Thread: [The Truth about \[hack_addicted.pt \]](#)

www.x4kep.info - January 16, 2011, 1:22 am

Yesterday he have dissed my friend Sblche .

srbclche is high skilled and smart hacker. If person wants to hack and sell .mil .gov websites don't hate him!

Maybe you wanted to get 50% of his money ! Don't hate him!

The truth about his +29 rep

Last month he have used person's scanner's script.

Then he posted it and got +29rep xaxa.

srbclche has +128 rep and L33t. Don't hate him!!!

wisd0m - January 16, 2011, 1:23 am

Honestly I cannot make out what you mean.. Please use correct lines and stuff and try to tidy it up. I don't really get it.

www.x4kep.info - January 16, 2011, 1:26 am

I meant he used another person's script and got +29 rep

But srbclche shared his hacking skill on hackforums and got +128.

He is honest guy!

Viral Dragon - January 16, 2011, 1:28 am

Wisdom, Allow me to translate as best I can. ::

"Yesterday, some dick head decided to 'dis' my friend. The only reason he is mad is because he doesn't have leet, or as much as rep as the other guy. He also took some source code and posted it. Oh and don't hate him just for selling .mil/.gov websites."

Something similar to that though,

@OP: Nobody cares about your bawling. I'm saying this to save you from all the damn flamers and trolls who will probably raid this thread once they see it. You're angry, we get it. However making some pointless thread, that will get no where, with a hardly readable message will only insight flames.

Viral Dragon Tnx sorry my bad english.

Minnesota Nice - January 16, 2011, 1:31 am

I tried but I can't figure this out.

www.x4kep.info - January 16, 2011, 1:35 am

OMG , He scammed +29/hack_addicted/ rep from Hackforums`s visitors.

No one knows scanner souce is made by hack_addicted .

Now he hates srbclche because he just selling .mil/.gov site , +129rep , and he has L33t

ForgotenMemories - January 16, 2011, 1:40 am

x4kep~ Hack_Addicted.pt was his ex-partner, until Sbrlche decided to scam. Sbrlche is a low life, there is evidence of him scamming/ripping off. Hack_Addicted.pt has done alot for the community, search SQL Scanner's and shit, therefore, Sbrlche told Hack_Addicted to make people pay for it, as they don't deserve it.

Who the fuck it's this skiddie srbclche?

"srbclche is high skilled and smart hacker."

WTF, all retards who break random targets (list from scanners) only through MySQLi (beginner stage) are skilled hackers??

Who give a fuck about the reputation from this forum (HF)??

Doh, just kidssss.

DeidaraLP - January 16, 2011, 1:51 am

Hah, as much as I agree with what you have said, it's rich of you to say that. You are a skiddie. You go around SQLi sites and use public exploits on random targets and then deface them, that it as skiddie as you can go... Hacking websites just for a deface? That's not the true hacker way, you should be after cash/info... ?

www.x4kep.info - January 16, 2011, 1:57 am

<https://hackforums.net/showthread.php?tid=942875&highlight=srbclche> This is vouches of Sbrlche!

Over 100 vouches !

Who wants to say HE IS NOOB?

r0nix - January 16, 2011, 2:01 am

If you'd look around a little more you'd see that he's selling code that available on here for free for \$150. " " not involved and don't really care, just pointing out what i've come across.

I never asked people to +rep like i see some people doing, I don't really even care about the status of the rep, I just say thanks to the people that actually do because of the action in it self, of giving

+rep as thanks, but i dont give a fuck to the value of the rep or opinions like yours.
That threat is just a opinion you have, the one i did are facts.
Go suck srbclche maybe he scam's you and then +rep's you..
Just tell me something, who the fuck are you?
If srbclche wants to say anything he knows where he can find me.
..so are you like srbclche bitch or something?

[img]<http://images1.memegenerator.net/ImageMacro/4779194/Alright-Suck-my-balls-like-that.jpg?imageSize=Medium&generatorName=jesus-says>[/img]

And you must to be some morrow kid that can't read. If you fucking read my threat I explain what the fuck happened and why the fuck I did the threat, srbclche can say what ever he wants, and he certain will, has long as he keeps people like you happy and you keep paying him, you're happy he's happy, everyone is happy, you just a bunch of happy fokers haa?

This is the last time I post about this fucking thing, and from now on I will only help people who actually deserve it, not dumbass's like you that came and suck the ball's of the guy that has more rep because he has more rep.

If you check the rep history of srbclche you can tell how he got it, and rep is not the only thing he won from stupid fokers like you, that pay \$499 for a simple SQLi that I provide for free even going into shits like this after I try to open your eye's.

Keep going stupid, that's the best way you have to learn.
And that's because of people like you that people like srbclche exist. LOOL I DIDN'T NOTICED THE FUCKING POLL GOD
IF I HAVE SAW THAT BEFORE DON'T EVEN HAD LOST THE TIME TO ANSWER YOU

...by the way I just voted Srbclche, he is just the coolest guy, love him and his rep, super l33t hacker also, I mean professional hacker, sorry Srbclche, may bad. Last thing: thanks ForgottenMemories and TinKode for your posts, it proves that some people can get it.

Codeine - January 16, 2011, 2:46 pm

Rep and forum group status doesn't mean shit. There ub3rs with tons of rep that don't know anything to do with hacking, and theres been people with regular user group status and no rep who are highly skilled

I agree with both you and tinkode. This is fucking HF. Who gives a shit about rep. Ubers can get 200+ rep in the website and forum hacking section and not know shit about hacking sites.
