Thread: [\[TUTORIAL\] Custom Usergroup Bar](#)

TriGz - January 19, 2011, 3:58 am

Hey guys, I recently created a tutorial to show how I make the user bars that I create most of the time :)

Heres an example of something you'll be making.

I created a PDF because it was the easiest way to make the tutorial.

Thanks for the share, I suggest doing this for the HF userbar thing, another person asked today and I think it would be a very useful tut.

You mean with an image and the HF font?

If so, I can update this thread with that later on. :)
