2 (font size 10)

Re-distributor: [Kayule](#)

Original Author: No clue, sorry.

Reviewer: :D

==

[img]http://upit.cc/images/82278841.png[/img]

Quality of Information:

4/5

The information in this eBook is very good.

Everything you need to know is contained in this eBook, you can follow the instructions with ease, achieving what you set out to do. The eBook WILL work, as it is not dependant on other people, just you.

[img]http://upit.cc/images/50e1b4f4.png[/img]

Ease of Use:

3/5

This eBook is easy to follow

This eBook is set out clearly, and it took about 5 minutes to read it all thoroughly. If you follow the instructions as provided, you will soon be able to achieve your target of an easy \$50 a day

[img]http://upit.cc/images/aea97688.png[/img]

Layout:

2/5

The layout in this eBook could be improved

Although this eBook provides high quality detail that even a 5 year old could follow, the layout does need extreme improvement. I gave him 2 stars because he did label his steps, but this could have been improved. For example, the title isn't bold or centred, and the font is very small.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

Grammar:

4/5

The grammar in this eBook is of a high standard.

This eBook has a very good author and is very good at English. The only place I would say to improve on is the one uncapitalised "i" in the pen-ultimate paragraph. Though this isn't really a flaw, I think the author could have made the sentences flow a bit better.

[img]http://upit.cc/images/a7bd16f6.png[/img]

Originality

1/5

The method in this eBook is public

This is a public method, which can be found on many blog sites, and easily on HackForums through the monetizing section. Nevertheless it is a very good eBook

[img]http://upit.cc/images/99eae7f1.png[/img]

Overall, this is a very good eBook, but the re-distributor of the eBook has done a copy&paste from another version of the eBook, therefore the links are un-clickable. (Note to Skill: I left this out of the main review due to it being a public method - <http://hubpages.com/hub/make50perday>)

OVERALL: 3/5

I came to this conclusion seeing as it is a very good eBook, but the method very easily found

DeMeR - March 1, 2011, 5:32 pm

Title - How to be an E-Thug

Cost - Free

Number of Pages - 7

Author - Chuck Norris

Reviewer - +DeMeR

=====

The quality of this ebook is very good, the writer shows step by step methods of becoming and maintaining an e-thug.

I can't see anyway of making the quality any better in the ebook.

This method is very easy to use. You can use it in any way possible in an everyday situation.

The theory of being an e-thug is explained very well, and is thought through out the eBook.

This eBook has a very basic layout that is easy to read and understand. I think that any reader can follow the steps.

The grammar in this eBook was perfect. I found zero (0) grammar mistakes though out.

I have never seen any eBook on HF or any other site that offers to turn you into an e-thug. This eBook was written in mind of people that play Xbox Live and want to become an e-thug unlike all the other up and coming eBooks on this subject.

Notes

Overall this eBook is very original and high quality; good luck with sales.

High Definition - March 2, 2011, 7:12 am

Greetings, I'll be reviewing the ebook shared by a member named Mew in this thread

<https://hackforums.net/showthread.php?tid=1092426>

Information:

E-book title: Mew's Ultimate CPA Guide
Pages: 4
Topic: CPA Related
Author: Mew
Cost: Free

Overall Review Score:
3/5

Detailed Review:

[img]http://upit.cc/images/a7bd16f6.png[/img]
Rating: 1/5

The method mentioned in the e-book is Public and can be easily found on hackforums.

[img]http://upit.cc/images/82278841.png[/img]
Rating: 3.5/5

The author has provided all information in the e-book that are required for the method to be accomplished.

The book is concentrated more on the method and does not include handy information for the things required to perform the initial setup .

The quality of e-book is fairly good.

[img]http://upit.cc/images/50e1b4f4.png[/img]
Rating: 3.5/5

The method mentioned in the book is pretty straight to the point and easily understandable. Everything is explained step by step which makes it easy to follow.

It may take some time & efforts to perform the initial setups required to use the method.

The e-book does not contain supporting images for the steps.

[img]http://upit.cc/images/5fe7ea0d.png[/img]
Ratings: 2/5

I've found lots of grammatical errors in the e-book.

[img]http://upit.cc/images/aea97688.png[/img]
Rating: 3.5/5

Despite of simple layout, the e-book is easy to read and follow. The important parts of the e-book are highlighted for grabbing required attention.

[img]http://upit.cc/images/99eae7f1.png[/img]

The e-book needs some work on grammar and layout. Some additional links to resources would make the e-book easily followable for everyone despite of their skill levels.

Overall, this is an average e-book.

Good Luck for sales.

My Review

Title: Make about \$100 USD daily

Price: \$5.00

Pages: 2

Author: HackerKing

Reviewer: Zyptic

[Review] [3/5]

[3/5]

The quality of information is acceptable, but many things has been unexplained to help better understand the method.

The information about the subject itself is outstanding but the instruction on how to do it is lacking.

[3/5]

The ease of use is in the balance. It definitely needs more information so the user can easily use this method with ease. The method is also very long and time consuming.

Patience would be key on using this sort of method. Also the instructions can be a little more clearer.

[4/5]

It's a simple layout that has proper structure. It has a normal and common introduction and body. The images could be better quality. Changing the font would be a plus.

Also add more detail and less pictures. This helps tell the customer that there money was well spent and not on something that looked like it was thrown together in matter of minutes.

[3/5]

As for grammar, the punctuation is terrible, there are many mistakes throughout the whole e-book. Many capitalization mistakes that should be capitalize.

The use of commas are way overused. Try using a period once in a while. Nothing else really noticeable to the common reader.

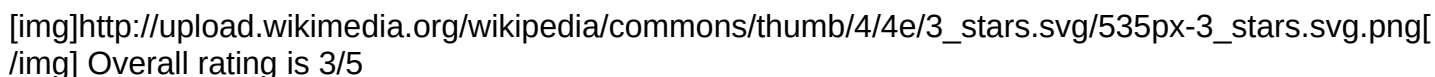

[3/5]

To be honest I have seen this method commonly used in free e-books. The uniqueness could be better. Nothing new that I haven't seen.

So I recommend something more advance because this exact method is far from being original.

[img]

Work on your grammar and use higher quality pictures. When using excellent grammar that gives your customers more confident belief that they are reading from an intelligent high quality person.

[img] Overall rating is 3/5

Title: How to Make Money Online

Price: \$50

Pages: 20
Author: Bill Gates
Reviewer: Bauer

==
[img]http://i.min.us/iecTag.png[/img]
?????

In my time at HackForums, I've read many money making ebooks. Many others, agree that an ebook that actually makes someone hundreds in a day is non-existent. I was one of those people, until I read this ebook. I tested the method in this ebook multiple times, and I got the same result every time. This method is almost guaranteed to work, and you don't have to do much to get started.

I was a bit skeptical at first, like most people, but I guarantee that the small investment of \$50 will earn itself back within 15 minutes of using the method detailed in this e-book. The money making technique was designed and tested by the author of this e-book, so you know for sure that method won't be overrun by hundreds of people, like many other online money making methods. I guess all that's left to say is that this method is great!

[img]http://i.min.us/idZg9U.png[/img]
?????

This method is relatively easy to use, but it does require a little bit of time to get started. It is possible to get started by doing almost nothing at all, but it's always good to hit the ground running, right? This method doesn't require any special skills, and anyone living in the United States or the UK can use it.

[img]http://i.min.us/idY2f2.png[/img]
?????

One of the best things about this e-book is the layout. The author clearly took time to organize his thoughts and set them up in a readable format. You won't find any walls of text in this PDF. One thing that I'm not too enthusiastic about in the layout is the color scheme. It isn't terrible important, as the text is still readable, but the colors don't really match, and it isn't that pleasant to the eye. Like I said, it isn't that important, so I'll just knock 1 star off for this.

[img]http://i.min.us/ied5w0.png[/img]
?????

As a native English speaker, I find it a bit annoying when someone messes up on words or grammar. You won't find any of that in this e-book. I read over the book cover to cover 5 times through, and I could not spot any spelling or grammar mistakes. I also ran it through a spell and grammar checker, and sure enough, no mistakes. The author clearly took the time to make sure his sentences made sense and his words were spelled correctly.

[img]http://i.min.us/iecQRY.png[/img]
?????

This is a money making e-book, so it's fairly obvious many of you will be surprised that I gave it a perfect score for originality. I stand by my rating, this is by far the most original and sure-fire way to make money on the internet. I have yet to come across a method so unique. This e-book is one of a kind.

[img]http://upit.cc/images/99eae7f1.png[/img]

Many of you are skeptical about finding a working money making method on the internet. When we think about making money on the internet, we think about spamming on forums, emailing people marketing our penis enlarging pills (you know what I'm talking about...), and untrustworthy PayPal transactions. All I can say without giving away the method is that this method is the most unique and legitimate way to make money on the internet. The price tag is a little bit steep, but you'll make that back in a few minutes with this method.

Overall Rating: 4.2

Official Review by -[O]ptimus Prime-

=====

Title: How To Spread Using Java Drive By.

Price: \$5

Pages: 27

Author: Mr. Unknown

Reviewer: -[O]ptimus Prime-

=====

[img]http://ploader.net/files/46dd2e10e2721baa2b6c46c11469995b.png[/img]

[img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]

Spreading via Java Drive-By is known but unsaturated method because members get confused in setting it up so the best part about this E-book is the Author explained this Step By Step and he made it complete guide for a beginner interested in the Topic. All aspects regarding the topic are nicely stuffed in this E-book so according to me this is completely package.

[img]http://ploader.net/files/716ca4e758bb5d4a6a9a46ea5374d6a5.png[/img]

[img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]

Not many spelling mistakes, just one:-

Exemptd[Spelling Mistake]=Exempted

Punctuation is really awesome according to me and very easy to read. I never felt that i am not interested in Topic so this is best thing.

"Paragraph breaks are there where necessary and required, so no useless paragraph breaks."

[img]http://ploader.net/files/c1e3de38fe5a16db458893c60a58e0d1.png[/img]

[img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]

As i notified above the E-book contains Step by step explanation regarding spreading using Java Drive-By. According to me this E-book contains explanation from Step 1 to Advanced level so any new user having problem in Making and Spreading using Java Drive-By, this is perfect guide for you and it will clear doubts for sure.

Though it is explained very nicely but according to me some illustrative pictures are needed so rating is 4 stars

[img]http://ploader.net/files/c7906c0649dacd8c42aec119d95d9af5.png[/img]

[img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]

Font Size is appropriate Headings font size is normally 12-14 pt and normal content is 8-12pt size so according to me this is best composition.

Fonts used are appropriate and nothing fancy attempted.

Paragraph breaks are there where necessary and required so no useless paragraph breaks. And E-book is really nice to read and easy to understand.

I think heading and content in same color is not a nice idea so Author lost 1 star there.

[img]http://ploader.net/files/80892f0888e82fea4839a9c75a00e624.png[/img] ?????

I am strict Reviewer in this category always. I read many blog post and Tutorials on this topic before so there is nothing extra ordinary and unknown in the E-book for me. But according to me you sandwiched everything in this package and illustration is best quality of the E-book.

But some Extra Points and your personal Experience made this guide a bit unique from other Tutorials out there.

[img]http://upit.cc/images/99eae7f1.png[/img]

Positives

All Materials Regarding Topic

Good Layout and just 1 spelling error

Some Personal Experience Made This Special

Negatives

Nothing Extraordinary [Every Thing Is Already Shared Using Tutorials And Blog Posts]

Coming To overall notes I recommend this E-book for Lazy guys i mean to say Finding and reading tuts is big headache and Author's E-book is more easy to understand truly for beginners.

So anyone having 5\$ and willing to learn about the topic then i recommend this one as 5\$ is not big thing.

Well I served as full fledged reviewer before but due to a silly mistake of mine due to certain reason's phirenu3r removed me, i explained him everything so he guided me to this thread, to re-apply.

Have a nice day.

Cheers!

Title: SEO for Blogger - Beginner Guide

Pages: 10

Price: 1\$

=====

[img]http://upit.cc/images/82278841.png[/img]
????? (4/5)

The information provided in this eBook is quite good. As it's an eBook for beginners, he explains what is SEO. He includes a lot of examples and pictures.

[img]http://upit.cc/images/50e1b4f4.png[/img]
????? (5/5)

As this eBook is made for beginner, the method is very easy to use. There is not any advanced technique. The author explains all procedures without missing a brief detail.

[img]http://upit.cc/images/aea97688.png[/img]
????? (4/5)

There is nothing special in the layout of this eBook. It's very basic. So why do I gave it 4 stars? For the order. I guarantee you that when you're reading this book, you'll at least know what the paragraph you're reading is about.

[img]http://upit.cc/images/5fe7ea0d.png[/img]
????? (5/5)

I did not found any grammar error. The main error that I found are punctuation error. The author did not use quotes in some places required. Also, I found a double comma (,,). These are small errors that are hard to notice.

[img]http://upit.cc/images/a7bd16f6.png[/img]
????? (2/5)

The SEO methods in this eBook are very common methods. You may find them just by searching on any search engine. The author included one method that is not popular as the other one.

[img]http://upit.cc/images/99eae7f1.png[/img]
By reading this eBook, I noticed that the author is very professional in that domain. He knows what he is talking about.

Overall Rating: 4/5

These method of SEO will not give you instant results but for 1\$, it's worth the buy, if you are a beginner in SEO, for sure.

?????s? - March 4, 2011, 5:59 pm
Introduction: I am honored to let you know that your ebook will be reviewed by me. I must inform you that my opinions are not biased at all and some opinions that I make may not be viewed the same by others.
=+=+=+=+=+=+=+=+=+=+=
Title: The PayPal Code
Price: \$10
Pages: 26
Author: xDennis
Reviewer: ?????s?
=+=+=+=+=+=+=+=+=+=+=

[img]http://ploader.net/files/46dd2e10e2721baa2b6c46c11469995b.png[/img][img]http://img707.imageshack.us/img707/7445/star5c.png[/img]

I honestly believe that this Ebook is a "one of a kind". I do not think that there are many like it on the web. The techniques given were very original, and I do believe that this is a method for anyone and everyone to use.

[img]http://ploader.net/files/716ca4e758bb5d4a6a9a46ea5374d6a5.png[/img][img]http://img707.imageshack.us/img707/7445/star5c.png[/img]

I read the entire Ebook three times and did not see any grammatical errors. It looks like the author put time to not only make a quality Ebook but to also make sure it was grammatically perfect.

[img]http://ploader.net/files/c1e3de38fe5a16db458893c60a58e0d1.png[/img][img]http://img132.imageshack.us/img132/2350/star3m.png[/img]

The reason I gave this ebook 3 stars on ease-of-use is because the method requires careful planning throughout the entire time of using it. I do believe that, with time, the carefulness needed to assure this method works will become second nature.

[img]http://ploader.net/files/c7906c0649dacd8c42aec119d95d9af5.png[/img][img]http://img132.imageshack.us/img132/2350/star3m.png[/img]

The ebook does include a table of contents, but as I read through the entire ebook I began to see information that should have went in other sections. It has 26 pages so I am sure it is difficult to make a tremendous layout throughout the entire ebook.

[img]http://ploader.net/files/80892f0888e82fea4839a9c75a00e624.png[/img][img]http://img824.imageshack.us/img824/2213/star5.png[/img]

Like I stated in the "Quality" rating, I believe that this method is a "one of a kind".

Note: I applaud you on the creation of a successful ebook. Keep up the good work.

Title: A Guide to Selling AutoDesk Programs Price: \$10 Pages: 7 Author:[Example]

--

[img]http://upit.cc/images/82278841.png[/img] 5/5 The information put forth in this e-book was easily the best I've seen in a long while. Not only did it present forth unique, never-before-seen methods, but it presented it in such a way that can only be described as utterly professional.

[img]http://upit.cc/images/50e1b4f4.png[/img] 5/5 Again, this guide was written in an entirely professional manner. The step-by-step instruction offered is second to none. Many pictures were placed aside highly detailed text, allowing for extremely simple usage.

[img]http://upit.cc/images/aea97688.png[/img] 5/5 The layout of this e-book was incredibly simple. However, with its simplicity came excellent appeal. Structured in such a way as to prevent the reader from having to unnecessarily scroll up and down, it was by far the best organized e-book I've encountered.

[img]http://upit.cc/images/5fe7ea0d.png[/img] 4/5 The grammar in this book was nearly impeccable, aside from a few syntax errors and some simple examples of malapropism (perhaps due to spell-check.) No technical jargon is used, so even the most beginner user would be able to easily understand the guide.

[img]http://upit.cc/images/a7bd16f6.png[/img] 5/5 I've been selling Autodesk programs for a very,

very long time, and this by FAR the most unique method I've seen. It's ingenious, yet incredibly simple. Without a doubt, this method is utterly original.

 As stated above, I've been using various methods of selling programs, but this by far is the best I've seen. I can find absolutely no extraneous information, nor incorrect information. Everything included in this guide is useful, and there is absolutely no filler. Simply, I am amazed. The only complaint I had, was that the download you sent me contained a typo in the description (You spelled Inventor, "Inventir"), but besides from that: Good luck with sales!

Title: "\$500 Everyday with Facebook Fanpages ver1.8"

Author: Adam C. Miller

Pages: 30

Price: 0\$

Review (Ratings on a scale of 1-5)

==

Quality of Information: 5/5

The information provided in the book using the specified method was really up to. I must say that the method provided in the book is quite descriptive. The author has explained it with details based on the powerful techniques. The information contained within the book is very useful for the webmasters to monetize & advertise.

Ease of Use: 2/5

I must say that the methods & tricks provided in the book will not be easy for a beginner to follow. The monetizing methods are easy only for the webmasters. The tools described in the book require some investment which a beginner cannot afford at all. Secondly, The use of method is very time consuming & complex though. Overall, monetizing using this book requires hard work.

Layout: 5/5

The layout of the book is very astonishing. Author has included screen-shots after each step which will be very helpful for the reader. The points & steps are well formatted & are well isolated from each other.

Grammar: 4/5

The author has an excellent grammar. I didn't found any grammatical & spelling mistakes in the book. The book contains simplified paragraphs & spellings which are very easy to understand. Only at some points, Punctuation has been used incorrectly.

Originality: 2/5

The book is all about monetizing by advertising your products. The book is not going to make anyone earn 500 USD as mentioned in title. Its an over estimate. Some of the tools specified to be used are outdated & some are very costly ; So they are not going to work at all. Monetizing using this E-book requires a lot of efforts & time. The method provided within the book is easily available but not too popular.

Notes: My advice to the author is that he should not mention those tools which are too hard to afford for a beginner. Also he should not predict the thoughts of the reader as they annoy the them sometimes. Overall the author has got a good strategy & potential to guide the readers properly.

Magnetic - March 8, 2011, 11:57 am

Hi there. I have been requested to review your eBook by the Official Review Team Leader that contacted you about your eBook. Here are my results:

--

Title: [Make \\$5+/\\$10+ Every Day!](#)

Length: 4 pages.

Price: \$2

Author: [Flashnox™](#)

Reviewer: [Wired.](#)

--

[img]<http://upit.cc/images/82278841.png>[/img]

4/5

?????

The author has done a good job of making the eBook clear and easy to follow, providing pictures and step by step instructions for the reader. The annotations used are helpful and all the images are high resolution. The information provided is original, but can incorporate methods I have read about previously using similar tactics. A High quality eBook.

[img]<http://upit.cc/images/50e1b4f4.png>[/img]

5/5

?????

The method used in the eBook is simple and is displayed well with helpful images with detailed description. It is written professionally and encourages the reader through every step, which I found helpful while trying myself.

[img]<http://upit.cc/images/aea97688.png>[/img]

4/5

?????

The layout is clear, but some annotations on pictures could be misleading. The author uses numbered step by step instructions. It is simply laid out, but this helps the book as it encourages the reader to carry on, even if stuck during the teaching process. Overall he has done a good job with the layout to explain his method.

[img]<http://upit.cc/images/5fe7ea0d.png>[/img]

5/5

?????

The grammar in this eBook is correct and the diction used by the author is descriptive and clear, which is helpful for readers who's first language isn't English. There are a few syntax errors, for example 'couldn't be easier !', but apart from these, which are minor errors, the authos has done an sterling job.

[img]<http://upit.cc/images/a7bd16f6.png>[/img]

4/5

?????

The author uses a method that I had previously heard of, but not tried. It incorporates some ideas that I have encountered in other tutorials, so is not completely original. His method is easy and clear, so is good for newcomers to the monetizing scheme.

[img]http://upit.cc/images/99eae7f1.png[/img]

The author has put a lot of time into creating this eBook and having tried this method after reading the eBook, it does work, but you have to be patient with it. It is clearly laid out and easy to read, great for beginners to monetizing techniques.

Overall Rating: 4/5

Thank you for letting me review your eBook. Good luck with your sales.
- Wired.

Anubis - March 8, 2011, 12:15 pm
And finally, I am glad to see this reopened.
Here's my application for the official Reviewers Group.

Hello, I am Anubis-™ and I am glad you have chosen me to be your official reviewer.
I have wisely read your E-book and written a simple but detailed review of it.

????????????????????
Title: The Easiest Spreading Guide
Price: \$4
Pages: 8
Author: [Infested Terran](#)
Reviewer: [Anubis™](#)
????????????????????

[img]http://upit.cc/images/82278841.png[/img][img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]
The E-book "The Easiest Spreading Guide" does include some newer techinques and methods of spreading your virus. I can say that the quality offered in this E-book is great and the writer explained pretty well all those methods. It also includes some well known methods, such as YouTube and Facebook but with various and different ways of spreading.

[img]http://upit.cc/images/5fe7ea0d.png[/img][img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]
When we talk about grammar, I can just say that the writer had put a lot of effort in this book, without any serious mistakes. I have found some small spelling mistakes but his English is pretty good. So, no serious mistakes and very good written.

[img]http://upit.cc/images/50e1b4f4.png[/img][img]http://ploader.net/files/f2853ddf82126adbab24ada75bf36e9.png[/img]
Now, let's discuss the ease of use. The writer has offered really detailed tutorial on how to setup all you need for all of the methods used in this E-Book. It's extremley easy to follow and everything is explained step by step.

[img]http://upit.cc/images/aea97688.png[/img][img]http://ploader.net/files/f2853ddf82126adbab24ad75bf36e9.png[/img]

The layout is also brilliant. Everything has it's place and the book is really easy to read. There are also pictures which tell you how to do the next step.

[img]http://upit.cc/images/a7bd16f6.png[/img][img]http://ploadr.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

I have never seen a book like this one for a long time.
Also, even I learned few great things which I've never seen before.
The writer has included almost unknown methods of spreading which can get you up to 100 bots daily. Really original.

NOTES

To sum up, I just want to say that you will not throw away your money if you buy this E-Book. Also, it's very cheap. If you are a newbie and don't know how to start with spreading this is the book that suits you.

Title: [\$85] [Pages: 8] How to Gain Massive Shells [Get over 200+ shells/day]
Price: \$85
Pages: 8
Author: Re-Focus
Reviewer: Pklocus

=====

[Official Review]

=====

[img]http://upit.cc/images/b53af33e.png[/img]
Quality of Information: This guide was amazing including almost every tool needed to obtain hundreds of shells a day! This comes with %90 of the tools besides a exploiter. It tells you step-by step with-out any problems! Even a slow person could do this!

[img]http://upit.cc/images/4eefbcf6.png[/img]
Ease of Use: This ebook can get a little complicating at times when it comes to hacking the servers, But following step by step during the scanning,clipping and shelling was very easy and i past through it quickly!

[img]http://upit.cc/images/cc1b8bd8.png[/img]
Layout: Well honestly when I read a ebook its never about the layout its about the order of the ebook. The order was great such as step 1. step 2. and so on.

[img]http://upit.cc/images/41dbdbf6.png[/img]
Grammar: The grammar wasn't bad, but i couldn't tell the difference because my grammar isn't very great.

[img]http://upit.cc/images/f2fa3f83.png[/img]
Originality: This is a very unique method that i have yet to see anyone else use or have. It's wonderful! You won't every see a shelling guide like this until you buy it your-self!

=====

Notes: I recommend that %90 of booter owners should purchase this product to obtain massive shells.

[img]http://upit.cc/images/50e1b4f4.png[/img]

????? (5/5)

As i had already said the ebook is very easy to follow , It had pictures and steps that you can follow while you do it , it also helps to memorize the steps so next time when you do the same process you don't need to open the the ebook again .

[img]http://upit.cc/images/aea97688.png[/img]

????? (5/5)

Ebook is in PDF format.layout is great , it has tables ,content , headers ... everything a proper ebook should have , it also contain watermark on the each page so the content cannot be resold which i think is a good idea from the author.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

????? (3/5)

There were very few spelling and grammatical mistakes. Having one or two spelling error proves the effort he puts into this.

[img]http://upit.cc/images/a7bd16f6.png[/img]

????? (4/5)

Money making ebook are very popular and there are plenty of ebook in this field , but the method he uses is not well known and is probably one of the best ways to earn online . As far as i am concerned i had never saw this method and i think its the easiest way to earn some cash quickly.

[img]http://upit.cc/images/99eae7f1.png[/img]

Out of all money making guide which i had read this one is best . Simply because of the high quality information . As well as the method. i will suggest to the author to sell limited copies because i think as soon as this method become popular it will become saturated. I highly suggest this guide and i would buy this in a flash.

Overall Rating : ????? (4/5)

Exordium - March 12, 2011, 7:26 pm

Dear Reader, thanks for taking time to read my review.

Reviewed Guide: "YouTube Boosting Guide"

Guide Price: \$2

Pages: 1

Author: Groola

Reviewer: Moe

Review (Ratings on a scale of 1-5)

Overall Rating: 4.3/5

Quality Rating: 5/5

The quality information in this guide, can be very helpful and needed at times, explains everything and get's to the point.

Ease of Use Rating: 5/5

It's really easy use, not much effort needed to be put in, short and detailed.

Layout Rating: 3/5

Layout is in .txt format, so isn't amazing as a PDF would be, but at least it get's the job done. :)

Grammar Rating: 4/5

Grammar I saw barley any mistake's so I say anyone could do this!

Originality: 4.5/5

The originality, it's a website but it's not like the known scamming website, and I was able to test it & it does work.

Notes: I would highly recommend this to anyone who has \$2 to spare, really worth it and will get you the subscribers/comments/views in no time!

Nicco - March 13, 2011, 6:15 pm

Introductory Statement

Hello, Nicco here, I am happy to announce to you that I will be your Official Reviewer for your eBook.

I hold no bias opinion whilst reviewing your eBook, but please be advised that the following review is based on my opinion of the book and it may vary between the readers.

=====

Title: Conquer ShitCash
Author: Billy Jackson
Price: \$10
Pages: 18
Reviewer: Nicco
Overall Score: 3.5/5

=====

[img]<http://upit.cc/images/e3e39d71.png>[/IMG]

The quality of information in this eBook is outstanding. It's not that hard to write an eBook about making money online, as all that's required is a method, which there are millions of. However, the quality of the method itself, and the amount of effort put in by the author varies, and I can assure you that 'Conquer ShitCash' contains everything needed to, Conquer ShitCash. All of the pictures are labeled, and the author makes sure the reader knows what he is looking at. Each photo also has the key points listed below, and a brief description.

Therefore, I rate the quality of this eBook 5/5.

[img]<http://upit.cc/images/7de8496c.png>[/IMG]

First of all, this eBook uses an easily readable .pdf format, which is easy to open, and prevents the eBook from being edited further. There were however very large gaps between paragraphs, which was very annoying. Also, the order of the information presented should be re-arranged, as it seems the author discusses things not to do, instead of things to do first. In terms of the methods themselves, this is not a get - rich - quick scheme. As a reviewer, I have read many Shitcash eBooks that claim one can make \$50 in a day with ShitCash. Don't get me wrong, that is possible, but not on the first day. Without being misleading, Billy Jackson stresses that patience is a virtue, and is therefore required to have these methods work. Everything needed to have a steady, daily profit from ShitCash is explained thoroughly, and step by step by the author, making the method very easy to use.

That being said, I rate the Ease of Use of this eBook a 4/5.

[img]<http://upit.cc/images/25a94b26.png>[/img]

There are many eBooks written that have solid information with absolutely golden methods, but the layout that they are presented in degrades the methods. I believe that the layout is VERY important in the presentation of the eBook, and I think that despite large gaps between paragraphs, the author did a fantastic job of organizing this eBook. Every picture was of perfect quality, the font was easily readable, and it was very appealing to the eye. Every reviewer has a different opinion when it comes to using a fair amount of colors, but personally I think it makes the layout look better, and the author was clearly a fan of using many colors.

Despite the layout not being very important, as it's the information and methods that one is paying for, I believe the presentation of the eBook has a big impact of the reader's perception of the method's success rate.

That being said, I rate the Layout of this eBook 5/5

[img]<http://upit.cc/images/13334d7b.png>[/IMG]

Being a native English speaker, grammatical errors are a pet peeve of mine. Again, the methods in an eBook can be absolutely fantastic, but the layout and grammatical errors can degrade the information. Of the 18 pages, I came across a fair amount of very minor grammatical errors, such as no capital letter, period, or a simple miss - spelling.

Therefore, I rate this eBook's grammar 2/5, as it looks like it was very quickly thrown together.

[img]http://upit.cc/images/4d034168.png[/IMG]

There are many ShitCash eBooks on the market, and they all have fairly similar methods. However, Billy Jackson has a fantastic twist that applies to all of his methods, which boosts them far above the simple methods. The kick added to the original methods is very clever that anyone who can read the eBook can use.

I have not seen this twist added to a ShitCash method before.
But, the classic methods are there, and that forces me to knock off a star, and I rate this eBook's originality a 4/5.

=====

Notes:
Being a \$10 eBook with great twists, and beginner friendly, I would recommend this eBook to anyone. ShitCash is a very friendly and known site, that is very easy to use and the author walks you through ShitCash itself, so even one who has no idea what ShitCash is, the author explains the website very well, and gives a great understanding of the methods and twists.

My overall score of this eBook will be a 3.5 out of 5.
=====

Splodge0007 - *March 14, 2011, 9:56 pm*

Good day. I have been contacted by the official reviewers for a review on your eBook, sighting your request for a review. I hold no personal opinion on your eBook and therefor show my review on your eBook as unbiased and factual.

=====

Title:	The Ultimate Spreading eBook v2.1
Author:	Skatinxlife
Price:	Free
Pages:	6
Reviewer:	Splodge0007
Overall Score:	3/5

=====

[img]http://upit.cc/images/82278841.png[/img]
3/5

The quality of the information on this eBook is rather sub-par, with some parts of information being quite out-dated as you're not able to implement them anymore. It briefly touches on a few well-known spreading methods, as well as a singular more in-depth one. There aren't many pictures in the step-by-step guides which also leads me to believe that not just anybody could pick this eBook up and use the methods that it describes. All in all, the eBook will deliver to you what it needs in terms of quality, such as plain information on what it has to offer. Although It's totally acceptable for this eBook to have mediocre quality due to it being a free eBook, I feel as if the author could have researched a little more into his area of expertise and really expanded on some of his methods.

[img]http://upit.cc/images/50e1b4f4.png[/img]
3/5

The ease of use on this eBook varies from person to person, as any eBook would. If you're a computer savvy individual, knowing how to obtain some of the programs in which are necessary to use in this eBook then it will be incredibly easy for you to implement and use. Although the author does include some links to some of the more well-known programs needed for some of his methods. Others are equally easily obtainable. There are no screenshots in the entire eBook. I believe that if you didn't know how to use the programs in which are listed in the eBook you would be more then lost on how to complete the methods in the eBook.

[img]http://upit.cc/images/aea97688.png[/img]
4/5

The layout is quite standardized. It has a title page with an introductory page underneath it. After these pages comes the illustrious spreading methods, in a numbered step by step walkthrough. The text is quite easy to read, being a black text. Some more important parts of the text are in bold, with some being underlined. At the end of this eBook there is a thank you note as well as some contact information and download links to some of the tools needed above. There are only 6 pages to this eBook; which I believe quite contradictory to It's title.

[img]http://upit.cc/images/5fe7ea0d.png[/img]
3/5

While the eBook is quite easy to read, as well as being easy on the eyes there are frequent grammatical and spelling errors throughout the eBook. Per method I had spotted over four spelling errors with frequent lack of grammar. I think if the author could of perhaps read his writing out-loud to himself he could have easily avoided such school-boy mistakes in his eBook.

[img]http://upit.cc/images/a7bd16f6.png[/img]
2/5

I have seen the methods in this eBook countless times in many other eBooks. They aren't very original, aside from the one more unique method. As mentioned above, some of the methods are that old that they can't actually be implemented anymore. With that being said. The sole method in which could work for you I have found to be quite original.

=====

Notes:

In the genre this eBook is quite an acceptable piece. It is free and openly available to all. As such, I believe that it is more then worth a read; however if you're looking for more advanced and unique methods of spreading. I do not believe that this is the eBook for you. It is more for the first-timers.

=====

Mermaid - March 15, 2011, 4:23 am

Introductory Statement

Hello there fellow Hackforums member,
I would personally like to say thank you for having the patience of getting your Money-Making eBook reviewed. Now lets get started.

=====

Title: Earn \$100 - \$200+ A Day

Price: Free

Pages: 10

Author: Serious Workers (DP)

Reviewer: [Tyler](#)

=====
[Official Review]

=====
[img]http://upit.cc/images/bbe9f56b.png[/img]

Quality of Information:

The quality of information consumed within this eBook was outstanding.

Its very well written and easy to read.

The process/steps listed are clearly detailed and could be easily understood.

This eBook will for sure lead you into riches.

The quality as stated before was marvelous bringing you to a 5 out of a possible 5.

[img]http://upit.cc/images/83b8d8b3.png[/img]

Ease of Use:

This method contained a step by step process anybody will be able to follow.

Personally this method takes a good 5 minutes to set up and a rough estimated guess of 20 minutes a day tops of time valued work.

This proportion of the eBook followed up with a 5 out of a possible 5.

[img]http://upit.cc/images/dd062e7c.png[/img]

Layout:

Small fragments of this eBook I could tell were misplaced. Even though the step by step process was phenomenal some parts were unorganized which could have been handled more thoroughly.

Even though sentences and words were jumbled around in some parts of the eBook it still deserved a 4 out of a possible 5.

[img]http://upit.cc/images/694a64ea.png[/img]

Grammar:

I was quite impressed with the grammar used upon this eBook.

Although careless mistakes were made here and there as you spelled "and" in one paragraph as "nd."

That being said spelling mistakes pulled you down in this section of the review only to be represented with a 4 out of a possible 5.

[img]http://upit.cc/images/1c82e925.png[/img]

Originality:

The original concept of this eBook is unique. It contained a new method in which I have never seen before or

have even heard about. This method is brand new, unlikely to get patched, and will rest you urge to find easy money making techniques.

For its distinguished quality I rate it 5 out of a possible 5.

=====
Notes: This was an excellent eBook to read and follow up on.

I persuade HF members to make time and examine through this eBook as it could make the financial difference!

My Review

Title: Make \$25-\$100 a week!

Price: \$15.00

Pages: 6

Author: Deities

Reviewer: Xypher

[Review]

[img]http://upit.cc/images/82278841.png[/img]

[5/5]

The quality of this ebook was mostly outstanding. It included proper grammar, unique methods, well laid out, and full of information. Within the ebook is a detailed and well thought out and tested method on how to make \$25-\$100 weekly. The method, unlike many other methods in this genre, is very broad allowing you to target many niche's.

[img]http://upit.cc/images/50e1b4f4.png[/img]

[4/5]

The ease of use is well thought out and balanced. The method itself is easy to implement and is mostly an auto-pilot method that would require about an hour a week to pull it off, but has the ability to earn you far more than the \$25-100 a week if you were to dedicate more time into it. With a method that can be implemented in almost any niche and target most any audience, this is definitely a method that allows for the reader to implement with ease. The only down side to the method is that it does require a bit of knowledge in a few different areas for it to be implemented, some of the knowledge not being common knowledge.

[img]http://upit.cc/images/aea97688.png[/img]

[4/5]

The layout is near perfect. It had a well laid out index in the beginning that tells readers exactly where to find certain information. The only issue within it was that in one section, explaining two parts of the method, there is a bit of a back and forth where he goes back and forth inbetween what was first mentioned and what was mentioned second. It does not last long and does not make things confusing, it just throws the reader off a little bit.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

[5/5]

The grammar is perfect. After re-reading the entire ebook 3 times scouring it just for grammar mistakes, I found nothing. Every word that should be capitalized, ever sentence that should end in a period, every comma that should be in place were all there.

[img]http://upit.cc/images/a7bd16f6.png[/img]

[5/5]

The originality of this method is 100%. I have yet to see any method that can even come close to being similar to this one, primarily due to the broad range of audience it can target.

[img]http://upit.cc/images/99eae7f1.png[/img]

The only suggestion I have to Deities, the writer is to work on the knowledge factor of this method. If possible, try and modify the method to allow anyone with common knowledge to be able to use this and take full advantage of it.

As a note to all of you interested in the ebook, I highly suggest this ebook. It is well worth the \$15 and you will easily make back what you spent to purchase this method, and more within a week of implementation.

Overall Rating
[4.5/5]

Jaguar - March 16, 2011, 11:49 am

I recommend all readers who are going to buy this Ebook to spend some time for reading this official review. Thanks for reading.

Official Review by Jaguar.

=====

Title: NEWBIE WARRIOR MADE \$215 IN 24 HOURS

Price: \$15

Pages: 20

Author: Rodney

Reviewer: Jaguar

=====

[img]http://ploader.net/files/46dd2e10e2721baa2b6c46c11469995b.png[/img]

[img]http://ploader.net/files/ce0e7c7521e86291210cce350a6a421e.png[/img]

The concept of this Ebook is well known in HF, but each section is explained well. But there are no screen shots in this Ebook which decreases the quality to some extent.

Because of that I am rating this Ebook's quality as 3 out of 5.

[img]http://ploader.net/files/716ca4e758bb5d4a6a9a46ea5374d6a5.png[/img]

[img]http://ploader.net/files/ce0e7c7521e86291210cce350a6a421e.png[/img]

About the grammar, there are some serious grammar mistakes, and in some pages I figured out some spelling mistakes also. Though the Ebook is easy to read and understand, those mistakes could be avoided if you took time for reading the entire Ebook again before uploading it.

Hence I rate the grammar as 3/5

[img]http://ploader.net/files/c1e3de38fe5a16db458893c60a58e0d1.png[/img]

[img]http://ploader.net/files/ce0e7c7521e86291210cce350a6a421e.png[/img]

The method explained in this Ebook is not so easy to setup. The author had not put any screen shots to help the users. But he is offering complete help over MSN which makes the things a little easy to handle. The Ebook comes in a .PDF format which is comparatively easy to handle. He is also guaranteeing that the buyer can make 500\$ easily through his method. But I think only dedicated users can make such a large amount from this Ebook. So I rated the Ease Of Use as 3/5.

[img]http://ploader.net/files/c7906c0649dacd8c42aec119d95d9af5.png[/img]

[img]http://ploader.net/files/4d73dd6f3e01ed26cc2844d856d631b8.png[/img]

The look of this Ebook is below average. Even though he used readable fonts, he failed in giving some colors to it. All texts including headings have same fonts and are black in color. I prefer using some colors (not bright) for making its layout beautiful. For an Ebook the most important preference must be given to information. Even then a user/buyer will be more interested to read an Ebook only if it have a good layout. So I rate the layout of this Ebook as 2/5.

[img]http://ploader.net/files/80892f0888e82fea4839a9c75a00e624.png[/img]

[img]http://ploader.net/files/4d73dd6f3e01ed26cc2844d856d631b8.png[/img]

As I told before the method is well known in HF, but there is a small twist at a portion which makes this Ebook a little unique. But that can be easily guessed by a normal HF user. A few Ebooks which

are explaining almost same concept has already been released in HF earlier. Even then there is a small twist in this method. But that twist is not worth 15\$. Hence I rate this Ebook's Originality as 2/5.

Notes

To the author, you may worked hard for making this Ebook, but my advice for you is to do some more improvisations in layout and try adding some images to it to make it noob friendly.Try to develop some more possibilities for your method and thus make your ebook unique.I wish you Good luck with your sales.I recommend you to decrease its price.

To the buyers, you can find similar Ebooks in HF itself. The only thing this Ebook has is a small twist. So think before you buy.

????s? - March 17, 2011, 10:06 pm

Introduction: I am honored to let you know that your ebook will be reviewed by me. I must inform you that my opinions are not biased at all and some opinions that I make may not be viewed the same by others.

+=+=+=+=+=+=+=+=

[img]http://ploade.net/files/46dd2e10e2721baa2b6c46c11469995b.png[/img][img]http://img707.ima
geshack.us/img707/7445/star5c.png[/img]

I honestly believe that this Ebook is a "one of a kind". I do not think that their are many like it on the web. The techniques given were very original, and I do believe that this is a method for anyone and everyone to use.

[img]http://ploade.net/files/716ca4e758bb5d4a6a9a46ea5374d6a5.png[/img][img]http://img707.ima
geshack.us/img707/7445/star5c.png[/img]

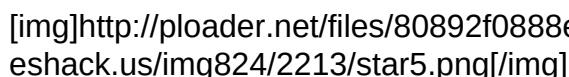

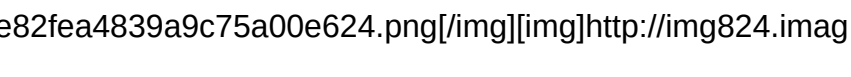

I read the entire Ebook three times and did not see any grammatical errors. It looks like the author put time to not only make a quality Ebook but to also make sure it was grammatically perfect.

[img]http://ploade.net/files/c1e3de38fe5a16db458893c60a58e0d1.png[/img][img]http://img132.ima
geshack.us/img132/2350/star3m.png[/img]

The reason I gave this ebook 3 stars on ease-of-use is because the method requires careful planning throughout the entire time of using it. I do believe that, with time, the carefulness needed to assure this method works will become second nature.

[img]http://ploade.net/files/c7906c0649dacd8c42aec119d95d9af5.png[/img][img]http://img132.ima
geshack.us/img132/2350/star3m.png[/img]

The ebook does include a table of contents, but as I read through the entire ebook I began to see information that should have went in other sections. It has 26 pages so I am sure it is difficult to make a tremendous layout throughout the entire ebook.

http://ploader.net/files/80892f0888e82fea4839a9c75a00e624.png[/img]
http://img824.imageshack.us/img824/2213/star5.png[/img]

Like I stated in the "Quality" rating, I believe that this method is a "one of a kind".

Note: I applaud you on the creation of a successful ebook. Keep up the good work.

Sync™ - March 19, 2011, 12:24 am

Introduction

Hello Sir, Im Sync™ and i will be your official reviewer for this E-book. Keep in mind this is only my opinion about this E-Book and may change about different readers. So let's start this.

=====

Title: Getting & Managing Your First 1,000 Clients in Web Hosting.

Price: \$47

Pages: 192

Author: Abraham Ikasud

Reviewer: Sync™

=====

http://ploader.net/files/46dd2e10e2721baa2b6c46c11469995b.png[/img]

http://img707.imageshack.us/img707/7445/star5c.png[/img]

The quality of this e-book is really superb! Although everyone knows that webhosting business is hard to manage and make it grow. But if you really like to make your webhosting business a sucessful and really a high quality webhosting, you should have this very wonderful e-book. Because this ebook explains the step by step guide starting from buying your own webhosting servers up to the point were you have almost 1000+ clients. And the author explain it clearly what do you need and what do you need to do in that point. I have nothing more to say. For me this e-book is the greatest for webhosting business starters and other webhoster that want to make their webhosting business to be a successful and to make it grow like a big tree.

http://ploader.net/files/716ca4e758bb5d4a6a9a46ea5374d6a5.png[/img]

http://i.min.us/idZal6.png[/img]

The Author's grammar is almost superb! But there were a few grammatical mistakes, But its fine with me, Because i know nobody's perfect and everyone can make a mistake. And it does not mean that if there were some grammatical mistakes the e-book will not be readable and hard to understand. Because even tough there's some mistakes he is still doing his best to explain the e-book step by step. Overall Good Job!

http://ploader.net/files/c1e3de38fe5a16db458893c60a58e0d1.png[/img]

http://img707.imageshack.us/img707/7445/star5c.png[/img]

When i first read it i taught the author was a teacher because the step by step guide is really superb! I can easily understand it. Because the Author is good at explaining it and he added a screenshot also. So if your a newbie, You dont need to worry. Because the step by step guide will be always there for you.

http://ploader.net/files/c7906c0649dacd8c42aec119d95d9af5.png[/img]

http://ploader.net/files/ce0e7c7521e86291210cce350a6a421e.png[/img]

The e-book layout is simple. I know simple is not good, But it does not matter for me. Layout is not an option, the really important thing is about its content. If you have a good layout but your content is poor, No one will be interested to read it. And i understand why the author did not add good layout because i know in his mind that an e-book is not based on the layout it is based on content. But i suggest next time you wrote a new e-book, you should make a good looking layout.

[img]http://ploader.net/files/80892f0888e82fea4839a9c75a00e624.png[/img]
[img]http://img707.imageshack.us/img707/7445/star5c.png[/img]

Originality, For me this e-book is 100% Original! Because this e-book is also base on his own experience in webhosting for almost 10 years. And the Author is the only one who wrote this e-book so its really 100% Original. The Author's experience is really Original, He didn't get it from others. He get it from himself by doing and trying new ways to improve or to grow a webhosting business. And now after 10 years of trying new ways he now obtained his successful experience and shared it to others who read his e-book. Overall Your really Original!

Notes:

For me this e-book is superb! No one could ever do this only the Author can. And he put alot of time trying new things on how to improve and grow a webhosting business. This kind of superb e-book should be rated a 5 stars. But i suggest next time to make a good looking layout. And your final rating is 5/5! Keep up the superb job sir!

Joey Tribbiani - March 19, 2011, 2:30 pm

Introductory Statement

Hello, I am Joey, the Official Reviewer of your eBook.It was my pleasure to review your eBook. Please note that the review is completely unbiased but also note that the following review is just my opinion and it may vary with other users.

=====

Title: HOW TO MAKE MONEY WITH FACEBOOK V2
Author: Kate
Price: \$4.95
Pages: 54
Reviewer: Joey Tribbiani
Overall Score: 4/5

=====

[IMG]http://upit.cc/images/e3e39d71.png[/IMG]

The author provides in-depth information about earning money from facebook. The information provided is very useful and easy to understand. Without giving any false promises, the author himself states that this eBook is not the "get rick quick" types.This is a very professional eBook, gathering all the information, methods and tips on how to make money with Facebook. It is sure that the author has done a lot of research and has put lot of hard work into this. The author has been able to maintain the quality almost in the entire eBook and has definitely done is research for making this eBook.

Hence, I rate this eBook 5/5 for Quality Of Information.

[IMG]http://upit.cc/images/7de8496c.png[/IMG]

This eBook is extremely user-friendly and on the same side is a good guide for the professionals to learn too. I have read various Facebook money making guides as a Reviewer myself. The author provides a lot of pictures which makes it much easier to understand the content. Also, every picture is accompanied with a description. Each step is explained with an outstanding amount of details. The sections of the eBook are also properly organized and the author skips no important points at all. For all I can say, the author has made a very significant improvement from V1 of this eBook. However, the user is expected to know a few basic things about Facebook.

Hence, I rate this eBook 4/5 for Easy Of Use.

[IMG]http://upit.cc/images/cc1b8bd8.png[/IMG]

The layout of this eBook is not the one than I can appreciate.The eBook maintains a common font

and color through out the bulk of the eBook, which is a good point. The author segregates the contents of the eBook very well into different sections. However, the drawbacks are the hyperlinks, which came out terrible in a pdf format as the underline part was stretched a lot which was annoying. Also, there was a lot of irregular and unnecessary spacing in the eBook which made it look bulky. Overall, the author did do a decent job in presenting the eBook but missed out on a few minor things as the eBook started progressing to the next pages.

Hence, I rate this eBook 3/5 for Layout.

[IMG]http://upit.cc/images/41dbdbf6.png[/IMG]

Being a Grammar Nazi, I couldn't help but notice that the author did include a few minor mistakes like capitalization at wrong places, irrelevant spacing and mistakes like there instead their etc.. However, I was glad that no chat language was used and the author surprisingly managed to tackle the most known grammatical errors in such a long eBook.

Hence, I rate this eBook 4/5 for Grammar

[IMG]http://upit.cc/images/4d034168.png[/IMG]

Originality is the key point of this eBook. The features of Facebook which the author states in the eBook are pretty rare to find from a common google search on "how to earn money with facebook". I loved the uniqueness of this eBook since the author makes this the All-In-One eBook for Facebook by providing a huge variety of methods. That being said, the author explores each and every monetizing feature of Facebook in astonishing details, which I'm sure most people are unaware of.

Hence, I rate this eBook 5/5 for Originality.

=====

Notes:

For a eBook worth 4.95\$, this eBook is extremely detailed and filled with a lot of information. It gives the user a variety of choices for monetizing from Facebook. The author has done a tremendous amount of research before making V2 of this eBook to make sure that it is a easy to follow eBook for the users. Forgiving a few grammatical errors and a bit casual layout at the end of the eBook, it is a very knowledge endowed eBook which is definitely worth the money.

My overall score of this eBook is a 4 out of 5.

Odayleet - March 19, 2011, 8:08 pm

Title: The complete guide into coding with Visual Basic

Price: \$24

Pages: 38

Author: John

Reviewer: [Julie](#)

Review (Ratings on a scale of 1-5)

[img]http://upit.cc/images/82278841.png[/img]

?????

The eBook is a .PDF Format, (Portable Document Format).

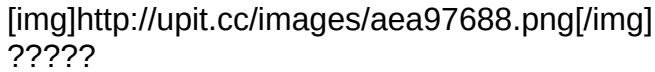

By the way this book is written, we can see that the author knows his subject, which makes it completely user-friendly and detailed.

[img]http://upit.cc/images/50e1b4f4.png[/img]

?????

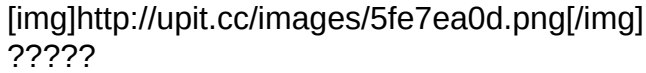

John did a good job, the eBook is user-friendly and easy to follow. It contains at least 2 pictures per

page, making it easier to understand a concept. There is also the full code at the end of each page and the lines of the snippet are well commented.

 ?????

The text is in different colours, making it easier to read it.

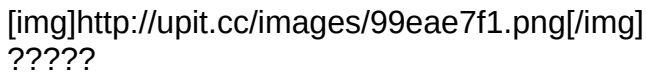

Each new concept title are in bold and numerated. The only thing that I dislike is the colour, they are too "flashing".

 ?????

While reading the guide, I saw no error at all. John used the perfect grammar with a rich vocabulary.

 ?????

I haven't saw any guide that described well how to start programming in no more than some hours. Although, it could have been more detailed about how Visual Basic's compiler is working.

 ?????

The eBook, written by John, is the perfect guide to teach yourself how to code in no more than 2 hours and doesn't cost more than a cup of coffee.

Real life class lessons are more than 50\$ each so why getting bothered with this when you could read a guide on your computer, at your home with your slipper, learning at your own rhythm.

Z?us - March 21, 2011, 5:57 am

Title: How to set up a Java drive-by [New Method]

Overall Rating: 4/5

Price: \$15.00 U.S.D

Author: Emmett Sayer

Reviewer: Zeus

3/5 ????

 ?????

Introduction was nicely explained especially for the main idea, simple self-explanatory to start off with,

I suggest you should take a more deep understanding for the next version of this, I noticed things were a little off while reading.

Taking things step by step would make things more smooth to start off with sir.

4/5 ????

 ?????

I did notice a small issue with explanations on the guide, to a point this was easy to understand with the method you presented.

Through reading this I did noticed a few mistakes yet again with the steps, my suggestion to you would be plan this out a little better, might do you some good & improve your quality.

5/5 ?????

 ?????

I was simply amazed with the layout, very eye catching. You will have no trouble finding the next

step with this layout, honestly very impressive.

This would be for me the highlight, I did indeed like this new "web 2.0" tech look on the book while reading, make this easy on the eyes.

4/5 ????

[img]http://upit.cc/images/5fe7ea0d.png[/img]

Grammar along with punctuation was not a huge issue, you will have not trouble reading this to a point,

my suggestion is to run this through a tool to check grammar mistakes, even the most minor details would bring great guilty.

5/5 ?????

[img]http://upit.cc/images/a7bd16f6.png[/img]

The creator of this presented a new type of method one that I myself have not seen around, the recreation of this would be difficult task,

honestly originality at its best. Upon reading this does include much information about the new Java feature, right now the method shown is 0-day, therefore giving much for of a originality then others.

[img]http://upit.cc/images/99eae7f1.png[/img]

My true thoughts on this at first were low thinking it was just another java tutorial, While I was reading this though, I was amazed with the new method this presented.

You will have absolutely no issue setting this up along with familiarizing yourself with the steps taken, Members that are looking to buy this, give this a try very much worth your time & money you will not be disappointed one bit I guarantee it.

Crayo - March 22, 2011, 8:33 am

Title: Leads Per Minute -Discover How A Newbie Exploded His List With 10,000 Leads

Price: \$0.00

Pages: 15

Author: Steven Jones

Reviewer: Crayo

Original eBook from: <https://hackforums.net/showthread.php?tid=1132429>

==

[img]http://img405.imageshack.us/img405/7269/quality.png[/img]

[img]http://ploader.net/files/ce0e7c7521e86291210cce350a6a421e.png[/img]

The information may be detailed, but it's nothing new. I've read tons of eBooks who have mentioned this very method, so it's disappointing to read something saying exactly the same thing. The reason it has 3 stars is the detail it goes into, it does require a lot of reading but it will tell you everything.

[img]http://ploader.net/files/716ca4e758bb5d4a6a9a46ea5374d6a5.png[/img][img]http://ploader.net/files/f2853ddf82126adbab24adad75bf36e9.png[/img]

The grammar was flawless, I couldn't spot one mistake. Nothing more to say here, very well written.

[img]http://ploader.net/files/c1e3de38fe5a16db458893c60a58e0d1.png[/img][img]http://ploader.net/files/8a118a436a6f933e6ac92f68b615e175.png[/img]

The methods included are easy to use, but you need to be incredibly committed to pull them off

successfully. Setting them up is easy as can be, but the actual process of money-making is a timely method, which can be very boring with not much reward.

[img]http://ploader.net/files/c7906c0649dacd8c42aec119d95d9af5.png[/img][img]http://ploader.net/files/4d73dd6f3e01ed26cc2844d856d631b8.png[/img]

This wasn't a hard decision, the layout is horrible. For the beginning part of the book there was no pictures with just walls of text, which can put some people off reading the book entirely. Even with pictures, the book lacked colour and anything eye-catching.

[img]http://ploader.net/files/80892f0888e82fea4839a9c75a00e624.png[/img][img]http://ploader.net/files/4d73dd6f3e01ed26cc2844d856d631b8.png[/img]

Once again, not a hard decision. Though the the detailed descriptions brings it up to 2 stars, but I've seen this method on numerous occasions.

==

Notes: I'd include more pictures & colour to make the reader want to read on. I'd also try adding more original methods, as buyers won't be happy reading this when they've all been used/heard of before.

Title: How to spread a R.A.T
Price: 15\$
Pages: 34
Author: RatMan
Reviewer: ? (R)(o)(Y)(a)(L) (R)(a)(i)(N) ?

=====

[img]http://img641.imageshack.us/img641/1275/10055945.png[/img]
?????
Rating: 4/5

Information: The quality of this E-book was phenomenal. There was many different ways to spread your Rat throughout all 34 pages of this E-Book. There was many unique methods in the E-Book that I have never seen before. Some of these methods require you to put a little cash into it in order for it to work perfectly, that is the only down-side about the quality. There was also links to every program that you needed to download. Even beginners would be able to spread a R.A.T. with this E-book.

[img]http://img683.imageshack.us/img683/9233/45016857.png[/img]
?????
Rating: 5/5

Information: The layout of this E-Book was superb. There was many pictures to go along with each

set of information that the author has. There is many black arrows and circles to show you exactly what to do. The letters were very visible with the light blue background that the author put in the E-Book. The font was Times New Roman, so it was very easy to read and also was the color black. Very easy to read, follow and was very easy on the eyes. Some

[img]http://img694.imageshack.us/img694/2672/86534538.png[/img]

?????

Rating: 4/5

Information: The Grammar in this E-Book was very good. There was no punctuation mistakes at all. There was capitalization's in all of the right spots that I saw. There was some unnecessary question marks and explanation points that were added, thats why it became a 4. Overall the grammar was great.

[img]http://img97.imageshack.us/img97/7325/eou.png[/img]

?????

Rating: 3/5

Information: This E-Books techniques were very easy to understand but hard to do. These methods take a while setting up before you actually start spreading, there is things you have to do such as set up accounts before you can start spreading. These methods will take you a long time and it will get boring for you, also you might have to spend a little money for some of the methods that the author has.

[img]http://img143.imageshack.us/img143/9954/orgj.png[/img]

?????

Rating: 4/5

Information: There was many different techniques of spreading a Rat in this E-Book. Some of the methods that were used in this E-Book could be found in a tutorial in the Rat section of Hackforums. This subject is very common on Hackforums, but these are some new methods that I have not seen before.

[img]http://img819.imageshack.us/img819/1438/75283600.png[/img]

Information: There was many great methods in this E-Book that are new. Just make sure you have a little cash to spare because you need cash for the newer methods in the E-Book. Make sure you have time on your hands because some of these methods take a long time to setup. This E-Book is great for beginners. Make sure you get your bot crypted before you satr useing these methods.

Thank you :)

-(R)(o)(Y)(a)(L) (R)(a)(i)(N) ?

TheUzuki.' - March 24, 2011, 11:08 pm

Introduction:

Hey, I am TheUzuki.' and I am reviewing your E-BOOK today.
And I have to say that this is an E-BOOK which interests me alot !
Because everyone wants to create a Crypter.

=====

Title: Blue Prints Crypter E-BOOK

Author: Xinfiltrate

Price: \$15

Pages: 45
Reviewer: TheUzuki.'
Overall Score: 2.5/5

=====

[img]http://ploader.net/files/46dd2e10e2721baa2b6c46c11469995b.png[/img]
1.5/5

At first I have to say, that 1 Site of this E-BOOK is only about the Author !
And that 1 site includes the Copyright and that 1 site includes the Cover so at all there are just 42 pages you can read.
Okay and now comes the point where I say, this E-BOOK isn't anything special.
If you already got some knowledge with Crypter this E-BOOK is nothing for you, everything can be found in HF or
on HackHounds in a few Minutes, and if you already know something these informations are not new !
For someone who hasn't got ANY knowledge of Crypters, this E-BOOK CAN be usefully.
Because the Author does explain everything really good and provides some sources (Here I have to say again, that you can find sources of Crypters at HF too.)
The second reason why I am saying this E-BOOK isn't special is, that he says
"AFTER READING THIS E-BOOK YOU CAN MAKE YOUR OWN FUD CRYPTER!" this is not true.
He also provides some stuff to make it FUD, but like he is saying in the E-BOOK
"IT NEEDS MORE THEN THESE TOOLS TO MAKE A CRYPTER FUD!", what I mean is, that you need very much experience and that you have to learn very very long.

So I rate the Quality of Information in this E-BOOK with 1.5/5.

--

[img]http://upit.cc/images/50e1b4f4.png[/IMG]
2.5/5

This E-BOOK comes in a .pdf format, which makes it easy to read it and protects it too.
So, as the Author said you must have some knowledge of Visual Basic 06 for this Tutorial and like I said in the
"Quality of Information" Section I have to repeat here !
After reading this E-BOOK you can't create a FUD Crypter.

I rate the Ease of Use with 2.5/5.

--

[img]http://upit.cc/images/aea97688.png[/img]
4/5

The Layout of this E-BOOK is quiet simple, but good. There are no annoying colors or animated pictures or an annoying Background.
You provide Pictures here and there where someone needs them or where you may can't understand something.
And you provide a table of contents page which is really necessary by 45 pages.

I rate the Layout of this E-BOOK with 4/5.

--

[img]http://upit.cc/images/5fe7ea0d.png[/IMG]
3/5

And here I must go on, the Grammar in this E-BOOK is really bad, there are spelling mistakes over and over.
But because this Tutorial is the most in depth Tutorial I have ever read about Crypters and because you are explaining everything very clearly

I am rating the Grammar of this E-BOOK with 3/5.

--

[img]http://upit.cc/images/a7bd16f6.png[/IMG]
2.5/5

That someone writes an E-BOOK just about Crypters is really new and it's an unique idea.
But like I said before this E-BOOK is not really special.
You can find everything in a few minutes searching HF or HackHound.

So I have to continue my rating with 2.5/5.
Because the idea is really new, but the Information are not new and can be found by everyone.

=====
Overall:

My overall score of this E-BOOK will be a 2.5/5

=====

[img]http://upit.cc/images/99eae7f1.png[/img]

I don't really recommend to buy this E-BOOK, because it isn't wroth the money. I won't even buy this for 10\$ or 7\$
But that is just my opinion, purchase it and read it.

Mermaid - March 25, 2011, 3:33 pm

==

Title: How to get 1000+ friends in facbook in a very short time.

Price: Free to L33TS and UB3R.

Pages: 8

Author: H1B50C4T3D

Reviewer: Break

==

[img]http://upit.cc/images/82278841.png[/img]

3/5

The reason I rated the quality of this E-book 3/5 is because it looks great it looks like he put a lot of work into this but he could have done better.

[img]http://ploader.net/files/716ca4e758bb5d4a6a9a46ea5374d6a5.png[/img]

4/5

The grammar was great to say the least. It had all the capitals, and punctuations where they were supposed to be.

The was a few minuscule punctuation errors but nothing that will throw you off.

[img]http://upit.cc/images/50e1b4f4.png[/img]

5/5

Well it was really easy to grasp and understand what the author was writing.

I never got lost once through the whole E-book, there was a lot of detail in this E-book and it captivated me to read more.

The author marked the important steps in red with quotes so it was clear to the reader that it was an important step.

[img]http://upit.cc/images/aea97688.png[/img]

3/5

Well the layout was not bad but he could have put more effort in the graphics and could have used more color in the text.

So if he had better graphics and more colored text the layout would be flawless.

[img]http://ploader.net/files/80892f0888e82fea4839a9c75a00e624.png[/img]

4/5

The originality is a 4/5 because I have only seen an E-book like this on two other occasions.

But it was the best written one out of all the other ones.

[img]http://upit.cc/images/99eae7f1.png[/img]

Well this E-book was great to read, it had me captured at all times and it was very easy to understand.

I never got lost once in this E-book or confused about anything that was included in there.

I think the author did a great job with the E-book and I was pleased with it.

I will definitely suggest this to someone that likes to spread or just wants to have many friends on facebook.

Title:

[\$5] 5 easy ways to make money E-Book! [\$5]

Price: \$5

Pages: 9

Author: Kehran

Reviewer: Tennessee

Overall Grade: 4/5

==

Beginning thoughts:

I would like to give a very big thank you to 'Kehran' for allowing me to review his ebook. Now let's begin this review!

==

[Img]<http://upit.cc/images/82278841.png>[/Img]

????? / ??????

[5/5]

Right from the beginning, the author hooks me into reading. It looks very professional, by offering a disclaimer. Pictures of the author's method prove that their method's work. A guide is written and explained for each method incorporated in this E Book. The overall quality of the information is very well detailed. Author clearly gives the buyer what they've paid for. Quality of information surely deserves a perfect score.

[Img]<http://upit.cc/images/50e1b4f4.png>[/Img]

????? / ??????

[5/5]

Not hard whatsoever to comprehend. The methods featured are very well described, and require little to no effort. Also, the author maintains motivation and stresses how easy it truly is to make money. There is a few links found with the respected method, which also lessens the need to search around. It's basically spoon-fed into the reader. The methods may not be that hard to comprehend before reading, but after reading I understood a lot more about the methods. Overall, very easy to use. I don't think anyone would have any trouble reading this and achieving what their money has invested them in.

[Img]<http://upit.cc/images/aea97688.png>[/Img]

????? / ??????

[5/5]

Nothing to complain about in the layout. Everything found in the Table of Contents is where it should be. Every section takes up a full page, and none take up more than one page. Also, the author does a good job of including a conclusion to wrap-up what is found in the E Book. Overall layout leaves me with no complaints.

[Img]<http://upit.cc/images/5fe7ea0d.png>[/Img]

????? / ??????

[4/5]

Author is a very good writer. After reading twice, I've only found a few mistakes. Most of which, are simple comma's that could easily be added in. Also, has a few mistakes with conjunctions, but once again, pretty good grammar. Overall, there is a few flaws that could easily be changed. Which leaves me to give a solid 4/5 for grammar.

[img]http://upit.cc/images/a7bd16f6.png[/img]

????? / ??????

[3/5]

Throughout the entire E Book, the author tweaked the methods a bit so that they aren't the same method you could also use. Mathematical equations were added to where you could input your data and receive the amount you would make over a period of time. Also, the author provided pictures of his methods working. Although, the methods were in small increments, of under \$10 per transaction. But, the author does a fair job of taking a few very common methods and convincing their readers that investing was a good idea. So, originality would be satisfactory, but more could be added.

Notes to the author

The E Book, that you've allowed me to read and review, is amazing. I think that all of the effort you put into making this E Book blows my mind. Although you didn't receive an overall perfect score, a 4/5 is a great score, and you should be proud of it. I would like to thank Kehran for allowing me to review his E Book, and create this application using it.

It was well worth my time, and I hope this review is satisfactory to you Kehran.

Thank you once again!

Pages: 2

Price: \$2

Name: Make Money From Posting

Overall Rating: 4/5

==

[img]http://upit.cc/images/82278841.png[/img]

This eBook contains decent quality of information.

Overall, it was okay, but you could have got in depth about some of the steps, which I don't think you did.

3/5

[img]http://upit.cc/images/50e1b4f4.png[/img]

This eBook was very easy to follow.

The author describes every step carefully.

If you know how to read, you can use this method.

5/5

[img]http://upit.cc/images/aea97688.png[/img]

The layout was decent.

A few pictures was used, and the author made the titles stand out, by using different text styles, fonts etc.

I would have enjoyed some more pictures, as only a few was used.

3/5

[img]http://upit.cc/images/5fe7ea0d.png[/img]

I found a few spelling mistakes, but nothing big.

Should be readable to anyone.

4/5

[img]http://upit.cc/images/a7bd16f6.png[/img]

I have yet to see an eBook containing this method.

The method is unique, and I haven't seen any eBooks, using this specific method.

5/5

Notes:

You should work on the eBooks quality and layout.

Other than that, it was great.

MKET - March 29, 2011, 1:55 pm

Author: HFMemberHere

Pages: 22

Price: \$9

Name: How to Become a YouTube Partner

Overall Rating: 2/5

[img]http://upit.cc/images/82278841.png[/img]

3/5 - This eBook is great for beginners of YouTube users who want to become a YouTube partner. However, 22 pages is just not enough to explain this whole matter. I've seen books filled with hundreds of pages at bookstores covering the same subject.

[img]http://upit.cc/images/50e1b4f4.png[/img]

2/5 - While the eBook explains how to become a YouTube partner, it's no easy thing to accomplish. The eBook was very easy to read, but actually performing the objectives from the eBook was a whole different story.

[img]http://upit.cc/images/aea97688.png[/img]

4.5/5 - The author used a very neat layout that actually made me want to read the eBook from start to finish. I actually felt like I was reading a book from the "For Dummies" series at a bookstore.

[img]http://upit.cc/images/5fe7ea0d.png[/img]

3/5 - A few grammar mistakes were spotted while reading through this eBook, but the grammar mistakes were easily recognized and didn't cause any damage to the understanding the specific part of what I was reading.

[img]http://upit.cc/images/a7bd16f6.png[/img]

2.5/5 - Although I haven't seen any eBook like this on Hack Forums, there are plenty of guides on the internet (some for free) that can teach you how to become a YouTube partner.

Notes: Overall, this guide is pretty much a preview for books that cover this topic more professionally. If you're really interested in becoming a YouTube partner, this might be good for you if you want to know what kind of work you're going to have to do. For double the price of this guide, you could easily purchase a book published from a well known company from a bookstore. \$9 for 22 pages on this subject is not worth it in my opinion, but you might want to take a look at it if you're not afraid to spend some extra money.
