Thread: [Does ne one know whos behind the attack on 0DAYMUSIC.ORG?](#)

ipollock - January 21, 2011, 3:59 pm

All the scene release groups music are posted their, they say its being hit with thousands to millions of bots.

Yes, I know.. I saw that he said "they". I told him to GTFO because it seems to me that he actually believed that the site was being hit with millions of bots.. so yeah.. gtfo plox?

duexx - January 21, 2011, 4:45 pm

Would not be bad with that many bots :D:D:

WTF I have over 2 billions bots.

^-^

yeah gtfo OP. millions of bots? are you shitting me?

LancerImpact - January 21, 2011, 6:51 pm

Lol you guys are dumb.

Millions of bots are possible.

It could be 1k people hitting the website with 1k bots each. = 1,000,000 bots hitting the site

Anastasia1331 - January 21, 2011, 10:21 pm

Why would a virtually unheard of site be ddosed with 1 million bots, when you could basically ddos wikipedia, fbi, and mpaa and riaa at the same time...

wacked3 - January 22, 2011, 12:28 am

Depending on the length of the attack, the real botcount und some other factors it is possible that over a million IPs were attacking this server.

Just think about the changing IP which leads to that YOU have to pick no-ip to get a botnet (And some even fail at this step).
