Thread: [Banner a Company is doing for me see](#)

Hexen - July 3, 2009, 11:13 pm

I got a company doing me a banner for my site this is what they did just going by a blind ideal of what I wanted for a banner I think its good for trying to guess what I wanted having them redo the Skull style and the Fonts but hopefully if they can do the style I showed them a screen shot of it should be finished.

Exsamples:

[img]http://i42.[censored].com/2vchvvb.jpg[/img]

Severe - July 3, 2009, 11:38 pm

I don't get it you want something done and that banner sucks :P.

Hexen - July 3, 2009, 11:59 pm

(Jul 3, 2009 11:38 PM)Str4nd3d. Wrote: [\[CITE\]](#) I don't get it you want something done and that banner sucks :P.

ROFL Until You make me a banner that is "Better" you have no room to talk buddy, atleast they tried I don't see you trying to out do so you have no room to talk =)

Sikatrix - July 4, 2009, 12:24 am

That banner is actually really good, you should make me one that says Sikatrix, PM Me, in like Banner form like that

Severe - July 4, 2009, 7:54 am

I think its possible that he paid.

Code King - July 4, 2009, 8:03 am

it looks terrible, agreeing with Str4nd3d.

Severe - July 4, 2009, 8:14 am

Told you vexen.... And if you paid for it...

Code King - July 4, 2009, 8:29 am

(Jul 4, 2009 08:14 AM)Str4nd3d. Wrote: [\[CITE\]](#) Told you vexen.... And if you paid for it... then he just got ripped off.

Sir Neko - July 4, 2009, 9:17 am

I like it. I think they did a great job. wouldnt pay for anything like this but its good.

@Stranded.

Wat do u mean told ya. Its not like Code King is a king of banner and every one has his own opinion. Every GFX designer should know that, wonder why you dont O_o.

Code King - July 4, 2009, 9:45 am

Na we all know that Code King is the best graphic designer I mean look at how cool his sig is I mean its just so graphical

I did pay for it but I don't see any of you making me a better banner so technically I think your jealous ?

You all just talk about how its crap banner I think if you could out do them then prove it and make one other wise my point is correct you are just jealous heh.

Radiance - July 4, 2009, 9:55 am

The question is, how much did you pay?

Because it aint really great unless it was really cheap. And yeah I think I could do better than that. (I won't though unless you decide to pay me as well)

Code King - July 4, 2009, 10:02 am

why would be jealous..... we dont like it doesnt make us jealous. People are allowed to not like stuff, it isnt illegal to dislike someones work. I dont do sigs, thats why i dont contribute to the endless sig shops in the GFX forum. Why would i make you one, where my payment.

KheMi - July 4, 2009, 10:38 am

Uhm considering that the company is doing this as a job, they should really quit, becuae that is terrible, it's really simple, Not much effects going on, Boring old background.

Hexen - July 4, 2009, 11:40 am

I wouldn't pay you all shit because you have nothing to show to prove you can do anything better I seen there work and I like there work from what I see you people who replied you don't seem any better atleast they showed examples of there work which is why I paid them.

The background color?

Dude should the background color be pink on a website layout that is gray?

Wow you need to look at www.zarabyte.com and see the colors :)

and you will see why it has them colors I didn't want a pink background for the color of my site talk

about how retarded it would look.

I paid \$30 bucks for the logo I think its a good price compared to what you fools would want what \$50 or more for your crap or \$5 for really poor crap design.

Atleast make a banner that has my site on it put your name all over it and if you do better then them I'll pay you what you want for you to do me a banner until you do an exsample to show your work you are all talk :)

Severe - July 4, 2009, 11:43 am

Rage Much? /Thread. Am I right?

FeAR Being - July 4, 2009, 11:44 am

That skull doesnt really fit that banner. Skulls and stuff r used in not so legal shiz.

Tell me, if u wanted someone to secure your website, you went on his site and saw a skull what would you think?

It's gotta be something white-hat related dude..

EDIT:Change ur template, the defaced is also using it and they would probably want to harm ur site if they know..

Code King - July 4, 2009, 11:57 am

Dude fuck you, your the noob who has to hire people to make logos for you. I guess the shit logo matches the shit website.

Sir Neko - July 4, 2009, 12:11 pm

(Jul 4, 2009 11:57 AM)Code King Wrote: [\[CITE\]](#) Dude fuck you, your the noob who has to hire people to make logos for you. I guess the shit logo matches the shit website.

Dude calm down.

Radiance - July 4, 2009, 12:13 pm

Seriously, calm the fuck down. You got robbed, plain and simple. No reason to get all ugly on us. And yeah if you are serious about paying for a better design I'll fucking make you something. 30\$ for that banner is too much, because frankly, it sucks.

marsic2 - July 4, 2009, 12:15 pm

well the logo itself has nothing really special and surely it's not worth more than 5\$ because it has no composite effect and its clearly visible that is 30 mins work (or even less) and thats what they did step by step:

- 1) they did put the bg (this could have been jumped since a transparent bg would be better)
 - 2) they did put the hard disk render on another layer
 - 3) they did put a skull render on another layer
 - 4) they have created a new layer between the skull and the hd and they did put some blood brushes, the same ones that can be taken from deviantart.
 - 5) they have written internet security ecc ecc using a grey color
 - 6) they have written with another font zera byte with inner mask, outer glow, font color grey, then they have rasterized the level and they have ctrl+ clicked the rasterized layer and they did put some brushes with black color
- thats it.

Severe - July 4, 2009, 12:15 pm

(Jul 3, 2009 11:38 PM)Str4nd3d. Wrote: [\[CITE\]](#) and that banner sucks :P.

Hexen - July 4, 2009, 12:37 pm

Your welcome to your own thoughts but I'd never pick someone like this:

[img]<http://i126.photobucket.com/albums/p108/marsic2/hackercar2.png>[/img]

do do me a banner when he can't even get the colors around the font ROFL thats a shit graphic right there looks like a leechd image from a site with brushes plastered on it and a font your blending options fail.

What matters is I still don't see any of you doing any better all I see is talk so back up your words wanna make some cash of "This Noob" show me some work and I'll pay you until you do I'll stuck to a company I have seen work that im interested in :)

Getting robbed or ripped off would be paying for a graphic for my site that looks like this:

[img]<http://i126.photobucket.com/albums/p108/marsic2/hackercar2.png>[/img]

I'd feel like an moron paying that guy \$1 for a banner ROFL

Severe - July 4, 2009, 12:39 pm

Yuo are just fucking Blind aren't you... I can't believe you just said that.... I am appalled at your

ignorance.

Marsics Photobucket= <http://s126.photobucket.com/albums/p108/marsic2/> . Talk more crap now please.

Hexen - July 4, 2009, 12:48 pm

I thought my grammar was bad :(And this is why I wouldn't pay you \$1 to do me a banner you can't even spell :(

Let me ask you all a question are YOU BLIND! They asked me what I wanted I barely know what I want in my own banner for my site so they went out on a limb trying to guess what I might like that's NOT! the finished product I guess you all could make me a banner I'd like on your first try huh?

How can I do a graphic for someone who can't give you a good detail on what they want done?

Technically if you can't give someone a detailed ideal of what you want done to build your house how can they make you happy to build your house?

So as I said in my post on page one if you read does it say it's finished?

I don't see how you can make a skull to someone's liking on the first try worry would you spend 10 hours doing a graphic that is an example only to find out that the person isn't going to like something on the design? Your telling me that your perfect and can get the job done based on a small bit of information wow impressive!

(Jul 4, 2009 12:39 PM)Str4nd3d. Wrote: [\[CITE\]](#) You are just fucking Blind aren't you... I can't believe you just said that.... I am appalled at your ignorance.

Severe - July 4, 2009, 12:53 pm

I spelt You wrong.. ooh call the police..

Hexen - July 4, 2009, 12:55 pm

(Jul 4, 2009 12:53 PM)Str4nd3d. Wrote: [\[CITE\]](#) I spelt You wrong.. ooh call the police..

I already called the grammar police on you =)

Thanks, for the bump thou ?

Severe - July 4, 2009, 12:56 pm

Marsic2 Radiance and 3 other new people on hf and Dismal and S9teen could create a better banner than that with little knowledge.... Trust me.

You have never gone to the graphics section at hf so I expect nothing less.

Sir Neko - July 4, 2009, 12:56 pm

Stop this flamewar allrdy.

Severe - July 4, 2009, 12:57 pm

I want to stop it I reported us both already...

Hexen - July 4, 2009, 1:00 pm

Technically they all started it because they can't say anything nice I mean seriously if you don't have anything nice to say about the banner why say anything at all maybe freedom of speech but it starts a flame war which warnings are now going to be given out since people can't stay out of posts without having to disrespect someone.

It's like everyone is claiming they are better than someone else so lame because there will always

be someone better than you.

Severe - July 4, 2009, 1:05 pm

I'm not claiming I'm better. I'm claiming that you should have gotten a better banner than that by people from hf for like 5 bucks and got a better one and that that banner is pretty much suckish.

SoMuchMudkip - July 4, 2009, 1:05 pm

Point it, the banner is not bad. It is unfinished, I am actually curious as to the final product.

Stop flaming, if it starts again this will be locked.

I honestly would not pay for it, but I would not pay for any gfx.

If you don't like it, you can say so without sounding like your challenging him.

Severe - July 4, 2009, 1:05 pm

(Jul 4, 2009 12:56 PM)MaTu Wrote: [\[CITE\]](#) Stop this flamewar allrdy.

Not really a flame war if you keep it nice and clean debate.

Code King - July 4, 2009, 1:06 pm

why did i get a warning :/

Severe - July 4, 2009, 1:08 pm

We said it sucked but challenging. Its mostly cause of me (I reported)

Sir Neko - July 4, 2009, 1:08 pm

Everyone has their own opinion, if you dont like it, just ignore it.

Its not like options are going to bite u from teh azz.

But its just true wat they are saing, this banner looks rather begginer and worth mostly \$1-2.

There are alot better designers here, in this forum.

If your not active on the GFX side you just dont know.

Just dont answer to trolls and flame wouldnt start, who cares who gets owned or w/e.

A: This is my pic pic*.

T: It sux.

A: You Suck.

T: No You Sux.

or

A: THis is my pic *pic

T: It Sux.

A: k or just say nothing.

See the diff.?

Code King - July 4, 2009, 1:10 pm

I simply pointed out that i did not like it, and it looks like a 10 minute job (marsic put it well). The reason i told him to go fuck him self is because he wont take criticism.

Hexen - July 4, 2009, 1:11 pm

Thanks, Kn1ght for explaining I technically wouldn't have pay for it either but I wanted to see a design of someone elses work for a change and its only money its like a choice.

Waste money on HF LEET? or not to its your money so your free to with it as you like I to wanna see the finished product either way I paid for it and there is no refunding just like I cant get a refund on my HF l33t if I want that back

So I technically have to use it or dont use it thing is I just am never happy with a design long enough anyways I go thou more designs then any of you have gone condoms in 2 years.

Point is I just wanted to see if I could get a decent design done from someone else.

Warbiest - July 4, 2009, 3:55 pm

I dunno what everyone has against it, but I like the logo with the Skull and HD and the Font with the texture in it.

Only thing which needs some spycing up to do is the background...

Complexity in art is not always the best option to go for. People also like simple art.

Also simple art can look funkeh...

Yeah I understand that everyone's saying that the banner isn't worth the money. I think Hexen understood that.

Only thing you guys can do is tell him...wether or not he understand's or want's to understand is his option or in other word's said problem.

So let's all calm down a bit and say whoooooooo (while breathing in) and Saaaaaaaaaa (while breathing out)

:)

Hexen - July 4, 2009, 4:22 pm

Everyone is welcome to there own opion however I was offend to the fact they wanna bash the company the company basicly had no ideal what I wanted as I said im not sure what I want there basicly going out on a lim trying to please me Would you do a graphic spend your whole daying making a nice graphic for someone only to find out the fool says OMG! im not happy with your design redo it over again because you dont like there font they had or a color.

Fact is there trying I only paid \$30 for them to do me a logo technically they should keep redoing it for atleast not for the price im paying them you gotta think man its not a waste of money really they are trying a waste of money would be if they gave me them banners and said Have a Nice Day! but there not they said there going to keep trying until they get it to my liking and they don't mind.

Personally it would get on my nerves if I was trying to do something for someone and all they wanted to do was complain about my work.

Thing is they are trying its not finished if you'd like to make money off me and feel you can do better feel free to make me some exsamples but shouldn't bash someone and say it sucks if you yourself can't prove you can do better =)

and also my site is nothing special its a basic site I don't want anything with animations and tons of brushes I told them black grey and white colors thus, there doing what I asked them to do.

Severe - July 4, 2009, 4:24 pm

I think I can.. I'm sorry for saying it was bad now under the Circumstances I see. I'll try because I wanna make money off of you :P.

what size and color scheme.

Code King - July 4, 2009, 4:25 pm

That is the way of the world, if your a brand creator then you need to provide your client with

something amazing or theyll want a redesign.
