Robie - January 20, 2011, 6:33 pm

The first one looks really good, Im not a huge fan of the second one, just not a huge fan of the style.

Coolsoul - January 20, 2011, 6:56 pm

The first one looks smexy :P

The second one looks calm and relaxed. Both better than a "new" person would make :)

?adiation - January 20, 2011, 8:09 pm

i believe i like the first one better :D

Gambeezy - January 20, 2011, 8:15 pm

I like the first one!

The second one is a little too bright.

And you should really sharpen the faces a little less, it looks a bit LQ since it clashes.

Mario - January 20, 2011, 10:02 pm

Looks awesome :) I wish i was that good :)

pharmie - January 20, 2011, 10:26 pm

You're improving.

The render in the first picture looks like it's popping out, not that it's bad, it's just that you want the render to blend with the background.

erikmacklin - January 21, 2011, 1:51 am

nice, love them both. 10/10!

Soulcal - January 22, 2011, 6:30 am

The first one is better as more time has obviously been put in
The second one has a better colour blend ?

GuJJu - January 22, 2011, 6:31 am

now i know you man, you really make awesome signatures. Give me a surprise by PM'ing with a signature for me. ?

Rhythm - January 22, 2011, 10:36 am

Not bad, although the effects are a bit messy.

The first one has a lot of potential, just cool down with the effects a bit, and work on the depth, blending, and lighting.

KIU!
