The Holy Shit. - January 26, 2011, 9:06 am

Hmmm, So i bought installs last night, he said he crypted my CG bin, and when i wake up today, i have 17 bots, instead of the 180 i purchased. Plus he said it was 1/33, which doesn't make sense, how can detections jump so high i lose ~100 bots in 1 night.

lol i sell installs to many users dialy

only u botkilled what a joke?

jo282 - January 29, 2011, 6:38 pm

Maybe you sold the same bot to another person ? Cause i checked almost all victims process yesterday and they all had lots of virus. And the sames.

8546.exe
4579.exe
6521.exe
9421.exe
6572.exe
8542.exe
...

All afk victims had crashed server like 8542.exe has stopped working

Then this morning. 2 connections remaining on my rat. And my pc was off this night so i didnt lost my victim because of infection of my pc.

Im just saying. Maybe im wrong... And maybe not.

It depends on what bot + crypter + settings + features equal to might work or corrupt. + The seller has to watch what bot actually he does to do installs otherwise I'm 110% sure a couple of the seller's customer's have done a Botkill of somesort. So you can't really blame the guy.

nice seller vouch for him bought 200 :)

Weedzor - February 7, 2011, 5:53 am

I also vouch for this guy! Bought 100 from him and in about 4 min i had 150.. :)

But they all keep dropping.. After the first 10 hours i was down to 50 and now 2 days later i only have 3 sometimes 5 installs left.. Why? pretty disappointed..

But still.. VOUCH!

hmm looking like this thread will close soon.. seeing as many including me as it goes, since i purchased twice from you.. and like stated have lost most of the bots!! But i think if buying installs.. this should be expected as lots of people can mass botkill.. not just the OP... you need to rip the passes etc.. before you lose them.. or maybe botkill yourself.. even though you shouldn't.. prob best way!!

Anyways we live and learn and we see what happens...

4th Dimension - February 19, 2011, 11:21 am

!Currency! - February 20, 2011, 7:31 am

Yes he gets you lots of installs.. this is true.. BUT for some reason they disappear, so grab the stuff you want asap..lol

Also i have bought from many sellers of bots/installs/updates and it seems to happen with all.. and i got like 2 or 3 of same computer so these bots are doing the rounds, even to the sellers"!!!

Anyway i am going to be getting my own hopefully by spreading myself.. much better!!

There is always some bots that you wont get. There is alot of reasons for that: NOT FUD, Maybe theyr going offline. Your file is corrupted. etc....

Hey Mate,

Basically i think the problem was with his Fudding.
I Got it fuded by him first time, and i ended up loosing most vics.
Then i fuded it myself and he send them again, now its better. Vouch !

I was having problems at first as i lost almost all my Bots.
He resent them once i Fuded my Server myself and managed to get up to 100+ Bots.
Thanks,
Good Man !

anyway

250 online atm guyz :)

!Currency! - February 23, 2011, 1:12 pm

Yes if you want lots of passes etc.. then these are great for a quick grab before you lose them.. and if you have bought from other sellers here, then expect some of the same bots you already have..!!! You would be better to invest in updates rather than installs if you want to keep the bots.. it's inevitable you will lose most as somebody is bound to botkill... just hope it isn't the OP!!!

BringIt. - February 23, 2011, 1:28 pm

I think there was a problem with my Settings. Thats probably why my bots died.

Anwyay, Donrulezz was more than fair.

Dont buy from him. i payed 15 dollars for 400 installs and antibotkiller,

I come on today i have 10 online its alot of bullshit. i asked him on msn

gavin111 says:

Yeah mate

cause that protection really works

i have 50 when i payed for 400,

gavin111said (12:58):

and i had 40 b4 i buyed so i payed 15 dollars for 10 installs?

I bought 200 with anti kill, lost all of them within less than 24 hours.. contacted him and according to him its because my bot got detected. Strange that I have 240 bots prior, had 400 with his, and now I

have exactly 240 again.. and my bot is still fud... and now he says he will give me new installs?
Beware.

Bought 200 WITH anti-kill. Lost them in less than 24 hours. He gave me new ones since i bought anti-kill (Turns out he didn't even put anything on my file) which I guess was just BS for him to get 5 more dollars because all my other bots that i obtained were fine. I lost 150 of the second batch of 200 that he gave me in less than an hour.

This is such a scam.

Don't waste your money.

No doubt about it...donrulezz is a scammer. In fact the ones these guys did get stayed for roughly 1 hour and then split. It looks like he was sandboxing them and then returning them home. I have tried to message this dude on skype over and over for months now and he ignores me and refuses to finish his deal. Beware everyone...sheeps clothing...big bad wolf. Find someone else for installs...unless he can finish the deal he is merely just another dude out there stealing shit from everyone.

I mean Don...if you dont wanna finish your deals....why do you keep on selling? You will get a ton more sales when your honest than by nickel and diming people. I am glad I was only the middle man and had to taste your trail of slime...at least I didn't have to pay for it. But the guys I was hustling these for have a slight more hardened vocabulary of words describing you.

Its a known fact when the rats are bailing off the ship, the ship is about to go down. Enjoy your blood money holmes...I sure wouldn't do low life scammers games since a man's reputation is all they really got right Don?

Come on holmes....your the one that said sandboxie...I said sandboxed. I am sure your a big enough boy to go do a bit of research and educate yourself on the two.

And for the record that was only my theory on how you were scamming everyone and ripping bots back just like people never had them. Either way it doesn't matter the acronym or how it sounds...the bottom line is you never finished your deal. I didn't even care about the ones you rip back automatically...I just wanted you to do the right thing and cover what you actually sold.

Had you of actually fulfilled the order regardless of being a theif and a scammer I would have had no beef...its only the fact you showed your hand as a scammer and a thief. At this point those guys gave up on you, I gave up on you, and your just letting everyone see what kind of a soul you got...or haven't.

With that...keep on keepin on buddy...Karma has a funny way of evening the scores. One minute your invincible and untouchable and then next your on skid row left with only the memories of all the people that you screwed and that will forever be hatin on you all the while this little convo we had will play like a forever resounding gong as you slide into your new home that you nicknamed the sandboxie. I am done...keep your scammed money.

I would like to clarify a few important points regarding the file you provided:

Responsibility for Clean Files:

It is your responsibility to ensure that any file you send is fully undetectable (FUD) and clean. As per standard terms, I am not obligated to scan files before use. I only scanned your file out of caution after you mentioned you were receiving very few bots, which raised some doubts.

File Modifications:

I have made at least 4-5 changes to your file. If the original file you provided was detected or flagged, I cannot be held responsible for any resulting issues. The responsibility lies with you to

provide a clean, undetected file from the beginning.

My file was tested & crypted on runtime w10/w11 no issues before giving it to you, just after receiving payment you said order started and must change file, what the hell is wrong with you? So you start a order knowing is wrong and knowing you can't stop it?

Plus: No stats were provided from your side, and on my side from 1k purchased I only see 23 executions, so where is the rest?

Anyways, if that is the way you do business go ahead keep doing it, I tried your services and not satisfied with it, if you want to try to change my opinion you are most welcome to fill the order as a costumer expect from you, otherwise just refund me.

Responsibility for Clean Files:

It is your responsibility to ensure that any file you send is fully undetectable (FUD) and clean. As per standard terms, I am not obligated to scan files before use. I only scanned your file out of caution after you mentioned you were receiving very few bots, which raised some doubts.

File Modifications:

I have made at least 4-5 changes to your file. If the original file you provided was detected or flagged, I cannot be held responsible for any resulting issues. The responsibility lies with you to

provide a clean, undetected file from the beginning.

again if you ask again i will post this.. remember.

It is your responsibility to ensure that any file you send is fully undetectable (FUD) and clean. As per standard terms, I am not obligated to scan files before use. I only scanned your file out of caution after you mentioned you were receiving very few bots, which raised some doubts.

But why did you give me a negative popularity man? What did I do to you?
I amn trying to be a customer and have done nothing to you
i didn't gave you any negative popularity its someone else called "DramaKing" look at your profile yourself.
